PRESENTATION OF FINANCIAL, INDUSTRY AND OTHER INFORMATION

Certain Conventions

All references to "India" are to the Republic of India and its territories and possessions and all references to the "Government" or the "State Government" are to the Government of India, central or state, as applicable.

Unless otherwise stated, references in this Draft Prospectus to a particular year are to the calendar year ended on December 31 and to a particular "fiscal" or "fiscal year" are to the fiscal year ended on March 31.

All references to "India" are to the Republic of India and its territories and possessions, and the "Government", the "Central Government" or the "State Government" are to the Government of India, central or state, as applicable.

Financial Data

Our Company publishes its financial statements in Rupees.

Our Company's financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular financial year or fiscal are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a year in this Draft Prospectus are to a calendar year and references to a Fiscal/Fiscal Year/ FY are to the year ended on March 31, of that calendar year

Our Company's financial statements for the year ended March 31, 2024, March 31, 2023 and March 31, 2022 are prepared by Previous Statutory Auditor, M/s. SGS & Co., in accordance with Ind AS, as applicable standards and guidance notes specified by the ICAI including the applicable provisions of the Companies Act, 2013. With effect from April 1, 2019, as per the roadmap issued by the MCA under the Companies (Indian Accounting Standards) Rules, 2015, for Non-Banking Finance Companies, for financial reporting purposes, the Company has followed the Accounting Standards issued by the ICAI specified under Section 133 of the Companies Act, 2013, read with Rule 3 and/or Rule 7 of the Companies (Indian Accounting Standard) Rules, 2015 ("Ind AS"), as applicable.

The Ministry of Corporate Affairs ("**MCA**"), in its press release dated January 18, 2016, issued a roadmap for implementation of Ind AS converged with IFRS for non-banking financial companies, scheduled commercial banks, insurers, and insurance companies, which was subsequently confirmed by the RBI through its circular dated February 11, 2016. The notification further explains that NBFCs whose equity and/or debt securities are listed or in the process of listing on any stock exchange in India or outside India and having a net worth of less than ₹50,000 lakh, shall comply with Ind AS for accounting periods beginning from April 1, 2019 onwards with comparatives for the periods ending on March 31, 2019 or thereafter. Accordingly, Ind AS is applicable to our Company with effect from April 1,2019.

The Audited Financial Statements and the related audit reports as issued by our Company's Previous Statutory Auditors, M/s. SGS & Company, Chartered Accountants, are included in this Draft Prospectus in the chapter titled "Financial Statements" beginning on page 188.

The Unaudited Financial Results of our Company for the the nine month period ended December 31, 2024 have been prepared by M/s. Cheeran Varghese and Co , in accordance with recognition and measurement principles laid down in the aforesaid Ind AS 34 "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013, as amended, read with relevant rules issued there-under and other accounting principles generally accepted in India and Regulation 52 of the SEBI Listing Regulations and are included in this Draft Prospectus in the chapter titled "Financial Statements" beginning on page 188.

Unless stated otherwise, the financial data used in this Draft Prospectus is derived from the Unaudited Financial Results and Audited Financial Statements.

In this Draft Prospectus, any discrepancies in any table, including "Capital Structure" and "Objects of the Issue" between the total and the sum of the amounts listed are due to rounding off. All the decimals have been rounded off to two decimal places.

Currency and units of Presentation

In this Draft Prospectus, all references to 'Rupees'/ 'Rs.'/ 'INR'/ '₹' are to Indian Rupees, the official currency of the Republic of India.

Except where stated otherwise in this Draft Prospectus, all figures have been expressed in 'lakhs'. All references to 'lakh/lakhs' means 'one hundred thousand' and 'crore' means 'ten million' and 'billion/bn/billions' means 'one hundred crores'.

Industry and Market Data

Unless stated otherwise, industry and market data used throughout this Draft Prospectus has been obtained from industry publications. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. All statements regarding our expected financial condition and results of operations and business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, revenue and profitability and other matters discussed in this Draft Prospectus that are not historical facts

All statements regarding expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to business strategy, revenue and profitability, new business and other matters discussed in this Draft Prospectus that are not historical facts. All forward-looking statements are subject to risks, uncertainties, and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results, including financial conditions and results of operations to differ from expectations include, but are not limited to, the following:

1. Any increase in the levels of non-performing assets ("NPA") in our loan portfolio, for any reason whatsoever, would adversely affect our business and results of operations;

2. Any volatility in interest rates which could cause our Gross Spreads to decline and consequently affect our profitability;

3. Unanticipated turbulence in interest rates or other rates or prices; the performance of the financial and capital markets in India and globally;

4. Our operations are concentrated in South India, and any adverse developments in the southern states of India may have an adverse effect on our business, results of operations, financial condition and cash flows;

5. Changes in Indian and/or foreign laws and regulations, including tax, accounting, banking, securities, insurance and other regulations; changes in competition and the pricing environment in India; and regional or general changes in asset valuations;

6. Any changes in connection with policies, statutory provisions, regulations and/or RBI directions in connection with NBFCs, including laws that impact our lending rates and our ability to enforce our collateral;

7. We have been subject to penalties as a result of non-compliance with the RBI's observations made during its periodic inspections.

8. Competition from our existing as well as new competitors;

9. Occurrence of natural calamities or natural disasters affecting the areas in which our Company has operations;

10. The rate of growth of our loan assets;

11. The outcome of any legal or regulatory proceedings we are or may become party to;

12. Availability of adequate debt and equity financing at commercially acceptable terms;

13. General, political, economic, social and business conditions in Indian and other global markets; and

14. Other factors discussed in this Draft Prospectus, including under the chapter titled "Risk Factors" beginning on page 20.

For further discussion of factors that could cause our actual results to differ from our expectations, please refer to the chapter titled "*Risk Factors*" and chapters titled "Industry Overview" and "*Our Business*" beginning on pages 20, 110 and 153, respectively.

The forward-looking statements contained in this Draft Prospectus are based on the beliefs of our management, as well as the assumptions made by and information currently available to our management. Although our Company believes that the expectations reflected in such forward-looking statements are reasonable at this time, it cannot assure investors that such expectations will prove to be correct or will hold good at all times. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialise, or if any of our Company's underlying assumptions prove to be incorrect, our actual results of operations or financial condition could differ materially from that described herein as anticipated, believed, estimated, or expected. All subsequent forward-looking statements attributable to us are expressly qualified in their entirety by reference to these cautionary statements.

By their nature, certain market risk disclosures are only estimate(s) and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company or the Lead Manager or any of its respective Directors and officers, or any of its respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI NCS Regulations, as amended, our Company and the Lead Manager will ensure that investors are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchanges.

SECTION II - RISK FACTORS

An investment in NCDs involves a certain degree of risk. You should carefully consider all the information contained in this Draft Prospectus, including the risks and uncertainties described below, and the information provided in the sections titled "Our Business" on page 153 and "Financial Statements" on page 188, before making an investment decision. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the NCDs. The following risk factors are determined on the basis of their materiality. In determining the materiality of risk factors, we have considered risks which may not be material individually but may be material when considered collectively, which may have a qualitative impact though not quantitative, which may not be material at present but may have a material impact in the future. Additional risks, which are currently unknown or now deemed immaterial, if materialise, may have a material adverse effect on our business, financial condition and results of operations in the future. The market prices of the NCDs could decline due to such risks and you may lose all or part of your investment including interest thereon.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. This Draft Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated `in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Draft Prospectus. Unless otherwise stated, the financial information used in this section is derived from and should be read in conjunction with the Audited Financial Statements and the Unaudited Financial Results.

Internal Risk Factors

1. We have been subject to an inspection by the RBI and any adverse action taken could affect our business and operations.

As an NBFC, we are subject to periodic inspection by the RBI under Section 45N of the Reserve Bank of India Act, 1934 (the "**RBI Act**"), pursuant to which the RBI inspects our books of accounts and other records for the purpose of verifying the correctness or completeness of any statement, information or particulars furnished to the RBI. Any irregularities found during such investigations by such regulatory authorities could, similarly, expose us to warnings, penalties, and restrictions.

During the course of finalization of inspection, regulatory authorities share their findings and recommendations with us and give us an opportunity to provide justification and clarifications. Further, such regulatory authorities also seek certain clarifications and share their findings in the ordinary course of business. We have responded to observations made by such authorities and addressed them; however, we cannot assure you that these authorities will not find any deficiencies in future inspections, or otherwise/ the authorities will not make similar or other observations in the future. An inspection of our Company by RBI was conducted based on the financials of the Company as on March 31, 2022 and RBI issued the inspection report ("**Inspection Report**"). Under the Inspection Report, the RBI has, inter -alia, made certain observations regarding the business and operations of our Company in relation to violation of the instructions contained in Para 1 of Chapter IV of Master Direction - Monitoring of frauds in NBFCS Directions, 2016 dated September 29, 2016, violation of the instructions contained in Para 4.4 of Master Direction Information Technology Framework for the NBFC Sector dated June 08. 2017, violation of instructions contained in Para 100 of the Master Direction Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 dated September 01,2016 and violation of Annexure IV of Master Direction Non-Banking Financial Company – Systemically lmportant Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 dated September 01, 2016. Our Company vide its letter dated November 9, 2022 responded to the Inspection Report and provided further compliance along with documentary evidence. Further, our Company has received letter from RBI dated December 27, 2022 seeking further clarifications on inspection comments. Accordingly, our Company has submitted its reply vide letter dated February 17, 2023.

Further to this, our Company received a communication from the RBI on March 17, 2023, requesting additional details on inspection findings. Following this, a show cause notice was issued by the RBI on April 13, 2023, under Sections 45JA, 45L, 45M, 58-B(5)(aa), and 58G of the Reserve Bank of India Act, 1934. In response, our Company replied to the show cause notice and the RBI's March 17, 2023 letter on April 28, 2023, and May 08, 2023, respectively. Subsequently, we received further letters from the RBI on May 30, 2023, July 12, 2023, August 11, 2023, October 09, 2023, November 16, 2023, January 15, 2024, and April 05, 2024 each time seeking additional clarifications on inspection findings. Our Company responded to each of these letters on July 10, 2023,

August 04, 2023, September 05, 2023, November 06, 2023, December 14, 2023, March 11, 2024 and May 20, 2024 respectively. Furthermore, RBI imposed penalty of ₹ 13.38 lakh vide order dated October 25, 2023, and Company has paid the penalty amount on November 13, 2023.

Recently, our Company received another letter from the RBI on June 27, 2024, seeking further clarifications on inspection comments. Our Company vide its letter dated August 07, 2024 responded to the Inspection Report and provided further compliance along with documentary evidence. Further, our Company has received letter from RBI dated September 26, 2024 seeking further clarifications on inspection comments. Accordingly, our Company has submitted its reply vide letter dated October 22, 2024. Further, our Company has received letter from RBI dated November 21, 2024 seeking further clarifications on inspection comments. Accordingly, our Company has submitted its reply vide letter dated December 6, 2024. Further, our Company has received letter from RBI dated January 15, 2025 seeking further clarifications on inspection comments. our Company has submitted its reply vide letter dated February 13, 2025.

While our Company strives to address all the concerns raised by RBI in relation to its inspection and observations made thereunder, any adverse action taken by RBI with regard to such inspections could adversely affect our business and operations. There can be no assurance that in the future the RBI will not pass any orders levying penalty, on our Company, on the basis of its periodical inspection of our Company, which may in turn adversely affect our reputation, business, operations, and profitability. In the event we are unable to resolve such deficiencies or irregularity or noncompliance to the satisfaction of the relevant authority, we may be restricted in our ability to conduct our business as we currently do and may have an impact on our financial including our capital adequacy ratio.

2. ***We have also received a letter dated February 04, 2025 from the RBI, pursuant to an inspection under Section 12(1) of the FEMA, relating to our money changing business ("RBI Inspection Letter"). Any adverse order by RBI could adversely affect our ability to conduct business, which would in turn result in material adverse effect on our business and results of operations***.

Our Company has received the RBI Inspection Letter wherein the RBI has observed certain irregularities and deficiencies in relation to our money changing business, such as non availability of signature of the customer on Cash Memo for all retail sale transaction; signature of the authorised officials affixed in the cash memo did not match with the signatory list provided by the FFMC; unavailability of statutory auditor's certificate on stastifactory working of Concurrent Audit & Internal Control System; Non- compliance with KYC Direction, 2016.

Our Company has been directed by the RBI to take necessary action and rectification, and to submit a compliance report within a period of 15 days from the date of receipt of the RBI Inspection Letter dated February 04, 2025.

Our Company has responded to the RBI vide a letter dated February 14, 2025, wherein our Company has categorically addressed the concerns raised by the RBI.

3. We are subject to inspections by CDSL in our capacity as a depository participant and any adverse action taken by CDSL could affect our business and operations.

Our Company has received inspection report dated June 25, 2021 ("***Inspection Report***"), pursuant to the inspection conducted by CDSL for the period July 1, 2019 to April 30, 2021. CDSL vide its Inspection Report observed certain discrepancies with respect to KYC records, annexure not obtained for payment details of market transfers, supporting documents and affidavit not obtained for account transmission in case of holder name mismatch, investor grievance email ID not designated on website and action not taken for hold and under process cases of CKYC registration. In this regard, our Company vide its letter dated August 14, 2021 submitted a compliance report dated August 11, 2021 to CDSL

Further, our Company has received an inspection report dated June 14, 2022 ("***Inspection Report***"), pursuant to the inspection conducted by CDSL for the period May 1, 2021 to April 30, 2022. CDSL vide its Inspection Report observed certain discrepancies with respect to DP does not have an official who has undergone CDSL 4 days training programme and DP has not implemented provision for generating surveillance alerts in their back office. Our Company has submitted its response to the Inspection Report vide its letter dated July 11, 2022.

Further, our Company has received an inspection report dated May 30, 2023 ("***Inspection Report***"), pursuant to the inspection conducted by CDSL for the period May 1, 2022 to April 30, 2023. Our Company has submitted its

response to the Inspection Report vide its letter dated June 20, 2023. While our Company strives to address all the concerns raised by CDSL, there can be no guarantee that CDSL shall be satisfied with our Company's responses and that the CDSL shall not take any adverse action pursuant to such inspections. Any such actions by CDSL could adversely affect our business and operations.

Further, our Company has received an inspection report dated August 7, 2024 ("***Inspection Report***"), pursuant to the inspection conducted by CDSL for the period May 1, 2023 to June 30, 2024. Our Company has submitted its response to the Inspection Report. While our Company strives to address all the concerns raised by CDSL, there can be no guarantee that CDSL shall be satisfied with our Company's responses and that the CDSL shall not take any adverse action pursuant to such inspections. Any such actions by CDSL could adversely affect our business and operations.

4. We are subject to restrictive covenants in certain short-term and long-term debt facilities provided to us by our lenders.

We have entered into agreements for availing financial facilities from various lenders. Certain covenants in these agreements require us to obtain approval / permission from our lenders in certain conditions. These conditions include, amongst others, implementation of any scheme of expansion / diversification / renovation / capital expenditure, formulation of any scheme of amalgamation or reconstruction, undertaking of guarantee obligation, any change in our capital structure. In the event of default or the breach of certain covenants, our lenders have the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business.

For further details in this regard, including approvals obtained from our lenders for this Issue, please refer chapter "Financial Indebtedness" on page 190.

5. Our ability to access capital also depends on our credit ratings. Any downgrade in our credit ratings would increase borrowing costs and constrain our access to capital and lending markets and, thus, would negatively affect our net interest margin and our business.

The NCDs proposed to be issued under this Issue have been rated "IND A-/Stable", by India Ratings & Research Private Limited ("**IRRPL**") for an amount up to ₹ 20,000 lakhs vide its letter dated December 26, 2024, and rating rationale/press release dated December 26, 2024. Ratings reflect a rating agency's opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. Any, downgrade of our credit ratings would increase borrowing costs and constrain our access to debt and bank lending markets and, thus, would adversely affect our business. In addition, downgrading of our credit ratings could increase the possibility of additional terms and conditions being added to any new or replacement financing arrangements. For details regarding ratings received by our Company, please refer to "Our Business - Our Borrowings and Credit Ratings" on page 169.

6. Our Company, two of our Promoter Directors and one of our Group Companies are subject to certain legal proceedings and any adverse decision in such proceedings may have a material adverse effect on our business, financial condition and results of operations.

Our Company, two of our Promoter Directors and one of our Group Companies are subject to certain legal proceedings including civil suits, consumer litigations, tax litigations, trademark infringement suits etc. We incur substantial cost in defending these proceedings before a court of law. Moreover, we are unable to assure you that our Company, our Promoter Directors, or our Group Company shall be successful in any or all of these actions. In the event we or our Promoter Directors suffer any adverse order, it may have an adverse impact on our reputation, business and results of operations. We cannot assure you that an adverse order by any statutory or governmental authority will not have a negative impact on our profit and financial condition.

A summary of the outstanding proceedings involving our Company, Directors, Promoter and Group Companies in accordance with requirements under the SEBI NCS Regulations, as disclosed in this Draft Prospectus, to the extent quantifiable, have been set out below:

7. Most of the supporting documents in connection with the biographies of the directors included in the section "Our Management" of this Draft Prospectus are unavailable.

Certain documents supporting the information included in this Draft Prospectus with respect to previous work experience of the directors, disclosed in the sections titled "*Our Management*" on page 174 may not be available. Accordingly, reliance has been placed on declarations and undertakings furnished by such director to us and the Lead Manager to disclose details of their previous work experience in this Draft Prospectus. We and the Lead Manager have been unable to independently verify these details prior to inclusion in this Draft Prospectus. Further, there can be no assurances that our Director will be able to trace the relevant documents pertaining to their previous work experience in future, or at all.

8. Our Company was unable to trace certain secretarial records, including records pertaining to the allotment of Equity Shares acquired by our past shareholders prior to August 2004.

We have been unable to locate the copies of certain of our secretarial records, i.e. prescribed forms filed by us with the Registrar of Companies, including, among others, in respect of the allotment of Equity Shares from incorporation until August 2004. While we believe that these forms were duly filed on a timely basis, we have not been able to obtain copies of these documents, including from the Registrar of Companies. With respect to Annamma C Varghese, Chief Financial Officer of our Company do not have work experience certificate for her previous tenure at Thaqdees Hospitals Limited. We cannot assure you that we will not be subject to any adverse action by a competent regulatory authority in this regard.

9. A major part of our branch network is concentrated in southern India and we derive majority of our revenue from southern India. Any breakdown of services in these areas could have a material and adverse effect on our results of operations and financial conditions.

We derive majority of our revenue from our 956 branches situated in southern India out of 975 of our total branches as on December 31, 2024. As a result, we are exposed to risks including any change in policies relating to these states, any localised social unrest, any natural disaster and any event or development which could make business in such states less economically beneficial. Any such risk, if materialises, could have a material adverse

effect on the business, financial position and results of operations of our Company. For further details of our branch network within India, please refer to the chapter titled "*Our Business*" on page 153.

10. Our business is capital intensive and any disruption or restrictions in raising financial resources could have a material adverse effect on our liquidity and financial condition.

Our liquidity and ongoing profitability is largely dependent upon our timely access to and the costs associated in raising resources. Our funding requirements historically have been met from a combination of borrowings such as working capital limits from banks and issuance of secured and unsecured redeemable non-convertible debentures on private placement basis and public issues of secured and unsecured redeemable non-convertible debentures. Thus, our business depends and will continue to depend on our ability to access diversified low-cost funding sources.

Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors including our credit ratings, the regulatory environment and policy initiatives in India, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition.

The crisis in the global credit market that began in mid-2007 destabilised the then prevailing lending model by banks and financial institutions. The capital and lending markets were highly volatile and access to liquidity had been significantly reduced. In addition, it became more difficult to renew loans and facilities as many potential lenders and counterparties also faced liquidity and capital concerns as a result of the stress in the financial markets. If any event of similar nature and magnitude occurs again in the future, it may result in increased borrowing costs and difficulty in accessing debt in a cost-effective manner. Moreover, we are a NBFC-ND-SI, and do not have access to public deposits.

The RBI has issued guidelines vide notification no. DBOD.BP.BC.No. 106/21.04.172/2011-12 on May 18, 2012 whereby it has instructed banks to (i) reduce their regulatory exposure on a single NBFC having gold loans to the extent of 50.00% or more of its financial assets from 10.00% to 7.50% of their capital funds; and (ii) have an internal sub-limit as decided by the boards of the respective banks on their aggregate exposure to all such NBFCs having gold loans to the extent of 50% or more of their financial assets, taken together, which sub-limit should be within the internal limits fixed by banks for their aggregate exposure to all NBFCs taken together.

The RBI vide its circular RBI/2014-15/475 DNBS (PD) CC No.021/03.10.001/2014-15 dated February 20, 2015 issued certain guidelines with respect to raising money through private placement by NBFCs in the form of non-convertible debentures. These guidelines include restrictions on the minimum subscription amount for a single investor at ₹20,000, the issuance of private placement of NCDs shall be in two separate categories, those with a maximum subscription of less than ₹1 crore and those with a minimum subscription of ₹1 crore and above, the restriction of number of investors in an issue to 200 investors for a maximum subscription of less than ₹1 crore which shall be fully secured, there is no limit on the number of subscribers in respect of issuances with a minimum subscription of ₹1 crore and above while the option to create security in favour of subscribers will be with the issuers and such unsecured debentures shall not be treated as public deposits, restriction on NBFCs for issuing debentures only for deployment of funds on its own balance sheet and not to facilitate resource requests of group entities/parent company/associates, prohibition on providing loan against its own debentures, etc. This has resulted in limiting our Company's ability to raise fresh debentures on private placement basis

A significant portion of our debt matures each year. Out of the total amount of our outstanding NCDs, ₹ 2,78,799.75 lakhs, issued by our Company as of December 31, 2024, NCDs amounting to ₹82,583.98 lakhs will mature on or before within next 12 months. In order to retire these instruments, we either will need to refinance this debt, which could be difficult in the event of volatility in the credit markets or raise equity capital or generate sufficient cash to retire the debt.

Changes in economic and financial conditions or continuing lack of liquidity in the market could make it difficult for us to access funds at competitive rates. As a NBFC, we also face certain restrictions on our ability to raise money from international markets, which may further constrain our ability to raise funds at attractive rates. Any disruption in our primary funding sources at competitive costs would have a material adverse effect on our liquidity and financial condition.

11. Our financial performance is primarily dependent on interest rate risk. If we are unable to manage interest rate risk in the future it could have an adverse effect on our net interest margin, thereby adversely affecting business and financial condition of our company.

Our results of operations are substantially dependent upon the level of our Net Interest Margins. Interest income is the largest component of our total income, and constituted 99.38%, 99.42%, 99.49% and 99.44% for the nine month period ended December 31, 2024 and the Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, respectively. Interest rates are sensitive to many factors beyond our control, including the RBI's monetary policies, domestic and international economic and political conditions, and other factors

Over the last several years, the Government of India has substantially deregulated the financial sector. As a result, interest rates are now primarily determined by the market, which has increased the interest rate risk exposure of all banks and financial intermediaries in India, including us.

Our policy is to attempt to balance the proportion of our interest earning assets, which bear fixed interest rates, with interest bearing liabilities. A significant portion of our liabilities, such as our NCDs carry fixed rates of interest. Moreover, we do not hedge our exposure to interest rate changes. We cannot assure you that we can adequately manage our interest rate risk in the future or can effectively balance the proportion of our fixed rate loan assets and liabilities. Further, changes in interest rates could affect the interest rates charged on interest earning assets and the interest rates paid on interest bearing liabilities in different ways. Thus, our results of operations could be affected by changes in interest rates and the timing of any re-pricing of our liabilities compared with the re-pricing of our assets.

In a rising interest rate environment, if the yield on our interest earning assets does not increase at the same time or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline at the same time or to the same extent as the yield on our interest earning assets, our net interest income and net interest margin would be adversely affected.

12. We have had negative net cash flows from our operating, investing and financing activities in the recent fiscal years. Any negative cash flows in the future may adversely affect our results of operations and financial condition.

We have had negative net cash flows from our operating, investing and financing activities in the the nine month period ended December 31, 2024 and the last three fiscal years ended March 31, 2024, March 31, 2023 and March 31, 2022, the details of which are summarised below:

(in ₹ lakhs)

Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022	Nine months period ended December 31, 2024
Net cash generated from/ (used in) operating activities	(34,053.04)	(73,285.07)	(37,899.93)	9,020.25
Net cash generated from/ (used in) investing activities	(6,226.21)	(6,079.51)	(8,900.58)	1,537.08
Net cash generated from/ (used in) financing activities	39,245.17	75,834.91	37,743.62	23,143.67

Any negative cash flows in the future may adversely affect our results of operations and financial condition. For further details, please see the sections titled "Financial Statements" on page 188.

13. We face increasing competition in our business which may result in declining interest margins. If we are unable to compete successfully, our market share may also decline.

Our principal business is providing Gold Loan to customers in India secured by gold jewellery. Historically, the Gold Loan industry in India has been largely unorganised and dominated by local jewellery pawn shops and money lenders, with little involvement from public sector or private sector banks. Gold Loan financing was availed predominantly by lower income group customers with limited or no access to other forms of credit, however, such income group has gained increased access to capital through organised and unorganised money lenders, which has increased our exposure to competition. The demand for Gold Loans has also increased due to relatively lower and affordable interest rates, increased need for urgent borrowing or bridge financing

requirements, the need for liquidity for assets held in gold and increased awareness and acceptance of Gold Loan financing.

All of these factors have resulted in increased competition from other lenders in the Gold Loan industry, including commercial banks and other NBFCs, who also have access to funding from customers' savings and current deposits. We are reliant on higher cost loans and debentures for our funding requirements, which may reduce our margins compared to competitors. Our ability to compete effectively will depend, to some extent, on our ability to raise low cost funding in the future. If we are unable to compete effectively with other participants in the Gold Loan industry, our business, financial condition and results of operations may be adversely affected. Furthermore, as a result of increased competition in the Gold Loan industry, Gold Loans are becoming increasingly standardised. Variable interest rates, variable payment terms and waiver of processing fees are also becoming increasingly common.

In our microfinance business, we face competition from other NBFCs, microfinance companies as well as both commercial and small finance banks. In addition, the RBI has set out guidelines applicable to microfinance institutions which restrict the number of microfinance institutions that can extend loans to the same borrower and also limit the maximum amount of loan that can be extended. The presence of microfinance institutions in India is not uniform and certain regions have a concentration of a large number of microfinance institutions while there are regions which have very few and even no microfinance institution presence. In any particular region, the level of competition depends on the number of microfinance institutions that operate in such area. In addition, our target customers also borrow from money lenders and non-institutional lenders which may lend at higher rates of interest.

Our ability to compete effectively will depend, to an extent, on our ability to raise low-cost funding in the future as well as our ability to maintain or decrease our operating expenses by increasing operational efficiencies and managing credit costs. As a result of increased competition in the various sectors we operate in, products in our industry have become increasingly standardised and variable interest rate and payment terms and lower processing fees are becoming increasingly common across our products. There can be no assurance that we will be able to effectively address these or other finance industry trends or compete effectively with new and existing commercial banks, NBFCs, payment banks, other small finance banks and other financial intermediaries that operate across our various financing products.

In addition, the government has issued schemes such as Pradhan Mantri Jan-Dhan Yojana to ensure access to financial services in an affordable manner. Further, public sector banks as well as existing private sector banks, have an extensive customer and depositor base, larger branch networks, and in case of public sector banks, Government support for capital augmentation, due to which they may enjoy corresponding economies of scale and greater access to low-cost capital, and accordingly, we may not be able to compete with them. An inability to effectively address such competition may adversely affect our market share, business prospects, results of operations and financial condition.

14. Volatility in the market price of gold may adversely affect our financial condition, cash flows and results of operations.

We extend loans secured mostly by household gold jewellery. A sustained decrease in the market price of gold could cause a corresponding decrease in new Gold Loans in our loan portfolio and, as a result, our interest income. In addition, customers may not repay their loans and the gold jewellery securing the loans may have decreased significantly in value, resulting in losses which we may not be able to support. The impact on our financial position and results of operations of a hypothetical decrease in gold values cannot be reasonably estimated because the market and competitive response to changes in gold values is not pre-determinable.

15. We may not be able to realise the full value of our pledged gold, which exposes us to potential loss.

We may not be able to realise the full value of our pledged gold, due to, among other things, defects in the quality of gold or wastage that may occur when melting gold jewellery into gold bars. We have in place an extensive internal policy on determining the quality of gold prior to disbursement of the Gold Loan. However, we cannot assure you that the methods followed by us are fool proof and the impurity levels in the gold can be accurately assessed.

In the case of a default, we may auction the pledged gold in accordance with our auction policy. We cannot assure you that we will be able to auction such pledged gold jewellery at prices sufficient to cover the amounts under default. Moreover, there may be delays associated with the auction process or other processes undertaken by us

to recover the amount due to us. Any such failure to recover the expected value of pledged gold could expose us to a potential loss and which could adversely affect our financial condition and results of operations.

16. We may not be able to successfully sustain our growth strategy. Inability to effectively manage our growth and related issues could materially and adversely affect our business and impact our future financial performance.

Our income from operations increased from ₹ 62,464.65 lakhs in the Financial Year ended March 31, 2022 to ₹ 85,783.84 lakhs in the Financial Year ended March 31, 2024 and to ₹65,870.60 lakhs in the nine month period ended December 31, 2024, thereby achieving compounded annual growth rate ("CAGR") of 17.19% from March 31, 2022 to March 31, 2024. In this same period, the loan book increased from ₹ 4,04,341.25 lakhs for the Financial Year ended March 31, 2022 to ₹ 5,38,260.10 lakhs for the Financial Year ended March 31, 2024 at a CAGR of 15.38% and to ₹5,41,015.92 lakhs for the nine-month period ended December 31, 2024.

Our growth strategy includes growing our loan book, expanding network of branches and expanding the range of products and services. We cannot assure you that we will be able to execute our growth strategy successfully or continue to achieve or grow at the levels of revenue earned in recent years, or that we will be able to expand further our loan book. Furthermore, there may not be sufficient demand for our services or they may not generate sufficient revenues relative to the costs associated with offering such services. Even if we were able to introduce new services successfully, there can be no assurance that we will be able to achieve our intended return on such investments.

Further, principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. It also includes undertaking permission from various authorities, including RBI and various regulatory compliances. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure.

17. If we are not able to control the level of non-performing assets in our portfolio, the overall quality of our loan portfolio may deteriorate and our results of operations may be adversely affected.

We may not be successful in our efforts to improve collections and/or enforce the security interest on the gold collateral on existing as well as future non-performing assets. Moreover, as our loan portfolio increases, we may experience greater defaults in principal and/or interest repayments. Thus, if we are not able to control our level of non-performing assets, the overall quality of our loan portfolio may deteriorate and our results of operations may be adversely affected.

Our gross NPAs for the nine months period ended December 31, 2024, and the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022 were ₹ 9,356.66 lakhs, ₹ 7,761.03 lakhs, ₹ 7,754.86 lakhs and ₹ 5,742.29 lakhs, respectively.

The RBI Master Directions prescribe the provisioning required in respect of our outstanding loan portfolio. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our non-performing assets. Furthermore, although we believe that our total provision will be adequate to cover all known losses in our asset portfolio, our current provisions may not be adequate when compared to the loan portfolios of other financial institutions. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of gross non-performing assets or otherwise, or that the percentage of non-performing assets that we will be able to recover will be similar to our past experience of recoveries of non-performing assets. In the event of any further increase in our non-performing asset portfolio, there could be an even greater, adverse impact on our results of operations.

18. Our ability to lend against the collateral of gold jewellery has been restricted on account of guidelines issued by RBI, which may have a negative impact on our business and results of operation.

RBI vide the Master Directions has stipulated all NBFCs to maintain a loan to value (LTV) ratio not exceeding 75% for loans granted against the collateral of gold jewellery and further prohibits lending against bullion/primary gold and gold coins. This notification will limit our ability to provide loan on the collateral of gold jewellery and thereby putting us at a disadvantage vis-à-vis unregulated money lenders offering similar products. Further, RBI

in the Master Directions, has mandated NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50% or more of their financial assets) to maintain a minimum Tier 1 capital of 12%. Such restrictions imposed by RBI may erode our margins, impact our growth and business prospects.

RBI in the Master Directions further tightened the norms for lending against the security of gold ornaments by pegging the maximum lendable value (LTV) to 30 day moving average closing price of 22 carat gold quoted by India Bullion and Jewellers Association Limited (formerly known as Bombay Bullion Association Limited). Any such future restrictions by RBI could have a negative impact on our business and results of operation.

19. We are subject to certain restrictive covenants in our loan documents, which may restrict our operations and ability to grow and may adversely affect our business.

There are restrictive covenants in the agreements we have entered into with our lender. These restrictive covenants require us to seek the prior permission of these banks/financial institutions for various activities, including, amongst others, to declare dividend, for any change in the management/constitution, takeovers/mergers etc. or any expansion, new project/investment/acquiring assets under lease/enter into borrowing arrangements, to undertake any new project, or diversification, modernisation, amend or modify its Memorandum and Articles of Association/Bye Laws/Trust Deeds etc. For details of these restrictive covenants, see the chapter titled "Financial Indebtedness" beginning on page 190.

20. We are subjected to supervision and regulation by the RBI as a NBFCs- Middle Layer, and changes in RBI's regulations governing us could adversely affect our business.

We are subject to the RBI's guidelines on financial regulation of NBFCs, including capital adequacy, exposure and other prudential norms. The RBI also regulates the credit flow by banks to NBFCs and provides guidelines to commercial banks with respect to their investment and credit exposure norms for lending to NBFCs. The RBI's regulations of NBFCs could change in the future which may require us to restructure our activities, incur additional cost or could otherwise adversely affect our business and our financial performance. Through the Master Directions, RBI has amended the regulatory framework governing NBFCs to address concerns pertaining to risks, regulatory gaps and arbitrage arising from differential regulations and aims to harmonise and simplify regulations to facilitate a smoother compliance culture among NBFCs.

As a NBFCs – Middle Layer, our Company is required to maintain a capital adequacy ratio of at least 15.00% of our aggregate risk-weighted assets of our balance sheet (on-balance sheet and of risk adjusted value of off -balance sheet items) on an ongoing basis. Our Company's capital adequacy ratio was 19.29 % as of December 31, 2024. If we continue to grow our Total Credit Exposure and asset base, we will be required to raise additional capital in order to continue to meet applicable capital adequacy ratios with respect to our business. There can be no assurance that we will be able to raise adequate additional capital in the future on terms favourable to us or at all, which could result in non-compliance with applicable capital adequacy ratios and may adversely affect the growth of our business. Further, our Tier I capital comprising of 17.66% as of December 31, 2024. If we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios and Tier I capital requirements with respect to our business of Gold Loans. There can be no assurance that we will be able to maintain adequate capital adequacy ratio or Tier I capital by raising additional capital in the future on terms favourable to us, or at all. Failure to maintain adequate capital adequacy ratio or Tier I capital may adversely affect the growth of our business.

Moreover, under the Master Directions – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, the threshold for defining the NBFCs based on their size, activity and perceived riskiness. NBFCs-Middle Layer will be those NBFCs which are above asset size of ₹ 100,000 lakhs as per the last audited balance sheet. We cannot assure you that the Master Directions and its applicability to us will not have a material and adverse effect on our future financial conditions and results of operations.

Even though the RBI, has not provided for any restriction on interest rates that can be charged by non-deposit taking NBFCs, there can be no assurance that the RBI and/or the Government will not implement regulations or policies, including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that could have an adverse effect on non-deposit taking NBFCs. In addition, there can be no assurance that any changes in the laws and regulations relative to the Indian financial services industry will not adversely impact our business.

21. We may be subject to regulations in respect of provisioning for non-performing assets. If such provisions are not sufficient to provide adequate cover for loan losses that may occur, this could have an adverse effect on our financial condition, liquidity and results of operations.

RBI guidelines prescribe the provisioning required in respect of our outstanding loan portfolio. These provisioning requirements may require us to reserve lower amounts than the provisioning requirements applicable to financial institutions and banks in other countries. The provisioning requirements may also require the exercise of subjective judgments of management. The RBI vide the Master Directions provides for the regulatory framework governing NBFCs pertaining to provision for standard assets.

There are multiple factors that affect the level of NPAs in our Company. Prominent among them are fall in value of gold, increase in the LTV ratio for gold loan etc.

The level of our provisions may not be adequate to cover further increases in the amount of our nonperforming assets or a decrease in the value of the underlying gold collateral. If such provisions are not sufficient to provide adequate cover for loan losses that may occur, or if we are required to increase our provisions, this could have an adverse effect on our financial condition, liquidity and results of operations and may require us to raise additional capital.

22. Microfinance loans are unsecured and are susceptible to certain operational and credit risks which may result in increased levels of NPAs.

Our microfinance customers typically belong to the economically weaker sections and are diverse in nature, which include customers involved in income generating business activities, with limited sources of income, savings and credit records, and are therefore unable to provide us with any collateral or security for their loans. Such customers are at times unable to or may not provide us with accurate information about themselves which is required by us in connection with loans. Further, in case of emergencies like death of the borrower or the borrower's nominee, our microfinance borrowers are given a holiday period from payment of instalment on the outstanding borrowings which is later settled against payment received from the insurance companies.

In our microfinance business, we rely on non-traditional guarantee mechanisms rather than any tangible assets as security collateral. Our microfinance business involves a joint liability mechanism whereby borrowers form a joint liability group and provide guarantees for loans obtained by each member of such group. There can however be no assurance that such joint liability arrangements will ensure repayment by the other members of the joint liability group in the event of default by any one of them. Such joint liability arrangements are likely to fail if there is no meaningful personal relationship or bond among members of such group, if inadequate risk management procedures have been employed to verify the group members and their ability to repay such loans, or as a result of adverse external factors such as natural calamities and forced migration.

As a result, our micro finance customers potentially present a higher risk of loss in case of a credit default compared to that of customers in other asset-backed financing products. In addition, repayment of microfinance loans are susceptible to various political and social risks, including any adverse publicity relating to the microfinance sector accessing capital markets, public criticism of the microfinance sector, the introduction of a stringent regulatory regime, and/or religious beliefs relating to loans and interest payments, which adversely affect repayment by our customers and may have a material and adverse effect on our business prospects and future financial performance.

There can be no assurance that we will be able to maintain our current levels of NPAs. In addition, it is difficult to accurately predict credit losses, and there can be no assurance that our monitoring and risk management procedures will succeed in effectively predicting such losses or that our loan loss reserves will be sufficient to cover any such actual losses. As a result of the uncertain financial and social circumstances of our microfinance customers and the higher risks associated with lending to such customers, we may experience increased levels of NPAs and we may be required to make related provisions and write-offs that could have a material and adverse effect on our business prospects and financial performance.

23. Our microfinance business involves transactions with relatively high-risk borrowers that typically do not have access to formal banking channels, and high levels of customer defaults could adversely affect our business, results of operations and financial condition.

Our microfinance business involves lending money to smaller, relatively low-income entrepreneurs and individuals who have limited access or no access to formal banking channels, and therefore may not have any credit history and as a result we are more vulnerable to customer default risks including default or delay in repayment of principal or interest on our loans.

Some of our customers, especially the first-time borrowers, may not have any documented credit history, may have limited formal education, and are able to furnish very limited information for us to be able to assess their creditworthiness accurately. Consequently, we may not have past data on the customer's borrowing behaviour. In addition, we may not receive updated information regarding any change in the financial condition of our customers or may receive inaccurate or incomplete information as a result of any fraudulent misrepresentation on the part of our customers. It is therefore difficult to carry out credit risk analysis on our clients. Although we believe that our risk management controls are stringently applied and are sufficient, there can be no assurance that they will continue to be sufficient or that additional risk management strategies for our customers will not be required.

Further, our customers may default on their obligations as a result of various factors including bankruptcy, lack of liquidity and / or failure of the business or commercial venture in relation to which such borrowings were sanctioned. Although our microfinance business operates through a system of joint liability, we may still be exposed to defaults in payment, which we may not be able to recover in full. If our borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted.

24. Our ability to borrow from various banks may be restricted on account of guidelines issued by the RBI, imposing restrictions on banks in relation to their exposure to NBFCs. Any limitation on our ability to borrow from such banks may increase our cost of borrowing, which could adversely impact our growth, business and financial condition.

Under RBI Master Circular DBR.BP.BC.No.5/21.04.172/2015-16 on bank finance to NBFCs issued on July 1, 2015, the exposure (both lending and investment, including off balance sheet exposures) of a bank to a single NBFC engaged in lending against collateral of gold jewellery (i.e. such loans comprising 50% or more of its financial assets) should not exceed 7.5%, of its capital funds. Banks may, however, assume exposures on a single NBFC up to 12.5%, of their capital funds, provided the exposure in excess of 7.5% is on account of funds on-lent by the NBFC to the infrastructure sector. Further, banks may also consider fixing internal limits for their aggregate exposure to all NBFCs put together and should include internal sub-limit to all NBFCs providing Gold Loans (i.e. such loans comprising 50% or more of their financial assets), including us. This limits the exposure that banks may have on NBFCs such as us, which may restrict our ability to borrow from such banks and may increase our cost of borrowing, which could adversely impact our growth, business and financial condition.

25. Our Gold Loans are due within 12 months of disbursement, and a failure to disburse new loans may result in a reduction of our loan portfolio and a corresponding decrease in our interest income.

The Gold Loans we offer are due within a period of upto 12 months of disbursement. The relatively short-term nature of our loans means that we are not assured of long-term interest income streams compared to businesses that offer loans with longer terms. In addition, our existing customers may not obtain new loans from us upon maturity of their existing loans, particularly if competition increases. The short-term nature of our loan products and the potential instability of our interest income could materially and adversely affect our results of operations and financial position.

26. Inaccurate appraisal of gold by our personnel may adversely affect our gold loan business and financial condition.

The accurate appraisal of pledged gold is a significant factor in the successful operation of our business and such appraisal requires a skilled and reliable workforce. Inaccurate appraisal of gold by our workforce may result in gold being overvalued and pledged for a loan that is higher in value than the gold's actual value, which could adversely affect our reputation and business. Further, we are subject to the risk that our gold appraisers may engage in fraud regarding their estimation of the value of pledged gold. Any such inaccuracies or fraud in relation to our appraisal of gold may adversely affect our reputation, business and financial condition.

27. We are subject to regulations in relation to minimum capital adequacy requirements and our inability to maintain our capital adequacy ratio could adversely affect our business.

The RBI Master Directions currently require NBFCs to comply with a capital to risk (weighted) assets ratio ("**CRAR**"), consisting of Tier I and Tier II capital. Under these requirements, Tier I and Tier II capital should not be less than 15% of the sum of the NBFC's risk-weighted assets on-balance sheet and of risk adjusted value of off-balance sheet items, as applicable. In addition, our Tier I capital, at any point in time, shall not be less than 10%. For details, see "Key Regulations and Policies" on page 427.

As of December 31, 2024, our CRAR was 19.29% with Tier I capital comprising 17.66% and Tier II capital comprising of 1.63%. As we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II capital in order to remain in compliance with the applicable CRARs. Further, the RBI may increase its minimum CRAR threshold, which may require us to raise additional capital. We cannot assure you that we will be able to raise adequate capital in the future on terms favourable to us, or at all, which may adversely affect the growth of our business. Further, the RBI may also in the future require compliance with other prudential norms and standards, which may require us to alter our business and accounting practices or take other actions that could adversely affect our business and operating results.

28. Our branches are vulnerable to theft and burglary. While we are insured against the risk of burglary arising from our business, such insurance may not be sufficient to fully cover the losses we suffer and this may result in adverse effect on our financial condition and results of operations.

Storage of pledged gold jewellery as part of our business entails the risk of theft/burglary and resulting loss to our reputation and business. The short tenure of the loans advanced by us and our practice of processing loan repayments within short timelines require us to store pledged gold on our premises at all points in time. With regard to cases of theft/burglaries, we may not be able to recover the entire amount of the loss suffered and may receive only a partial payment of the insurance claim. While we are insured against the risk of burglary arising from our business, such insurance may not be sufficient to fully cover the losses we suffer. Further, the actual recovery of the insured amount from the insurer requires the undertaking of certain procedures, and any delay in recovery could adversely affect our reputation and results of operation.

29. The insurance coverage taken by us may not be adequate to protect against certain business risks. This may adversely affect our financial condition and result of operations.

Operating and managing a Gold Loan business involves many risks that may adversely affect our operations and the availability of insurance is therefore important to our operations. We believe that our insurance coverage is adequate to cover us. However, to the extent that any uninsured risks materialise or if it fails to effectively cover any risks, we could be exposed to substantial costs and losses that would adversely affect our financial condition. In addition, we cannot be certain that the coverage will be available in sufficient amounts to cover one or more large claims or that our insurers will not disclaim coverage as to any particular claim or claims. Occurrence of any such situation could adversely affect our financial condition and results of operations.

30. Our entire customer base comprises individual borrowers, who generally are more likely to be affected by declining economic conditions than larger corporate borrowers.

A majority of our customer base belongs to the low to medium income group. Furthermore, unlike many developed economies, a nationwide credit bureau has only recently become operational in India, so there is less financial information available about individuals, particularly our focus customer segment of the low to medium income group. It is therefore difficult to carry out precise credit risk analyses on our customers. While we follow certain procedures to evaluate the credit profile of our customers before we sanction a loan, we generally rely on the quality of the pledged gold rather than on a stringent analysis of the credit profile of our customers. Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to maintain sufficient credit assessment policies, particularly for individual borrowers, could adversely affect our loan portfolio, which could in turn have an adverse effect on our financial condition, cash flows and results of operations.

31. We strive to attract, retain and motivate key employees, and our failure to do so could adversely affect our business. Failure to hire key executives or employees could have a significant impact on our operations.

While we strive to attract, train, motivate and retain highly skilled employees, especially branch managers and gold assessment technical personnel, any inability on our part to hire additional personnel or retain existing qualified personnel may impair our ability to expand our business could lead to a decline of our revenue. Hiring

and retaining qualified and skilled managers and sales representatives are critical to our future, and competition for experienced employees in the gold loan industry is intense. In addition, we may not be able to hire and retain enough skilled and experienced employees to replace those who leave, or may not be able to re-deploy and retain our employees to keep pace with continuing changes in technology, evolving standards and changing customer preferences. The failure to hire key executives or employees or the loss of executives and key employees could have a significant impact on our operations.

32. ***We are subject to the risk of fraud by our employees and customers. Our lending operations involve significant amounts of cash collection which may be susceptible to loss or misappropriation or fraud by our employees. Specifically, employees operating in remote areas may be susceptible to criminal elements which may adversely affect our business, operations and ability to recruit and retain employee***s.

We are exposed to the risk of fraud and other misconduct by employees and customers. While we carefully recruit all of our employees and screen all our employees who are responsible for disbursement of Gold Loans and custody of gold, there could be instances of fraud with respect to Gold Loans and cash related misappropriation by our employees. We are required to report cases of internal fraud to the RBI, which may take appropriate action. We have also filed police complaints alleging fraud and misappropriation of gold by our employees in the past. We cannot guarantee you that such acts of fraud will not be committed in the future, and any such occurrence of fraud would adversely affect our reputation, business and results of operations.

Our lending and collection operations involve handling of significant amounts of cash, including collections of instalment repayments in cash which is the norm in the finance industry. Large amounts of cash collection expose us to the risk of loss, fraud, misappropriation or unauthorised transactions by our employees responsible for dealing with such cash collections. While we obtain insurance, coverage including fidelity coverage and coverage for cash in safes and in transit, and undertake various measures to detect and prevent any unauthorised transactions, fraud or misappropriation by our employees, these measures may not be sufficient to prevent or deter such activities in all cases, which may adversely affect our business operations and financial condition. In addition, we may be subject to regulatory or other proceedings in connection with any such unauthorised transaction, fraud or misappropriation by our agents or employees, which could adversely affect our goodwill, business prospects and future financial performance.

Further, our employees operating in remote areas may be particularly susceptible to criminal elements as they are involved in cash collection and transportation due to lack of local banking facilities. In the event of any such adverse incident our ability to continue our operations in such areas will be adversely affected and our employee recruitment and retention efforts may be affected, thereby affecting our expansion plans. In addition, if we determine that certain areas of India pose a significantly higher risk of crime or political strife and instability, our ability to operate in such areas will be adversely affected.

33. We are subject to the risk of unknowingly receiving stolen goods as collateral from customers which may result in loss of collateral for the loan disbursed.

We have a policy in place to satisfy ownership of the gold jewellery and have taken adequate steps to ensure that the KYC guidelines stipulated by RBI are followed and due diligence of the customer is undertaken prior to the disbursement of loans. However, in the event that we unknowingly receive stolen goods as collateral from a customer, the goods can be seized by authorities. Once seized by the authorities, gold items will be stored in court storage facilities without a surety arrangement. No recourse is generally available to our Company in the event of such seizure, except the recovery of the loss from the customer. Any seizure of the gold ornaments by the authorities shall result in us losing the collateral for the loan disbursed and could adversely affect our business and results of operations.

34. System failures or inadequacy and security breaches in computer systems may adversely affect our operations and result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation.

Our business is increasingly dependent on our ability to process, on a daily basis, a large number of transactions. Through our information technology systems, we manage our operations, market to our target customers, and monitor and control risks. We are dependent upon the IT software for effective monitoring & management, and any failure in our IT systems or loss of connectivity or any loss of data arising from such failure can impact our business and results of operations.

35. We have entered into, and will continue to enter into, related party transactions.

We have entered into certain transactions with related parties and are likely to continue to do so in the future. Although all such related-party transactions are at arm's length, as required under the Companies Act and SEBI Listing Regulations. We cannot assure you that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions had not been entered into with related parties. Such related-party transactions may potentially involve conflicts of interest which may be detrimental to our interest and we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition and results of operations. For further details, see "Financial Information" beginning on page 188.

36. Our internal procedures, on which we rely for obtaining information on our customers and loan collateral, may be deficient and result in business losses.

We rely on our internal procedures for obtaining information relating to our customers and the loan collateral provided. In the event of lapses or deficiencies in our procedures or in their implementation, we may be subject to business or operational risk. For example, in the event that we unknowingly receive stolen goods as collateral from a customer, the goods can be seized by authorities. Once seized by the authorities, gold items will be stored in court storage facilities without a surety arrangement. No recourse will generally be available to our Company in the event of such seizure, except the recovery of the loss from the customer.

37. Our inability to open new branches at correct locations may adversely affect our business.

Our business is dependent on our ability to service and support our customers from proximate locations and thereby giving our customers easy access to our services. Further, it is vital for us to be present in key locations for sourcing business as we depend on these branches to earn revenue. Thus, any inability on our part to open new branches at correct locations may adversely affect our business and results of operations.

38. Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business, financial condition and results of operations.

NBFCs in India are subject to strict regulations and supervision by the RBI. In addition to the numerous conditions required for the registration as a NBFC with the RBI, we are required to maintain certain statutory and regulatory permits and approvals for our business. In the future, we will be required to renew such permits and approvals and obtain new permits and approvals for any proposed operations. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Failure on our part to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

In addition, our branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishment laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. Some of our branches have not applied for such registration while other branches still have applications for registration pending. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of these conditions, our certificate of registration may be suspended or cancelled, and we shall not be able to carry on such activities.

39. All our branch premises, except two branches are acquired on lease. Any termination of arrangements for lease of our branches or our failure to renew the same in a favourable, timely manner, could adversely affect our business and results of operations.

As on December 31, 2024, we had a total of 975 branches in 8 states and 1 union territory. Except 2 branches which are owned by us, the remaining are located on leased premises. If any of the owners of these premises does not renew an agreement under which we occupy the premises, attempts to evict us or seeks to renew an agreement on terms and conditions non-acceptable to us, we may suffer a disruption in our operations or increased costs, or both, which may adversely affect our business and results of operations.

40. We have ventured into new business areas and the sustainability, effective management and failure of growth strategy could adversely affect our business and result of operations.

We have entered new businesses as part of our growth strategy. For example, we have received a corporate insurance agency license from IRDA under the Insurance Act, 1938 for acting as a corporate agent for the Life Insurance Corporation of India, which will enable us to market their life insurance plans. In furtherance to these objectives our Company had obtained a certificate of renewal registration from the IRDA, dated March 28, 2022 to commence/carry business in the capacity of a Corporate Agent (Composite) under the Insurance Regulatory and Development Authority Act, 1999.

Our Company has also started microfinancing activities. Additionally, our Company owns a parcel of agricultural land in Kattappana village, Udumpanchola Taluk, Idukki district, admeasuring 108.74 acres, through which our Company undertakes agricultural activity of cultivating cardamom. Our Company, on the basis of the definitive agreements entered into for installation of four windmill units at Ramakkalmedu, Idukki district of Kerala has completed the commissioning of the project and the windmills at Ramakkalmedu, Thookkupalam in Idukki District have become operational. Our Company has also submitted a tariff petition with the energy commission for fixing the tariff rate.

Our Company has also entered into agreements for its money transfer business with EBIX Money Express Private Limited ("**EBIX**") to act in the capacity of a sub representative to offer money transfer services. Our Company also holds a FFMC license and carries on money changing activities through its branches authorised by RBI. As on December 31, 2024, we had 1 head office and 61 authorised branches. Our currency operations include sale and purchase of foreign exchange at different authorised branches.

We have little or no operating experience with such businesses, and you should consider the risks and difficulties we may encounter by entering into new lines of business. New businesses may require significant capital investments and commitments of time from our senior management, and there often is little or no prospect of earnings in a new business for several years. Moreover, there is no assurance any new business we develop or enter will commence in accordance with our timelines, if at all, which could result in additional costs and time commitments from our senior management. There also can be no assurance that our management will be able to develop the skills necessary to successfully manage these new business areas. Our inability to effectively manage any of the above issues could materially and adversely affect our business and impact our future financial performance.

41. Our contingent liabilities have not been provided for in our financial statements which, if materialize, may impact our financial condition.

As at March 31, 2024, our audited financial statements disclosed and reflected the following contingent liabilities**:**

(₹ in lakhs)

Particulars	As at March 31, 2024
(I) Contingent Liabilities	-
(a) Claims against the company not acknowledged as debt	
(i) Income Tax Demands	1,337.62
(ii) GST Demands	2.56
(iii) Sales Tax Demands	83.36
Total contingent liabilities	**1,423.54**

If at any time we are compelled to pay all or a material proportion of these contingent liabilities, it would have a material and adverse effect on our business, future financial performance and results of operations.

42. We rely significantly on our management team, our Key Managerial Personnel/Senior Management and our ability to attract and retain talent. Loss of any member from our management team or that of our Key Managerial Personnel/Senior Management may adversely affect our business and results of operation.

We rely significantly on our core management team which oversees the operations, strategy and growth of our businesses. Our Key Managerial Personnel/Senior Management have been integral to our development. Our success is largely dependent on our management team which ensures the implementation of our strategy. If one or more members of our management team are unable or unwilling to continue in their present positions, they may be difficult to replace, and our business and results of operation may be adversely affected.

RISKS PERTAINING TO THIS ISSUE

43. Changes in interest rates may affect the price of our NCDs which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.

All securities where a fixed rate of interest is offered, such as our NCDs, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.

44. The fund requirement and deployment mentioned in the Objects of the Issue have not been appraised by any bank or financial institution.

We intend to use the proceeds of the Issue, after meeting the expenditures of and related to the Issue, for the purpose of onward lending and for repayment of interest and principal of existing loans and also for general corporate purposes. For further details, see "Objects of the Issue" at page 106 . The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. The management will have significant flexibility in applying the proceeds received by us from the Issue. The utilization details of the proceeds of the Issue shall be adequately disclosed as per applicable law. Further, as per the provisions of the SEBI NCS Regulations, we are not required to appoint a monitoring agency and therefore no monitoring agency has been appointed for the Issue.

45. The liquidity for the NCDs in the secondary market is very low and it may remain so in the future and the price of the NCDs may be volatile.

The Issue will be a new public issue of NCDs for our Company and the liquidity in NCDs at present is very low in the secondary market. Although an application has been made to list the NCDs on BSE, there can be no assurance that liquidity for the NCDs will improve, and if liquidity for the NCDs were to improve, there is no obligation on us to maintain the secondary market. The liquidity and market prices of the NCDs can be expected to vary with changes in market and economic conditions, our financial condition and prospects and other factors that generally influence market price of NCDs. Such fluctuations may significantly affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs.

46. You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs. Failure or delay to recover the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose the holders to a potential loss.

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, including, inter-alia our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner or at all. Although our Company will create appropriate security in favour of the Debenture Trustee for the NCD Holders on the assets adequate to ensure minimum 100.00% asset cover for the NCDs, which shall be free from any encumbrances, the realisable value of the assets charged as security, when liquidated, may be lower than the outstanding principal and/or interest accrued thereon in connection with the NCDs. A failure or delay to recover the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose you to a potential loss.

47. Third party statistical and financial data in this Draft Prospectus may be incomplete and unreliable

This Draft Prospectus includes information that is derived from reports published by CRISIL Limited. For details, please see "Industry Overview" on page 110. No person connected with this Issue has independently verified the CRISIL Reports. Generally, industry reports and data disclaim the accuracy, adequacy or completeness of information provided in such reports, and further disclaims any responsibility for any errors or omissions in the information provided, or for the results obtained from the use of such industry information. Further, the CRISIL Reports are subject to many assumptions. We cannot assure you that the assumptions considered in the CRISIL

Reports are correct or will not change and accordingly our position in the market may differ from that presented in this Draft Prospectus. Further, the CRISIL Reports are not a recommendation to invest / disinvest in the Issue.

48. As the NCDs of our Company are listed on BSE, our Company is subject to certain obligations and reporting requirements under SEBI Listing Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us/our promoter liable to prosecution and/or penalties.

Our Company is subject to the obligations and reporting requirements under SEBI Listing Regulations. In the past, our Company had not complied with certain provisions relating to the submissions of documents and intimations, in respect of the previous public issues, with Debenture Trustee. Our Company has received an email dated September 14, 2022, from BSE stating that the Company was in non-compliance of regulations 52(7)/ 7A of SEBI Listing Regulations in relation non-submission of statement indicating the utilisation of issue proceeds/ material deviation in issue proceeds and accordingly a fine of ₹ 7,080 was levied on our Company. Our Company has paid the said fine amount. Additionally, we have received two emails dated September 27, 2022 and September 28, 2022 from BSE stating that the company was in non-compliance of Regulation 57(4) and Regulation 50(1) of SEBI Listing Regulations amounting to ₹ 5,900 and ₹ 28,320 respectively in relation to non-submission of details of payable interest/ dividend/ principal obligations during the quarter ended September 30, 2022 and delay in furnishing prior intimation with respect to date of payment of interest/ redemption amount or intimation regarding board meeting effecting the rights or interest of the NCDs/NSCRPS. Our Company is yet to pay the said fines. Though our Company endeavors to comply with all such obligations/reporting requirements, there have been certain instances of non-compliance and delays in complying with such obligations/reporting requirements. Any such delays or non-compliance would render our Company to prosecution and/or penalties. Although our Company have not received any further communication from the Stock Exchange or any authority in this regard, there could be a possibility that penalties may be levied against our Company for certain instances of non-compliance and delays in complying with such obligations/reporting requirements. Further BSE has informed that no SOP fines are pending against Kosamattam Finance Limited vide email dated November 11, 2024. Our Company has received an email dated Decemeber 02, 2024 from BSE tating that the Company was in non-compliance of Regulation 60(2)- Delay in submission of the notice of Record Date and accordingly, a fine of ₹ 11,800 was levied. Our Company had paid the said fine amount.

49. There can be no assurance that the NCDs issued pursuant to this Issue will be listed on the Stock Exchange in a timely manner, or at all.

In accordance with Indian law and practice, permission for listing and trading of the NCD issued pursuant to this issue will not be granted until after the NCDs have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issue of NCDs to be submitted. There could be a failure or delay in listing the NCDs in BSE for reasons unforeseen. While the Company shall take all steps necessary to get the Debentures listed within the timelines prescribed by SEBI, there could be a failure or delay in listing the NCDs in BSE. There is no assurance that the NCDs issued pursuant to the Issue will be listed on stock exchange in a timely manner, or at all.

If permission to deal in and for an official quotation of the NCDs is not granted by BSE, our Company will forthwith repay, without interest, all monies received from the Applicants in accordance with prevailing law in this context, and pursuant to this Draft Prospectus

50. There may be no active market for the NCDs on the retail debt market/capital market segment of the BSE. As a result, the liquidity and market prices of the NCDs may fail to develop and may accordingly be adversely affected.

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market price of our Equity Shares, (iii) the market for listed debt securities, (iv) general economic conditions, (v) our financial performance, growth prospects and results of operations and (vi) limited and sporadic trading. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

51. Our Company may raise further borrowings and charge its assets after receipt of necessary consents from

its existing lenders. In such a scenario, the Debenture Holders holding the NCDs will rank pari passu with other secured creditors and to that extent, may reduce the amounts recoverable by the Debenture Holders upon our Company's bankruptcy, winding up or liquidation.

Our Company may, subject to receipt of all necessary consents from its existing lenders and the Debenture Trustee to the Issue, raise further borrowings and charge its assets. Our Company is free to decide the nature of security that may be provided for future borrowings. In such a scenario, the Debenture Holders holding the NCDs will rank pari passu with other creditors and to that extent, may reduce the amounts recoverable by the Debenture Holders upon our Company's bankruptcy, winding up or liquidation.

52. In the event of liquidation or bankruptcy, the new bankruptcy code in India may affect our Company's right to recover loans from its borrowers.

The Insolvency and Bankruptcy Code, 2016 ("**Bankruptcy Code**") was notified on August 5, 2016. The Bankruptcy Code offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships, and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision and agree upon a plan for its revival or a speedy liquidation. The Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process.

In case insolvency proceedings are initiated against a debtor to our Company, we may not have complete control over the recovery of amounts due to us. Under the Bankruptcy Code, upon invocation of an insolvency resolution process, a committee of creditors is constituted by the interim resolution professional, wherein each financial creditor is given a voting share proportionate to the debts owed to it. Any decision of the committee of creditors must be taken by a vote of not less than 66% of the voting share of all financial creditors. Any resolution plan approved by committee of creditors is binding upon all creditors, even if they vote against it. In case a liquidation process is opted for, the Bankruptcy Code provides for a fixed order of priority in which proceeds from the sale of the debtor's assets are to be distributed. Before sale proceeds are distributed to a secured creditor, they are to be distributed for the costs of the insolvency resolution and liquidation processes, debts owed to workmen and other employees, and debts owed to unsecured credits. Further, under this process, dues owed to the Central and State Governments rank at par with those owed to secured creditors. Moreover, other secured creditors may decide to opt out of the process, in which case they are permitted to realise their security interests in priority.

Accordingly, if the provisions of the Bankruptcy Code are invoked against any of the borrowers of our Company, it may affect our Company's ability to recover our loans from the borrowers and enforcement of our Company's rights will be subject to the Bankruptcy Code.

53. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and the NBFC and Gold Loan industries contained in this Draft Prospectus.

While facts and other statistics in this Draft Prospectus relating to India, the Indian economy as well as the Gold Loan industry have been based on various publications and reports from agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials, particularly since there is limited publicly available information specific to the Gold Loan industry. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics, the same have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "Industry Overview" beginning on page 110. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

EXTERNAL RISK FACTORS

54. Financial difficulties and other problems in certain financial institutions in India could cause our business to suffer and adversely affect our results of operations.

We are exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties

and other problems faced by certain Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years. Some co-operative banks (which tend to operate in rural sector) have also faced serious financial and liquidity crises. There has been a trend towards consolidation with weaker banks, NBFCs and HFCs being merged with stronger entities. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions, banks and NBFCs. This in turn could adversely affect our business, our future financial performance, our shareholders' funds and the market price of our NCDs.

55. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect our business and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence. In addition, any deterioration in relations between India and its neighbouring countries might result in investor concern about stability in the region, which could adversely affect our business.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our NCDs.

56. Natural calamities could have a negative impact on the Indian economy and cause our business to suffer.

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. The extent and severity of these natural disasters determines their impact on the Indian economy. Further, prolonged spells of below normal rainfall or other natural calamities could have a negative impact on the Indian economy thereby, adversely affecting our business. For example, we were impacted by the floods in Kerala in Fiscal 2019 as a result of which we had to temporarily close some of our branches in Kerala which resulted in a decline in our cash flows and revenues during that period. As a result, any present or future outbreak of natural calamities could have a material adverse effect on our business and the market price of the NCDs.

57. Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.

India's sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, all which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional external financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and future financial performance and our ability to obtain financing for capital expenditures.

58. ***Instability of economic policies and the political situation in India could adversely affect the fortunes of the industry***.

There is no assurance that the liberalisation policies of the government will continue in the future. Protests against privatisation could slow down the pace of liberalisation and deregulation. The Government of India plays an important role by regulating the policies and regulations that govern the private sector. The current economic policies of the government may change at a later date. The pace of economic liberalisation could change and specific laws and policies affecting the industry and other policies affecting investments in our Company's business could change as well. A significant change in India's economic liberalisation and deregulation policies could disrupt business and economic conditions in India and thereby affect our Company's business.

Unstable domestic as well as international political environment could impact the economic performance in the short term as well as the long term. The Government of India has pursued the economic liberalisation policies including relaxing restrictions on the private sector over the past several years. The present Government has also announced polices and taken initiatives that support continued economic liberalisation.

The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our Company's business may be affected not only by changes in interest rates, changes in Government policy, taxation, social and civil unrest but also by other political, economic, or other developments

in or affecting India.

59. Changing laws, rules and regulations and legal uncertainties, including tax laws and regulations, may adversely affect our business, results of operation and prospects and could lead to new compliance requirements that are uncertain.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example:

- The Government of India announced the Union Budget for Financial Year 2025 ("**Budget 2025**"), pursuant to which the Finance Bill 2025 has proposed various amendments. We have not fully determined the impact of these recent and proposed laws and regulations on our business. We cannot predict whether any amendments proposed by the Finance Bill 2025 will have an adverse effect on our business, financial condition, and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

- On September 2, 2022, the RBI issued the 'Guidelines on Digital Lending' following the 'Recommendations of the Working Group on Digital Lending – Implementation' (the "**Recommendations**") issued by the RBI on August 10, 2022. Our Company is engaged in digital lending within the meaning of the Guidelines on Digital Lending. On June 8, 2023, the RBI issued the 'Guidelines on Default Loss Guarantee' ("DLG Guidelines") in Digital Lending. The DLG Guidelines is applicable to our Company. Failure to comply with the obligations in a timely manner may lead to imposition of penalties, and/or other regulatory action being taken by the RBI against us, which may adversely affect our business operations.

Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the application, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our businesses in the future.

Impersonation

As a matter of abundant precaution, attention of the investors is specifically drawn to the provisions of sub-Section (1) of Section 38 of the Companies Act, 2013, relating to punishment for fictitious applications. Section 38(1) of the Companies Act, 2013 provides that:

"Any person who:

(a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or

(b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or

(c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name,

shall be liable for action under Section 447".

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹10 lakh or 1.00% of the turnover of the Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest,

such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹10 lakh or 1.00% of the turnover of the Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹50 lakh or with both.

Minimum Subscription

In terms of the SEBI NCS Regulations, for an issuer undertaking a public issue of debt securities the minimum subscription for public issue of debt securities shall be 75% of the Base Issue Size. In the event of non-receipt of minimum subscription, all blocked application money shall be unblocked forthwith, but not later than eight working days from the date of closure of the issue or such time as may be specified by the Board. In the event the Application Amount has been transferred to the Public Issue Account from the respective ASBA Accounts, such Application Amount shall be refunded from the Refund Account to the relevant ASBA Accounts(s) of the Applicants within eight Working Days from the Issue Closing Date. In the event there is delay in unblocking of funds/refunds, our Company shall be liable to repay the money, with interest at the rate of 15 % per annum for the delayed period.

Under Section 39(3) of the Companies Act, 2013 read with Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the application money received is to be credited only to the bank account from which the subscription was remitted. To the extent possible, where the required information for making such refunds is available with our Company and/or Registrar, refunds will be made to the account prescribed. However, where our Company and/or Registrar does not have the necessary information for making such refunds, our Company and/or Registrar will follow the guidelines prescribed by SEBI in this regard included in the SEBI Master Circular.

ANNEXURE A

STATEMENT OF POSSIBLE TAX BENEFITS UNDER THE INCOME TAX ACT, 1961 ("IT ACT") AVAILABLE TO THE DEBENTURE HOLDERS UNDER THE APPLICABLE INCOME-TAX LAWS IN INDIA.

The following tax benefits will be available to the debenture holders of the Company ("**Debenture Holders**") as per the existing provisions of law. The tax benefits are given as per the prevailing tax laws under the provisions of the IT Act, as on date, taking into account the amendments made by the Finance Act, 2024, and may vary from time to time in accordance with amendments to the law or enactments thereto. The Debenture Holders are advised to consider the tax implications in respect of subscription to the Debentures after consulting his tax advisor as alternate views are possible.

IMPLICATIONS UNDER THE IT ACT

I. TO THE RESIDENT DEBENTURE HOLDER ("RESIDENT" AS DEFINED UNDER SECTION 6 OF THE IT ACT)

A. <u>In Respect of Interest on Debentures (NCDs)</u>

1. Interest on NCD received by Debenture Holders would be subject to income tax at the normal rates of tax in accordance with and subject to the provisions of the IT Act. Interest will be assessed to Income tax on receipt basis or mercantile basis (accrual basis) depending on the method of accounting regularly employed by the NCD holders under Section 145 of the IT Act.

2. Income Tax is deductible at source at the rate of 10% on interest on debentures held by resident Indians as per the provisions of Section 193 of the IT Act (in case where interest is paid to Individual or HUF, no TDS will be deducted where interest paid is less than ₹ 5,000 and interest is paid by way of account payee cheque).

Further, Tax will be deducted at source at reduced rate, or no tax will be deducted at source in the following cases:

a) When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the IT Act; and that a valid certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest;

b) When the resident Debenture Holder with Permanent Account Number ('PAN') (not being a company or a firm) submits a declaration as per the provisions of section 197A(1A) of the IT Act in the prescribed Form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However, under section 197A(1B) of the IT Act, Form 15G cannot be submitted nor considered for exemption from tax deduction at source if the dividend income referred to in section 194, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of Unit Trust of India as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the financial year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax;

c) Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of section 197A(1C) of the Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on the estimated total income of the year concerned will be NIL; and

d) In all other situations, tax would be deducted at source as per prevailing provisions of the IT Act. Please find below the class of resident investors and respective documents that would be required for granting TDS exemption:

A. <u>In respect of Capital Gains</u>

1. Long Term Capital Gain

Under Section 2(29AA) read with section 2(42A) of the IT Act, listed Debentures held as Capital Asset as defined under section 2(14) of the IT Act is treated as long term capital asset if it is held for more than 12 Months. Debentures held as capital asset for a period of 12 Months or less will be treated as short term capital asset.

For any transfer which takes place on or after the 23rd day of July, 2024, Long Term Capital Gain will be chargeable to tax under Section 112 of the IT Act at the rate of 12.50% (plus applicable surcharge and education cess). No indexation benefit is available for debentures. Hence, the tax payable on long term capital gains on transfer of NCD will be 12.50% (plus applicable surcharge and education cess) and the capital gains have to be computed without indexation.

In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

2. Short Term Capital Gains

Listed Debentures held as capital asset under Section 2(14) of the IT Act for a period of not more than 12 months would be treated as Short term capital asset under Section 2(42A) of the IT Act. Short Term Capital Gains on transfer of NCD will be taxed at the normal rates of tax in accordance with the provisions of the IT Act. The provisions relating to maximum amount not chargeable to tax would apply to short term capital gains.

3. Capital Loss on transfer of Debentures.

As per Section 74 of the IT Act, short-term capital loss on transfer of debentures suffered during the year is allowed to be set-off against short-term as well as long-term capital gains of the said year. Balance loss, if any could be carried forward for eight years for claiming set-off against subsequent years' short term as well as long-term capital gains. Long-term capital loss on debentures suffered during the year is allowed to be set-off only against long-term capital gains. Balance loss, if any, could be carried forward for eight years for claiming set-off against subsequent year's long-term capital gains.

4. Exemption available for Individuals and HUF for Long Term Capital gains U/s 54F of the IT Act.

As per the provisions of Section 54F of the IT Act, any long-term capital gains on transfer of a long term capital asset arising to a Debenture Holder who is an individual or Hindu Undivided Family, is exempt from tax if the entire net sales consideration is utilized, within a period of one year before, or two years after the date of transfer, in purchase of a new residential house in India, or for construction of residential house in India within three years from the date of transfer subject to conditions. If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis. This exemption is available, subject to the conditions stated therein.

Under section 54EE of the IT Act, long term capital gains arising to the Debenture Holder(s) on transfer of debentures in the company shall not be chargeable to tax to the extent such capital gains are invested in long term specified asset (a unit or units issued before 01.04.2019) as notified by Central Government within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said notified bonds are transferred or converted into money within a period of three years from their date of acquisition, the amount of capital gains exempted earlier would become chargeable to tax as long-term capital gains in the year in which the bonds are transferred or converted into money. However, the exemption is subject to a limit of investment of ₹50 lakhs during any financial year in the notified bonds. Where the benefit of Section 54EE of the IT Act has been availed of on investments in the notified bonds, a deduction from the income with reference to such cost shall not be allowed under section 80C of the Act.

As per provisions of section 54EE of the IT Act, capital gain on the transfer of a long-term capital asset, arising to a debenture holder is exempt from tax, if the assessee / debenture holder invested the whole or any part of capital gains in the long-term specified asset at any time within a period of six months. If the cost of the long-term specified asset is less than the capital gain arising from the transfer of the original asset, then such gains would be chargeable to tax on a proportionate basis. This exemption is available, subject to the condition that the investment in the long-term specified asset by an assessee during any financial year does not exceed fifty lakh rupees: If the long term specified asset in which the investment has been made is transferred within a period of three years from the date of its acquisition, the amount of capital gains tax claimed earlier would became chargeable to tax as capital gains in the year in which such long term specified asset is transferred. Specified Asset means a unit or units, issued before the 1st day of April, 2019, of such fund as may be notified by the Central Government in this behalf.

B. **In respect of Business Income**

In case the Debentures are held as stock in trade by the debenture holder, the income/loss from transfer of debentures would be taxed as Income from Business. Such income is to be computed in accordance with the Income Computation and Disclosure Standard VIII, which is notified by the Ministry of Finance, Government of India under Section 145(2) of the IT Act. Where debentures are held as stock in trade and unpaid interest has accrued before acquisition of Debentures and is included in the price paid for the Debentures, subsequent receipt of interest is to be allocated between pre-acquisition and post-acquisition periods, the pre-acquisition portion of the interest is reduced from the actual cost and is to be treated as interest. In the case of Debentures held by Scheduled Bank and Public Financial Institutions, income is to be recognized in accordance with the guidelines issued by the Reserve Bank of India in this regard.

C. Debentures received as gift without consideration or inadequate consideration.

As per section 56(2)(x) of the IT Act, except in cases which are specifically exempted under this clause (such as gift received from relative as defined under the section), where the debentures are received without consideration where the aggregate market value of all gifts received exceeds ₹ 50,000/- the aggregate market value of the debentures shall be taxable as income in the hands of the recipient. Similarly, if debentures are received for inadequate consideration, the shortfall in the consideration will be treated as income of the recipient subject to the provisions contained in section 56(2)(x) of the IT Act. There is no gift tax for the Donor of the Debentures.

II. TO THE NON-RESIDENT DEBENTURE HOLDER.

A Non – Resident Indian has an option to be governed by Chapter XII – A of the IT Act, subject to the provisions contained therein which are given in brief as under:

a) As per Section 115E of the IT Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20%, whereas long term capital gains on transfer of such Debentures will be taxable at 12.50% of such capital gains without indexation of cost of acquisition. Short-term capital gains will be taxable at the normal rates of tax in accordance with and subject to the provisions contained therein.

b) As per Section 115G of the IT Act, it shall not be necessary for a non-resident Indian to file a return of

income under Section 139(1) of the IT Act, if his total income consists only of investment income as defined under Section 115C and/or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions of Chapter XVII- B of the IT Act in accordance with and subject to the provisions contained therein.

c) As per Section 115D (1) of the IT Act no deduction in respect of any expenditure or allowance shall be allowed under any provisions of the IT Act in the computation of income of a non-resident Indian under Chapter XII – A of the IT Act.

d) In accordance with and subject to the provisions of Section 115-I of the IT Act, a Non-Resident Indian may opt not to be governed by the provisions of Chapter XII – A of the IT Act.

e) Long Term capital gains on transfer of listed debentures would be subject to tax at the rate of 12.50% computed without indexation.

f) Interest income and Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months preceding the date of transfer, would be taxed at the normal rates of tax in accordance with and subject to the provisions of the IT Act.

g) Where debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the IT Act.

h) Under Section 195 of the IT Act, the applicable rate of tax deduction at source is 20% on investment income and 12.50% on any long-term capital gains as per Section 115E, and 30% for Short Term Capital Gains if the payee debenture Holder is a Non-Resident Indian.

i) The income tax deducted shall be increased by applicable surcharge and health and education cess. As per Section 74 of the IT Act, short-term capital loss on transfer of debentures suffered during the year is allowed to be set-off against short-term as well as long-term capital gains of the said year. Balance loss, if any could be carried forward for eight years for claiming set-off against subsequent years' short-term as well as long-term capital gains. Long-term capital loss on debentures suffered during the year is allowed to be set-off only against long-term capital gains. Balance loss, if any, could be carried forward for eight years for claiming set-off against subsequent year's long-term capital gains.

   As per Section 90(2) of the IT Act read with the Circular No. 728 dated October 30, 1995 issued by the Central Board of Direct Taxes, in the case of a remittance to a country with which a Double Tax Avoidance Agreement (DTAA) is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee. However, submission of tax residency certificate (TRC), is a mandatory condition for availing benefits under any DTAA. If the tax residency certificate does not contain the prescribed particulars as per CBDT Notification 57/2013 dated August 1, 2013, a self-declaration in Form 10F would need to be provided by the assessee along with TRC.

j) Alternatively, to avail non deduction or lower deduction of tax at source, as the case may be, the Debenture Holder should furnish a certificate under Section 195(2) and 195(3) of the IT Act, from the Assessing Officer before the prescribed date of closure of books for payment of debenture interest.

k) In case the Debentures are held as stock in trade by the debenture holder, the income/loss from transfer of debentures would be taxed as Income from Business. Such income is to be computed in accordance with the Income Computation and Disclosure Standard VIII which is notified by the Ministry of Finance, Government of India under Section 145(2) of the IT Act. Where debentures are held as stock in trade and unpaid interest has accrued before acquisition of Debentures and is included in the price paid for the Debentures, subsequent receipt of interest is to be allocated between pre-acquisition and post-acquisition periods, the pre-acquisition portion of the interest is reduced from the actual cost and is to be treated as interest. In the case of Debentures held by Scheduled Bank, income is to be recognized in accordance with the guidelines issued by the Reserve Bank of India in this regard.

l) As per section 56(2)(x) of the IT Act, except in cases which are specifically exempted under this clause (such as gift received from relative as defined under the section), where the debentures are received

without consideration where the aggregate market value of all gifts received exceeds Rs. 50,000/- the aggregate market value of the debentures shall be taxable as income in the hands of the recipient. Similarly, if debentures are received for inadequate consideration, the shortfall in the consideration will be treated as income of the recipient subject to the provisions contained in section 56(2)(x) of the IT Act. There is no gift tax for the Donor of the Debentures.

m) As per the provisions of Section 54F of the IT Act, any long-term capital gains on transfer of a long term capital asset arising to a Debenture Holder who is an individual or Hindu Undivided Family, is exempt from tax if the entire net sales consideration is utilized, within a period of one year before, or two years after the date of transfer, in purchase of a new residential house in India, or for construction of residential house in India within three years from the date of transfer subject to conditions. If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis. This exemption is available, subject to the conditions stated therein

An overview of the Indian economy

While the global economy faces headwinds, India is poised to continue its growth

Despite grappling with the formidable challenges of Covid-19, geopolitical conflicts, and climate change, the Indian economy has demonstrated notable resilience and exceeded growth expectations. Amid a global slowdown, tighter monetary conditions, and high inflation, India has achieved a higher economic growth rate compared to many of its peers. This success is attributable to strong domestic consumption, lower dependence on global demand, and continued resistance to external headwinds. Optimism prevails as the rural economy shows signs of recovery, while strong growth in manufacturing, robust bank balance sheets, increased credit growth, and high-value manufacturing bolster India's underlying growth potential.

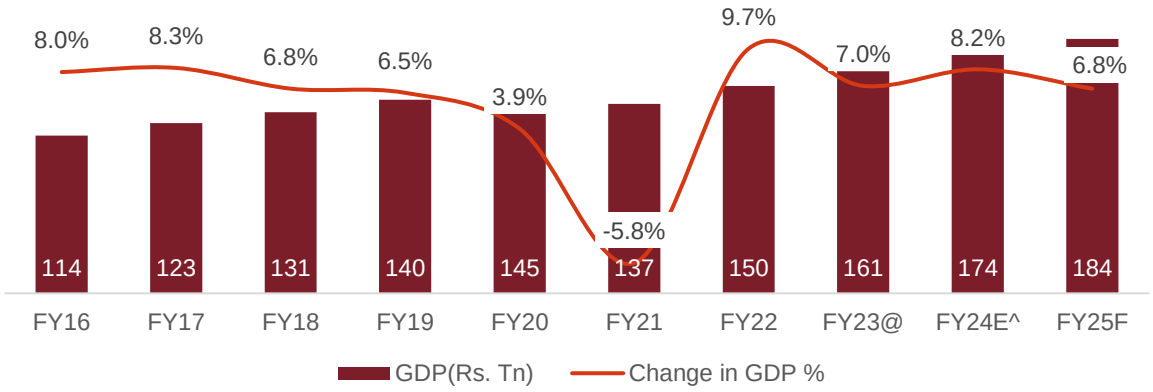

India's gross domestic product (GDP) exceeded expectations yet again. According to the National Statistics Office (NSO)'s second advance estimates (SAE), real GDP accelerated to 8.2% on-year in fiscal 2024 from 7.6% in fiscal 2023. Growth of the past two quarters were revised up (fourth quarter was revised to 7.8% from 5.9%, and third quarter to 8.6% from 8.4%).

After a strong GDP print in the past three fiscals, GDP grew 5.4% on-year in the second quarter of fiscal 2025. The print was a sharp deceleration from the 6.7% in the first quarter of fiscal 2024. This comes over high growth in the second quarter of fiscal 2024, in which the economy had grown 8.1%. On the demand side, moderation in consumption and investment growth were a drag on GDP growth, even as government spending as measured by government final consumption expenditure rebounded. Nominal GDP moderated as well, to 8.0% from 9.7% in the first quarter of this fiscal, and was also lower than the 9.6% recorded in the year-ago quarter.

CRISIL MI&A Research expects the GDP growth to moderate to 6.8% this fiscal after a higher of 8.2% last year, weighted down by high interest rates and low fiscal impulse. Last year's laggards – agriculture and consumption – are poised to rise. Rural demand is expected to drive consumption.

The Indian economy will take support from domestic structural reforms and cyclical levers and can retain and even improve its growth prospects. This can be done by continuing to build infrastructure both digital and physical and undertaking growth-enhancing reforms aimed at improving the ease of doing business. Amid global risks, this can also allow India to grasp opportunities from diversifying global supply chains

On-year GDP change

In the near term gradually the government of India will start receding its capex, and expectations the pass on being taken up by the private sector. Some sectors have already been picked up by the private capex such as electronics, EVs and green transition accounted for 16% of incremental capex in fiscals 2023 and 2024.

Macroeconomic outlook

Macro variable	FY23	FY24	FY25 F	Rationale for outlook
Real GDP (%, y-o-y)	7.0	8.2^	6.8	High interest rates and lower fiscal impulse (from reduction in fiscal deficit to 5.1% of GDP) will temper domestic demand. Net indirect tax impact on GDP is expected to normalise this fiscal. Uneven growth in key trade partners will restrict healthy export recovery. But budgetary support to capex and rural incomes will support growth.
Consumer price index (CPI)-based inflation (%, y-o-y)	6.7	5.4	4.6	Soft commodity prices and healthier farm output should help moderate inflation. A non-inflationary budget that focuses on asset creation rather than direct cash support bodes well for core inflation and hence monetary policy
Current account balance/ GDP (%)	-2.0	-0.7	-1.0	Softer crude oil prices and moderation in domestic growth will keep trade deficit in check despite tepid exports of goods. Alongside, robust services trade surplus and healthy remittances will keep the current account deficit (CAD) in check
Rs/$ (March end)	82.3	83.0	84.0	Narrower CAD and healthy foreign portfolio flow into debt amid a favourable domestic macro environment will support the rupee
Fiscal deficit (% of GDP)	6.4	5.6	4.9	Continued pursuit of fiscal consolidation aided by moderation in revenue spending and robust tax collections will reduce the fiscal deficit and lead to lower government borrowings from the market
10-year G-sec yield (fiscal-end, %)	7.4	7.1	6.7	Lower gross market borrowings will reduce the pressure on yields. Lower inflation and expected rate cuts by the MPC will create downside pressure on yields. India's inclusion in the JP Morgan Emerging Market Bond Index is favourable for capital flows into government debt

Indigenous advantages to result in a stronger economic growth rate in the longer term

India has the largest population in the world

As per the report published (in July 2020) by National commission on population, Ministry of Health & Family Welfare report, India's population in 2011 was 121 crores, comprising nearly 24.6 crore households. It should be noted that the decadal growth rate during 2001-2011 stood at 17%. This is estimated to have fallen to 12% during 2011-2021 and is likely to decline further to 9% during 2021-2031. However, with 147 crore estimated population in 2030, India will continue to be a major opportunity market from demand perspective. Additionally, as per United Nations Department of Economic and Social Affairs, India has overtaken China as the world's most populous country in April 2023.

Favourable demographics

India is also one of the countries with the largest youth population, with a median age of 28 years. About 90% of Indians are aged below 60 years. It is estimated that 64% of this population is aged between 15 and 59 years. CRISIL MI&A Research expects the existence of a large share of working population, coupled with rapid urbanisation and rising affluence, will propel growth of the Indian financial services sector.

Rise in urbanisation

Urbanisation is a key growth driver for India, as it leads to faster infrastructure development, job creation, development of modern consumer services, and the city's ability to mobilise savings. The share of urban population in total population has been consistently rising over the years and is expected to reach 36% by 2025 from 31% in 2011, spurring more demand.

Urban consumption in India has shown signs of improvement and given the country's favourable demographics, coupled with rising disposable incomes, the trend is likely to continue and drive domestic economic growth.

Overall NBFC – Industry overview

NBFCs are important part of the credit system

Financing needs in India have risen in sync with the notable economic growth over the past decade. NBFCs have played a major role in meeting this need, complementing banks and other financial institutions.

NBFCs help fill gaps in the availability of financial services with respect to products as well as customer and geographic segments. A strong linkage at the grassroots level makes them a critical cog in the financial machine. They cater to the unbanked masses in rural and semi-urban reaches and lend to the informal sector and people without credit histories, thereby enabling the government and regulators to realise the mission of financial inclusion.

Structure of non-banking financial institutions in India

Note: The regulatory authority for the respective institution is indicated within the brackets; All-India Financial Institutions include NABARD, SIDBI, EXIM Bank
Source: RBI, CRISIL MI&A Research

Classification of NBFCs

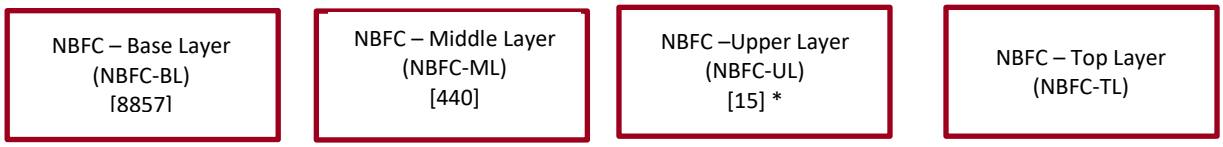

NBFCs until now have been classified on the basis of the kind of liabilities they access, types of activities they pursue and their perceived systemic importance. RBI on October 22, 2021 introduced additional classification of NBFCs vide Scale Based Regulation (SBR) framework into four categories i.e., Base Layer (NBFC – BL), Middle Layer (NBFC – ML), Upper Layer (NBFC – UL) and Top Layer (NBFC – TL)

Scale based classification of NBFCs

As per RBI circular dated October 22, 2021, the central bank introduced Scale Based Regulation (SBR) framework for classification of NBFCs along with the activity-based classification of NBFCs as per earlier regulations. The revised SBR framework shall be effective from October 01, 2022

As per the revised framework NBFCs will be classified into four layers based on their size, activity and perceived riskiness. NBFCs in the lowest layer will be known as NBFC – Base Layer (NBFC BL), NBFCs in middle layer and upper layer shall be known as NBFC - Middle Layer (NBFC-ML) and NBFC - Upper Layer (NBFC-UL) respectively. The Top Layer is expected to be empty and will be known as NBFC - Top Layer (NBFC - TL).

Classification on the basis of scale-based regul

Note: *Data in [bracket] represents the number of NBFCs as of June 2024. *The data for Upper Layer NBFCs includes HFCs, as per circular dated September 2023. Source: RBI, CRISIL MI&A Research*

Base Layer – NBFC – BL shall comprise of (a). Non deposit taking NBFCs below asset size of Rs 1000 crore and (b). Following NBFCs – (i) NBFC P2P, (ii) NBFC – AA, (iii) NOHFC, and (iv) NBFCs not availing public funds and not having any customer interface

Middle Layer – NBFC – ML shall comprise of (a). All deposit taking NBFCs irrespective of asset size, (b). Non-deposit taking with asset size of Rs 1000 crore and above and (c). Following NBFCs – (i) Standalone primary dealer (SPD), (ii) Infrastructure debt fund (IDF), (iii) Core investment companies (CIC), (iv) Housing finance companies (HFCs) and (v) Infrastructure finance companies (IFCs) Government owned NBFCs shall be placed in the Base Layer or Middle Layer, as the case may be. They will not be placed in the Upper Layer till further notice by RBI.

Upper Layer – NBFC – UL shall comprise of NBFCs which are specifically identified by the Reserve Bank as warranting enhanced regulatory requirement based on a set of parameters and scoring methodology. The top ten eligible NBFCs in terms of their asset size shall always reside in the upper layer, irrespective of any other factor.

Top Layer – NBFC – TL shall be populated only if in opinion of RBI there is a substantial increase in the potential systemic risk from specific NBFCs in the Upper Layer. Such NBFCs shall be moved to Top layer from the Upper layer.

Other regulatory changes under Scale Based Regulations

Net Owned Fund (NOF) for NBFC-ICC, NBFC-MFI and NBFC-Factors shall be increased to Rs 10 cr timelines for change in NOF for above mentioned NBFCs is as follows.

NBFCs	Current NOF	By March 31, 2025	By March 31, 2027
NBFC – ICC	Rs 2 crore	Rs 5 crore	Rs 10 crore
NBFC – MFI	Rs 5 crore (Rs 2 crore in NE region)	Rs 7 crore (Rs 5 crore in NE region)	Rs 10 crore
NBFC – Factors	Rs 5 crore	Rs 7 crore	Rs 10 crore

NPA classification: NPA classification norms stands changed to the overdue period of more than 90 days for all categories of NBFCs, timelines to adhere change for NBFC – BL to 90 days NPA norm is as follows.

NPA norms	Timeline
>150 days overdue	By March 31, 2024
>120 days overdue	By March 31, 2025
>90 days overdue	By March 31, 2026

Experience of the board - Considering the need for professional experience in managing the affairs of NBFCs, at

least one of the directors shall have relevant experience of having worked in a bank/ NBFC. This regulation shall be applicable for all class of NBFCs.

Ceiling on IPO Funding – RBI prescribed ceiling of Rs 1 crore per borrower for financing subscriptions to IPO. NBFCs can fix more conservative limits. This regulation shall come into effect from April 01, 2022.

Liabilities-based classification

NBFCs are classified on the basis of liabilities into two broad categories:

(a) deposit-taking; and
(b) non-deposit taking.

Deposit-taking NBFCs (NBFC – D) are subject to the requirements of stricter capital adequacy, liquid-assets maintenance and exposure norms.

Further, in 2015, non-deposit taking NBFCs with an asset size of Rs 5 billion and above were labelled as 'systemically important non-deposit taking NBFCs' (NBFC – ND – SI), and separate prudential regulations were made applicable to them.

Activity-based classification

As per the RBI circular dated February 22, 2019, the central bank merged three categories of NBFCs, i.e., asset finance companies (AFC), loan companies (LCs) and investment companies (ICs), into a new category called NBFC - Investment and Credit Company (NBFC-ICC)

1. **Investment and credit company – (NBFC-ICC)**: An NBFC-ICC means any company that is a financial institution carrying on as its principal business of providing finance by making loans or advances or otherwise for any activity other than its own and acquisition of securities; and is not any other category of NBFC.

2. **Infrastructure finance company (IFC):** An IFC is an NBFC that deploys at least 75% of its total assets in infrastructure loans and has minimum net-owned funds of Rs 300 crore, with a minimum credit rating of 'A' or equivalent and a 15% CRAR (Capital to risk-weighted adequacy ratio).

3. **Infrastructure debt fund (IDF-NBFC):** An IDF-NBFC is a company registered as an NBFC to facilitate the flow of long-term debt into infrastructure projects. It raises resources through the issue of rupee or dollar-denominated bonds with a minimum five-year maturity. Only IFCs can sponsor IDF-NBFCs

4. **Micro-finance institution (NBFC-MFI):** An NBFC-MFI is a non-deposit-taking NBFC with not less than 75% of its assets in qualifying assets, which satisfy the following criteria:
   - NBFC MFIs can disburse loans to borrowers with household annual income not exceeding Rs 300,000. The household shall mean an individual family unit, i.e., husband, wife and their unmarried children.
   - All collateral-free loans will be considered as qualifying assets. Such loans will include all non-collateral loans irrespective of end use and mode of application/ processing/ disbursal.
   - The loan shall not be linked with a lien on the deposit account of the borrower.

5. **Factors (NBFC-Factors):** An NBFC-Factor is a non-deposit-taking NBFC engaged in the principal business of factoring. Financial assets in the factoring business should constitute at least 50% of its total assets and income derived from the factoring business should not be less than 50% of its gross income.

6. **Mortgage guarantee companies (MGC):** An MGC is a financial institution for which at least 90% of the business turnover is mortgage guarantees or at least 90% of the gross income is from the mortgage-guarantee business and whose net-owned funds is at least Rs 100 crore.
7. **Non-operative financial holding company (NOFHC):** An NOFHC is a financial institution through which promoter / promoter groups will be permitted to set up a new bank. A wholly owned NOFHC will hold the bank as well as all other financial services companies regulated by the RBI or other financial sector regulators to the extent permissible under the applicable regulatory prescriptions.

8. **Account Aggregators (NBFC-AA):** NBFC Account Aggregator is a financial entity which functions as the Account Aggregator for the customers of NBFC. NBFC-AA accumulates and provides information concerning multiple accounts which are held by the customers in various NBFC entities.

9. **Peer to Peer Lending (NBFC-P2P):** NBFC –Peer to Peer Lending platform (NBFC-P2P) is a type of Non-Banking Financial Company which carries on the business of providing services of Loan facilitation to willing lenders and borrowers through online platform.

Prompt corrective action framework

NBFCs have been growing in size and now have substantial interconnectedness with other segments of the financial system. Accordingly, in October 2022, the RBI made effective a prompt corrective action (PCA) framework to further strengthen the supervisory tools applicable to NBFCs. The objective of the framework is to enable supervisory intervention at the appropriate time.

It requires the supervised entity to initiate and implement remedial measures in a timely manner to restore its financial health. It does not preclude the central bank from taking any other action as it deems fit at any time, in addition to the corrective actions prescribed in the framework.

The PCA framework applies to all NBFC-Ds and all NBFC-NDs in the middle, upper and top layers, identified under the new SBR. It excludes NBFCs not accepting/ not intending to accept public funds, government companies, primary dealers and HFCs.

The risk thresholds when breached that may result in invocation of PCA are:

For NBFC-Ds and NBFC-NDs (excluding CICs):

Indicator	Risk threshold 1	Risk threshold 2	Risk threshold 3
CRAR	Up to 300 bps below the regulatory minimum CRAR (currently, CRAR <15% but ≥12%)	More than 300 bps, but up to 600 bps below regulatory minimum CRAR (currently, CRAR <12% but ≥9%)	More than 600 bps below regulatory minimum CRAR (currently, CRAR <9%)

Credit concentration norms

RBI, in its April 19, 2022, guidelines on Large Exposure Framework for Non-Banking Financial Company – Upper Layer (NBFC-UL), permits exposures to the original counterparty to be offset with certain credit risk transfer instruments. These include instruments such as cash margin/caution money/security deposit against which the right to set off is available, held as collateral against the advances, and government guaranteed claims (0% risk weight for central and 20% for state government for CRAR computation) However, this was exclusive to NBFC-UL.

In a move towards standardisation, the RBI has extended this provision to NBFCs in the middle and base layers. This harmonisation levels the playing field for all NBFCs across layers.

Out of 9,306 RBI-registered NBFCs (excluding HFCs), only 9 falls under the NBFC-UL category, while the majority are in the middle and base layers.

Regulatory measures towards consumer credit and bank credit to NBFCs

In November 2023, RBI announced measures to address concerns over unsecured loans by increasing the risk weight on such loans by 25 % for all lenders and bank loans to NBFCs. This move follows the RBI's earlier cautionary stance on the rapid growth of consumer credit and the increasing reliance of NBFCs on bank borrowings.

The RBI had been warning banks and non-banks to strengthen their internal surveillance mechanisms, identify potential risks, and implement safeguards to mitigate them. After monitoring the situation for several months, the RBI decided to increase the risk weights on consumer credit exposure of banks and NBFCs from 100% to 125%.

The increased risk weights will apply to commercial banks' consumer credit exposure, including personal loans, but excluding housing loans, education loans, vehicle loans, and loans secured by gold and gold jewelry. Similarly, NBFCs' retail loans, excluding housing loans, education loans, vehicle loans, loans against gold jewelry, and microfinance/SHG loans, will also attract a 125% risk weight. Credit card receivables of scheduled commercial banks (SCBs) and NBFCs will now carry a risk weight of 150% and 125%, respectively.

Furthermore, the RBI has increased the risk weights on SCBs' exposures to NBFCs, excluding core investment companies, by 25 percentage points, where the existing risk weight is below 100%. Loans to Housing Finance Companies (HFCs) and priority sector-eligible loans to NBFCs will be exempt from this increase.

Segment	Old risk weight	New risk weight
Consumer credit exposure – Banks & NBFCs	100%	125%
Credit card receivables – Banks	125%	150%
Credit card receivables – NBFCs	100%	125%

Bank credit to NBFCs	Increase by 25% where extant risk weight is below 100%

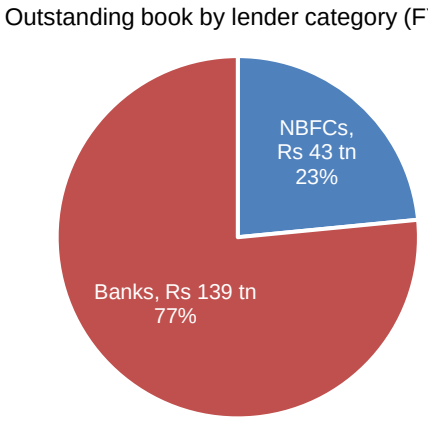

In addition to these measures, the RBI has directed regulatory entities to review their sectoral exposure limits for consumer credit and establish board-approved limits for various sub-segments, including unsecured consumer credit exposures. These limits will be strictly monitored by the Risk Management Committee on an ongoing basis as part of prudent risk management practices.

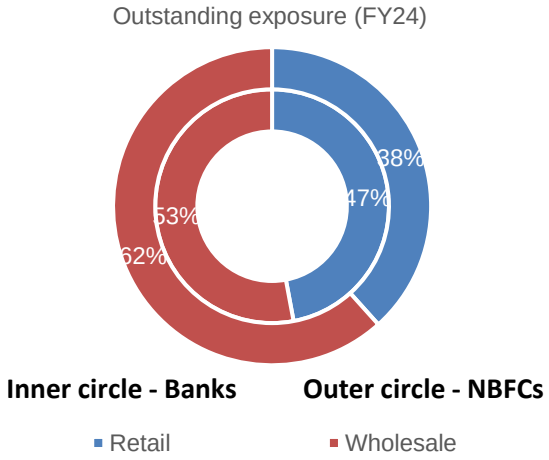

The move by RBI on increase in risk weights will result in higher capital requirements for the lender translating into higher lending cost for borrowers. Entities with exposure to consumer loans will accelerate their incremental capital raising plans to augment their capital buffers. A spike in borrowing costs and capital raising activities concentrated to larger entities will provide impetus for securitisation and co-lending.

Overview on NBFC sector

Credit growth faces temporary turbulence amid challenges in managing unsecured credit

Wholesale credit continues to dominate lending

The financing market, including banks (excluding agriculture credit) and NBFCs/HFCs, stood at Rs 182 trillion as of March 2024. Banks dominated the market with a Rs 139 trillion share and NBFCs accounted for the remaining Rs 43 trillion. While wholesale lending is a major segment for both banks and NBFCs, the share of loans of NBFCs/HFCs—excluding two major government infrastructure finance companies—tilted towards retail at 61%.

Momentum in credit growth continued in fiscal 2024, fuelled by the key retail segments of vehicle and personal loans and microfinance and housing finance. On the wholesale front, segments such as MSMEs and infrastructure financing drove growth. In fiscal 2023, there was a resurgence in credit growth, mirroring pre-pandemic trends. This marked a turnaround from the slower growth witnessed in fiscals 2021 and 2022 due to pandemic-related disruptions. Notably, non-banking finance companies' credit grew at a healthy CAGR of 13% between fiscals 2020 and 2024.

India's real gross domestic product (GDP) has exceeded forecasts, expanding at 8.2% in fiscal 2024. While growth is expected to moderate to 6.8% this fiscal, it will still outpace the pre-pandemic decadal average of 6.7%, solidifying India's position as the fastest-growing major economy.

The Reserve Bank of India (RBI) has maintained status quo on interest rates since February 2023, citing slower cooling of inflation and a strong growth trajectory. Its cautious approach differs from the monetary policy stance of other major global central banks that have initiated rate cuts. The RBI's decision is driven by its concerns over elevated food prices, which have persisted for over a year, and the potential impact of geopolitical tensions and

surging global commodity prices on inflation.

In its latest meeting in December 2024, the RBI's Monetary Policy Committee (MPC) maintained its stance at neutral. The recent surge in headline inflation – the RBI's main target – in the past three months ruled out a rate cut. Despite this, the MPC acknowledged the significant slowdown in economic growth during the second quarter of this fiscal. By retaining a neutral stance, the MPC preserves its flexibility to adjust the repo rate in future policy decisions, contingent on emerging economic trends and data.

CRISIL MI&A Research expects a favourable environment for rate cuts to emerge, with the first one likely in February, driven by expectations of easing food inflation and benign non-food inflation to drive down headline CPI inflation.

Performance of NBFCs to remain healthy in fiscals 2025 and 2026

NBFCs' credit grew 19.7% on-year in fiscal 2024, but the momentum is expected to moderate, with a projected expansion of 17-18% in fiscals 2025 and 2026 amid short-term headwinds. Retail segments will continue to drive credit growth, although the unsecured lending segment is likely to normalise from an elevated base. Meanwhile, the RBI's vigilant oversight and recent risk weight circular will temper growth in unsecured portfolios, ensuring a more measured pace of expansion. On the other hand, wholesale credit is expected to grow faster, supported by momentum in infrastructure finance NBFCs and MSME lending.

The retail segment was driven by strong growth in vehicle, personal and housing loans and microfinance in fiscal 2024, while on the wholesale front, MSMEs and infrastructure finance, particularly power finance companies, led the way with high double-digit growth rates.

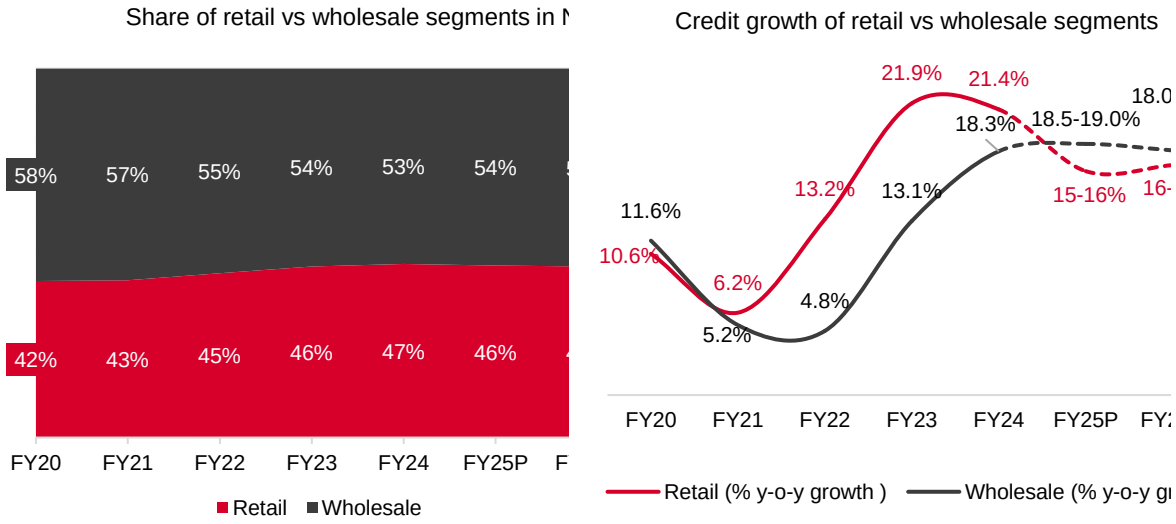

Lending to MSMEs has gained traction over the past three fiscals, with NBFCs' increasing focus on unsecured business loans amid higher competition from banks in the traditional segments.

Also, consolidation within certain corporate groups and other corporate activities indicate buoyancy among NBFCs and expectations of good credit conditions, albeit with a pinch of caution. The entry of a new player in the retail space is expected to intensify competition in the fiscals to come.

Asset quality continued to show a declining trend in fiscal 2024, with gold and personal loans being the exception. However, some stress in collections has been witnessed in unsecured lending segments such as microfinance and personal loans since December 2023. This was also visible from the declining collection efficiencies of MFIs in securitised pools.

The buoyant growth since fiscal 2022 is in sharp contrast to fiscal 2021, when the Covid-19 pandemic brought economic activity to a sudden halt and slowed demand for credit, impacted by funding challenges. But banks benefitted in this milieu and used their surplus liquidity to gain market share in a few key segments. In fiscal 2022, the economy began to reopen, and lockdowns were relaxed after the second wave of the pandemic, leading to normalisation of business activities—this drove credit growth in most segments.

Recovery in wholesale lending and a steady retail segment to aid short-term credit growth

2) Wholesale includes MSME, real estate and large corporate, infrastructure and construction equipment loans
Source: Industry, CRISIL MI&A Research

Strong credit growth momentum over the last two fiscals has driven up the share of the retail segment in the lending mix by 100 bps to 47% in fiscal 2024. Going forward, the growth trend is expected to moderate owing to a cautious approach to unsecured lending and visible stress in the unsecured book, especially the microfinance and personal loan segments. The microfinance and personal segments have seen higher slippages in stage 1 loans in the first and second quarter of fiscal 2025 due to overleveraging of customers and the impact of elections. The share of the retail and wholesale segments is expected to be steady at 46% and 54%, respectively, in fiscals 2025 and 2026.

Over the past two fiscal years, the retail segment has experienced robust credit growth of over 20%. However, CRISIL expects the pace to moderate to 15-16% in fiscal 2025 and 16-17% in fiscal 2026. In contrast, wholesale credit growth has been strong, with an 18.3% increase in fiscal 2024, and the segment is projected to continue growing at 18.5-19.0% in fiscal 2025 and 18.0-18.5% in fiscal 2026. The slowdown in retail growth is attributed to the normalisation of unsecured segments that had previously experienced rapid growth—the normalisation followed RBI's risk weight circular and the challenging environment in the microfinance industry due to asset quality woes. Meanwhile, the wholesale segment is expected to benefit from improvements in underlying asset quality and focused investment in infrastructure.

Post the NBFC crisis of fiscal 2018, the retail segment had led the NBFC sector’s growth, while the wholesale segment posted low single-digit growth between fiscals 2020 and 2022. In fiscal 2023, the retail segment grew a sharp 22% and wholesale lending expanded 14%. While credit growth in the retail segment was broad-based, the MSME segment drove growth in the wholesale segment, supported by steady growth in infrastructure financing on a high base.

The retail portfolio of NBFCs stood at Rs 20 trillion as of March 2024. Within the space, the unsecured portion expanded from 17% in fiscal 2020 to 28% in fiscal 2024. The RBI circular acted as a catalyst against this backdrop of rapid growth in unsecured lending by NBFCs and banks and its underlying risks.

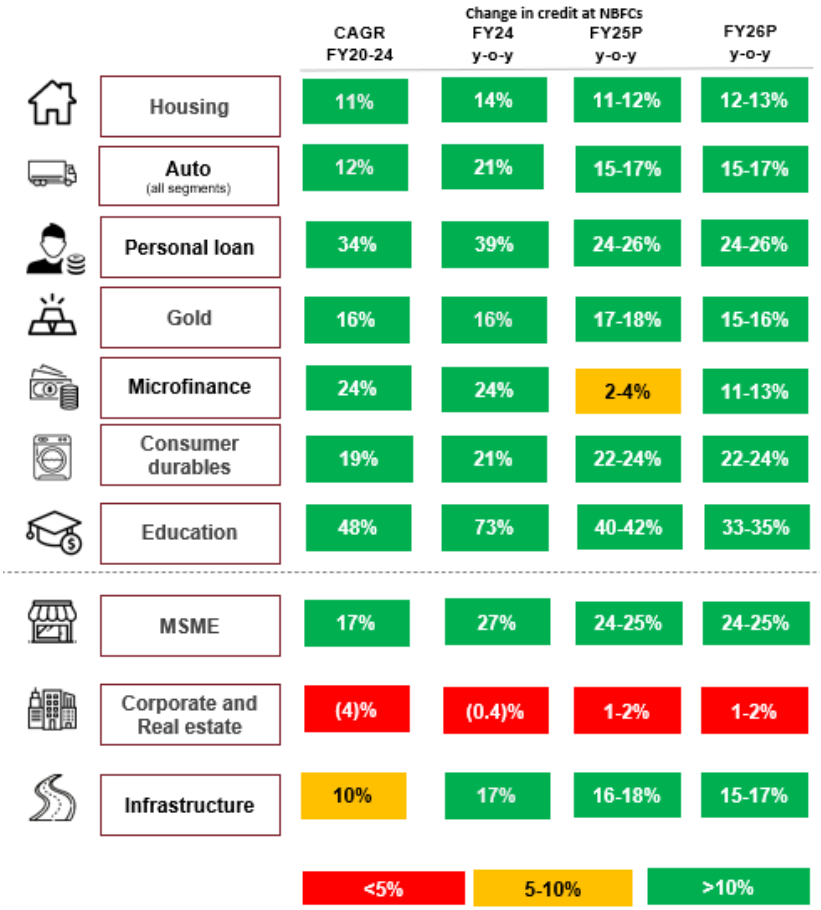

Higher inflation, along with stagnant income, could cramp the borrower's repayment capability. Overleveraging at the borrower's end could also augment asset quality vulnerability. This is further exacerbated in unsecured lending, where there is no recourse to collateral and, hence, the loss given default is high. Following RBI's circular, lenders are required to keep higher capital buffers against such exposures. The impact of the circular was visible in the second half of fiscal 2024, with reduced growth in the unsecured segment. CRISIL MI&A Research expects the growth to moderate to 17-18% in fiscal 2025 and to 21-22% in fiscal 2026.

Between fiscals 2021 and 2024, i.e. the post-pandemic period, the secured segment logged 14% CAGR, surpassing

pre-pandemic growth of 8%. In contrast, the unsecured segment clocked a staggering 38% CAGR as NBFCs expanded their reach by targeting the new-to-credit customer segment and focusing on Tier 2 and lower-tier cities.

A decadal low savings rate of Indian households of 5.1% owing to rising financial liabilities indicates a debt-driven consumption-led post-pandemic recovery. The emergence of fintech companies (fintechs) has played a key role in driving the growth of the unsecured segment. Fintechs have been at the forefront of innovative lending practices, often catering to segments that traditional financial institutions might not reach.

Rounded growth across segments to be supported by underlying asset demand

Housing: The credit growth of the housing finance sector peaked at 14% in fiscal 2024. This growth was led by affordable housing finance companies and prime housing finance companies. According to CRISIL MI&A Research, the growth of housing credit is projected to moderate to 11-12% in fiscal 2025 and to 12-13% in fiscal 2026 after peaking in fiscal 2024. This moderation is attributed to a slower economic growth of 6.8% and the delayed impact of anticipated rate cuts in the second half of fiscal 2025. In addition, a projected housing demand growth of 9-11% in India's top 10 cities, and capital values increasing 4-6%, will also act as an anchor for credit growth.

Auto finance: Commercial vehicle financing has the largest share within auto finance at NBFCs. Commercial vehicle sales in fiscal 2024 are projected to exceed pre-pandemic levels due to increased government spending and robust demand in sectors such as construction and mining. This in turn is estimated to have supported the

healthy growth momentum of financiers in fiscal 2024. The sale of used vehicles, in addition to new vehicles, is also gathering momentum and expected to maintain pace over the medium term. CRISIL MI&A Research projects credit growth in this segment to moderate to 15-17% in fiscals 2025 and 2026.

Gold loans: NBFCs' gold loan credit grew 16.4% in line with a CAGR of 16% between fiscals 2020 and 2024. The higher growth was owing to the low base of fiscal 2023, when NBFCs logged credit growth of 8% due to intense competition from banks and asset quality concerns. Going ahead, credit growth momentum is expected to continue at the industry level, with growth projected to reach 17-18% in fiscal 2025 followed by a slight moderation to 15-16% in fiscal 2026. NBFCs' credit growth has been weighed down by RBI's curbs on new sanctions, shrinking their portfolios. However, with the ban lifted on September 19, 2024, for a key gold finance NBFC, growth is expected to rebound.

Microfinance: The microfinance industry logged a CAGR of 17% over fiscals 2020 and 2024, with NBFC-MFIs growing at the faster CAGR of 24% and capturing the market share of banks that clocked 12% growth. In fiscal 2024, disbursements by NBFC-MFIs grew 6%, aggregating Rs 1,383 billion compared with Rs 1,306 billion in fiscal 2023. Collection-related challenges were seen in the second half of fiscal 2024 due to overleveraging as multiple loans were borrowed by a household. Going ahead, CRISIL MI&A Research estimates that the growth of NBFC-MFIs will decline sharply to 2-4% in fiscal 2025 before improving the pace to 11-13% in fiscal 2026. The growth will be primarily supported by NBFC-MFIs' increased penetration in new geographies.

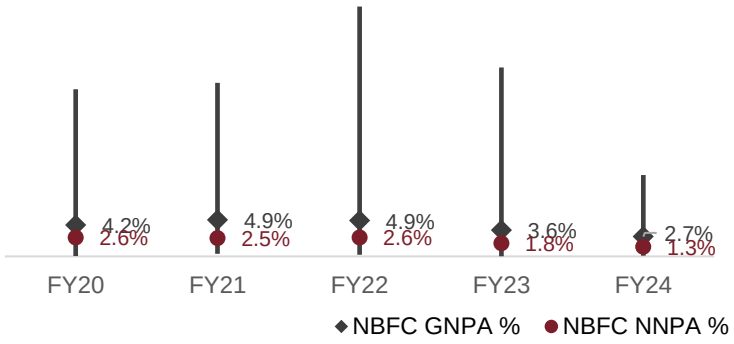

MSMEs: The MSME segment has a fundamental link to economic activity and was severely impacted during the pandemic. That said, post pandemic, the sector has logged healthy double-digit growth supported by expansion in corporate India's revenue. CRISIL MI&A Research estimates MSME credit growth to continue leading in the wholesale segment on the back of momentum in secured loans in fiscal 2025 and 2026.

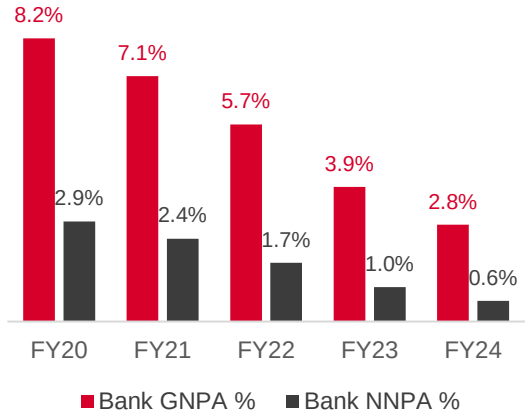

Real estate and corporate: The wholesale portfolios of NBFCs/HFCs are systematically being trimmed to bottom out. NBFCs/HFCs are collectively shifting their focus towards the retail business. This led to a muted growth of -0.4% in fiscal 2024. CRISIL MI&A predicts that the wholesale book of NBFCs will start to recover in fiscal 2025, with a growth rate of 1-2%, which is expected to be sustained in fiscal 2026.

Infrastructure (including PFC and REC): The infrastructure book of NBFCs grew at 16.6% in fiscal 2024 following a growth of 13.4% in fiscal 2023. The growth momentum can be traced to investments in renewable power and a pick-up in the transmission and distribution sector amid increased power demand. For fiscal 2025, the healthy growth momentum is expected to continue, driven by significant government capex. Additionally, REC has been appointed the nodal agency to oversee the coordination and implementation of the rooftop solarisation project announced in January 2024. Given these factors, CRISIL MI&A Research expects NBFCs' infrastructure book to grow 16-18% in fiscal 2025, with a sustained momentum of 15-17% in fiscal 2026.

The asset quality of NBFCs continued to improve till March 2024, but challenges in the unsecured lending segments and high PAR 90 in the gold finance segment will lead to an increase in NPAs in the short term. In addition, credit costs and write-offs are also expected to be elevated in fiscal 2025 due to deterioration in the unsecured lending portfolio, especially microfinance and personal loans.

Housing: In fiscal 2024, the housing portfolio's GNPA decreased 40 bps to 1.4% due to resilience of prime HFCs' customer base during the pandemic. Effective collections and higher provisioning also contributed to the improvement. For fiscals 2025 and 2026, there is no indication of a surge in bad loans or write-offs, which should keep GNPA stable. Furthermore, the RBI's expected rate cut in the second half of fiscal 2025 is likely to ease the burden of expensive loans on customers. CRISIL MI&A Research projects asset quality in the retail home loan segment to remain rangebound at 1.3-1.4% in fiscal 2025 and improve marginally to 1.2-1.3% in fiscal 2026.

Auto: The industry's stress levels, which peaked during the pandemic, have now returned to pre-pandemic levels. Its GNPA has seen a moderate downturn, but stress in certain segments, such as two-wheelers and tractors, remains at the higher end. Industry GNPA corrected slowly from a high of 6.6% in fiscal 2022 to 4.5% in fiscal 2024.

Gold finance: This segment is safer from an asset quality perspective, as players can rely on gold auctions to manage GNPA. The liquid nature of collateral, combined with the recent increase in gold prices, is expected to keep ultimate loss given default modest. Gold loan NBFCs typically maintain loan to value (LTV) ratios of 60-70%, providing a sufficient buffer against price fluctuation. In fiscal 2024, GNPA surged primarily due to significant slippages in a major NBFC's book following the RBI's regulatory actions. Historically, GNPA has been managed through recoveries via gold auctions, though customer-centric gold financing often resolves NPAs through repayments. Moreover, with most teaser loans already migrated to higher rates, further slippages are likely to be limited. CRISIL MI&A Research projects GNPA of the gold loan segment to remain stable at 2.6-2.7% in fiscal 2025 and 2.5-2.6% in fiscal 2026.

Microfinance: In March 2024, GNPA of the NBFC-MFI book stood at 2.40%, up 20 bps from 2.20% in the first half of fiscal 2024. This increase was mainly attributable to overleveraging of borrowers and challenges faced by lenders in specific geographies. GNPA of the NBFC-MFI book declined to 2.90% in March 2023 from a peak of 6% in March 2022. In the first quarter of fiscal 2025, GNPA deteriorated 20-40 bps across NBFC-MFIs, due to disruptions in collections on account of elections, loan waiver protests, and floods in a few geographies. The regulator has urged lenders to review pricing policies to avoid usurious interest rates. To address rising delinquencies, the regulator has strengthened underwriting standards, such as capping monthly repayment obligations and maximum exposure per borrower. CRISIL MI&A Research expects GNPA to remain elevated at 3.8-4.2% in fiscals 2025 and 2026.

MSME: In March 2021, asset quality of MSME loans deteriorated due to Covid-19, as borrowers' income was impacted, leading to a rise in GNPA. However, with continued improvement in economic activity, better collection efficiency and strong credit growth, GNPA decreased by March 2023. In March 2024, the ratio stood at 4-5%. Private banks, which serve relatively low-risk customers, have better asset quality than other lenders, including NBFCs, which serve customers with limited or no documented income. CRISIL MI&A Research expects asset quality to remain in the range of 4-5% in fiscal 2025 due to expected slippages as the portfolio seasons.

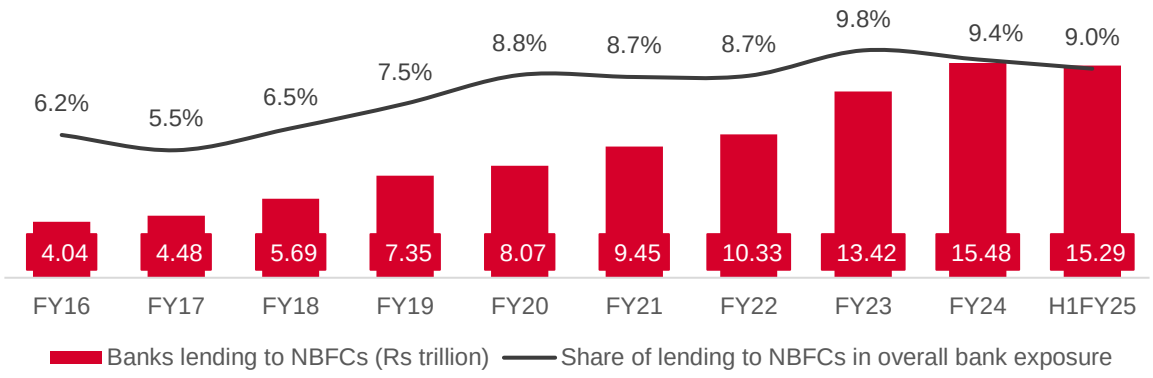

Real estate and corporate: Stress in the real estate and corporate segments has remained higher than in other segments. CRISIL MI&A Research estimates the overall stress in the wholesale book to be high, including contractual moratorium, book under extension by date for commencement for commercial operations (DCCO) extension. The wholesale GNPAs of NBFCs/HFCs moderated marginally in fiscal 2024. However, for a few players, GNPAs were in high double digits owing to a continued decline in wholesale book and no new disbursements. CRISIL MI&A Research estimates the overall GNPA to remain on a higher side — at 8-10% — this fiscal.

Infrastructure (including PFC and REC): Most of the borrowers of PFC, REC and IREDA are state-owned entities covered by state government guarantees. Hence, delinquencies are restricted. The industry's GNPA fell

76 bps to 2.88% in fiscal 2024 and is expected to continue its downward trend, stabilising at 2.5-2.7% in fiscals 2025 and 2026. The loan book has shown significant improvement in asset quality, with non-performing loans declining from 7% in fiscal 2020 to 3% in fiscal 2024.

Share of bank funding expected to moderate in the near to medium term for NBFCs

Impact of risk weight circular and hardening of rates led to a decline in share of banks' lending to NBFCs

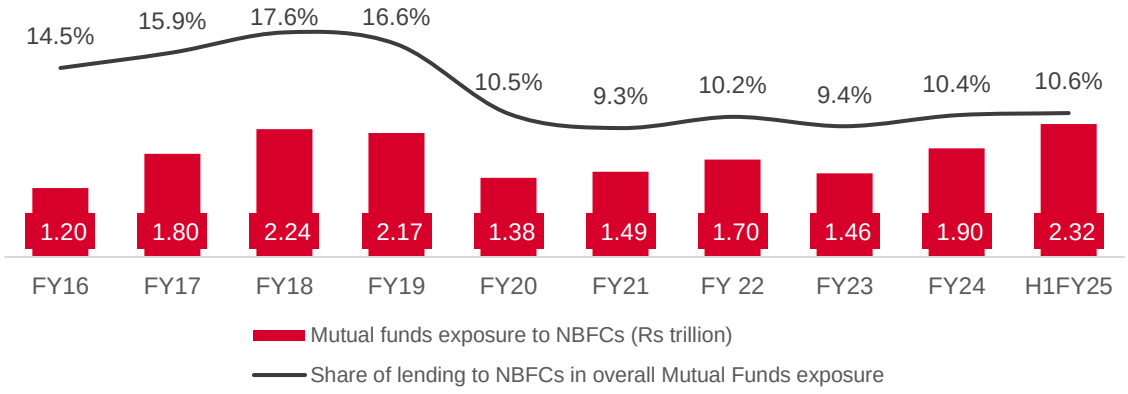

Source: RBI, CRISIL MI&A Research

In absolute terms, banks' credit exposure to NBFCs increased 16% on-year to Rs 15.5 trillion in fiscal 2024 from Rs 13.4 trillion in fiscal 2023. On the other hand, the share of NBFCs in the overall credit exposure declined from 9.8% in fiscal 2023 to 9.4% in fiscal 2024 and further to 9.0% in September 2024. The moderation was driven by dynamic management of banking liquidity, which led to increased lending rates among banks and was further compounded by the RBI's risk weight circular.

The weighted average lending rates on outstanding rupee loans for banks increased from 8.72% in April 2022 to 9.88% in October 2024 (9.90%, if HDFC merger is excluded). Hardening of bank lending rates in relation to other funding avenues such as domestic capital markets and ECBs could lead to further moderation in the share of bank borrowings going forward.

Bank lending to NBFCs has grown almost four times in the past 10 years. More recently, amid increasing interest rates, term loans of banks became the preferred source of borrowing as the rates transmitted to bank lending rates with a lag.

Debt mutual fund investment in NBFCs sees a pick-up this fiscal

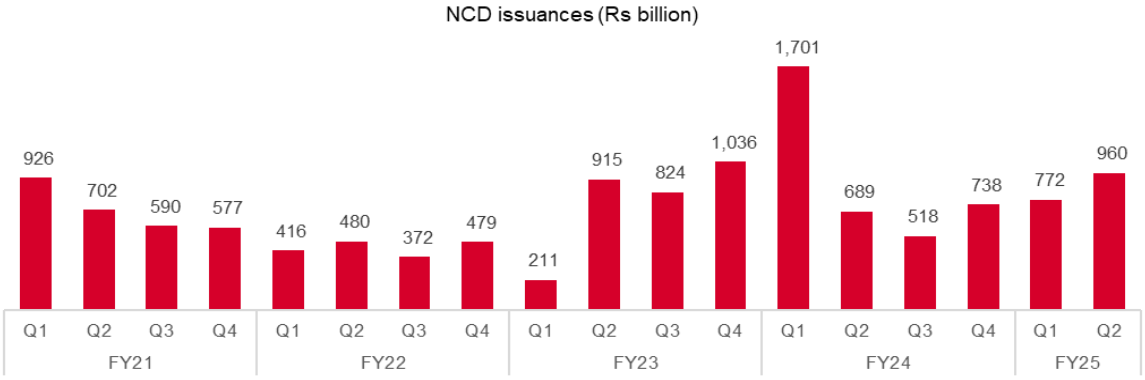

Note: Exposure refers to debt mutual funds
Source: Securities and Exchange Board of India, CRISIL MI&A Research

The IL&FS crisis in fiscal 2019 led to funds becoming extremely cautious towards investing in NBFCs. Exposure declined from ~18% in fiscal 2018 to 10% in fiscal 2022, and this trend continued until fiscal 2023, with the lowest share at 9.4%. Thereafter, investments saw a pick-up in both commercial papers and non-convertible debentures (NCDs), supported by healthy balance sheets of non-banks and improvements in asset quality and credit momentum. As of end-fiscal 2024, debt mutual fund allocation towards NBFCs stood at 10.4%, which further increased to 10.6% in September 2024.

The growth trend continued in fiscal 2025, with an increase of over 19 bps during the first six months. In September 2024, investments in commercial paper stood at Rs 1.22 trillion and in corporate bonds at Rs 1.10 trillion.

NCD issuances plummeted after the first quarter of fiscal 2024, impacted by the HDFC merger as a significant issuance was made by HDFC Ltd in May 2023 (~37%) and June 2023 (~31%) out of total issuances of NCDs. Subsequently, the company merged with HDFC Bank with effect from July 2023.

NBFC issuances rebounded 42% on-quarter to Rs 738 billion in the last quarter of fiscal 2024. This surge led total issuances to grow 22% on-year in fiscal 2024. The momentum has continued, with NCD issuances reaching a four-quarter high of Rs 960 billion in the second quarter of fiscal 2025, indicating a sustained upswing in the market.

NCD issuances in the retail segment perform better than in the wholesale segment

In fiscal 2023, NCD issuances surpassed fiscal 2020 levels across all retail segments, with the highest increase in education loans on a low base of fiscal 2022. Issuances also picked up in the wholesale segment, driven by infrastructure finance issuers.

In fiscal 2024, total NCD issuances surpassed fiscal 2023 levels by 23%. Though HFCs' issuances fell 17% on-year, they still accounted for the largest share (29%), followed by infra finance companies (28%) and auto finance (17%). The three segments collectively formed ~75% of total issuances.

Bank originations gather pace, mitigating impact of HFC exit and regulatory measures on gold finance

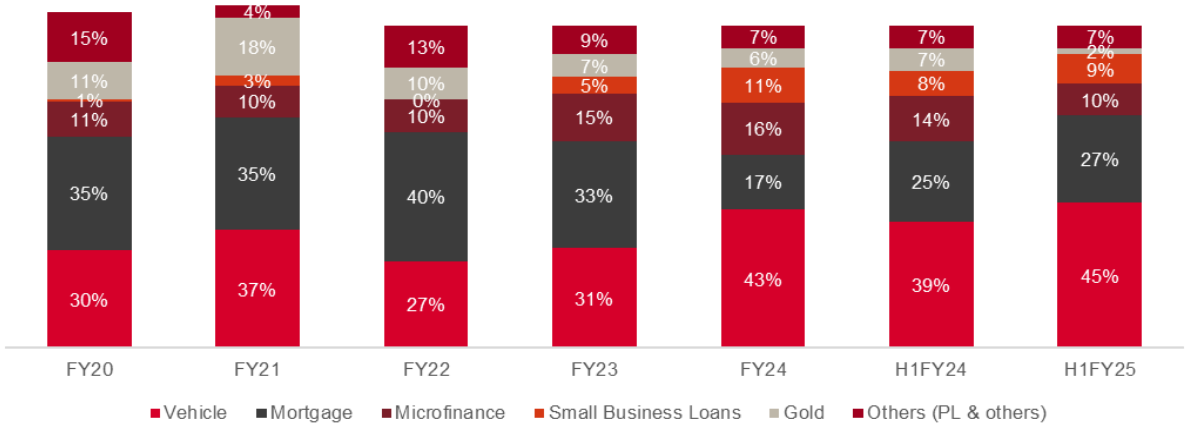

In the second quarter of this fiscal, securitisation volume surged 56% on-year to approximately Rs 700 billion, driven by significant offerings from a major private sector bank and a few NBFCs specialising in vehicle financing. Notably, the first half of the fiscal saw broad participation from 150 originators, which was significant compared with 165 originators seen throughout the entire previous fiscal. Furthermore, investors such as mutual funds have shown renewed interest in the market.

The number of originators involved in securitisation transactions increased to 165 (completing ~1,100 transactions) in fiscal 2024 compared with 160 (~1,000 transactions) in fiscal 2023. Despite the exit of a major HFC originator from the market following its merger with a bank in the second quarter of fiscal 2024, overall market activity remained resilient, posting a growth rate of over 5%. Adjusted for the significant HFC's volume, the growth rate accelerated to around 27%. This upward trend continued into fiscal 2025, with securitisation volume growing 15% on-year to Rs 1,150 billion in the first half.

In the first half of fiscal 2025, vehicle loans accounted for a significant 45% of total securitisation volume, maintaining their position as the largest asset class. Meanwhile, mortgage-backed securitisation loans experienced robust growth of around 23% and reclaimed a 10% share of the market. The personal loan (7%) and business loan (9%) segments maintained their market shares, but microfinance loans saw a significant decline (from 16% to 10%). This decline was attributable to originators' cautious approach to new lending and growth due to emerging concerns over asset quality. As a result, microfinance securitisation is expected to slow down in the third quarter, as investors wait for collection performance to stabilise. Additionally, gold loan securitisation remained stagnant during the first half of fiscal 2025, as the regulatory ban was only lifted late in the second quarter of this fiscal, limiting its growth.

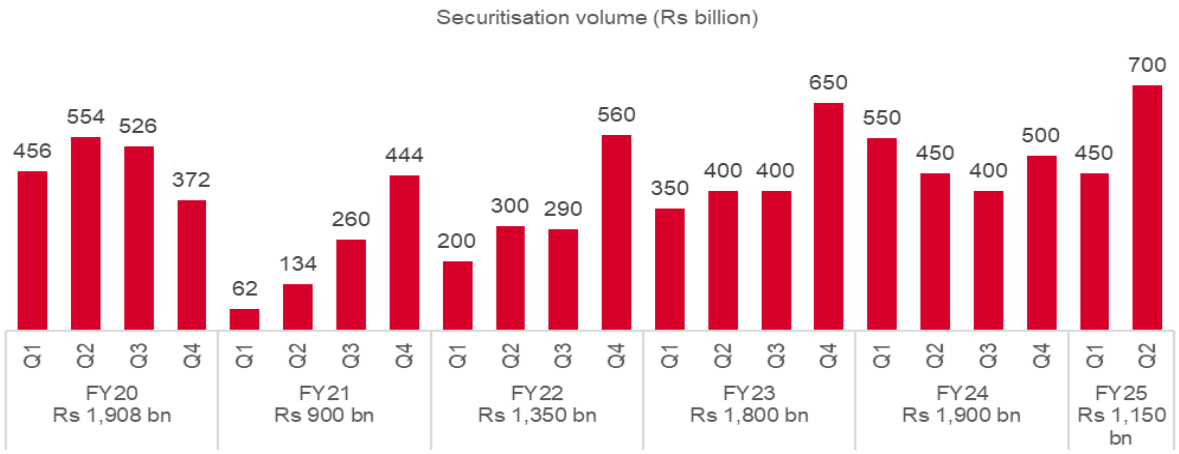

The investor base in the securitisation market remained largely unchanged in the first half of fiscal 2025, with banks dominating the market with more than 70% of the volume. Securitisation continues to be an attractive alternative funding source for banks, which are grappling with high credit-deposit ratios. Growth of retail credit at NBFCs, particularly in vehicle financing, has also supported their large-scale originations in the market. Favourable market conditions, including softening yields, have further boosted activity in the securitisation market.

Profitability expected to remain flat with stable margins

Improved NIMs and controlled credit costs are the key reasons for improving or stable profitability outlook in future. In fiscal 2023, the MFI segment, which typically has more pricing power, could improve its NIM. Similarly, the housing segment also improved its NIM, owing to the floating nature of its loan book where it was able to pass on the increase in rates to its customers faster. However, competition from banks and subdued credit demand resulted in NIM compression for the gold segment.

The overall yield and COF for the retail segment are estimated to have gone up in fiscal 2023, due to increasing interest rates. However, the amount of pass-on has been distinct across all segments on account of the level of competition, nature of asset class and segmental credit demand.

The impact of RBI circular on risk weight circular on COF and consequently, NIM and RoA, will be a key monitorable.

Housing: With the aggressive 250 basis point increase in the repo rate in fiscal 2023, followed by its pass-through in fiscal 2024 the yield on assets increased ~70 bps and the weighted average cost of funds ~40 bps, leading to margins and RoA improving to 3.3% and 2.1%, respectively. CRISIL MI&A Research projects a decline in interest income and expenses for fiscals 2025 and 2026, driven by expected RBI rate cuts in the end of fiscal 2025. The extent of the decline will depend on the pass-through of rate cuts to customers and their impact on borrowing costs. Further in this fiscal 2025 and 2026, the anticipated reduction in the repo rate is expected to have a detrimental effect on the portfolio, leading to a 10-basis-point drop in Return on Assets (RoA) to 2.0% and 1.9%, respectively.

Gold finance: Competitive pressure on gold loan NBFCs' Net Interest Margins (NIMs) has eased due to resurgent credit growth, with interest income to average assets rising from 14.9% to 16.1% and expected to reach ~16.3-16.4% this fiscal. However, competition among non-banks is expected to increase in the second half of this fiscal following lifting of the ban on a major NBFC player in the gold finance, expectation of policy rate cut towards the end of this fiscal, moderating interest income to 16.0-16.1% in fiscal 2026. Interest expenses on average assets have inched up and are expected to persist before moderating in the next fiscal. The RBI's scrutiny over evergreening and guidelines for gold loan NBFCs may lead to higher credit costs, but improved efficiency of top NBFCs' should keep operating costs in check. As a result, NIMs are likely to remain range-bound at 10-10.1% this fiscal and the next. RoAs to be in the range of 4.9-5.0% in this fiscal and 5.0-5.2% in the next fiscal.

Microfinance NBFCs: Yields in the microfinance segment are high due to high borrowing costs and riskier borrower profiles. With 100% fixed-rate loans, repo rate changes are immediately passed on to borrowers. After a 250bps hike in fiscal 2023, the Central Bank is monitoring inflation and may cut policy rates at the end of this fiscal. Interest income on average assets are expected to remain higher in near term, subject to some players moderating their interest rates due to RBI's action on two NBFC-MFI that were found to be charging usurious interest rates, this might have some bearing on the segment's overall interest income. Meanwhile, interest expense on average assets will remain elevated on account of higher interest rate environment. However, in fiscal 2026, expectation of decline in policy rates is expected to moderate interest expenses. Overleveraging among borrowers, extreme heatwaves and floods in some parts of the country affected the cashflows. Also, centre meetings and cash collection were affected due to general elections in the first half of this fiscal which increased the GNPAs in this segment leading to higher credit costs. Hence, NBFC-MFIs profitability may be pressured by declining spreads, poor asset quality, higher provisioning costs, and RBI scrutiny of lending rates. Credit costs are expected to rise, leading to lower RoAs of 3.5-3.7% in fiscal 2025, down from 4.6% in fiscal 2024 and 3.7-3.9% in fiscal 2026.

Gold Finance – Review and outlook

Gold loan growth momentum to continue

CRISIL MI&A Research expects gold loan growth to be steady despite regulatory challenges for a few companies

NBFCs growth in the gold loan segment picked up in fiscal 2024, but banks continued to dominate

The overall gold loan segment (banks and NBFCs combined) grew a healthy 22.6% in fiscal 2024, driven by rising gold prices, better asset quality performance and higher interest rates.

Credit growth in this segment has normalised for banks and rebounded post-pandemic for NBFCs, though it grew marginally slower than the compound annual growth rate (CAGR) of 25% logged between fiscals 2020 and 2024. While credit growth of banks in the segment have normalised, credit growth of NBFCs have recovered post a slack seen post pandemic, leading to healthy growth in the overall segment in fiscal 2024, Rising gold prices, better asset quality performance and higher interest rates drove overall growth in the gold loan industry.

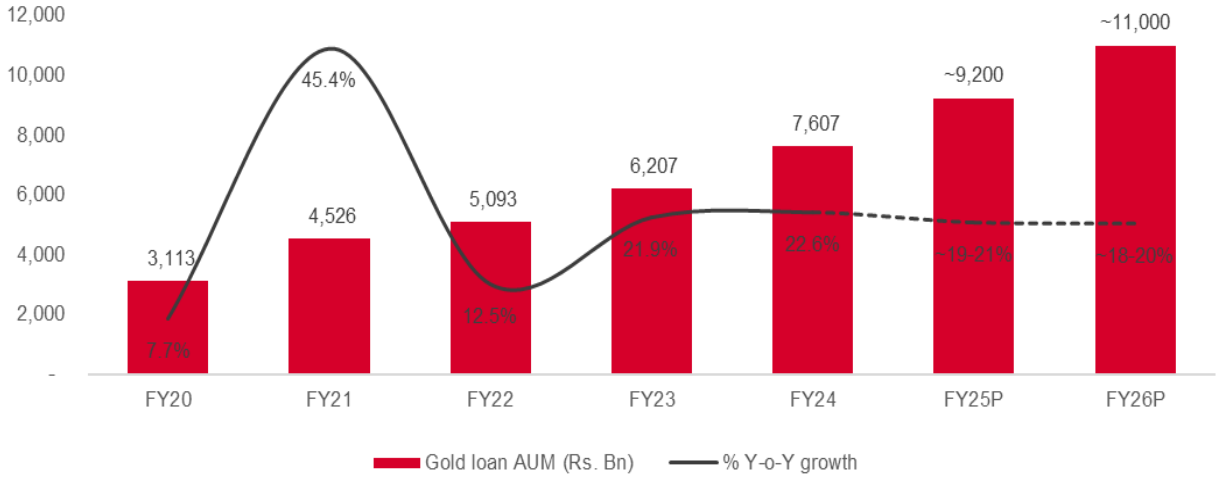

In fiscal 2025, the overall gold loan segment is expected to grow a further 19-21%. NBFCs will continue to lose gold loan market share to banks amid competition, even as their disbursements are expected to recover.

The Reserve Bank of India's (RBI's) regulatory action on IIFL Finance by imposing curbs on new loan sanctions led the company's portfolio to shrink considerably. This hurt overall credit growth of non-banks during the first half of fiscal 2025. However, on September 19, 2024, the RBI lifted the ban on IIFL Finance's gold loan business with immediate effect, allowing it to sanction, disburse, assign/ securitise, and sell gold loans.

On September 30, 2024, the RBI expressed concerns over irregular practices by banks and NBFCs (supervised entities) and asked them to comprehensively review their policies, processes and practices on gold loans to identify gaps and initiate appropriate remedial measures. The RBI identified the following deficiencies: shortcoming in loan appraisal by third parties such as financial technology firms (fintechs) and business correspondents (BC), valuation of gold in absence of the customer, lack of due diligence and end-use monitoring in the case of non-agri gold loans, lack of transparency during auctions at the time of default, weakness in monitoring the loan-to-value (LTV) ratio, and incorrect application of risk weights. Supervised entities have been given three months to take action in this regard.

This could impact gold loan disbursements during the transition phase and taper gold loan growth both for banks and NBFCs, posing a downside risk to credit growth this fiscal.

Assets under management (AUM) for gold loans to benefit from rising gold prices

Note:

1) P — projected

2) Includes agricultural lending by banks with gold as collateral

Source: Company reports, CRISIL MI&A Research

Gold prices in India are rising due to a reduction in policy rates by major economies amid a global economic slowdown, and heightened geopolitical uncertainties driving gold prices higher globally as investors traditionally

consider gold a “safe haven”. Further, rupee depreciation has made gold imports expensive, leading to an increase in gold prices. An increase in gold prices enables higher credit growth as more credit can be offered on the same quantity of gold.

Further, the outcome of the US presidential election and the RBI's gold accumulation may add to volatility of gold prices, affecting retail demand ahead of the festive season. Reuse of gold jewellery could gain traction, too, replacing new purchases. The recent reduction in import duty from 15% to 6%, as well as cuts in capital gains tax and holding period, could offset the demand dip. Overall, gold loan demand is expected to remain robust.

The customer shift from unorganised to organised players will also support credit growth, largely because unorganised players charge exorbitant interest rates and provide little clarity on valuation of gold and LTV. Also, there is no assurance that the pledged asset will be returned.

CRISIL MI&A Research believes organised financiers will see their share grow, driven by increasing gold loan penetration in the country through geographical diversification and wider popularity of this mode of financing.

Organised gold loan penetration in India is expected to deepen significantly due to wider geographical diversification, a growing branch network, and increasing keenness of households to monetise their gold holdings for personal and business needs. The increase in gold prices and expectations that micro enterprises would fund their working capital requirements through gold loans are also expected to boost gold financing growth. The organised segment has been using digital and online platforms, along with phygital (combination of physical and digital) modes, to do business. The increasing uptake under these modes is expected to be the primary growth driver.

Rising stress in books of microfinance institutions (MFIs), driven by factors such as harsh weather conditions and unsecured loan defaults, is likely to prompt a shift towards secured lending. As a result, MFIs may increasingly focus on gold loans, which offer lower risk and better asset quality due to the gold collateral. This shift can help MFIs diversify their loan portfolios, reduce risk exposure and improve asset quality, making gold loans an attractive option in the current scenario.

Market share interplay between banks and NBFCs in the gold loan segment

Evolving dynamics in India's gold loan space

Banks have historically enjoyed a majority share in the domestic gold loan business. Their share increased significantly whenever there was a major disruption in the financial markets, such as the Global Financial Crisis of 2008, the taper tantrum of fiscal 2014 and the onset of the Covid-19 pandemic in fiscal 2021. Banks perceive gold as a product with relatively better asset quality as it is a liquid collateral. Not only does gold offer a higher rate of interest but also gold prices are likely to increase. In fiscal 2021, during the peak of the pandemic, an increase in the regulatory cap on LTV to 90% for a year provided banks with further incentives to focus on the safer gold loan segment. After fiscal 2021, despite lowering of the regulatory cap on LTV to 75%, banks continued to grow in the segment, as the country reeled under the impact of the second pandemic wave and subsequent reimposition of lockdowns.

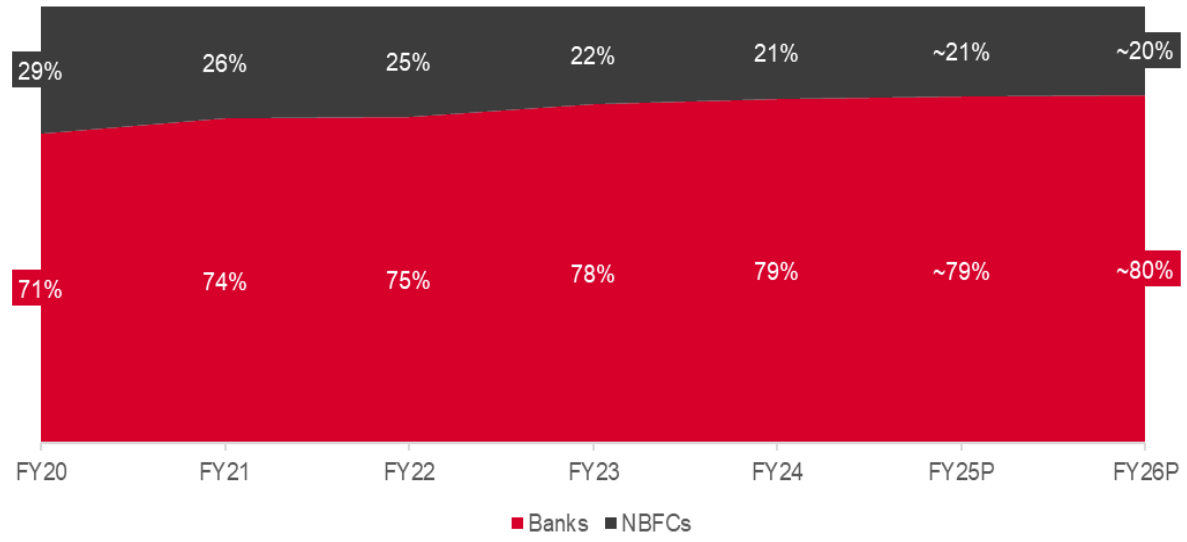

With banks aggressively focusing on the gold loan segment, NBFCs have seen a sustained reduction in their share, including in the last fiscal. Banks are competing in the segment by focussing on agri-gold loans, which qualify for priority sector lending, along with offering lower interest rates to existing-to-bank (ETB) customers in higher-

ticket products. However, NBFCs compete on turnaround time (as low as 5-15 minutes), service levels, ease of processing, and wider and deeper reach geographically.

In the first half of fiscal 2025, competition among banks and NBFCs witnessed some normalisation. However, the ban on a key NBFC benefited some large NBFCs and banks, allowing them to gain market share, which was evenly distributed among all players. Also, lower availability of unsecured loans for borrowers created higher demand for secured gold loans, leading to new customer acquisitions. The top NBFCs in the gold finance space are expected to register healthy double-digit growth.

However, recent RBI concerns over irregular practices at NBFCs, including weaknesses in maintaining LTVs, may negatively impact NBFC growth as this could keep delinquencies elevated. The RBI highlighted the lack of a robust system for periodical monitoring of LTV, which is only checked at the time of sanction and not thereafter. This could lead to a shift in market share towards banks and other players, posing a downside risk to NBFC growth.

NBFCs compete on operating efficiency, turnaround time and local connect, while managing risks

Despite banks having a competitive advantage by offering gold loans at a lower cost, NBFCs have been trying to compete through aggressive branch expansion and a sharper focus on customer experience. They focus more on the gold loan business and have, accordingly, built their service offerings by investing significantly in manpower, systems and processes in line with customer needs. Some key features are listed below:

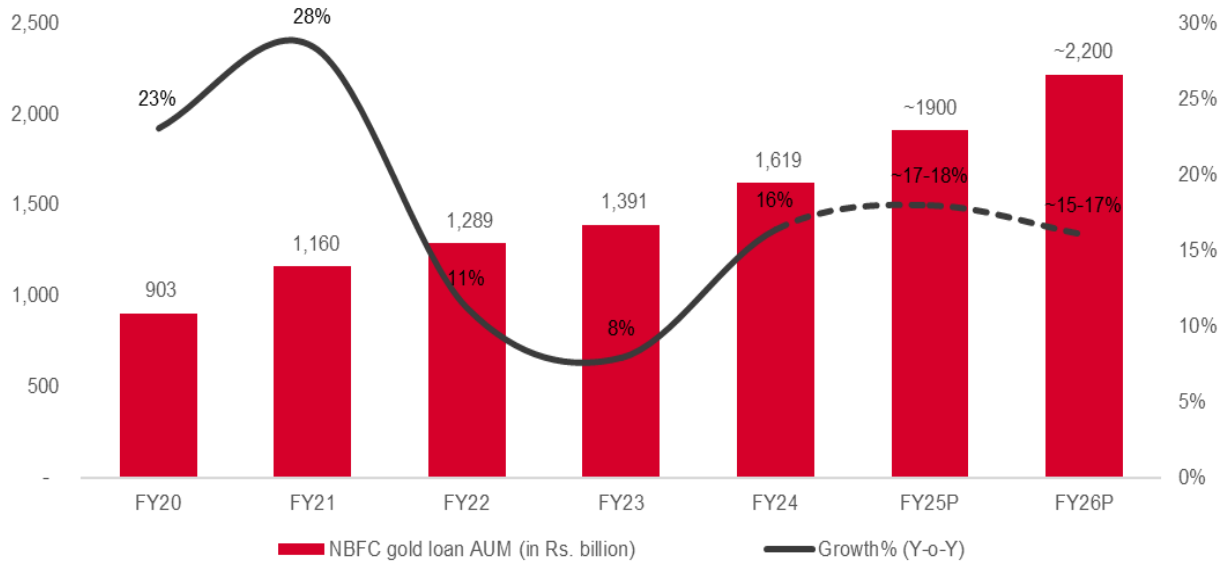

1. **Lower turnaround time and less documentation:** The borrower generally wants to get the loan disbursed as quickly as possible. Availability of well-trained and experienced employees in assessment and valuing gold helps NBFCs disburse loans faster than banks

2. **Wider reach and better local connect:** NBFCs have a wider and deeper reach geographically, especially in rural and semi-urban regions, where demand for gold loans is higher

3. **Risk management process:** Most NBFCs have put in place a comprehensive and robust risk management process based on their experience and considering the key risks involved. These include steps to prevent fraud, ensure safety of the gold stored and recoup losses from possible non-performing assets (NPAs)

4. **Operational efficiency:** Gold loan finance requires operational efficiency in storing, securing, transporting and auctioning assets. Industry leaders Muthoot Finance and Manappuram Finance have achieved significant growth of 14% and 20%, respectively, in AUM per branch, indicating improved operational efficiency. As they account for 60% of the NBFC gold loan market, their performance sets a benchmark for the industry's operational efficiency

Looking to compete more effectively with banks and fintechs, gold loan NBFCs are expanding their reach and customer base through focused marketing strategies, as well as by increasing advertising and employee incentives. They are also working towards ringfencing their high-value customer base (loans >Rs 2 lakh), which is targeted by banks, and expanding to cater to rural low-income customers. Most of the customer base of gold loan NBFCs, though, remains stable, as banks typically cater to larger-ticket sizes.

NBFCs gold loan portfolio logged a CAGR of 15.7% between fiscals 2020 and 2024 despite low credit growth of 7.9% in fiscal 2023. CRISIL MI&A Research projects NBFCs gold loan credit growth at 17.0-18.0% in fiscal 2025 on account of branch expansion and optimisation, expected firming-up of gold prices, an increase in credit demand from the target consumer segment of NBFCs, and easing competition from banks. However, the RBI's recent flagging of irregular practices in the loan-against-gold-jewellery space and subsequent requirement of review of policies, processes and practices to identify gaps and initiate remedial measures are expected to impact growth and pose a downside risk to credit growth.

The average ticket size of gold loans increased over the past five years, as higher gold prices have created headroom for incremental credit due to lowering of the LTV ratio. Since the LTV ratio for NBFCs is capped at 75%, the increase in the average ticket size suggests a rise in the gold loan portfolio owing to higher gold prices. Thus, AUM growth is also led by an increase in ticket size, in addition to higher volumes.

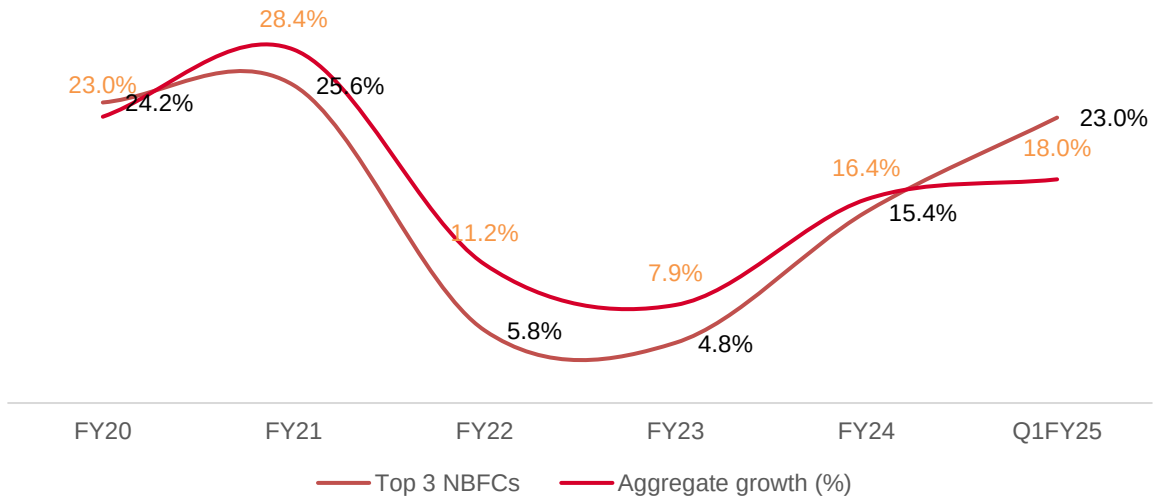

Increase in average ticket size contributed to loan book growth

Average ticket size (Rs lakh)	FY20	FY21	FY22	FY23	FY24
Manappuram Finance	0.39	0.45	0.57	0.58	0.59
Muthoot Finance	NA	0.61	0.69	0.70	0.83
IIFL Finance	0.56	0.59	0.70	0.63	0.90

Post a slack in credit momentum, top three gold financiers witnessed healthy recovery in fiscal 2024

Muthoot Finance and Manappuram Finance together enjoyed close to 60% share in the NBFC gold loan market as of March 2024. Further, Muthoot FinCorp also crossed the Rs 200 billion mark for gold loans as of fiscal 2024. IIFL Finance, Shriram Finance, Muthoot Mini Financiers, Bajaj Finance and Kosamattam Finance were the other key players. The top three companies have an established franchise, a strong regional presence, and a good branch network and reach. The RBI's regulatory action on IIFL Finance led to a decline in the overall portfolio in fiscal 2024 and the first quarter of fiscal 2025.

Note: Top 3 companies include Muthoot Finance, Manappuram Finance and Muthoot FinCorp, accounting for ~80% of NBFC gold loan AUM

The top three companies have taken various steps to maintain their market share. Aggregate growth was impacted by the RBI ban on a key gold loan financier, which was lifted in the second quarter of fiscal 2025. Apart from making significant investments in marketing and employee benefits, the companies also introduced teaser loans in fiscal 2022. Most of the teaser loans were closed or migrated to higher interest rates as of March 2023.

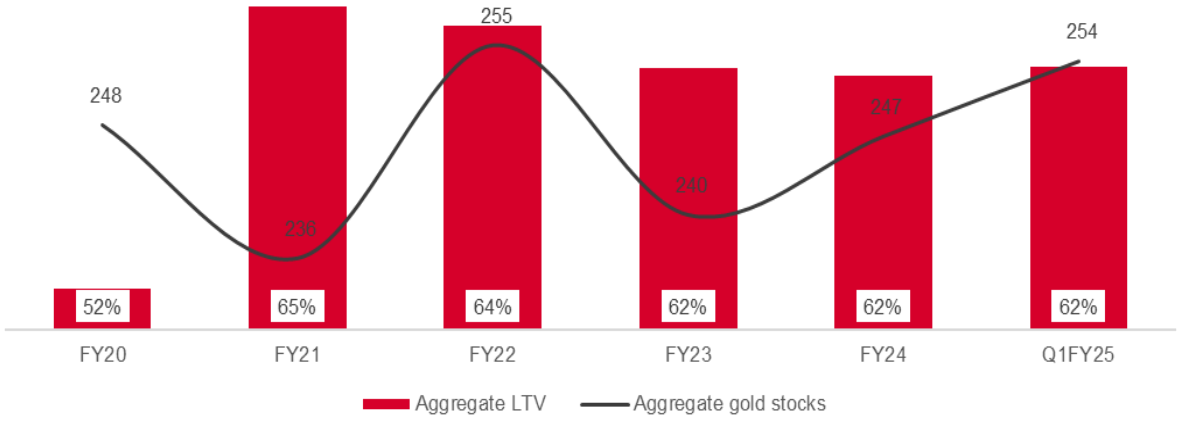

Specialised gold loan NBFCs have a focused approach, and their technological initiatives enable customers to transact online.

Rising gold prices boost gold loan growth as more loan can be taken against the same quantity of gold

Gold stocks of the top two NBFCs declined for much of fiscal 2023, before reporting a moderate uptick in the last quarter of fiscal 2024. The momentum continued in the first quarter of fiscal 2025. Despite the rise in gold stocks,

LTVs remained range-bound at 62-65% from fiscal 2021 to the first half of fiscal 2025, compared with the pre-pandemic level of 55-60%, due to a considerable jump in gold prices.

Gold loan book per tonne indicates growth fuelled by gold prices

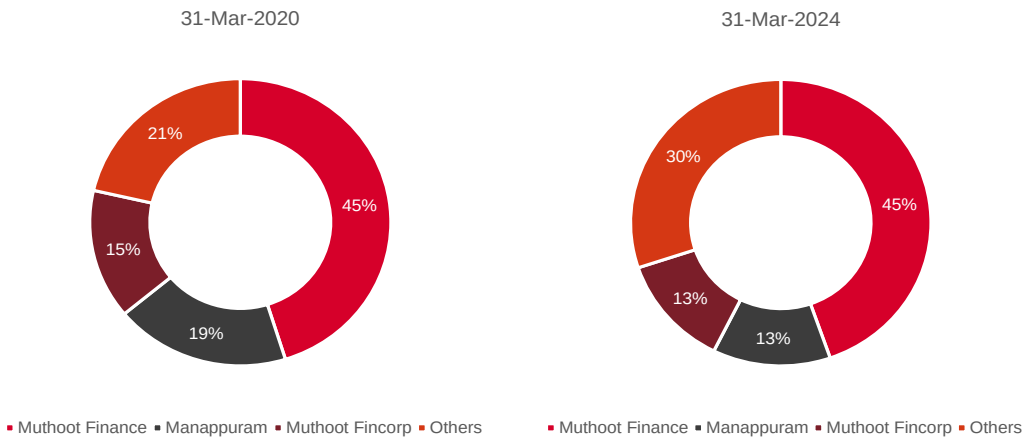

The chart below includes data for the top two gold loan NBFCs. The gold loan book per tonne increased from Rs 2.33 billion in fiscal 2020 to Rs 3.79 billion in 2024 and further to Rs 4.12 billion in the first quarter of fiscal 2025, largely in line with higher gold prices (see the exhibit below). Such a strong correlation between loan book growth and gold prices indicates that any adverse movement in prices will have an adverse effect on credit growth. Gold tonnage per customer for the top two NBFCs combined declined from ~33 gram in fiscal 2022 to ~30 gram in fiscal 2024 and further moderated in the first half of fiscal 2025. On the other hand, the average gold loan outstanding per customer for these two companies increased from ~100,000 in fiscal 2023 to ~114,000 in fiscal 2024 and further to ~122,000 in the first half of fiscal 2025.

Shift in gold loan market share, with key player losing considerable share

Source: Company reports, CRISIL MI&A Research

Southern India retains a major share of AUM

Southern India will continue to have a dominant share in AUM of gold loan NBFCs, though the players will increase their penetration in other regions. Changing consumer perception of gold loans, driven by increasing awareness and funding requirements, will give an impetus to the sector in the other regions.

Note: Aggregate includes Muthoot Finance and Manappuram Finance
Source: Company reports, CRISIL MI&A Research

Demand for gold loans higher in southern states

Southern states accounted for 50-55% of the overall gold loan AUM over the past five years, due to the following factors:

- Gold owners in the region have better awareness about the utility of the yellow metal as a collateral to raise funds

The region has seen the origination and establishment of gold loan franchisees, which have devised simple procedures that ensure quick loan disbursement

Though the southern region continues to dominate, several players have been shifting focus towards untapped markets in the eastern and western regions, which have fewer branches but provide an incremental growth opportunity.

Gross NPAs to remain elevated compared with pre-pandemic levels

The overall industry GNPA for fiscal 2024 increased ~20 basis points (bps) on account of material slippages in the book of IIFL Finance in the fourth quarter of the fiscal due to the RBI's regulatory action – the company's GNPA increased almost 300 bps.

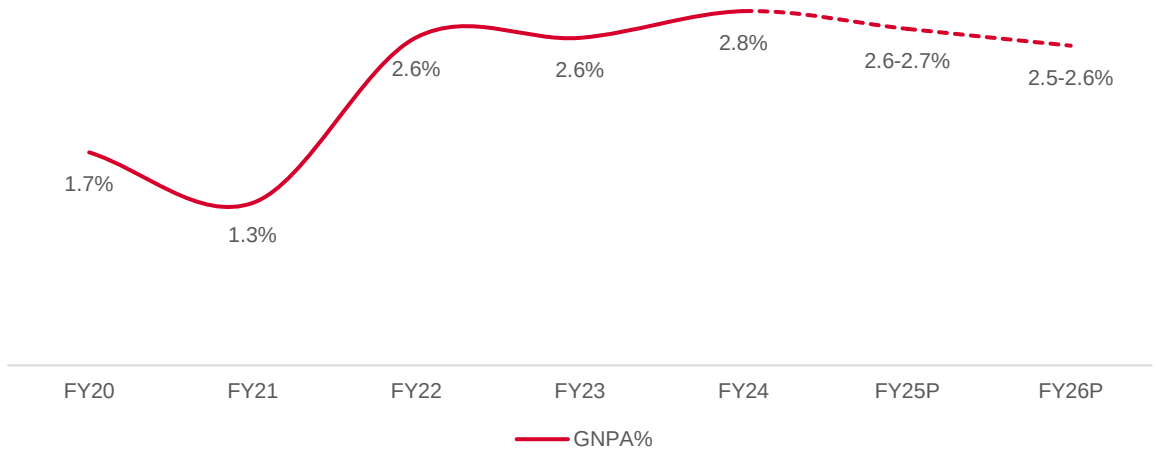

Due to rising gold prices and options with borrowers to take higher/ excess loan against the same quantity of gold, many entities have been observed giving out top-up loans.

The RBI highlighted instances of lack of a specific identifier for top-up gold loans in the core banking system/ loan processing system with no fresh appraisal done at the time of sanctioning of these top-up loans. Further, it noted an unusually high number of gold loans being granted to the same individual with the same Permanent Account Number (PAN) during a financial year. Use of internal accounts for disbursement and repayment of loans was also observed, along with the practice of rolling over loans at the end of tenure, non-categorisation of gold loans as NPA in the system, evergreening by renewing overdue loans/ issuing a fresh loan, and absence of controls over third-party entities. All these factors indicate the irregular practice being followed by gold finance companies including banks leading to evergreening of loans. These observations indicate that delinquencies of gold finance companies could remain elevated as they might tweak their processes and policies to include more loans in their bad-loans bucket.

Also, lower average realisation from gold, as compared with the value of gold, was observed due to discrepancies in valuations. This could also further affect delinquencies.

Regulatory challenges could impact GNPAs going forward. However, better collection efficiency, lower slippages, recovery via auctions, and sale of stressed assets might offset any adverse impact. Hence, at the industry level, CRISIL MI&A Research expects GNPAs to remain range-bound at 2.6-2.7%. Though gold financing involves personal connect with customers, gold auctions tend to be the last resort for recoveries. Typically, customers somehow repay and, thereby, NPAs get resolved. The rising gold prices also provide comfort in this regard, as they increase the value of the collateral and make it easier for lenders to recover their dues in case of default.

GNPA levels likely to remain high, with a slight improvement in fiscal 2026

Notes: P – projected

Source: Company reports, CRISIL MI&A Research

GNPAs of the top two gold financiers cooled to 2.8% as of March 2024 from 2.6% in the year-ago period. One of these financiers saw its NPAs decline through recoveries and sale of NPAs to an ARC.

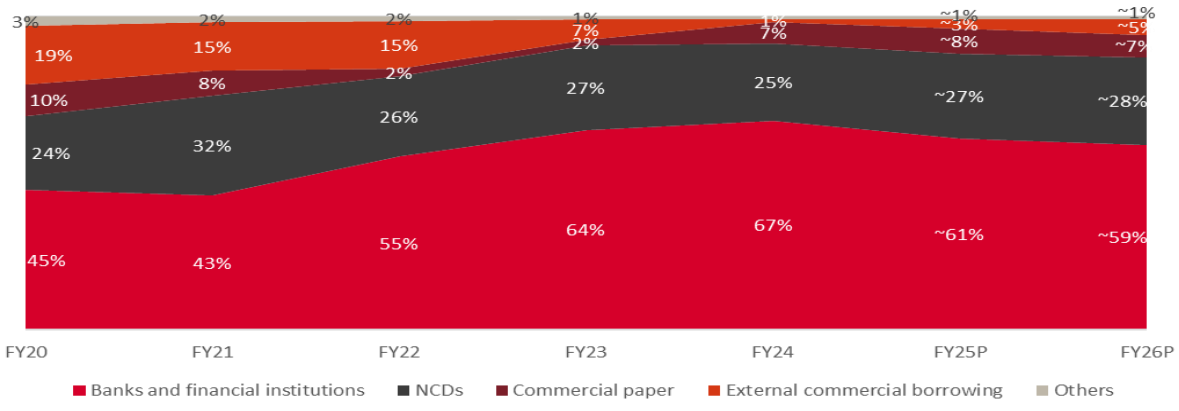

Delinquencies in some companies might seem elevated due to a customer-centric approach of not auctioning gold on the initial bouncing of loans, but rather giving customers some time to pay back. This is on the back of increased provisioning and the comfort of rising gold prices leading to lower LTVs.

However, further slippages on account of migration of teaser loans to higher rates could be limited, as nearly the entire teaser loan book has already been migrated. Also, given the liquid nature of collaterals and steady gold prices, the ultimate loss given default (LGD) would be modest.

The LTV ratio of gold loan NBFCs is 60-70%, which provides sufficient buffer against fluctuations in gold prices. Lenders also ensure adequate provisioning, supported by residual provisions taken during deterioration in asset quality at the peak of the pandemic in fiscal 2022. That said, any volatility in gold prices could translate into higher LGD rates, resulting in an increase in expected credit loss (ECL) provisioning.

Borrowing mix – banks remain main funding source

Bank borrowing repricing to result in upside risk to cost of borrowing

Notes: P – projected
Source: Company reports, CRISIL MI&A Research

At the peak of the pandemic, gold loan NBFCs carried high liquidity on their balance sheets, with the low interest rate environment supporting their cost of funds. However, reversal of the interest rate cycle had an adverse impact. With the share of term loan borrowings in the NBFC borrowing mix elevated, borrowing cost is expected to rise owing to the interest rate reset.

Gold loan NBFCs have also raised additional funds through overseas borrowings, among other sources. Given the global economic uncertainty and hardening of interest rates, some NBFCs, including the top two players, prepaid their external commercial borrowings (ECBs) in the first half of fiscal 2024. Further, in the first quarter of this fiscal, the top two have raised nearly $1,150 million via the ECB route, due to lower global interest rates.

NBFCs are also issuing non-convertible debentures and commercial papers. Overall, the high ratings of the top two players help them raise borrowings at competitive rates. Looking ahead, the RBI's anticipated rate cuts in the second half of this fiscal may lead to greater fund raising via the short-term route such as commercial papers and floating rate term loan borrowings.

The share of gold loans as an asset class in overall securitisation has shrunk considerably, from ~7% in the first half of the previous fiscal to ~2% in the first half of this one.

In fiscal 2023, the overall borrowing cost (interest expense on average borrowing) of gold NBFCs had declined ~36 bps on-year (largely driven by Muthoot Finance). The decline was on account of a higher proportion of fixed rate loans in the borrowing mix and low-cost debt raised in the low-interest rate environment at the pandemic's peak.

However, in fiscal 2024, the cost of funds trended upwards as bank borrowings were repriced and the proportion of low-cost borrowings came down. Bank lending rates had gone up in fiscal 2023 following the RBI's rate hikes. Additionally, it is important to note this segment has remained shielded from any impact of the RBI's risk weight circular since it was excluded from its ambit.

Range bond NIMs and relative higher credit cost will lead to slower growth in RoAs

Impact of competitive pressure on yields could ease as loan book growth picks up

While a contraction in net interest margin (NIM) had impacted NBFC profitability in fiscal 2023, a recovery in pricing has improved profitability in fiscal 2024. Yields are expected to remain at similar levels this fiscal; despite the increase, the yields remain lower than in pre-Covid levels.

Yields have been declining for various players amid acute competition from banks. In fact, competition continues to put pressure on the NIMs of gold loan NBFCs. Typically, banks offer gold loans at a lower yield of 7-15% because of their low cost of funds, while NBFCs charge 18-24%. Banks felt the initial effect of competition when certain NBFCs introduced teaser rate loans, which adversely impacted yields in the segment. With majority of the teaser loans ending, the yields may have bottomed out. However, at a structural level, yields of gold loan NBFCs could continue to be lower than during pre-pandemic levels in the near-to-medium term.

Also, operating cost as a percentage of total average assets increased further in fiscal 2024, in step with portfolio growth. This is expected to tone down this as operating efficiencies set in with healthy portfolio growth.

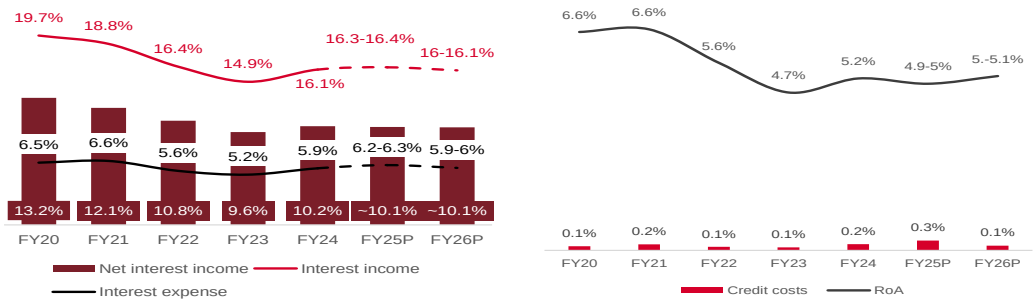

Credit costs rose during fiscal 2024 since GNPAs remained above historical levels, only to be offset by auction and sale of NPAs to ARCs. However, with respect to the latter, the write-offs remained negligible owing to the value and liquidity of gold as collateral, thereby limiting credit costs. Additionally, higher gold prices will lower the LGD for ECL calculation, resulting in lower provision. This would lead to further buffering of credit costs, assuming stable LTV levels. Credit cost is expected to show slight increase due to regulatory reasons, before it moderates in the next fiscal.

Competitive pressure on the NIMs of gold loan NBFCs has been partially alleviated by the resurgence of credit growth. Notably, interest income to average assets has been positive, increasing from 14.9% in fiscal 2023 to 16.1% in the previous fiscal. CRISIL MI&A Research anticipates a slight improvement to 16.3-16.4% in the current fiscal year, driven by the prevailing high-interest rate environment and reduced competition from banks. However, competition among non-banks is expected to increase in the second half of this fiscal following the ban on a major NBFC player in the gold finance segment being lifted on September 19. Moreover, with interest rates likely to be cut in the second half of this fiscal, overall interest income are expected to moderate to 16.0-16.1% in fiscal 2026.

Interest expenses to average assets have also increased, from 5.2% in fiscal 2023 to 5.9% in the previous fiscal. CRISIL MI&A Research expects this elevated level to persist in the current fiscal, before moderating in the next, driven by the anticipated interest rate cut in the second half of this fiscal.

The RBI's scrutiny over evergreening and guidelines for gold loan NBFCs, announced on September 30, 2024 that they have an adequate process in place for valuation, NPA recognition and end use of loans for classification as priority sector, may lead to a rise in GNPA for some companies, resulting in higher credit costs. However, top NBFCs have demonstrated improved efficiency, as reflected in their loan growth per branch, which should keep operating costs in check. While a slight increase in cost of funds may moderately impact NIMs, reduced competition from banks and high interest rates may alleviate pressure on yields. As a result, NIMs are likely to remain range-bound at 10-10.1% this fiscal and the next.

Gold Finance – Industry Overview

Gold loans shine with 25% CAGR between fiscals 2020 and 2024; banks on top with 79% market share

Gold loans industry have shown a substantial 25% CAGR between fiscals 2020 and 2024, backed by rising prices and strong demand from borrowers. Banks led the gold finance market share in fiscal 2024 at 79% as compared with NBFCs at 21%. In the period, banks gold loan portfolio grew at 28.3% CAGR against NBFCs expanding at 15.7%.

The gold loan market is sensitive to any movement in gold prices. An increase in gold prices lowers the LTV ratio, creating headroom for incremental credit growth for the same collateral. However, an adverse movement could result in calling the loan early or requiring an additional margin to maintain the LTV below the 75% regulatory cap. Hence, a sustained downward movement in gold prices adversely impacts credit growth in the segment.

That said, given the liquid nature of the collateral, gold loans are easier to liquidate and, therefore, recover. Additionally, rising gold prices could lower the LGD during the ECL calculation, which could result in a lower provision cover. Thus, any weakening in gold prices would result in higher LGD and a higher provision cover.

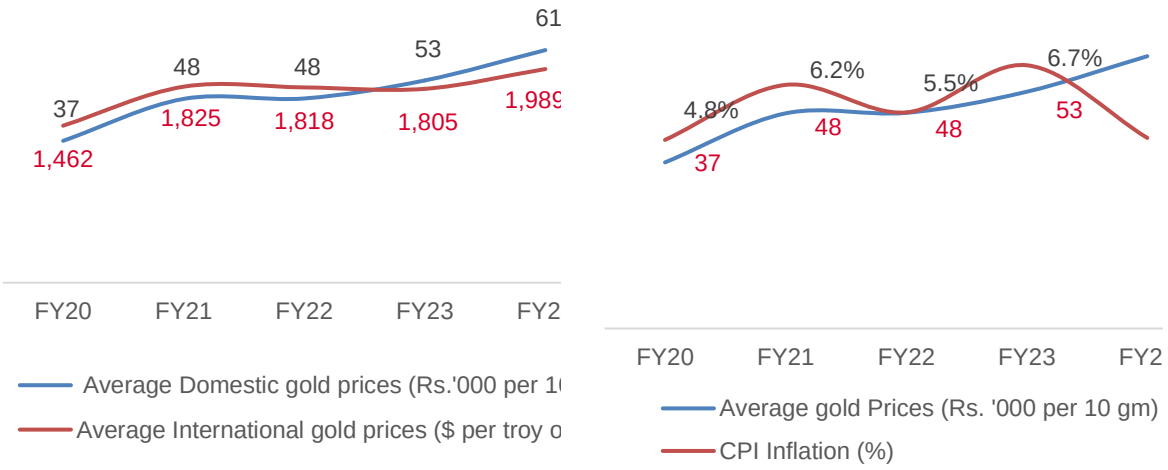

However, given the significance of gold and the sentimental value attached to gold jewellery in Indian culture, customers typically ensure that loans are repaid and the ornaments redeemed. Hence, even if the GNPA remains elevated, the ultimate loss arising from bad asset quality is limited.

Factors supporting gold loan AUM growth

a) Rising gold prices

International gold prices have been on a continuous upward trajectory since the pandemic and are expected to rise further this fiscal. This upward trend is driven by several factors, including heightened geopolitical tensions in the Middle East, the US presidential election and a weakening rupee. Furthermore, indications of a global slowdown are exerting downward pressure on capital market investments, prompting investors to seek refuge in safe-haven assets like gold. Additionally, the RBI's gold accumulation is adding to the volatility in gold prices, which, in turn, affects retail demand.

b) Modest rise in gold stocks

In fiscal 2024, gold stocks have surged, driven by a rise in AUMs and a stable price trajectory. This marks a significant turnaround from fiscal 2023, when gold stocks stagnated at fiscal 2022 levels due to subdued credit demand growth, intense competition, and rising gold prices.

This fiscal, gold stocks are expected to continue their upward trend, driven by a steady growth in the loan book. However, LTVs are likely to remain range-bound, staying below the regulatory cap of 75%, as the RBI's concerns over weaknesses in LTV monitoring and instances of regulatory ceiling breaches may lead to further softening. Additionally, the ongoing tension in the Middle East and global economic slowdown, which may drive gold prices higher, could result in further softening of LTVs.

Despite rising prices, gold stocks remain elevated on account of robust demand for gold loans

C) Gold, a hedge against inflation

Since fiscal 2020, gold prices have risen at 13.16% CAGR, significantly outpacing the 5.81% CAGR in CPI inflation over the period. This indicates gold has served as a hedge against inflation, with its value increasing more rapidly than the general price level. Average gold prices in fiscal 2021 rose ~30% as compared with the average prices of fiscal 2020. This strong performance is a testament to gold's enduring appeal as a store of value during uncertain economic times.

CPI inflation declined from 6.7% in fiscal 2023 to 4.9% in fiscal 2024, with an uptick in September owing to rising food inflation. Further, gold prices rose 12% in September as against March despite a decline in customs duty on gold; this was owing to the possibility of global economic slowdown and geopolitical instability. This data indicates gold's reputation as a reliable safe-haven asset, shielding against inflationary pressures and market volatility.

d) Online gold loan schemes

Online gold loan schemes enable consumers to avail gold loans from the convenience of their homes. Several gold loan providers have tied up with banks and payment gateway service providers to facilitate this service.

Applying for gold loans online is quicker, with sanctions coming in within a few hours. Digital loan products can be accessed via mobile applications, online platforms, with prepaid cards, among other modes. Know-your-customer checks, registration and disbursements are all done online. Some of the NBFCs require borrowers to personally deliver the gold to their nearest branch. However, a few provide doorstep services, under which verification and collection of gold ornaments is done at the customer's residence. The process is managed through a central application that can be simultaneously accessed by all branches.

Manappuram Finance was the first gold loan NBFC to launch online services, in September 2015. Muthoot launched its online scheme through its website and iMuthoot application in September 2016. In addition to traditional players, fintech companies such as Rupeek have also been offering digital services since 2015. Online gold loans have gained traction.

e) Branch additions in regions except south India

Currently, south India dominates demand for NBFC gold loans. However, other regions are also likely to pick up going forward. Changing consumer perception about gold loans, led by increasing awareness and rising fund requirements, will drive rapid growth in these regions. Also, branches are being added in the north and east, where there are fewer existing branches.

f) Specialised gold loan NBFCs have inherent advantages

Gold loan NBFCs have gained competitive strength with faster loan processing and auctioning of gold jewellery. NBFCs operate at a yield of 18-24% while private sector banks offer ~15% and public sector banks 7-9%. Despite the significant rate differential (8-15%), the AUM of NBFCs clocked 15.7% CAGR between fiscals 2020 and

2024. This was owing to their overall conducive environment for customers and enhanced reach via their extensive branch networks in semi-urban and rural areas.

Gold loan NBFCs have a single-product focus and extensive branch network in low-rent areas, with a much lower population/ customer base than a typical bank branch, ensuring better customer experience. The other key competitive advantage is faster turnaround time, which adds significantly to the overall customer value proposition since gold loans are predominantly short term in nature and are taken for emergencies. Further, the gold loan terms of banks tend to be rigid unlike those of NBFCs. For example, the minimum loan tenure that banks offer is usually higher than the average tenure NBFCs offer. Since gold loans are mostly bridge loans (short term), specifying a minimum tenure with a pre-payment penalty works against the customer's value proposition.

Additionally, gold financing is an operations-intensive business, with special focus required on branch-level infrastructure and personnel. Branches require secure storage, robust electronic monitoring and cybersecurity protocols to protect client data. All these increase operating costs. Moreover, employees must be trained on recognising the possibility of theft and other frauds as well as the procedures to be followed to prevent them. Alternatively, some part of the operations, such as appraisal and valuation, could be outsourced to third parties.

The business model has also undergone a considerable technological transformation facilitating faster loan processing, accurate gold valuation, safekeeping, auctions and cost cutting. Customers of top players are required to visit the branches only to deposit physical gold. Proactive marketing, branding and geographic expansion also help capture new-to-market customers.

The focus of banks on gold lending, though, poses a competitive threat to NBFCs, mainly on account of the former's lower rate of interest.

g) Competitive advantage vs other financial products

Before the pandemic, gold loan lenders were competing not just among themselves, but also with other financial service providers. A borrower who fits the lender's criteria would opt for a personal loan or credit card, since these products require no security and are provided online within a few hours with minimal documentation. However, during the peak of the pandemic, gold loans emerged as the most feasible option, since lenders had become risk-averse and minimised their exposure to unsecured loans.

Overview

We are a non-deposit taking NBFC – Middle Layer primarily engaged in the Gold Loan business, lending money against the pledge of household jewellery ("Gold Loans") in the state of Kerala, Tamil Nadu, Karnataka, Andhra Pradesh, Delhi, Maharashtra, Uttar Pradesh and Telangana along with the Union Territory of Puducherry. Our Gold Loan portfolio for the nine month period ended December 31, 2024, the financial years ending on March 31, 2024, March 31, 2023 and March 31, 2022 comprised of 10,34,047, 9,16,079, 8,82,414, and 8,10,711 gold loan accounts, respectively, aggregating to ₹ 5,35,550.84 lakhs, ₹ 5,32,434.31 lakhs, ₹ 4,84,502.31 lakhs, and ₹ 3,96,680.71 lakhs , respectively, which is 98.99%, 98.92%, 98.68%, and 98.11% of our total loans portfolio before impairment losses as on those dates. As on December 31, 2024, we had a network of 975 branches spread in the states of Kerala, Tamil Nadu, Karnataka, Andhra Pradesh, Delhi, Maharashtra, Uttar Pradesh and Telangana along with the Union Territory of Puducherry and we employed 3,697 persons in our business operations. We belong to the Kosamattam Group led by Mathew K. Cherian. We are headquartered in Kottayam in the state of Kerala.

We are registered with RBI as a systemically important, non-deposit taking NBFC (Registration No. B-16.00117 dated December 19, 2013) under Section 45 IA of the RBI Act. Further, we also have a Full-Fledged Money Changers ("FFMC") license bearing number FE.KOC.FFMC.40/2006 dated February 07, 2006 which is valid up to February 28, 2025.

The Kosamattam group was originally founded by Nasrani Varkey. His great grandson, Mathew K. Cherian, the present Chairman and Managing Director of Kosamattam Group is a fourth-generation entrepreneur in the family. Under his able leadership, our Company is emerging as a prominent Gold Loan business company with 975 branches, as on December 31, 2024, largely spread across southern India.

Gold Loan is the most significant product in the product portfolio of our Company. Our Gold Loan customers are typically businessmen, vendors, traders, farmers, salaried individuals and families, who for reasons of convenience, accessibility or necessity, avail of our credit facilities by pledging their gold jewellery with us under our various gold loan schemes. These Gold Loan schemes are designed such that higher per gram rates are offered at higher interests and vice versa, subject to applicable laws. This enables our customers to choose the Gold Loan scheme best suited to their requirements. These Gold Loan schemes are revised by us, from time to time based on the rates of gold, the market conditions and regulatory requirements. Our Strengths

We are part of the Kosamattam Group which has a long operating history and a large customer base.

We are part of the Kosamattam Group, which was originally founded by Nasrani Varkey and one of the leading business financial services group in South India. Over the years, we have been successful in expanding our customer base. Our total number of Gold Loan customers grew to 8,10,711 as of March 31, 2022 and to 8,82,414 as of March 31, 2023 and 9,16,079 as of March 31, 2024 and 10,34,047 as of December 31, 2024. We attribute our growth, in part, to our market penetration, particularly in areas less served by organised lending institutions and the efficient and streamlined procedural formalities which our customers need to complete in order to complete a loan transaction with us, which makes us a preferred medium of financier for our customers. We also attribute our growth to customer loyalty which in turn leads to repeat business. We believe that we are known for the quality of service we have provided to our customers over the years and for our consistent approach to developing long-term relationships with our customers, based on our local knowledge and experience amongst other things.

Branch network across rural and semi-urban areas in South India

We believe that the scale of our operational network provides us with a competitive advantage. As of December 31, 2024, our Company's operations included 975 branch offices spread across 8 states and 1 union territory. We commenced our operations in rural areas and small towns and have followed an approach of targeting geographies with low credit penetration. We have expanded our branch network by opening 10 branch offices in Delhi,1 branch office in Uttar Pradesh and 8 branch offices in Maharashtra. Our customers are typically retail customers, businessmen, vendors, traders, farmers, salaried individuals and families, who for reasons of convenience, accessibility or necessity, avail of our credit facilities by pledging their gold jewellery with us. Our understanding of the local characteristics of markets has allowed us to address the unique needs of our customers and enabled us to penetrate deeper into such markets.

Over the years, we have focused on customers in such markets that offer us significant growth opportunities and customer loyalty. We believe that with such a large network specifically with semi-urban areas, we were able to penetrate and cater to our customers across various cities and towns in south India especially in semi-urban locations. Having such a network enables us to service and support our existing customers from proximate locations which gives our customers easy access to our services and enables us to reach new customers especially potential rural customers. We believe we can leverage on this existing network for further expansion and for fulfilling our customer requirements.

Organised and efficient IT Infrastructure

We use information technology as a strategic tool for our business operations to improve our overall productivity and efficiency. All our branches are computerised. We believe that through our existing information technology systems, we are able to effectively, manage our operations, market to our target customers, and monitor and control risks. We believe that this system has improved customer service by reducing transaction time and has allowed us to comply with regulatory record-keeping and reporting requirements. Further, in order to manage our expanding operations as well as our increased customer base, we have entered into an arrangement for the development of software for our product offerings and other allied functions. Accordingly, the new software was introduced for operational efficiency.

Additionally, our Company has entered into an agreement dated September 15, 2016, with PayU Payments Private Limited ("**PayU**"), a payment gateway, with a view to provide our customers with a convenient option of online payments through the internet or through the interactive voice responsive ('IVR') system provided by PayU, using credit/debit cards, net banking and various other modes of payment options.

Effective risk management system including appraisal, internal audit and inspections.

Risk management forms an integral part of our business as we are exposed to various risks relating to the Gold Loan business. The objective of our risk management system is to measure and monitor the various risks we are subject to and to implement policies and procedures to address such risks. We have an internal audit system which consists of audit and inspection, for risk assessment and internal controls. The audit system comprises of accounts audit and gold appraisal. In accordance with our internal audit policy, all of our branches are subject to surprise gold audit every month and accounts audit once in very four months. A majority of our customers are borrowers who have been referred to us by existing or former customers and our branches act as a single point of contact for them. The personnel at our branches are responsible for sourcing loans, carrying out preliminary checks on the credit worthiness of a prospective customer, providing assistance in documentation, disbursing loans and in monitoring repayments and collections. We have implemented an analytics platform with a pre-defined approval matrix, which expedites the processing of loan applications. Further the staff is strictly advised to make the acid test, sound test etc., at the time of making the pledge for checking whether the ornament is of acceptable quality or not.

Experienced management team and skilled personnel

Our Board, Promoters and senior management is composed of experienced professional, and management professionals. We believe that we have a strong senior management team to lead us, a majority of whose members have been with us for over 5 years. Our management team comprises of our Promoter and Director, Mathew K. Cherian, who has over 40 years of experience in finance business. The management team possesses the required skill, expertise and vision to continue and to expand the business of our Company. Our management team has an in-depth understanding of the gold loan business and under their direction and guidance our Company has grown

organically. We believe that the long-standing industry experience of our Promoters and our management team provides us with an understanding of the needs and behaviour of the client's particularly in rural and semi-urban areas and issues specific to the gold financing industry in India. We believe that this expertise gives us a competitive advantage in the gold loan industry and has helped us in maintaining our resilience through industry cycles.

Our Strategy

Our business strategy is designed to capitalise on our competitive strengths and enhance our position in the Gold Loan industry. Key elements of our strategy include:

Expansion of business activity by opening new branches in rural and semi urban areas to tap potential market for gold loans.

We intend to continue to grow our loan portfolio by expanding our branch network by opening new branches. A good reach to customers is very important in our business. Increased revenue, profitability and visibility are the factors that drive the branch network. Currently, we are present in key locations which are predominantly in South India for sourcing business. Our strategy for branch expansion includes further strengthening our presence in south Indian states by providing higher accessibility to customers as well as leveraging our expertise and presence in southern India. At the core of our branch expansion strategy, we expect to penetrate new markets and expand our customer base in rural and semi-urban markets where a large portion of the population has limited access to credit either because they do not meet the eligibility requirements of banks or financial institutions, or because credit is not available in a timely manner at reasonable rates of interest, or at all. We plan to continue to focus on low and middle income self employed customers and increase the market share of our existing products in the rural and semi-urban markets of India. A large segment of India's rural and semiurban population is comprising customers without any credit history and we believe that such customer segment offers us significant growth opportunities and customer loyalty. A typical Gold Loan customer expects high loan-to-value ratios, rapid and accurate appraisals, easy access, quick approval and disbursement and safekeeping of their pledged gold jewellery. We believe that we meet these criteria when compared to other unregulated money lenders, and thus our focus is to expand our Gold Loan business.

Expansion of business into metros and select Tier 1 cities across India

In addition to our continuing focus on rural and semi-urban markets in the states that we are present, we are also focusing on opening branches in metros and select Tier 1 cities where we believe our business has high growth potential. We carefully assess the market, location and proximity to target customers when selecting branch sites to ensure that our branches are set up close to our target customers. We believe specialised teams focused on specific customer segments into metros and select Tier 1 cities across India will enable us to increase the productivity of our distribution channels, meet specific customer segments and increase quality of customer experience. This will also help us to increase our customer base and increase our profitability. We believe our customers appreciate this convenience and it enables us to reach new customers.

Increase visibility of Kosamattam Brand to attract new customers

Our brand is key to the growth of our business. We started focusing on brand building exercise in 2013. Our logo was re-designed and the tag- line 'Trust grows with time' was introduced. We believe that we have built a recognisable brand in the rural and semi-urban markets of India, particularly in the southern states of Kerala, Tamil Nadu and Karnataka. We believe that having a strong recognizable brand is a key attribute in our business, which helps us attract and retain customers, increases customer confidence and influences their investment decisions. We intend to continue to undertake initiatives to increase the strength and recall of our 'Kosamattam' brand to attract new customers. We seek to build our brand by engaging with existing and potential customers' through customer literacy programs, sponsor popular events in the regions we operate and advertise in newspapers, hoardings, television, radio and in other advertising media.

Minimise concentration risk by diversifying the product portfolio and expanding our customer base.

We intend to further improve the diversity of our product portfolio to cater to the various financial needs of our customers and increase the share of income derived from sale of financial products and services.

Beyond our existing Gold Loan product, we intend to leverage our brand and office network, develop complementary business lines and become the preferred provider of financial products – 'a one-stop shop for customers' financial needs.

Our diverse revenue stream will reduce our dependence on any particular product line thus enabling us to spread and mitigate our risk exposure to any particular industry, business, geography, or customer segment. Offering a wide range of products helps us to attract more customers thereby increasing our scale of operations.

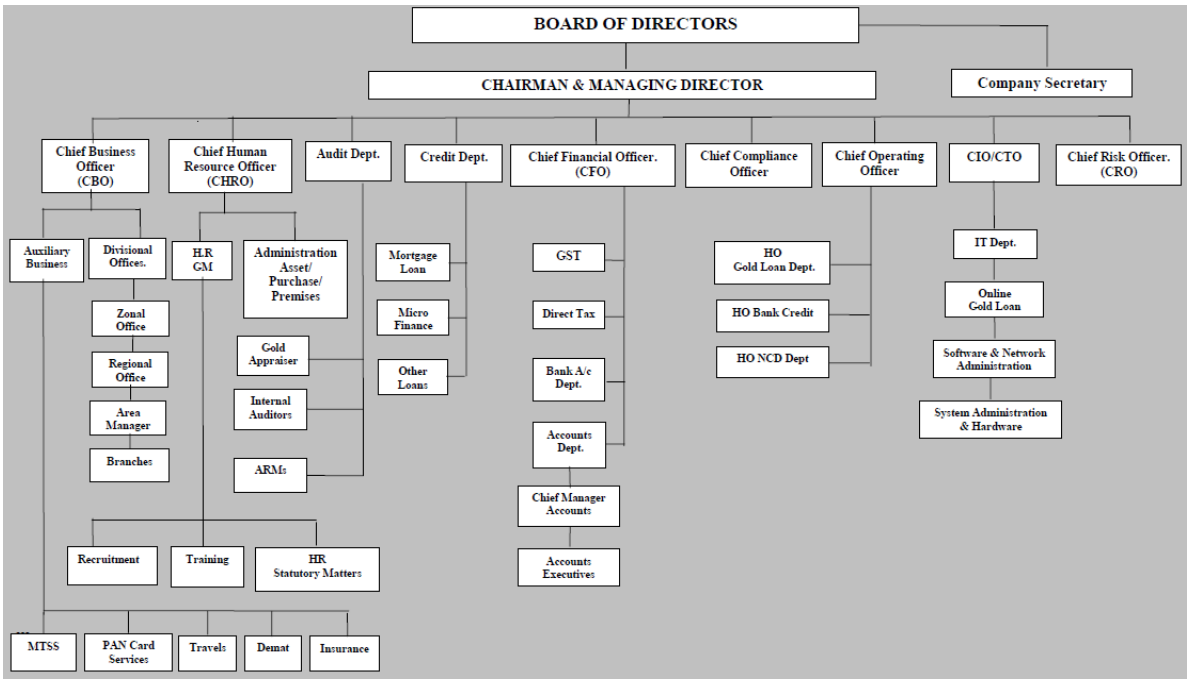

We expect that complementary business lines will allow us to offer new products to existing customers while attracting new customers as well. We expect that our knowledge of local markets will allow us to diversify into products desired by our customers, differentiating us from our competitors.

Further strengthen our risk management, loan appraisal and technology systems

We believe risk management is a crucial element for further expansion of our Gold Loan business. We therefore continuously focus on improving our integrated risk management framework with processes for identifying, measuring, monitoring, reporting and mitigating key risks, including credit risk, appraisal risk, custodial risk, market risk and operational risk. We plan to continue to adapt our risk management procedures, to take account of trends we have identified. We believe that prudent risk management policies and development of tailored credit procedures will allow us to expand our Gold Loan financing business without significantly increasing our non-performing assets. Since we plan to expand our geographic reach as well as our scale of operations, we intend to further develop and strengthen our technology platform to support our growth and improve the quality of our services. We are focused on improving our comprehensive knowledge base and customer profile and support systems, which in turn will assist us in the expansion of our business.

We continue to focus on developing and strengthening our IT capabilities to support our growth and improve the quality of our services. We believe that improving our technology infrastructure will allow us to respond to challenges on a real-time basis and improve our risks management capabilities. We also intend to develop data-driven insights to understand our target customers' propensity towards certain financial products. We anticipate using such information to conduct targeted marketing efforts allowing us to improve the availability of our products and consequently the quality of our services and credit portfolio.

ORGANISATION STRUCTURE

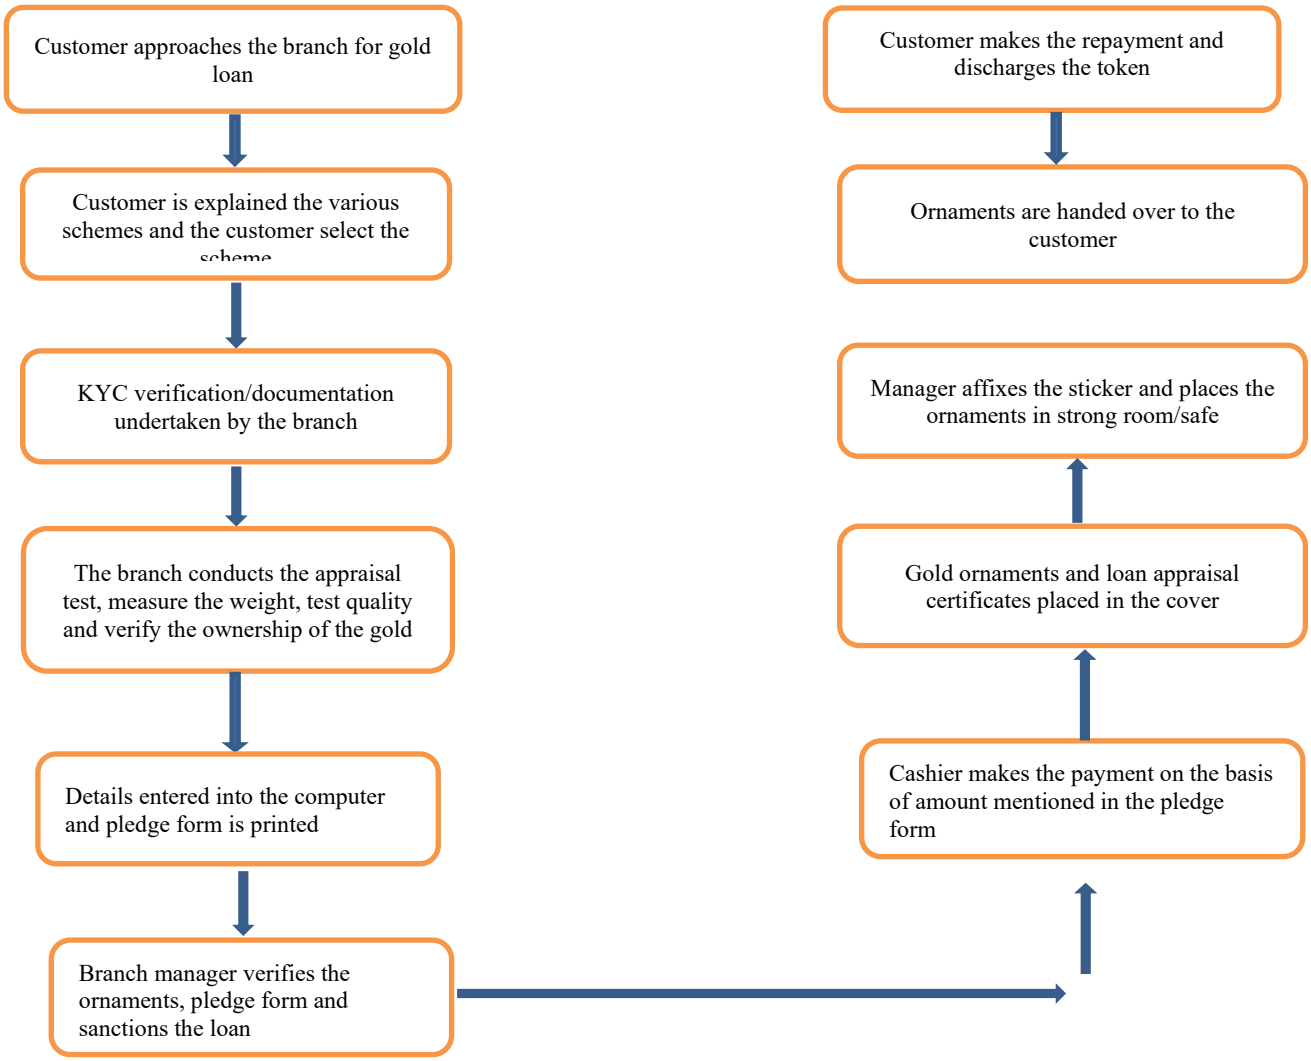

GOLD LOAN BUSINESS

Our lending business is primarily Gold Loans, which are typically loans against pledge of gold jewellery. As of December 31, 2024, we had approximately 10,34,047 gold loan accounts, representing an aggregate balance of ₹ 5,35,550.84 lakhs before impairment allowances. For the nine month period ended December 31, 2024 and the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022, our Gold Loan portfolio yield representing interest income on gold loans as a percentage of outstanding of Gold Loans, for the same period were 15.74%, 15.49%, 15.64% and 15.18%, respectively, per annum. For the nine month period ended December 31, 2024 and the financial years ended March 31, 2023, March 31, 2022 and March 31, 2021, income from interest earned on our Gold Loans constituted 95.92%, 96.00%, 96.82%, and 96.38%, of our total income for the respective years

We offer variety of Gold Loan schemes to our customers to suit their individual needs. The schemes differ in relation to the amount advanced per gram of gold, interest rate chargeable and amount of loan.

Gold Loan disbursement process

Pre-disbursement Process	Post-disbursement Process

The principal form of security that we accept is household gold jewellery. We do not accept bullion, gold biscuits, gold bars, new mass-produced gold jewellery or medallions. While these restrictions narrow the pool of assets that may be provided to us as security, we believe that it provides us with the following key advantages:

a. It filters out spurious jewellery that may be pledged by jewellers and goldsmiths. We find that household, used jewellery is less likely to be spurious or fake.

b. The emotional value attached by each household to the pledged jewellery acts as a strong incentive for timely repayment of loans and revoking the pledge.

c. As we only accept the pledge of household jewellery, the value of the pledged gold is typically only as much as the worth of gold that is owned by an average Indian household. This prevents our exposure to large sized loans where the chances of default and subsequent losses are high.

The amount that we finance against the pledged gold jewellery is typically based on a fixed rate per gram of gold content in the jewellery. We value the gold jewellery brought by customers based on our corporate policies and guidelines. As per the policy, we grant gold loans on 22 Carat gold ornaments. However, in case the jewels that are being pledged are less than 22 carats, the branches are required to convert the carat of gold jewels to the equivalent of 22 carats. Under no-circumstances are gold ornaments below 19 carats accepted by our Company. The rates per gram is fixed by us on weekly intervals. The actual loan amount varies according to the type of jewellery pledged. While jewellery can be appraised based on a variety of factors, such as total weight, weight of gold content, production cost, style, brand and value of any gemstones, we appraise the gold jewellery solely based on its gold content. Our Gold Loans are, therefore, generally well collateralised because the actual value of the gold jewellery is higher than our appraised value of the gold jewellery when the loan is disbursed. The amount we lend against an item and the total value of the pledged gold we hold fluctuates according to the market price of gold. An increase in the price of gold will not automatically result in an increase in the value of our Gold Loan portfolio unless the rate per gram is revised by our Registered Office. It only results in a favourable movement in the value of the security, pledged with us. Similarly, since adequate margins are built in at the time of the loan disbursement and owing to the short tenure of these loans, on average, a decrease in the price of gold generally has little impact on our interest income. However, a sustained decrease in the market price of gold could cause a decrease in the growth rate of Gold Loans in our loan portfolio.

At present our Gold Loans have a maximum tenure of upto 12 months, however, customers may redeem the loan at any time prior to the full tenure. As per the current policy of our Company, interest is to be paid in accordance with the scheme. In the event that a loan is not repaid on time and after providing due notice to the customer, the unredeemed pledged gold is disposed of, on behalf of the customer in satisfaction of the principal and interest charges in accordance with the applicable RBI guidelines. Any surplus arising out of the disposal of the pledged gold is refunded to the customer or is appropriated towards any other liability by the borrower. In the event that the recoverable amount is more than the realisable value of the pledged gold, the customer remains liable for the shortfall.

The processes involved in approving and disbursing a Gold Loan are divided into three phases:

- Pre-disbursement;
- Post disbursement; and
- Release of the pledge.

Pre-disbursement process

Gold Loan appraisal of a customer involves the following steps

a) Customer identification

Gold Loans are sanctioned only to genuine borrowers. Before sanctioning the Gold Loan, the branch manager should take all precautions to ensure that the applicant, pledging the ornaments, is the owner of those ornaments and that the borrower is genuine. The branch manager should obtain ID proof, photograph of the borrower, and assign a branch KYC ID No. and should also make reasonable enquiry about the residence, job, personal details, ownership of the ornaments etc. and make a note in the pledge form. We also undertake a field verification to authenticate the genuineness of the borrower in case of high value Gold Loans.

b) KYC Documentation

The borrower should produce government issued valid photo id, with an address which is within the designated area of the branch, as a necessary proof for KYC documentation. While processing the application, the branch

ensures that the correct postal address of the borrower is entered in the computer such as name, door number, street name, name of post office, place, PIN code and the nearest land mark. Also, the borrower's telephone number is obtained. The branch also calls on the number furnished by the borrower every month, and reminds the borrower to remit the requisite interest, so that branch can know the telephone number is operational. Further if the telephone number of the borrower is not operational then the branch immediately contacts the borrower personally and obtains his new telephone number.

c) Security appraisal

The branch manager/joint custodian and the branch staff shall appraise the gold ornaments thoroughly. Stone weight should be deducted correctly in consultation with the branch manager and staff. Low purity and spurious items should be detected and not to be accepted as pledge. Appraisal is to be done by all members at the branch and the ornament shall be accepted only if all the branch staff approve. Neither the branch manager nor the joint custodian or any staff has the authority to accept a pledge on the basis of his/her own assessment of the ornaments. It is strictly a group task and all the branch staff are equally responsible in the process. After pledging gold ornaments, the same should be packed immediately. The manager and joint custodian should sign across the packet and affix the branch sticker on the cover and keep it in the safe. The safe is to be locked by all the custodians together.

d) Documentation

For each pledge of the gold, branch appraisal certificate, application for personal loan, customer's token etc., are adequately documented and all the details pertaining to the gold, including the weight and items pledged are to be mentioned.

Post-disbursement process

The period/tenure for a Gold Loans is maximum upto 12 months. Timely interest collection and closing of accounts within the specified period is vital for the successful and smooth functioning of gold loan companies like that of ours. To ensure this, the branches regularly follow up with their gold loan customers through notices served at three months (ordinary notice), six-months (registered notice), and nine months (registered notice with acknowledgement due) as well as personal contacts directly and over the phone.

Branch security and safety measures: Electronic Security System

Branches are normally equipped with security devices (alarms) which automatically alert the branch manager, regional manager as well as the nearest police station in the event of any theft attempts. The gold pledged as security is insured with an insurance company. Our Company makes periodic analysis and revises the insurance policy as per the value/quantity of the gold.

Release of pledge

Once a loan is fully repaid, the pledged gold jewellery is returned to the customer. The customer must be present personally along with the gold loan token, at the branch where the pledge was originally made. The branch will verify the person with the photo taken at the time of pledge and confirm that there is no foul play and the amount to be paid is informed to the customer from the software and clarifies doubts if any on the amount demanded. The customer pays the amount at the cash counter and the ornaments are taken out of the safe and handed over to the customer after confirming them with the list of ornaments mentioned in the token and gold loan application form.

Our Other Business initiatives

In addition to the core business of Gold Loan, we also offer fee based ancillary services which include loans against property, money transfer services, depository participant services, power generation, agriculture, foreign currency exchange and air ticketing services.

For the Nine-month period ended December 31, 2024 and the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022, revenues from our business other than Gold Loans constituted 4.08%, 4.00%, 3.18%, and 3.62% of our total income for the respective years.

LOAN AGAINST PROPERTY

Our Company along with its primary business of offering gold loans also engages in offering loans against property which includes loans against collateral of residential/commercial property and comprised 0.97% of our loan book as on December 31, 2024.

Loan against Property ("**LAP**") is a loan facility to customers requiring funds for business/personal purposes against mortgage of residential/commercial property. As a part of LAP lease rental discounting is also offered. The funds so raised are utilised for meeting business as well as investment needs.

Customer Evaluation, Credit Appraisal and Disbursement

Our Credit Policies

All loans are sanctioned under the credit policy approved by our Board of Directors. Emphasis is applied on demonstrated past and future assessment of income, repayment capacity and credit history prior to approving any loan. Our Company undertakes periodic update of credit policies based on portfolio performance, product profitability and market and economic development.

Loan Origination

Our Company sources all potential customers through our branches and trained sourcing teams.

Evaluation

Our Company undertakes various credit control checks and field investigations on a prospective customer which, inter-alia, includes an internal data de-duplication check, CIBIL database check, fraud verification, asset verification and valuation, trade credit reference checks and other legal and technical verification procedures. After having completed our internal verification procedures all documents submitted by the prospective customer are checked and verified as required and any discrepancies and/or gaps in such documentation are highlighted and sent to the prospective customer for corrections, explanations and resubmissions as required.

Our Company conducts various diligence procedures in connection with the collateral/security for such loans which include review and verification of the relevant ownership documents and obtain title reports as applicable. Reports from these checks along with detailed analysis of financial statements, tax challans, bank statements and other documents put together constitute the credit file for all customers. These files are at length reviewed by the credit managers for evaluation using credit evaluation tool. Based on the document review the credit managers conduct personal discussions with the customers at their workplace. The discussion is intended to gather information about the business model of the customer, his positioning in the value chain, dependence of suppliers and/or customers and to ascertain any business risks like export dependence, raw-material supplies, etc. which might adversely impact the business cash flows and hence diminish repayment capacity. Further, additional business documents like stock registers and books of accounts are reviewed during such visits. Based on the all the information gathered, and assessment of customer's business risks, debt servicing ability and collateral risks, the credit manager puts the transaction proposal to appropriate approving committee in the hierarchy for decision.

Credit Appraisal

Approval and Disbursement Process

Once the credit history, credentials, information, and documents have been submitted by the prospective customer and verified to our satisfaction, the applications are approved at the appropriate credit approval level.

There are four progressive levels of approvals which a proposal can be put to which are based on loan product, loam amount and identified risks. All proposals require minimum of two approvals and up to four approvals for larger ticker size loans. With due sanctioning of the loan, we execute agreements in connection with the loan and creation of security in relation thereto, if any, with the customer. Margin money and other charges, if any, are collected prior to loan disbursements. The disbursing officer retains evidence of the applicant's acceptance of the terms and conditions of the loan as part of the loan documentation.

Prior to the loan disbursement, our concerned officer ensures that a Know Your Customer, ("KYC"), checklist is completed by the applicant. The concerned officer verifies such information provided and includes the records in the relevant loan file. The officer is also required to ensure that the contents of the loan documents are explained in detail to the customer either in English or in the local language of the customer. The customer is provided with a copy of the loan documents executed by him. Further although our customers have the option of making payments by cash or cheque, we may require the applicant to submit post-dated cheques covering an initial period prior to any loan disbursement.

Loan administration and monitoring.

The customer (and guarantor, if any) execute(s) the security creation documents and the loan agreement setting out the terms of the loan. A loan repayment schedule is attached as a schedule to the loan agreement, which generally sets out periodical repayment terms. Repayments are made in periodical instalments. Loans disbursed are recovered from the customer in accordance with the loan terms and conditions agreed with the customer. We track loan repayment schedules of our customers on a monthly basis, based on the outstanding tenure of the loans, the number of instalments due and defaults committed, if any. This data is analysed based on the loans disbursed and location of the customer. All recovery of amounts due on loans is managed internally by us. We ensure complete focus on all stages of the collections process. We monitor the completeness of documentation, creation of security etc. through regular visits to the business outlets by our regional as well as head office executives and internal auditors. All customer accounts are reviewed on a regular basis.

Our Company believes that close monitoring of debt servicing efficiency enables us to maintain high recovery ratios and maintain satisfactory asset quality.

MICROFINANCE

Our microfinance operations entail providing micro credit lending to our customers who are predominantly located in rural and semi-urban areas of our targeted geographies in India and the purpose of loans sanctioned to them is mainly for utilisation in small businesses or for other income generating activities but not for personal consumption. Primarily, we utilise a village centred, group lending model to provide unsecured loans to our members. This model relies on a form of 'social collateral' and ensures credit discipline through peer support within the group. This model presupposes our members being prudent in conducting their financial affairs and prompt in repaying their outstanding borrowings. As a deterrent, any instance of failure to make timely loan repayments by an individual borrower prevents the other members in the group from making any further borrowings from us, in the future. Therefore, the KFLs tend to employ peer support to encourage the delinquent borrower to make timely repayments or often repay on behalf of a defaulting borrower, effectively providing an informal joint guarantee on the sanctioned loan.

PORTFOLIO MANAGEMENT, COLLECTION AND RECOVERY PROCESSES

Our Company manages the portfolio management and collection processes in-house. We have on-roll collection personnel across branches to ensure timely collection of dues. As part of our collection process we have tele-calling through which calls to all customers are made before the due-dates. In-case of non-payment the team initiates collection calling for dues. We utilise our branch personnel for collection of payment. Further, for effective recovery management, all early delinquent customers are management by a dedicated team which undertakes methodical customer visits for recovery of dues. In cases where customers are unable to make payments and move to higher delinquency levels, a specified team of collection officers including branch managers, regional managers and other such officials are deployed who manage deep delinquent accounts. In addition to customer visits, this team utilises available legal tools for attachment of properties, for re-payment of dues and legal arbitration proceedings.

INSURANCE AGENCY

With a view to expand our regular fee and commission based income, Company had obtained a certificate of renewal registration from the IRDA, dated March 28, 2022, which is valid up to March 31, 2025, to commence/carry business in the capacity of a Corporate Agent (Composite) under the Insurance Regulatory and Development Authority Act, 1999.

MONEY TRANSFER BUSINESS

Money transfer to India is a fast, simple and convenient method to transfer money from anywhere in the world. We have entered into agreements with various companies who act as agents/representatives to companies that undertake money transfer services in India ("**Agreements**"). These agents have their country wide network of branches and sub agents in India. For example, we entered into a sub representation agreement with EBIX Money Express Private Limited ("**EBIX**") to act in the capacity of a sub representative to offer money transfer service on EBIX's behalf.

Our Company, pursuant to these Agreements, acts as sub agent and provides money transfer service payments through its identified branches to the customers/beneficiaries in full without any deduction as per the transaction. The representatives reimburse to our Company for the total payments effected. Under these Agreements, we are also entitled to receive a commission for the services provided.

Our Board in its meeting dated January 5, 2017 adopted an operational manual for the Money Transfer Service Scheme ("**MTSS**"), in accordance with the guidelines prescribed by the RBI, to set out requirements, rules and guidelines to be followed, by our Company's branches engaged in the Money Transfer Business.

MONEY CHANGING BUSINESS

Our Company holds a FFMC license and carries on money changing activities through its branches authorised by RBI. As on December 31, 2024, we had 1 head office and 61 authorised branches. Our currency operations include sale and purchase of foreign exchange at different authorised branches.

DEPOSITORY PARTICIPANT SERVICES

Our Company has secured the registration from SEBI as a depository participant and received the certificate of registration on May 28, 2014. On receipt of SEBI registration as a depository participant, we have entered into a MoU with a broking company, to conduct and promote brokerage business in equity, commodity and currency segments of national level stock/commodity exchanges as a broker, making use of our select branches/regional offices.

TRAVEL SERVICES

Our Company provides air ticketing services through Riya Travel & Tours (I) Private Limited, which is an IATA approved agency.

AGRICULTURE

Our Company owns a parcel of agricultural land in Kattappana village, Udumpanchola Taluk, Idukki district, in Kerala admeasuring 108.74 acres, through which our Company undertakes agricultural activity of cultivating cardamom. For the nine month period ended December 31, 2024 and the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022, the agricultural income derived from this undertaking was (121.12) lakhs, ₹(131.84) lakhs, ₹ (180.31) lakhs, and ₹ (99.93) lakhs.

POWER GENERATION AND SUPPLY

Our Company has entered into definitive agreements for installation including erection and commissioning of four windmill units at Ramakkalmedu, Idukki district of Kerala. The windmills or wind electric generators shall be connected to the power grid, post testing and commissioning and upon becoming operational shall be used for generation and supply of power on a commercial basis. Our Company has commenced operation of the windmills and has commissioned the project. Our Company has also submitted a tariff petition dated May 16, 2018 before the Kerala State Electricity Regulatory Commission for fixing of the tariff rate. For the nine month period ended December 31, 2024 and the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022, the income derived from this was ₹ 30.05 lakhs, ₹(7.78) lakhs, ₹ (15.74) lakhs, and ₹ (25.73) lakhs, respectively.

Branch Network

Marketing, Sales, and Customer Care

Our Company undertakes publicity through media, both print and electronic to increase the visibility of our brand. Our media plan ensures the visibility and reach of our Kosamattam brand within the desired budget. These advertisements are carried out across various states wherever our Company has presence. This helps individual branches to target the public and thereby generate business from the locality. For the nine-month period ended December 31, 2024 and the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022, our total advertisement expenditure were ₹332.73 lakhs, ₹ 823.78 lakhs, ₹ 949.20 lakhs and ₹ 543.92 lakhs, respectively.

In promoting our brand, our advertisement campaigns focus on "**Kosamattam Gold Loan**", to differentiate our loan products from other NBFCs and financial institutions and emphasise the convenience, accessibility, and expediency of Gold Loans.

Risk Management

Risk management forms an integral part of our business as we are exposed to various risks relating to the Gold Loan business. The objective of our risk management systems is to measure and monitor the various risks, we are subject to and to implement policies and procedures to address such risks suitably. We intend to continue to improve our operating processes and risk management systems which will further enhance our ability to manage the risks inherent to our business.

Asset and Liability Management ("ALM")

Our business operations require steady flow of working capital and hence managing the day-to-day liquidity becomes a critical function. The ALM, amongst other functions, is concerned with risk management, providing a comprehensive as well as a dynamic framework for measuring, monitoring and managing liquidity and interest rate risk. The ALM function also alters the asset-liability portfolio in order to manage risks. The ALM also monitors interest rate sensitivity in our portfolio and takes pre-emptive steps to mitigate any potential liquidity and interest rate risks.

Credit Risk

Credit risk is the possibility of loss due to the failure of any counterparty abiding by the terms and conditions of any financial contract with us. We aim to reduce the aforesaid credit risk through a rigorous loan approval and collateral appraisal process, as well as a strong NPA monitoring and collection strategy. This risk is diminished because the gold jewellery used as collateral for our loans can be readily liquidated, and there is only a remote possibility of recovering less than the amounts due to us in light of the 25 % margin retained on the value of the gold jewellery collateral. However, a sustained decrease in the market price of gold can cause a decrease in the size of our loan portfolio and our interest income.

Operational Risk

Operational risk is broadly defined as the risk of direct or indirect loss due to the failure of systems, people or processes, or due to certain other external events. We have instituted a series of checks and balances, including an operating manual, and both internal and external audit reviews. Although we disburse loans in a relatively short period of time, we have clearly defined appraisal methods as well as KYC compliance procedures in place to mitigate operational risks. Any loss on account of failure by employees to comply with defined appraisal mechanism is recovered out of their variable incentive. We also have detailed guidelines on movement and security measures of cash or gold. We are in the process of introducing centralised software which automates inter branch transactions, enabling branches to be monitored centrally and thus reducing the risk of un-reconciled entries. In addition, we are in the process of installing surveillance cameras across our various branches and subscribe to insurance to cover employee theft or fraud and burglary. Our internal audit department and our centralised monitoring systems assist in the management of operational risk.

Financial Risk

Our business is cash intensive and requires substantial funds, on an ongoing basis to finance the gold loan portfolio and to grow it. Any disruption in the funding sources might have an adverse effect on our liquidity and financial condition. Our Company is proactively pursuing a system of identifying and accessing newer and cheaper sources of funds, to finance the loan book and to grow the business. Our Asset Liability Committee meets regularly and reviews the liquidity position of our Company and ensures availability of sufficient funding in advance.

Market Risk

Market risk refers to potential losses arising from the movement in market values of interest rates in our business. The objective of market risk management is to avoid excessive exposure of our earnings to loss. The majority of our borrowings, and all the loans we make, are at fixed rates of interest. Thus, presently, our interest rate risk is minimal.

Our Risk Management Policy

In order to address the risks that are inherent to our business, we have developed a risk management architecture that includes a risk management committee, internal audit department, vigilance department and a risk management department. Our Risk Management Committee, which is led by one of our Directors, oversees our risk management policies, which help us to identify, measure, monitor and mitigate the various risks that we face in our businesses.

Internal Audit Department

Our internal audit department assists in the management of operational risk using our centralised monitoring systems. Separate divisions of our internal audit department are in place to handle the audit of the departments of the registered office and those of the branch offices. The audits of our branches are divided into two categories: (i) Audit and (ii) Inspection. Branch audit is carried out quarterly with the focus on the verification of documents, accounts, performance and compliance. In addition, an incremental high value loan check is carried out by regional managers as part of their periodical branch inspection.

Vigilance Department

We have an internal vigilance department for undertaking surprise inspections of high/medium risk branches and other branches or on the basis of any report or detection of serious deviations or irregularities. The vigilance undertakes the responsibility of visiting branches to oversee the implementation of risk mitigation initiatives and improvements in customer service.

Risk Management Audit

Our branch auditors also carry out a system driven risk audit on certain identified key risk parameters. These are keyed into the system and alerts are sent to branch controllers and top management in case the risk weight given under a specific parameter goes beyond the prefixed tolerance levels. In all such cases, the concerned branches are inspected by the branch controllers or top management personnel depending on the severity of risk and immediate remedial actions are initiated.

ALM Organisation

The Asset - Liability Committee (ALCO) is responsible for ensuring adherence to the limits set by the Board as well as for deciding the business strategy of our Company (on the assets and liabilities sides) in line with our Company's budget and decided risk management objectives.

The business and risk management strategy of our Company will ensure that our Company operates within the limits/parameters set by the Board. The business issues that an ALCO would consider, inter alia, includes product pricing, desired maturity profile and mix of the incremental assets and liabilities, prevailing interest rates offered by other peer NBFCs for the similar services/product, etc. In addition to monitoring the risk levels of our Company, the ALCO reviews the results of and progress in implementation of the decisions made in the previous meetings. The ALCO would also articulate the current interest rate view of our Company and base its decisions for future business strategy on this view.

The frequency of holding ALCO meetings will be quarterly.

Liquidity Risk Management

Our ALCO measures not only the liquidity position of our Company on an ongoing basis but also examines how liquidity requirements are likely to evolve under different assumptions. Experience shows that assets commonly considered as liquid, like Government securities and other money market instruments, could also become illiquid when the market and players are unidirectional. Therefore, liquidity has to be tracked through maturity or cash flow mismatches. For measuring and managing net funding requirements, the use of a maturity ladder and calculation of cumulative surplus or deficit of funds at selected maturity dates is adopted as a standard tool. The format of the **Statement of Structural Liquidity** as prescribed by RBI may be used for this purpose.

The Maturity Profile based on ALM – II could be used for measuring the future cash flows of company in different time buckets. The time buckets may be distributed as under:

(i) 1 day to 7 days
(ii) 8 days to 14 days
(iii) 15 days to 1 month
(iv) Over one month and up to 2 months
(v) Over 2 months and up to 3 months
(vi) Over 3 months and up to 6 months
(vii) Over 6 months and up to 1 year
(viii) Over 1 year and up to 3 years
(ix) Over 3 years and up to 5 years
(x) Over 5 years

The Statement of Structural Liquidity shall be prepared by placing all cash inflows and outflows in the maturity ladder according to the expected timing of cash flows. A maturing liability will be a cash outflow while a maturing asset will be a cash inflow. While determining the likely cash inflows/outflows, company will have to make a number of assumptions according to their asset - liability profiles. While determining the tolerance levels, the company may take into account all relevant factors based on their asset-liability base, nature of business, future strategy, etc.

In order to enable the company to monitor their short-term liquidity on a dynamic basis over a time horizon spanning from 1 day to 6 months, company will estimate their short-term liquidity profiles on the basis of business projections and other commitments for planning purposes. An indicative format ALM – I issued by RBI for estimating 'Short-term Dynamic Liquidity' will be used for the said purpose.

Interest Rate Risk (IRR)

The operational flexibility given to NBFCs in pricing most of the assets and liabilities imply the need for the financial system to hedge the Interest Rate Risk. Interest Rate Risk is the risk where changes in market interest rates might adversely affect an NBFC's financial condition. The changes in interest rates affect our Company. The immediate impact of changes in interest rates is on our Company's earnings (i.e. reported profits) by changing its Net Interest Income (NII). As such our Company is into funding of loans which are always fixed rate loans. The company manages risk on NII by pricing its loan products to customers at a rate which covers Interest Rate Risk. The risk from the earnings perspective can be measured as changes in the NII or Net Interest Margin (NIM). Measurement of such risk is done at the time of deciding rates to be offered to customers. Once interest rate risk is measured by the ALCO, lending rates are finalised. RBI has prescribed ALM – III for the purpose of Interest Rate Risk Monitoring and our Company may use the same for the purpose of measurement and monitoring of interest rate risk.

Non-performing Assets (NPA)

The RBI Master Directions require that every non-deposit taking NBFC shall, after taking into account the degree of well-defined credit weaknesses and extent of dependence on collateral security for realisation, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes:

i. Standard assets;

ii. Sub-standard assets;

iii. Doubtful assets; and

iv. Loss assets.

Further, the class of assets referred to above shall not be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for an upgrade. A non-deposit taking NBFC is required to make provisions against sub-standard assets, doubtful assets, and loss assets in accordance with the Master Directions. In terms of the Master Directions, non-deposit taking NBFC has to make the following provisions on their loan portfolio.

NPA Management Policy

Our Company has put in place a gold loan monitoring, follow-up and disposal mechanism. Our Gold Loans have a maximum tenure of upto 12 months, however, customers may redeem the loan at any time prior to the full tenure. In the case of non-repayment, i.e., within a period of nine or 12 months, as applicable, from the date of pledging, the asset will be disposed of by our Company after the expiry of either nine or twelve months and 15 days of grace, by sale through public auction. Our Company may also consider settlement of loan dues by way of concessions in interest as a one –time settlement on a case to case basis only with the approval of registered office. The auction procedure shall be transparent. And prior notice will be given to customer by Registered Post/Courier informing about the auction. The auction shall be announced to the public by issuing advertisements in at least two newspapers, one in vernacular language and another in national daily newspaper, describing the date of auction, venue of auction, and the details of gold etc. Auction will be conducted by an approved auctioneer appointed by the Board of Directors of our Company. The amount due to our Company by the customer, being the aggregate of the principal and up to the date of interest as well as other expenses like expenses for conducting auction, will be adjusted against the sale proceeds, whereas the surplus, if any available, will be refunded to the customer, and deficit if any shall have to be paid by him/her. Our Company or its associate concerns will not participate in the auction.

Appointment of an Auctioneer

As per the revised RBI guidelines, our Company or its Promoters cannot participate in the auction. Qualified and experienced auctioneers are to be appointed by our Company to carry out the auction on behalf of the company.

Capital Adequacy Ratio

As per the Master Directions, every NBFC-ML including us are subject to capital adequacy requirements. Currently, we are required to maintain a minimum capital ratio consisting of Tier I and Tier II capital which shall not be less than 15% of its aggregate risk weighted assets on balance sheet and of risk adjusted value of off-balance sheet items. Further, we need to maintain a Tier I capital of 12%. Also, the total of Tier II capital, at any point of time, shall not exceed one hundred percent of Tier I capital. Additionally, we are required to transfer up to 20% of our annual profit to a reserve fund and make provisions for NPAs. We had a capital adequacy ratio of 19.29%,18.42%, 17.71% and 18.65% on December 31, 2024, March 31, 2024, March 31, 2023 and March 31, 2022, respectively.

We have satisfied the minimum capital adequacy ratios prescribed by the RBI for the financial year ended March 31, 2024 and the nine month period ended December 31, 2024.

Technology

We use information technology as a strategic tool for our business operations to improve our overall productivity and efficiency. We believe that through our information systems which are currently in place, we are able to manage our operations efficiently, market effectively to our target customers, and effectively monitor and control risks.

We believe that this system has improved customer service by reducing transaction time and has allowed us to manage loan collection efforts better and to comply with regulatory record-keeping and reporting requirements. All our branches are computerised. A need was felt for a centralised IT platform for our continued aggressive growth along with risk management. Accordingly, we are in the process of introducing new software to improve the operational efficiency.

Our Borrowings and Credit Ratings

Source of funding

Please refer to sections titled "*Financial Statements*" and "*Financial Indebtedness*" on pages 188 and 190.

We have depended on working capital limits from bank and issuance of secured and unsecured non-convertible debentures through private placement as primary source of funding. We have also made public issue of secured and unsecured non-convertible debentures.

We also raise capital by issuing equity shares from time to time particularly to our Promoters.

Security threats and measures taken to mitigate them

The principal security risks to our operations are robbery and employee theft or fraud. We have extensive security and surveillance systems and dedicated security personnel to counter external security threats. To mitigate internal threats, we undertake careful pre-employment screening, including obtaining references before appointment. We also started installing surveillance cameras across our branches. To protect against robbery, all branch employees work behind wooden, glass and steel counters, and the back office, strong room/safe and computer areas are locked and closed to customers. We also keep the pledged gold in joint custody. While we provide around the clock armed security guards for risk prone branches, the majority of our branches do not require security guards as the gold jewellery are stored securely in strong rooms. Since we handle high volumes of cash and gold jewellery at our locations, daily monitoring, spot audits and immediate responses to irregularities are critical to our operations. We have an internal auditing program that includes unannounced branch audits and cash counts at randomly selected branches.

Competition

We face competition from banks, NBFCs and other unregulated/unorganised money lenders. Our Board believes that we can achieve economies of scale and increased operating efficiencies by increasing the number of branches under operation and proven operating methods. We believe that the primary elements of competition are the quality of customer service and relationship management, branch location and the ability to lend competitive amounts at competitive rates. In addition, we believe the ability to compete effectively will be based increasingly on strong management, regional market focus, automated management information systems and access to capital.

Property

Our registered office is located in Kottayam, Kerala and is owned by our Promoter. As of December 31, 2024, we have branch offices in Kerala, Tamil Nadu, Karnataka, Andhra Pradesh, Telangana, Delhi, Uttar Pradesh and Maharashtra along with the union territory of Puducherry, most of which are contracted on a leasehold basis.

Intellectual Property

As on the date of this Draft Prospectus, we have obtained 16 trademark registrations with the Trade Marks Registry under the Trade Marks Act, 1999.

Employees

As on December 31, 2024, we had 3,697 employees.

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Kosamattam Finance Limited** ("the Company"), which comprise the Balance Sheet as at March 31,2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash flows for the year then ended, and notes to the Standalone Financial Statements including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements, give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon. So we do not provide a separate opinion on these matters. We have determined the matter described below as the Key Audit Matter to be communicated in our report.

Key Audit Matters	Audit Procedures adopted
Ind-AS 109 (Financial Instruments) requires the Company to recognise Expected Credit Loss (ECL) and impairment loss allowances on financial assets, which involves application of significant judgement and estimates including use of key assumptions such as probability of default and loss given default. The outbreak of the COVID – 19 pandemic and its post impact necessitates that the Company shall specifically consider the possible impact of uncertainties associated with the same in applying such judgement and estimates. Management estimates impairment provision using Expected Credit loss model for the loan exposure. Measurement of loan impairment involves application of significant judgement by the management. The most significant judgements and assumptions are: Prompt and judicious identification and classification of the impaired loans, and determination of probability of defaults (PD) and estimation of loss given defaults (LGD) based on the value of collaterals and relevant factors. The estimation of Expected Credit Loss (ECL) on financial instruments involves significant judgements and estimates. Following are points with increased level of audit focus: Classification of assets to stage 1, 2, or 3 using criteria in accordance with Ind AS 109 which also include considering the impact of recent Covid-19 epidemic and its continuing effects in the economy. Accounting interpretations, modelling assumptions and data used to build and run the models and measurement of individual borrowers' provisions. Inputs and Judgements used in determination of management overlay at various asset stages considering the current uncertain economic environment arising out of the COVID 19 Pandemic.	We have evaluated the management's process and tested key controls around the determination of expected credit loss allowances, including controls relating to: –The identification of events leading to a significant increase in risk and credit impairment events and –The determination of the impaired credit loss allowances and the key assumptions including probability of default and loss given default on a forward-looking basis having regard to historical experiences. We understood and assessed the appropriateness of the impairment methodology developed and used by the management at the entity level, including with reference to the possible impact of the uncertainties associated with the post COVID-19 impacts. We tested the accuracy of key data inputs and calculations used in this regard. We found that these key controls as above, were designed, implemented and operated effectively, and therefore have relied on these key controls and management's assessment of financial impact for the purposes of our audit of ECL and impairment loss allowances. We have evaluated the management's process in estimation of future cash receipts for the purpose of determination of EIR including identification of factors like expected behaviour, life cycle of the financial asset and probable fluctuation in collateral value. We tested the accuracy of key data inputs and calculations used in this regard. We tested the completeness of loans included in the Expected Credit Loss calculations as of 31 March 2022. We tested assets in stage 1, 2 and 3 on sample basis to verify that they were allocated to the appropriate stage. We performed an overall assessment of the ECL

	provision levels at each stage including management's assessment on Covid-19 impact to determine if they were reasonable considering the Company's portfolio, risk profile, credit risk management practices and the macroeconomic environment. We assessed the adequacy and appropriateness of disclosures incompliance with the Ind AS 107 in relation to ECL especially in relation to judgements used in estimation of ECL provision.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the Standalone Financial Statements and our report thereon.

- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("The Act") with respect to preparation of the Standalone Financial Statements that give a true and fair view of the financial position, financial performance (including other comprehensive income),changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standard (Ind AS) prescribed under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis for accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of the users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with standards on auditing, we exercise professional judgment and professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i)of the Act. we are also responsible for expressing our opinion on whether the company has adequate internal financial control systems in place and operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of the accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists ,we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure 2 to the Independent Auditor's Report of even date on the Standalone Financial Statements of Kosamattam Finance Limited (CIN: U65929KL1987PLC004729) for the year ended 31 March 2022.

(Referred to in paragraph 2(f) under Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Adequacy of Internal financial controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kosamattam Finance Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of the internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the" Guidance Note") issued by The Institute of Chartered Accountants of India and the standards on auditing prescribed under section 143(10) of the Companies act 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that material weakness exists, and testing

and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and preparation of the Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and the dispositions of the assets of the Company; (2) provide reasonable assurance that transaction are recorded as necessary to permit preparation of the Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that degree of compliance with the policies or procedures may deteriorate.

1 Corporate Information

Kosamattam Finance Limited is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its debt securities are listed on the Bombay Stock Exchange. The Company had been primarily incorporated as a Private Limited Company and converted into a Public Limited Company on November 22, 2013.

The Company is a Non-Banking Finance Company ('NBFC'), which provides a wide range of fund-based and fee-based services including gold loans, money exchange facilities, etc. The Company is a Systemically Important Non-Deposit Taking Non-Banking Financial Company Registered under Sec 45IA of RBI Act. The Company currently operates through 988 branches spread across the country.

The registration details are as follows:

RBI	**B-16.00117**
Corporate Identity Number (CIN)	**U65929KL1987PLC004729**

The financial statements of the Company for the year ended March 31, 2022, were approved for issue in accordance with the resolution of the Board of Directors on May 21, 2022

2 Basis of preparation and presentation

2.1 Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements may require further adjustments, if any, necessitated by the guidelines/clarifications/directions issued in future by RBI, Ministry of Corporate Affairs, or other regulators, which will be implemented as and when the same are issued and made applicable.

2.2 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

i) Fair value through other comprehensive income (FVOCI) instruments,
ii) Other financial assets held for trading,
iii) Financial assets and liabilities designated at fair value through profit or loss (FVTPL)

2.3 Presentation of Financial Statements

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when there is an unconditional legally enforceable right to offset the recognized amounts without being contingent on a future event and the parties intend to settle on a net basis

2.4 Functional and presentation currency

The financial statements are presented in Indian Rupees (INR) which is also its functional currency and all values are rounded to the nearest lakhs, except when otherwise indicated.

2.5 New Accounting Standards those are issued but not effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards. There is no such notification that would have been applicable from April 01, 2021

3 Significant accounting policies

3.1 Recognition of interest income

The Company recognizes interest income by applying the effective interest rate (EIR) to the gross carrying amount of a financial asset except for purchased or originated credit-impaired financial assets and other credit-impaired financial assets.

For purchased or originated credit-impaired financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.

For other credit-impaired financial assets, the Company applies an effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

The effective interest rate on a financial asset is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While estimating future cash receipts, factors like expected behaviour and life cycle of the financial asset, probable fluctuation in collateral value, etc. are considered which has an impact on the EIR.

While calculating the effective interest rate, the Company includes all fees and points paid or received to and from the borrowers that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

3.2 Recognition of revenue from the sale of goods or services

Revenue (other than for Financial Instruments within the scope of Ind AS 109) is measured at an amount that reflects the considerations, to which an entity expects to be entitled in exchange for transferring goods or services to the customer, excluding amounts collected on behalf of third parties.

The Company recognizes revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identity contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Revenue from a contract with the customer for rendering services is recognized at a point in time when the performance obligation is satisfied.

3.3 Financial instruments

A. Financial Assets

3.3.1 Initial recognition and measurement

All financial assets are recognized initially at fair value when the parties become parties to the contractual provisions of the financial asset. In the case of financial assets which are not recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial assets, are adjusted to the fair value on initial recognition.

3.3.2 Subsequent measurement

The Company classifies its financial assets into various measurement categories. The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets.

a. Financial assets measured at amortized cost

A financial asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b. Financial assets measured at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c. Financial assets measured at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories is measured at FVTPL.

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

B. Financial liabilities

3.3.3 Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, non-convertible debentures, loans, and borrowings including bank overdrafts.

3.3.4 Subsequent Measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

3.4 Derecognition of financial assets and liabilities

3.4.1 Financial Asset

The Company derecognizes a financial asset when the contractual cash flows from the asset expire or it transfers its rights to receive the contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

3.4.2 Financial Liability

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and the recognition of a new liability with the difference charged to profit or loss.

3.5 Offsetting

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset and the net amount is presented in the balance sheet when the Company has a legal right to offset the amounts and intends to settle on a net basis or to realize the asset and settle the liability simultaneously in all the following circumstances:

a. The normal course of business

b. The event of default

c. The event of insolvency or bankruptcy of the Company and/or its counterparties

3.6 Impairment of financial assets

In accordance with Ind AS 109, the Company uses the 'Expected Credit Loss model (ECL), for evaluating impairment of financial assets other than those measured at Fair value through profit and loss.

Further, in accordance with RBI circular no. RBI/2019-20/170 dated March 13, 2020, the impairment allowances as per ECL shall be compared with the required provisioning under IRACP. If the impairment allowance under Ind AS 109 is lower than the provisioning required under IRACP the difference is appropriated from net profit after tax to 'Impairment Reserve'.

3.6.1 Overview of the Expected Credit Loss (ECL) model

Expected Credit Loss, at each reporting date, is measured through a loss allowance for a financial asset:

- At an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.
- At an amount equal to 12-month expected credit losses, if the credit risk on a financial instrument has not increased significantly since initial recognition.

Lifetime expected credit losses mean expected credit losses that result from all possible default events over the expected life of a financial asset.

12-month expected credit losses mean the portion of Lifetime ECL that represents the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Company performs an assessment, at the end of each reporting period, of whether a financial asset's credit risk has increased significantly since initial recognition. When making the assessment, the change in the risk of a default occurring over the expected life of the financial instrument is used instead of the change in the amount of expected credit losses.

Based on the above process, the Company categorizes its loans into three stages as described below:

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

For non-impaired financial assets

- Stage 1 is comprised of all non-impaired financial assets which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial asset. In assessing whether credit risk has increased significantly, the Company compares the risk of a default occurring on the financial asset as at the reporting date with the risk of a default occurring on the financial asset as at the date of initial recognition. Interest revenue is calculated on the gross carrying amount of the asset.
- Stage 2 is comprised of all non-impaired financial assets which have experienced a significant increase in credit risk since initial recognition. The Company recognizes lifetime ECL for stage 2 financial assets. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then entities shall revert to recognizing 12 months ECL provision. Interest revenue is calculated on the gross carrying amount of the asset.

For impaired financial assets:

Financial assets are classified as stage 3 when there is objective evidence of impairment at the reporting date.

The Company recognizes lifetime ECL for impaired financial assets and interest revenue is calculated on the net carrying amount of the asset.

3.6.2 Estimation of Expected Credit Loss

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Probability of Default (PD) - The Probability of Default is an estimate of the likelihood of default over a given time horizon. The Company uses historical information where available to determine PD. Considering the different products and schemes, the Company has bifurcated its loan portfolio into various pools.

Exposure at Default (EAD) - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

Loss Given Default (LGD) – The Loss Given Default is an estimate of the loss arising in the case where default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realization of any collateral.

Forward-looking information

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. Periodically, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation, etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as Land, buildings, securities, etc. However, the fair value of collateral affects the calculation of ECL. To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models. Non-financial collateral is valued based on data provided by third parties or management judgments. In its normal course of business whenever default occurs, the Company may take possession of properties or other assets in its retail portfolio and generally disposes of such assets through auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, assets under legal repossession processes are not recorded on the balance sheet. Loans are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

3.7 Determination of fair value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

i. In the principal market for the asset or liability, or

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O TRICHUR Br. COCHIN CALICUT CHENNAI

ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. No such instances of transfers between levels of the fair value hierarchy were recorded during the reporting period.

3.8 Cash and cash equivalents

Cash and cash equivalents comprise of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

3.9 Bank Balances other than cash and cash equivalents

Bank balances other than cash and cash equivalents include earmarked balances with banks and balances which are held as margin money or security against borrowings, guarantees, and other commitments.

3.10 Other receivables

Other receivables mean receivables emanating from items that are classified as 'others' under 'Revenue from Operations'.

3.11 Property, plant, and equipment

Property, plant, and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment if any. Cost of an item of property, plant, and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Advances paid towards the acquisition of fixed assets, outstanding at each reporting date are shown under other non-financial assets. The cost of property, plant, and equipment not ready for its intended use at each reporting date are disclosed as capital work-in-progress. Subsequent expenditure related to the asset is added to its carrying amount or recognized as a separate asset only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

3.11.1 Depreciation

Depreciation on property, plant, and equipment is calculated using written down value method (WDV) to write down the cost of property and equipment to their residual values over their estimated useful lives which is in line with the estimated useful life as specified in Schedule II of the Companies Act, 2013.

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY H.O. TRICHUR BR. COCHIN CALICUT CHENNAI CHARTERED ACCOUNTANTS

The estimated useful lives are as follows:	
Particulars	*Useful Life*
Building	*60 Years*
Building - Compound Wall and Well	*5 Years*
Furniture and Fixtures	*10 Years*
Electrical Fittings	*10 Years*
Computer	*3 Years*
Vehicles	*8 Years*
Plant and Machinery	*22/15 Years*

The residual values, useful lives, and methods of depreciation of property, plant, and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the amortization period or methodology, as appropriate, and treated as changes in accounting estimates.

Property, plant, and equipment are derecognized on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on the derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in other income/expense in the statement of profit and loss in the year the asset is derecognized. The date of disposal of an item of property, plant, and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

3.12 Intangible assets

An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.

Subsequent expenditure related to the asset is added to its carrying amount or recognized as a separate asset only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably.

Intangible assets comprising of software is amortized on a straight-line basis over a period of 10 years unless it has a shorter useful life.

Gains or losses from the derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit or Loss when the asset is derecognized.

3.13 Impairment of non-financial assets: Property, Plant and Equipment and Intangible Assets

The Company assesses, at each reporting date, whether there is any indication that any property, plant and equipment, and intangible assets or group of assets called Cash Generating Units (CGU) may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount to determine the extent of impairment, if any.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. A recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

An assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

3.14 Finance costs

Finance costs represent interest expense recognized by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.

The EIR in case of a financial liability is computed

a. As the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of the amortized cost of financial liability.

b. By considering all the contractual terms of the financial instrument in estimating the cash flows.

c. Including all fees paid between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts. Any subsequent changes in the estimation of the future cash flows are recognized in interest income with the corresponding adjustment to the carrying amount of the assets.

3.15 Employee Benefits Expenses

3.15.1 Short Term Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include benefits such as salaries, wages, short-term compensated absence, etc. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

3.15.2 Post-Employment Benefits

A. Defined contribution schemes

All eligible employees of the company are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the company contribute monthly at a stipulated percentage of the covered employee's salary. Contributions are made to Employees Provident Fund Organization in respect of Provident Fund at the prescribed rates and are charged to Statement of Profit and Loss at actuals. The company has no liability for future provident fund benefits other than its annual contribution.

B. Defined Benefit schemes

Gratuity

The Company provides for gratuity covering eligible employees under which a lump sum payment is paid to vested employees at retirement, death, incapacitation, or termination of employment, of an amount reckoned on the respective employee's salary and his tenure of employment with the Company. The Company accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under a defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases, and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

Other Comprehensive Income in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods

3.16 Provisions

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

3.17 Taxes

Income tax expense for the year comprises of current tax and deferred tax.

3.17.1 Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities.

The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income. Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss i.e., either in other comprehensive income or in equity.

Current tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

3.17.2 Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities used in the computation of taxable profit and their carrying amounts in the financial statements for financial reporting purposes.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits, and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss i.e., either in other comprehensive income or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.17.3 Goods and services tax /value-added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognized net of the goods and services tax/value-added taxes paid, except:

i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable

ii. When receivables and payables are stated with the amount of tax included, the net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

3.18 Other income and expenses

All other income and expenses are recognized in the period they occur.

3.19 Contingent Liabilities and Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent assets are neither recognized nor disclosed in the financial statements.

3.20 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.
The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduce the earnings per share or increases loss per share are included.

3.21 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on the historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

3.22 Cash-flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue-generating, investing and financing activities of the Company are segregated.

3.23 Leases

The Company has adopted Ind AS 116-Leases effective from 1st April 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognized on the date of initial application.

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract is or contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:
(i) The contract involves the use of an identified asset
(ii) The Company has substantially all of the economic benefits from the use of the asset through the period of the lease and
(iii) The Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term Leases) and leases of low-value assets. For these short-term and leases of low-value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is re-measured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The re-measurement normally also adjusts the leased assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

4 Significant accounting judgments, estimates, and assumptions

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets, and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty, and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

4.1 Business Model Assessment

Classification and measurement of financial assets depend on the results of the Solely Payments of Principal and Interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed, and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

4.2 Effective Interest Rate (EIR) method

The Company's EIR methodology recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given and recognizes the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgment regarding the expected behaviour and life-cycle of the instruments, probable fluctuations in collateral value as well as expected changes to India's base rate and other fee income/expense that are integral parts of the instrument

4.3 Impairment of loans portfolio

The measurement of impairment losses across all categories of financial assets requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

4.4 Contingent liabilities and provisions other than impairment on a loan portfolio

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation and arbitration in the ordinary course of business. When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed. Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter, and historical evidence from similar incidents. Significant judgment is required to conclude these estimates.

4.5 Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

4.6 Fair value measurement

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk, and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4.7 Other estimates

These include contingent liabilities, useful lives of tangible and intangible assets, etc.

Note 22.1: Nature and purpose of reserve

Statutory reserve

Statutory Reserve represents the Reserve Fund created under Section 45 IC of the Reserve Bank of India Act, 1934. Accordingly an amount of ₹1,599.94 Lakhs (March 31, 2021 ₹1,330.30 Lakhs) representing 20% of Profit for the period is transferred to the fund for the year.

Securities Premium

This Reserve represents the premium on the issue of equity shares and can be utilized in accordance with the provisions of the Companies Act, 2013.

Debenture Redemption Reserve

In terms of Section 71 of the Companies Act, 2013 read with Rule 18 (7) of Companies (Share Capital and Debentures) Rules 2014 , the Company has created Debenture Redemption Reserve in respect of Secured Redeemable Non-Convertible Debentures and Unsecured Redeemable Non-Convertible Debentures issued through public issue as per SEBI (Issue and Listing of Debt Securities) Regulations, 2008.

In accordance with The Companies (Share Capital and Debentures) Amendment Rules, 2020, any non-banking finance company that intends to issue debentures to the public are no longer required to create a DRR for the purpose of redemption of debentures. Also the exceptions as available to NBFCs earlier have been retained in terms of creation of DRR for privately placed debentures.

Further, the Company shall on or before the 30th day of April in each year, invest or deposit, as the case may be, a sum which shall not be less than fifteen percent, of the amount of its debentures maturing during the year ending on the 31st day of March of the next year in the manner mentioned in Rule 18(7)(c). Accordingly the Company has deposited ₹9,853.14 Lakhs in deposit account for debenture redemption

Impairment Reserve

In accordance with RBI circular no. RBI/2019-20/170 dated March 13, 2020, the company has provided for impairment allowances as required by Ind AS. In parallel, the company has also determined the asset classification and computed the impairment provisions as per extant prudential norms on Income Recognition, Asset Classification, and Provisioning (IRACP). A comparison between provisions required under IRACP and impairment allowances made under Ind AS 109 has been disclosed in Note No. 46.

Further, since impairment allowance under Ind AS 109 is lower than the provisioning required under IRACP the difference has been appropriated from net profit after tax to 'Impairment Reserve'. The balance in the 'Impairment Reserve' shall not be reckoned for regulatory capital.

No withdrawals are permitted from this reserve without prior permission from the Department of Supervision, RBI. The requirement for 'Impairment Reserve' shall be reviewed, going forward as per further instructions from RBI

General Reserve

Under the erstwhile Companies Act 1956, the general reserve was created through an annual transfer of profit for the period at a specified percentage in accordance with applicable regulations. Consequent to the introduction of the Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to the general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilized only in accordance with the specific requirements of the Companies Act, 2013.

Retained earnings

This Reserve represents the cumulative profits of the Company. This Reserve can be utilized in accordance with the provisions of the Companies Act, 2013.

Other Comprehensive Income

Remeasurement of defined benefit plans

It represents the gain/(loss) on re-measurement of Defined Benefit Obligation and Plan assets

Valuation techniques

Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include cash and cash equivalents, trade receivables, balances other than cash and cash equivalents, and trade payables without a specific maturity. Such amounts have been classified as Level 2/Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

Loans and advances to customers

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default, and loss has given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view, and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics i.e., type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using an effective interest rate model that incorporates interest rate estimates considering all significant

characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating the probability of defaults and loss given defaults.

Financial liability at amortized cost

The fair values of financial liability held to maturity are estimated using an effective interest rate model based on contractual cash flows using actual yields.

Note 41: Risk Management

The Company's principal financial liabilities comprise borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the company's operations. The Company's principal financial assets include loans, cash, and cash equivalents, and other receivables that are derived directly from its operations. As a financial lending institution, Company is exposed to various risks that are related to the lending business and the operating environment. The principal objective in Company's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company's Risk Management Committee of the Board of directors constituted in accordance with the Reserve Bank of India regulations has overall responsibility for overseeing the implementation of the Risk Management Policy. The committee meets at least twice in a year to review the Risk Management practices. Risk Management department periodically places its report to the committee for review.

Risk Management Committee shall be responsible for the following:

a) Identifying the various risks associated with the activities of the Company and assessing their impact on the business.

b) Measuring the risks and suggesting measures to effectively mitigate the risks. However, the primary responsibility for managing the various risks on a day-to-day basis will be with the heads of the respective business units of the Company.

The Company is generally exposed to credit risk, liquidity risk, and market risk

I) Credit Risk

Credit Risk arises from the risk of loss that may occur from the default of the Company's customers under loan agreements. Customer defaults and inadequate collateral may lead to loan losses.

The Company addresses credit risk through the following processes:

a) Credit risk on a Gold loan is considerably reduced as collateral in the form of Gold ornaments which can be easily liquidated and there is only a distant possibility of losses due to the adequate margin of 25% or more retained while disbursing the loan. Credit risk is further reduced through a quick but careful collateral appraisal and loan approval process. Hence overall, the Credit risk is normally low.

b) Sanctioning powers for Gold Loans are delegated to various authorities at branches/controlling offices. Sanctioning powers is used only for granting loans for legally permitted purposes. The maximum Loan to Value stipulated by the Reserve Bank of India does not exceed under any circumstances.

c) Gold ornaments brought for the pledge is the primary responsibility of the Branch Manager. Extra care is taken if the gold jewellery brought for a pledge by any customer at any one time or cumulatively is more than 20 gm.

d) Auctions are conducted as per the Auction Policy of the Company and the guidelines issued by the Reserve Bank of India. Auction is generally conducted before loan amount plus interest exceeds the realizable value of gold. After the reasonable time is given to the customers for release after the loan becomes overdue and exhausting all efforts for persuasive recovery, auction is resorted to as the last measure in unavoidable cases. Loss on account of auctions are recovered from the customer. Any excess received on auctions are refunded to the customer.

Impairment Assessment

The Company is mainly engaged in the business of providing gold loans. The tenure of the loans generally is up to 9 months. The Company also provides other secured and unsecured loans. The Company's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the Summary of significant accounting policies.

Definition of default and cure

The Company considers a financial instrument as defaulted and therefore Stage 3 (credit-impaired) for Expected Credit Loss (ECL) calculations in all cases when the borrower becomes 90 days past due on its contractual payments. As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate unlikeness to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 as appropriate.

KOSAMATTAM FINANCE LTD. Registered Office KOTTAYAM
For Thacker & Co. Chartered Accountants Regd. No. 000038N By COCHIN CALICUT CHENNAI

It is the Company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when none of the default criteria have been present for at least three consecutive months. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates there has been a significant increase in credit risk compared to initial recognition.

Company's internal credit rating grades and staging criteria for loans are as follows:

Rating	Loans Days past due (DPD)	Stages
High grade	Not yet due	Stage 1
Standard grade	1-30 DPD	Stage 2
Sub-standard grade	31-60 DPD	Stage 2
Past due but not impaired	61- 90 DPD	Stage 2
Individually impaired	91 DPD or More	Stage 3

Exposure at Default (EAD)

The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest.

Probability of default (PD)

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 months ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Company uses historical information wherever available to determine PD. PD is calculated using the Incremental 91 DPD approach considering fresh slippage using historical information.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

Collateral and other credit enhancements
The amount and type of collateral required to depend on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral.

The tables on the following pages show the maximum exposure to credit risk by class of financial asset. They also show the total fair value of collateral, any surplus collateral (the extent to which the fair value of collateral held is greater than the exposure to which it relates), and the net exposure to credit risk.

The main types of collateral are as follows: -
Management provides gold loans against the security of gold. The gold is pledged with the company and based on the company policy of loan to value ratio, the loan is provided.

Asset Liability Management (ALM)

The table below shows the maturity pattern of the assets and liabilities. In the case of loans, the contracted tenure of the gold loan is a maximum of 9 months. However, on account of a high incidence of prepayment before contracted maturity, the below maturity profile has been prepared by the management on the basis of the historical pattern of repayments. In the case of loans other than gold loans, the maturity profile is based on contracted maturity.

III) Market risk

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factors. Such changes in the values of financial instruments may result from changes in the interest rates, credit, liquidity, and other market changes. The objective of market risk management is to avoid excessive exposure of our earnings and equity to loss and reduce our exposure to the volatility inherent in financial instruments. The Company is exposed to two types of market risk as follows:

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is subject to interest rate risk, primarily since it lends to customers at fixed rates and for maturity periods shorter than the funding sources. The majority of our borrowings are at fixed rates. However, borrowings at floating rates give rise to interest rate risk. Interest rates are highly sensitive to many factors beyond control, including the monetary policies of the Reserve Bank of India, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation, and other factors. In order to manage interest rate risk, the company seeks to optimize the borrowing profile between short-term and long-term loans. The company adopts funding strategies to ensure diversified resource-raising options to minimize cost and maximize the stability of funds. Assets and liabilities are categorized into various time buckets based on their maturities and the Asset Liability Management Committee supervises an interest rate sensitivity report periodically for assessment of interest rate risks. The Interest Rate Risk is mitigated by availing funds at very competitive rates through diversified borrowings and for different tenures.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings are as follows:

Currency: ₹ in Lakhs

Impact on Profit before taxes	As at March 31, 2022	As at March 31, 2021
On Floating Rate Borrowings		
0.5 % increase in interest rates	433.04	292.41
0.5 % decrease in interest rates	(433.04)	(292.41)

Price risk

The Company's exposure to price risk is not material.

Note 42: Segment reporting

The Company is engaged in the business segment of Financing, whose operating results are regularly reviewed by the management to make decisions about resources to be allocated and to assess its performance, and for which discrete financial information is available. Further other business segments do not exceed the quantitative thresholds as defined by Ind AS 108 on "Operating Segment". Hence, there are no separate reportable segments, as required by Ind AS 108 on "Operating Segment".

Note 43: Utilization of proceeds of Public Issue of Non - Convertible Debentures

The company has during the year raised through public issue ₹ 53,735.62 Lakhs of Secured Redeemable Non-Convertible Debentures and ₹ 2,585.26 Lakhs of Subordinated Debt. As at March 31, 2022, the company has utilized the entire proceeds of the public issue, net of issue expenses in accordance with the objects stated in the offer documents.

Note 47: Provision for the impact of COVID-19

The 'severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2)', generally known as COVID-19, which was declared as a global pandemic by the World Health Organisation on 11 March 2020, continues to spread across the globe and in India. Globally countries and businesses are under lockdown.

India entered the second year of the pandemic together with the rest of the globe. The beginning of the year rang in positivity, with declining daily cases, the hope of the vaccines around the corner, and the successful management of the first wave of Covid-19. Businesses started picking up, and across sectors, reports started coming in from companies touching Pre-Covid levels. However, the much-dreaded second wave of the coronavirus came in, bringing with it more deadly variants as compared to the previous cycle. While the country felt it was geared to tackle this, this could not be further from the truth on the ground. However, since the majority of our loan book consists of gold loans there has no significant impact on the operations and financial position of the Company on account of the outbreak of the COVID-19 pandemic, during the period.

Reserve Bank of India has announced certain regulatory measures in the wake of the disruptions on account of the COVID-19 pandemic. In accordance with the RBI guidelines relating to the COVID-19 Regulatory Package, the lending institutions have been permitted to grant a moratorium on payment of all instalments and/or interest, as applicable, to eligible borrowers in accordance with the Board approved policy. The company has not availed any moratorium from the lenders. In accordance with the regulatory package announced by the Reserve Bank of India, the company has offered an optional moratorium to eligible customers. As per the guidelines issued by the Reserve bank of India on August 06, 2020 & May 05, 2021 regarding the Resolution framework for Covid-19-related stress, the lending institutions have been permitted to implement a resolution plan in respect of eligible borrowers in accordance with the Board approved policy. Since the majority of our customers are short-term-gold loan customers and other eligible customers also were not there, the number of accounts where the resolution plan has been implemented under this window is 'NIL'.

INDEPENDENT AUDITORS' REPORT

To The Members of,
Kosamattam Finance Limited

CIN: U65929KL1987PLC004729

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Kosamattam Finance Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, Statement of Cash flows for the year then ended, and notes to the Financial Statements including a summary of significant accounting policies and other explanatory information ("Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements, give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Statements of the current financial year ended 31.3.2023. These matters were addressed in the context of our audit of the Financial Statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Financial Statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Financial Statements.

Key Audit Matters	Audit Procedures adopted
1. Interest Income on Gold Loans: Interest on Gold Loan is based on the various gold loan schemes launched by the Company. The calculation of interest on gold loans is as per the applicable schemes, which specifies interest and penal interest for delayed payments. Due to huge number of schemes and involvement of complex calculation, we have considered this as Key Audit Matter. (Reference to Note 23, read with Statement of Accounting Polices Note 3.1 to the Financial Statements)	We assessed the Company's process on interest income computation. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows: Since the entire interest computation is system driven, we • Evaluated the design of internal controls relating to interest income computation. • Selected a sample of continuing and new gold loan schemes and tested the operating effectiveness of the internal control, relating to interest income computation. We carried out a combination of procedures involving inquiry and observation, inspection of evidence in respect of operation of these controls. • Performed analytical procedures and test of detail procedures for testing the accuracy of the revenue recorded. • Tested the relevant information technology systems' access and change management controls relating to interest income computation and related information used in interest computation. • Obtained the list of modifications made in the interest scheme master during the year and test checked the same on sample basis.
2. Allowances for expected credit losses ('ECL'): As at 31 March 2023, significant judgement is used in classifying loan assets and applying appropriate measurement principles. ECL on such loan assets measured at amortised cost is a critical estimate involving greater level of management judgement. As part of our risk assessment, we determined that the ECL on such loan assets has a high degree of estimation uncertainty, with a potential range of reasonable outcomes of the financial statements. The elements of estimating ECL which involved increased level of audit focus are the following: Qualitative and quantitative factors used in	We have examined the policies approved by the Board of Directors of the Company that articulate the objectives of managing each portfolio and their business models. We have also verified the methodology adopted for computation of ECL ('ECL Model') that addresses policies approved by the Board of Directors, procedures and controls for assessing and measuring credit risk on all lending exposures measured at amortised cost. Additionally, we have confirmed that adjustments to the output of the ECL Model are consistent with the documented rationale and basis for such adjustments and that the amount

staging the loan assets measured at amortised cost; • Basis used for estimating probabilities of default ('PD'), loss given default ('LGD') and exposure at default ('EAD') at product level with past trends; • Judgements used in projecting economic scenarios and probability weights applied to reflect future economic conditions; and • Adjustments to model driven ECL results to address emerging trends. Hence, we have considered the estimation of ECL as a Key Audit Matter. (Reference to Note 7 and Note 27, read with Statement of Accounting Policies Note 3.6 to the Financial Statements)	of adjustments has been approved by the Audit Committee of the Board of Directors. Our audit procedures related to the allowance for ECL included the following, among others: • Assessed the accounting policy for impairment of financial assets and its compliance with Ind AS 109. • Obtained an understanding of the Company's Expected Credit Loss (ECL) calculation and the underlying assumptions. • Tested the key controls over the assessment and identification of significant increase in credit risk and staging of assets. • Sample testing of the accuracy and appropriateness of information used in the estimation of Probability of Default (PD) and Loss Given Default (LGD). • Tested the arithmetical accuracy of the computation of PD and LGD and also performed analytical procedures to verify the reasonableness of the computation. • Assessed the disclosure made in relation to Ind AS 109 for ECL allowance. Further, we also assessed whether the disclosure of key judgements and assumptions are adequate.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the Financial Statements and our Auditors' Report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to preparation of the Financial Statements that give a true and fair view of the financial position,

SGS & COMPANY * CHARTERED ACCOUNTANTS * H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standard (Ind AS) prescribed under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis for accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of the users taken on the basis of these Financial Statements.

As part of an audit in accordance with standards on auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Financial Statements in place and operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of the accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention

in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Non-Banking Financial Companies Auditor's Report (Reserve Bank) Direction, 2016, issued by the Reserve Bank of India, in exercise of the powers conferred by sub-section (1A) of Section 45MA of the Reserve Bank of India Act, 1934, we give in the "Annexure 1", an additional Audit Report addressed to the Board of Directors containing our statements on the matters specified therein.

2. As required by section 143(3) of the Act, based on our audit we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

   b. In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.

e. On the basis of the written representations received from the directors as on March 31, 2023 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023, from being appointed as a director in terms of section 164 (2) of the Act.

f. With respect to the adequacy of the internal financial controls with reference to Financial Statements of the company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h. With respect to the other matters to be included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to explanations given to us:

i. The company has disclosed the impact of pending litigations on its financial position in its Financial Statements. Refer Note 37 to the Financial Statements.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall,

Report on the Internal financial controls with reference to the Financial Statement under Clause (i) of Sub-section 3 of Section 143 of the Companies Act 2013 ("the Act")

We have audited the internal financial controls with reference to the Financial Statements of Kosamattam Finance Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Financial Statements criteria established by the Company considering the essential components of the internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to Financial Statements issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Financial Statements based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the" Guidance Note") issued by The Institute of Chartered Accountants of India and the standards on auditing prescribed under section 143(10) of the Companies act 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Financial Statements included obtaining an understanding of internal financial controls with reference to the Financial Statements, assessing the risk that material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and preparation of the Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and the dispositions of the assets of the Company; (2) provide reasonable assurance that transaction are recorded as necessary to permit preparation of the Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to be best of our information and according to the explanations given to us, the Company has, broadly, in all material respects, an adequate internal financial controls with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at March 31, 2023, based on the internal control with reference to Financial Statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure "3" to the independent Auditor's Report*

(Referred to in paragraph 3 under 'Report on other legal and regulatory requirements' section of our report of even date to the members of Kosamattam Finance Private Limited (CIN: U65929KL1987PLC004729))

As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act and as per the information and explanation provided to us, we give a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

i. In respect of the Company's property, plant and equipment and intangible assets:

a) (A) The company has maintained proper records showing full particulars, including quantitative details and situations of property, plant and equipment and relevant details of right-of use assets.

(B) The company has maintained proper records showing full particulars of intangible assets.

b) The Property, plant and equipment were physically verified during the year by the management, in accordance with a regular programme of verification, which in our opinion, provides for physical verification of all the property, plant and equipment at reasonable intervals; no material discrepancies were noticed on such verification.

c) Based on the examination of the documents provided to us, we report that, the title deeds of all the immovable properties (other than immovable properties where the company is the lessee and the lease agreements are duly executed in favour of the Company), disclosed in the financial statements included in property, plant and equipment are held in the name of the company as at the balance sheet date.

d) The company has not revalued its property, plant and equipment (including Right of Use assets) or intangible assets or both during the year.

e) No proceedings have been initiated during the year or are pending against the company as at 31-03-2023 for holding any benami property under the benami transactions (Prohibition) Act, 1988 (as amended in 2016) and Rules made there under.

ii.

a) The company is a service company, primarily rendering financial services. Accordingly, it does not hold any physical inventories. Thus paragraph 3(ii) (a) of the order is not applicable.

b) Based on the information and explanation given to us, the company has been sanctioned working capital limits in excess of Rs.5 crores in aggregate, from banks and financial institutions on the basis of security of current asset during the year; the periodic statements filed by the company with such banks and financial institutions are in agreement with the books of account of the company.

iii.

a) Since the Company's principal business is to give loans, the provisions of clause 3(iii) (a) of the order are not applicable to it.

b) According to the information and explanations given to us and based on the audit procedures performed by us, we are of the opinions that the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans and guarantees provided are, prima facie, not prejudicial to the company's interest.

c) The Company, being a Non-Banking Financial Company ("NBFC"), registered under provisions of RBI Act, 1934 and rules made thereunder, in pursuance of its compliance with provisions of the said Act/Rules, particularly, the Income Recognition, Asset Classification and Provisioning Norms, monitors repayment of Principal and payment of interest by its borrowers as stipulated. In cases where repayment of principal or payment of interest is not received as stipulated, the cognizance thereof is taken by the Company in course of its periodic regulatory reporting.

d) See note c above.

e) The company being an NBFC whose principal business is to give loans is exempt from clause 3(iii) (e) of the Order.

f) The company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying the terms or period of repayment during the year.

iv. In our opinion and according to the information and explanations given to us and based on the audit procedures conducted by us, the company has complied with the provision of sections 185 and 186 of the Companies Act, 2013 with respect to loans and advances granted, guarantees and securities provided and investments made by the company during the year.

v. The company has not accepted any deposits from the public or amounts which are deemed to be deposits during the year which attract the directives issued by the Reserve Bank of India. Being a Non- Banking Finance Company, registered with Reserve Bank of India, the provisions of sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under regarding acceptance of deposits are not applicable. Therefore, the reporting requirement under clause (v) of paragraph 3 of the order is not applicable.

vi. To the best of our knowledge and according to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under section 148(1) of the act for any of the services rendered by the company.

vii.

a) as per the information and explanations furnished to us and according to our examination of the records of the Company, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employee's State Insurance, Income Tax, Goods and Services Tax, Duty of customs, Cess and any other material statutory dues, as applicable to the Company, to the appropriate authorities during the year.

According to the information and explanations given to us, no undisputed statutory dues payables in respect of Provident Fund, Employee's State Insurance, Income Tax, Goods and Services Tax, Duty of customs, Cess and any other material statutory dues were outstanding as at March 31,2023, for a period of more than six months from the date they become payable.

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

b) According to the information and explanations given to us and the records of the company examined by us, there are no dues of income tax, sales tax, service tax, duty of customs, duty of excise and value added tax which not been deposited on account of any dispute except the amounts disclosed in Note No.37 Contingent Liabilities forming part of the Financial Statements.

viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed during the year in the tax assessments under the Income Tax Act, 1961(43 of 1961).

ix.

a) In our opinion and according to the information and explanations given to us and based on the audit procedures performed by us, the company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

b) As represented, the Company has not been declared as a wilful defaulter by any bank or financial institutions or any other government authority.

c) In our opinion and according to the information and explanations given to us, the company has utilized money obtained by way of term loans during the year for the purposes for which they were obtained, except for temporary deployment of surplus funds.

d) According to the information and explanations given to us, the procedures performed by us, on an overall examination of the financial statements of the company and further considering the Asset Liability Management mechanism of the Company, we report that no funds raised on a short term basis have been used for long term purposes by the company.

e) The company does not hold any investment in any subsidiary, associates or joint ventures (as defined under the Companies Act, 2013) during the year ended 31 March 2023.Accordingly, clause 3(ix)(e) is not applicable.

f) The company does not hold any investment in any subsidiary, associates or joint ventures (as defined under the Companies Act, 2013) during the year ended 31 March 2023.Accordingly, clause 3 (ix) (f) is not applicable.

x.

a) In our opinion and according to the information and explanations given to us and the records of the Company examined by us, the company has not raised monies by way of initial public offer/further public offer except for the public offer of debt instruments.

According to the information and explanations provided to us and the records of the Company examined by us, the monies raised by way of public offer of debt instruments during the year were applied for the purposes for which those were raised.

b) According to the information and explanations given to us, the Company has not made any preferential allotment/private placement of shares or convertible debentures (fully/partially/optionally convertible) during the year under review and hence reporting under clause 3(x)(b) of the Order is not applicable to the Company.

xi.

a) To the best of our knowledge and according to the information and explanations given to us, instances of fraud on the company has been noticed, amounting to Rs 41.23 lakhs as per the FMR reports to RBI on various dates, in 12 branches during the current year. No fraud by the Company has been noticed or reported during the year, nor have we been informed of any such instance by Management.

b) No report under sub-section (12) of section 143 of the Companies Act has been filed in form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year by the Statutory Auditors and up to the date of this report.

c) As represented to us by the Management, there were no whistle blower complaints received by the company during the year.

xii. The company is not a Nidhi Company and hence reporting under clause (xii) of the order is not applicable.

xiii. In our opinion, the Company is in compliance with section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the Financial Statements as required by the applicable accounting standards.

xiv.

a) In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

b) We have considered, during the course of our audit, the reports of the Internal Auditors for the period under audit in accordance with the guidance provided in SA 610 "Using the work of Internal Auditor"

xv. In our opinion, during the year Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

xvi.

a) In our opinion and according to the information and explanations given to us, the company is required to obtain the registration under section 45-IA of the Reserve Bank of India Act, 1924 and the necessary registration has been duly obtained.

b) In our opinion, the company has conducted Non –Banking Financial activities with valid Certificate of Registration (COR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.

c) In our opinion, according to the information and explanations given to us, the company is not a Core Investment Company and hence clause xvi(c) of the order is not applicable to the Company.

d) As per the information and explanations given to us, there are no Core Investment Companies as defined in the regulations made by the Reserve Bank of India as part of its group and hence the reporting requirements under clause 3(xvi)(d) of the Order are not applicable.

xvii. The company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

xviii. There has been no resignation of Statutory Auditors of the Company during the year.

xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

1 Corporate Information

Kosamattam Finance Limited is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its debt securities are listed on the Bombay Stock Exchange. The Company had been primarily incorporated as a Private Limited Company and converted into a Public Limited Company on November 22, 2013.

The Company is a Non-Banking Finance Company ('NBFC'), which provides a wide range of fund-based and fee-based services including gold loans, money exchange facilities, etc. The Company is a Systemically Important Non-Deposit Taking Non-Banking Financial Company Registered under Sec 45IA of RBI Act. The Company currently operates through 986 branches spread across the country.

The registration details are as follows:

RBI	**B-16.00117**
Corporate Identity Number (CIN)	**U65929KL1987PLC004729**

The financial statements of the Company for the year ended March 31, 2023, were approved for issue in accordance with the resolution of the Board of Directors on May 27, 2023.

2 Basis of preparation and presentation

2.1 Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements may require further adjustments, if any, necessitated by the guidelines/clarifications/directions issued in future by RBI, Ministry of Corporate Affairs, or other regulators, which will be implemented as and when the same are issued and made applicable.

2.2 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

i) Fair value through other comprehensive income (FVOCI) instruments,
ii) Other financial assets held for trading,
iii) Financial assets and liabilities designated at fair value through profit or loss (FVTPL)

2.3 Presentation of Financial Statements

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when there is an unconditional legally enforceable right to offset the recognized amounts without being contingent on a future event and the parties intend to settle on a net basis

2.4 Functional and presentation currency

The financial statements are presented in Indian Rupees (INR) which is also its functional currency and all values are rounded to the nearest lakhs, except when otherwise indicated.

2.5 New Accounting Standards those are issued but not effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

- Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

- Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

- Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements

3 Significant accounting policies

3.1 Recognition of interest income

The Company recognizes interest income by applying the effective interest rate (EIR) to the gross carrying amount of a financial asset except for purchased or originated credit-impaired financial assets and other credit-impaired financial assets.
For purchased or originated credit-impaired financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
For other credit-impaired financial assets, the Company applies an effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

The effective interest rate on a financial asset is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset .While estimating future cash receipts, factors like expected behaviour and life cycle of the financial asset, probable fluctuation in collateral value etc. are considered which has an impact on the EIR.

While calculating the effective interest rate, the Company includes all fees and charges paid or received to and from the borrowers that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

3.2 Recognition of revenue from the sale of goods or services

Revenue (other than for Financial Instruments within the scope of Ind AS 109) is measured at an amount that reflects the considerations, to which an entity expects to be entitled in exchange for transferring goods or services to the customer, excluding amounts collected on behalf of third parties.

The Company recognizes revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Revenue from a contract with the customer for rendering services is recognized at a point in time when the performance obligation is satisfied.

3.3 Financial instruments

A. Financial Assets

3.3.1 Initial recognition and measurement

All financial assets are recognized initially at fair value when the parties become parties to the contractual provisions of the financial asset. In the case of financial assets which are not recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial assets, are adjusted to the fair value on initial recognition.

3.3.2 Subsequent measurement

The Company classifies its financial assets into various measurement categories. The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets.

a. Financial assets measured at amortized cost

A financial asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b. Financial assets measured at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c. Financial assets measured at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories is measured at FVTPL.

B. Financial liabilities

3.3.3 Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, non-convertible debentures, loans, and borrowings including bank overdrafts.

3.3.4 Subsequent Measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

3.4 Derecognition of financial assets and liabilities

3.4.1 Financial Asset

The Company derecognizes a financial asset when the contractual cash flows from the asset expire or it transfers its rights to receive the contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

3.4.2 Financial Liability

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and the recognition of a new liability with the difference charged to profit or loss.

3.5 Offsetting

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset and the net amount is presented in the balance sheet when the Company has a legal right to offset the amounts and intends to settle on a net basis or to realize the asset and settle the liability simultaneously in all the following circumstances:

a. The normal course of business
b. The event of default
c. The event of insolvency or bankruptcy of the Company and/or its counterparties

3.6 Impairment of financial assets

In accordance with Ind AS 109, the Company uses the 'Expected Credit Loss model (ECL), for evaluating impairment of financial assets other than those measured at Fair value through profit and loss.

Further, in accordance with RBI circular no. RBI/2019-20/170 dated March 13, 2020, the impairment allowances as per ECL shall be compared with the required provisioning under IRACP. If the impairment allowance under Ind AS 109 is lower than the provisioning required under IRACP the difference is appropriated from net profit after tax to 'Impairment Reserve'.

3.6.1 Overview of the Expected Credit Loss (ECL) model

Expected Credit Loss, at each reporting date, is measured through a loss allowance for a financial asset:

- At an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.
- At an amount equal to 12-month expected credit losses, if the credit risk on a financial instrument has not increased significantly since initial recognition.

Lifetime expected credit losses mean expected credit losses that result from all possible default events over the expected life of a financial asset.

12-month expected credit losses mean the portion of Lifetime ECL that represents the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Company performs an assessment, at the end of each reporting period, of whether a financial asset's credit risk has increased significantly since initial recognition. When making the assessment, the change in the risk of a default occurring over the expected life of the financial instrument is used instead of the change in the amount of expected credit losses.

Based on the above process, the Company categorizes its loans into three stages as described below:

For non-impaired financial assets

- Stage 1 is comprised of all non-impaired financial assets which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial asset. In assessing whether credit risk has increased significantly, the Company compares the risk of a default occurring on the financial asset as at the reporting date with the risk of a default occurring on the financial asset as at the date of initial recognition. Interest revenue is calculated on the gross carrying amount of the asset.
- Stage 2 is comprised of all non-impaired financial assets which have experienced a significant increase in credit risk since initial recognition. The Company recognizes lifetime ECL for stage 2 financial assets. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then entities shall revert to recognizing 12 months ECL provision. Interest revenue is calculated on the gross carrying amount of the asset.

For impaired financial assets:

Financial assets are classified as stage 3 when there is objective evidence of impairment at the reporting date.

The Company recognizes lifetime ECL for impaired financial assets and interest revenue is calculated on the net carrying amount of the asset.

3.6.2 Estimation of Expected Credit Loss

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Probability of Default (PD) - The Probability of Default is an estimate of the likelihood of default over a given time horizon. The Company uses historical information where available to determine PD. Considering the different products and schemes, the Company has bifurcated its loan portfolio into various pools.

Exposure at Default (EAD) - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

KOSAMATTAM FINANCE LTD. REGISTERED OFFICE KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS

Loss Given Default (LGD) – The Loss Given Default is an estimate of the loss arising in the case where default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realization of any collateral.

Forward-looking information

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. Periodically, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation, etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as Land, buildings, securities, etc. However, the fair value of collateral affects the calculation of ECL. To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models. Non-financial collateral is valued based on data provided by third parties or management judgments. In its normal course of business whenever default occurs, the Company may take possession of properties or other assets in its retail portfolio and generally disposes of such assets through auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, assets under legal repossession processes are not recorded on the balance sheet. Loans are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

3.7 Determination of fair value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

i. In the principal market for the asset or liability, or

ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. No such instances of transfers between levels of the fair value hierarchy were recorded during the reporting period.

3.8 Cash and cash equivalents

Cash and cash equivalents comprise of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

KOSAMATTAM FINANCE LTD. REGISTERED OFFICE KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

3.9 Bank Balances other than cash and cash equivalents

Bank balances other than cash and cash equivalents include earmarked balances with banks and balances which are held as margin money or security against borrowings, guarantees, and other commitments.

3.10 Other receivables

Other receivables mean receivables emanating from items that are classified as 'others' under 'Revenue from Operations'.

3.11 Property, plant, and equipment

Property, plant, and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment if any. Cost of an item of property, plant, and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Advances paid towards the acquisition of fixed assets, outstanding at each reporting date are shown under other non-financial assets. The cost of property, plant, and equipment not ready for its intended use at each reporting date are disclosed as capital work-in-progress. Subsequent expenditure related to the asset is added to its carrying amount or recognized as a separate asset only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

3.11.1 Depreciation

Depreciation on property, plant, and equipment is calculated using written down value method (WDV) to write down the cost of property and equipment to their residual values over their estimated useful lives which is in line with the estimated useful life as specified in Schedule II of the Companies Act, 2013.

The estimated useful lives are as follows:

Particulars	*Useful Life*
Building	*60 Years*
Building - Compound Wall and Well	*5 Years*
Furniture and Fixtures	*10 Years*
Electrical Fittings	*10 Years*
Computer	*3 Years*
Vehicles	*8 Years*
Plant and Machinery	*22/15 Years*

The residual values, useful lives, and methods of depreciation of property, plant, and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the amortization period or methodology, as appropriate, and treated as changes in accounting estimates.

Property, plant, and equipment are derecognized on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on the derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in other income/expense in the statement of profit and loss in the year the asset is derecognized. The date of disposal of an item of property, plant, and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

Right of Use of Assets

Right of use assets are depreciated from the commencement date on written down value basis over the shorter of lease term and useful life of the underlying asset.

KOSAMATTAM FINANCE LTD. REGISTERED OFFICE KOTTAYAM

EGS & COMPANY CHARTERED ACCOUNTANTS

3.12 Intangible assets

An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.
Subsequent expenditure related to the asset is added to its carrying amount or recognized as a separate asset only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably.

Intangible assets comprising of software is amortized on a straight-line basis over a period of 10 years unless it has a shorter useful life.

Gains or losses from the derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit or Loss when the asset is derecognized.

3.13 Impairment of non–financial assets: Property, Plant and Equipment and Intangible Assets

The Company assesses, at each reporting date, whether there is any indication that any property, plant and equipment, and intangible assets or group of assets called Cash Generating Units (CGU) may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount to determine the extent of impairment, if any.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. A recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.
An assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

3.14 Finance costs

Finance costs represent interest expense recognized by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.
The EIR in case of a financial liability is computed

a. As the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of the amortized cost of financial liability.

b. By considering all the contractual terms of the financial instrument in estimating the cash flows.

c. Including all fees paid between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts. Any subsequent changes in the estimation of the future cash flows are recognized in interest income with the corresponding adjustment to the carrying amount of the assets

3.15 Employee Benefits Expenses

3.15.1 Short Term Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include benefits such as salaries, wages, short-term compensated absence, etc. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

3.15.2 Post-Employment Benefits

A. Defined contribution schemes

All eligible employees of the company are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the company contribute monthly at a stipulated percentage of the covered employee's salary. Contributions are made to Employees Provident Fund Organization in respect of Provident Fund at the prescribed rates and are charged to Statement of Profit and Loss at actuals. The company has no liability for future provident fund benefits other than its annual contribution.

B. Defined Benefit schemes

Gratuity

The Company provides for gratuity covering eligible employees under which a lump sum payment is paid to vested employees at retirement, death, incapacitation, or termination of employment, of an amount reckoned on the respective employee's salary and his tenure of employment with the Company. The Company accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under a defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases, and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods

3.16 Provisions

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

3.17 Taxes

Income tax expense for the year comprises of current tax and deferred tax.

3.17.1 Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities.

KOSAMATTAM FINANCE LTD. REGISTERED OFFICE KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS CHENNAI

The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income. Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss i.e., either in other comprehensive income or in equity.

Current tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

3.17.2 Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities used in the computation of taxable profit and their carrying amounts in the financial statements for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:
i. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
ii. In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

i. When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

ii. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss ie., either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

3.17.3 Goods and services tax /value-added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognized net of the goods and services tax/value-added taxes paid, except:
i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable
ii. When receivables and payables are stated with the amount of tax included, the net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

3.18 Other income and expenses

All other income and expenses are recognized in the period they occur.

3.19 Contingent Liabilities and Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability

BY COCHIN CALICUT CHENNAI

also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent assets are neither recognized nor disclosed in the financial statements.

3.20 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.
The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduce the earnings per share or increases loss per share are included.

3.21 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on the historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

3.22 Cash-flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue-generating, investing and financing activities of the Company are segregated.

3.23 Leases

The Company has adopted Ind AS 116-Leases effective from 1st April 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognized on the date of initial application.

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract is or contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:
(i) The contract involves the use of an identified asset
(ii) The Company has substantially all of the economic benefits from the use of the asset through the period of the lease and
(iii) The Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term Leases) and leases of low-value assets. For these short-term and leases of low-value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

KOSAMATTAM FINANCE LTD. REGISTERED OFFICE KOTTAYAM
SGS & COMPANY CHARTERED ACCOUNTANTS

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is re-measured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The re-measurement normally also adjusts the leased assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

4 Significant accounting judgments, estimates, and assumptions

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets, and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty, and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

4.1 Going Concern

The financial statements of the Company are prepared on a going concern basis. Management is of the view that it is considered appropriate to prepare these financial statements on a going concern basis as the Company expects to generate sufficient cash flows from operating activities and unused lines of credit to meet its obligations in the foreseeable future.

4.2 Business Model Assessment

Classification and measurement of financial assets depend on the results of the Solely Payments of Principal and Interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed, and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

4.3 Effective Interest Rate (EIR) method

The Company's EIR methodology recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given and recognizes the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgment regarding the expected behaviour and life-cycle of the instruments, probable fluctuations in collateral value as well as expected changes to India's base rate and other fee income/expense that are integral parts of the instrument

4.4 Impairment of loans portfolio

The measurement of impairment losses across all categories of financial assets requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

SGS & COMPANY CHARTERED ACCOUNTANTS

4.5 Contingent liabilities and provisions other than impairment on a loan portfolio

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation and arbitration in the ordinary course of business. When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed. Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter, and historical evidence from similar incidents. Significant judgment is required to conclude these estimates.

4.6 Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

4.7 Fair value measurement

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk, and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4.8 Other estimates

These include contingent liabilities, useful lives of tangible and intangible assets, etc.

(i) These receivables are non-interest bearing and short-term in nature

(ii) Impairment provision has been made for doubtful debts.

(iii) None of the trade and other receivables is due from directors or other officers of the company either severally or jointly with any other person. Nor are due from firms or private companies respectively in which any director is a partner, a director, or a member.

(iv) **Simplified approach for trade and other receivables**

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade and other receivables. The application of simplified approach does not require the Company to track changes in credit risk. It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. At every reporting date, the historical observed default rates are updated for changes in the forward looking estimates.

Note 22.1: Nature and purpose of reserve

Statutory reserve

Statutory Reserve represents the Reserve Fund created under Section 45 IC of the Reserve Bank of India Act, 1934. Accordingly an amount of ₹ 2,141.07 Lakhs (March 31, 2022 ₹ 1,599.94 Lakhs) representing 20% of Profit for the period is transferred to the fund for the year.

This reserve fund can be utilized only for limited purposes as specified by RBI from time to time and every such utilization shall be reported to the RBI within specified period of time from the date of such utilization.

Capital Reserve

Represents reserve created on account of merger/amalgamation as well as the mandatory transfer of a certain percentage of profits before declaring or paying any dividends, in accordance with the provisions of Section 205 (2A) of the Companies Act, 1956.

Revaluation Reserve

Revaluation Reserve records the upward revaluation of assets /liabilities of the Company to their current fair market

value, representing unrealized gains/losses.

Securities Premium
This Reserve represents the premium on the issue of equity shares and can be utilized in accordance with the provisions of the Companies Act, 2013.

Impairment Reserve
In accordance with RBI circular no. RBI/2019-20/170 dated March 13, 2020, the company provided impairment allowances as required by Ind AS. Simultaneously, the company determined asset classification and computed impairment provisions based on the applicable prudential norms of Income Recognition, Asset Classification, and Provisioning (IRACP). A comparison between the provisions required under IRACP and the impairment allowances made under Ind AS 109 has been disclosed in Note No. 46.

Furthermore, in accordance with RBI regulations, the company consistently allocated the difference between the impairment allowance calculated under Ind AS 109 and the provisioning required under IRACP for Credit Losses from the net profit after tax to the 'Impairment Reserve.' This practice has been followed by the company from the fiscal year 2019-20 until the fiscal year 2022-23.

During the current year, the Expected Credit Loss (ECL) model was updated, resulting in the Impairment Allowance determined under the provisions of Ind AS 109 exceeding the Impairment Allowance under IRACP.

Given that the ECL Provision surpasses the IRACP requirement, the need to maintain an Impairment Reserve is no longer applicable. Consequently, the balance of the Impairment Reserve has been reversed out and transferred to Retained Earnings.

General Reserve
Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of profit for the period at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

Retained earnings
This Reserve represents the cumulative profits of the Company. This Reserve can be utilized in accordance with the provisions of the Companies Act, 2013.

Note 39: Capital Management

Capital Management

The primary objective of the Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholder value

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and requirements of the financial covenants. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

Valuation techniques

Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include cash and cash equivalents, trade receivables, balances other than cash and cash equivalents, and trade payables without a specific maturity.

Such amounts have been classified as Level 2/Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

Loans and advances to customers

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default, and loss has given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view, and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics i.e., type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using an Effective interest rate model that incorporates interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating the probability of defaults and loss given defaults.

Financial liability at amortized cost

The fair values of financial liability held to maturity are estimated using an effective interest rate model based on contractual cash flows using actual yields.

Note 41: Risk Management

The Company's principal financial liabilities comprise borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the company's operations. The Company's principal financial assets include loans, cash and cash equivalents and other receivables that are derived directly from its operations. As a financial lending institution, Company is exposed to various risks that are related to lending business and operating environment. The principal objective in Company 's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company's Risk Management Committee of the Board of directors constituted in accordance with the Reserve Bank of India regulations has overall responsibility for overseeing the implementation of the Risk Management Policy. The committee meets at least twice in a year to review the Risk Management practices. Risk Management department periodically places its report to the committee for review. The committee's suggestions for improving the Risk Management Practices are implemented by the Risk Management department.

Risk Management department shall be responsible for the following:

a) Identifying the various risks associated with the activities of the Company and assessing their impact on the business.

b) Measuring the risks and suggesting measures to effectively mitigate the risks. However, the primary responsibility for managing the various risks on a day to day basis will be with the heads of the respective business units of the Company.

The Company is generally exposed to credit risk, liquidity risk and market risk

I) Credit Risk

Credit Risk arises from the risk of loss that may occur from the default of Company's customers under loan agreements. Customer defaults and inadequate collateral may lead to loan losses.

The Company addresses credit risk through following processes:

a) Credit risk on Gold loan is considerably reduced as collateral is in the form of Gold ornaments which can be easily liquidated and there is only a distant possibility of losses due to adequate margin of 25% or more retained while disbursing the loan. Credit risk is further reduced through a quick but careful collateral appraisal and loan approval process. Hence overall, the Credit risk is normally low.

b) Sanctioning powers for Gold Loans is delegated to various authorities at branches/controlling offices. Sanctioning powers is used only for granting loans for legally permitted purposes. The maximum Loan to Value stipulated by the Reserve Bank of India does not exceed under any circumstances.

c) Gold ornaments brought for pledge is the primary responsibility of Branch Manager. Extra care is taken if the gold jewellery brought for pledge by any customer at any one time or cumulatively is more than 20 gm. The branch manager conducts proper due diligence to ascertain the ownership of the gold jewellery based on the questions posed and the answers provided by customers.

d) Auctions are conducted as per the Auction Policy of the Company and the guidelines issued by Reserve Bank of India. Auction is generally conducted before loan amount plus interest exceeds realizable value of gold. After reasonable time is given to the customers for release after loan becomes overdue and exhausting all efforts for persuasive recovery, auction is resorted to as the last measure in unavoidable cases. Loss on account of auctions are recovered from the customer. Any excess received on auctions are refunded to the customer.

Impairment Assessment

The Company is mainly engaged in the business of providing gold loans. The tenure of the loans generally is up to 9 months. The Company also provides other secured and unsecured loans. The Company's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the Summary of significant accounting policies.

Definition of default and cure

The Company considers a financial instrument as defaulted and therefore Stage 3 (credit-impaired) for Expected Credit Loss (ECL) calculations in all cases when the borrower becomes 90 days past due on its contractual payments. As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate unlikeness to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2, as appropriate.

It is the Company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when none of the default criteria have been present for at least three consecutive months. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates there has been a significant increase in credit risk compared to initial recognition.

Company's internal credit rating grades and staging criteria for loans are as follows:

Rating	Loans Days past due (DPD)	Stages
High grade	Not yet due	Stage 1
Standard grade	1-30 DPD	Stage 2
Sub-standard grade	31-60 DPD	Stage 2
Past due but not impaired	61- 90 DPD	Stage 2
Individually impaired	91 DPD or More	Stage 3

Exposure at Default (EAD)

The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest.

Probability of default (PD)

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 months ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Company uses historical information wherever available to determine PD. PD is calculated using the Incremental 91 DPD approach considering fresh slippage using historical information.

LGD Rates have been computed internally based on the discounted recoveries in defaulted accounts that are closed/ written off/ repossessed and upgraded during the year.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

Collateral and other credit enhancements

The amount and type of collateral required to depend on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral.

The tables on the following pages show the maximum exposure to credit risk by class of financial asset. They also show the total fair value of collateral, any surplus collateral (the extent to which the fair value of collateral held is greater than the exposure to which it relates), and the net exposure to credit risk.

The main types of collateral are as follows: -

Management provides gold loans against the security of gold. The gold is pledged with the company and based on the company policy of loan to value ratio, the loan is provided.

Asset Liability Management (ALM)

The table below shows the maturity pattern of the assets and liabilities. In the case of loans, the contracted tenure of the gold loan is a maximum of 9 months. However, on account of a high incidence of prepayment before contracted maturity, the below maturity profile has been prepared by the management on the basis of the historical pattern of repayments. In the case of loans other than gold loans, the maturity profile is based on contracted maturity.

III) Market risk

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factors. Such changes in the values of financial instruments may result from changes in the interest rates, credit, liquidity, and other market changes. The objective of market risk management is to avoid excessive exposure of our earnings and equity to loss and reduce our exposure to the volatility inherent in financial instruments. The Company is exposed to two types of market risk as follows:

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is subject to interest rate risk, primarily since it lends to customers at fixed rates and for maturity periods shorter than the funding sources. The majority of our borrowings are at fixed rates. However, borrowings at floating rates give rise to interest rate risk. Interest rates are highly sensitive to many factors beyond control, including the monetary policies of the Reserve Bank of India, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation, and other factors. In order to manage interest rate risk, the company seeks to optimize the borrowing profile between short-term and long-term loans. The company adopts funding strategies to ensure diversified resource-raising options to minimize cost and maximize the stability of funds. Assets and liabilities are categorized into various time buckets based on their maturities and the Asset Liability Management Committee supervises an interest rate sensitivity report periodically for assessment of interest rate risks. The Interest Rate Risk is mitigated by availing funds at very competitive rates through diversified borrowings and for different tenures.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings are as follows:

Currency: ₹ in Lakhs

Impact on Profit before taxes	As at March 31, 2023	As at March 31, 2022
On Floating Rate Borrowings		
0.5 % increase in interest rates	720.15	433.04
0.5 % decrease in interest rates	(720.15)	(433.04)

Price risk

The Company's exposure to price risk is not material.

Note 42: Segment reporting

The Company is engaged in the business segment of Financing, whose operating results are regularly reviewed by the management to make decisions about resources to be allocated and to assess its performance, and for which discrete financial information is available. Further other business segments do not exceed the quantitative thresholds as defined by Ind AS 108 on "Operating Segment". Hence, there are no separate reportable segments, as required by Ind AS 108 on "Operating Segment".

Note 43: Utilization of proceeds of Public Issue of Non - Convertible Debentures

The company has during the year raised through public issue ₹ 93,637.93 Lakhs of Secured Redeemable Non-Convertible Debentures. As at March 31, 2023, the company has utilized the entire proceeds of the public issue, net of issue expenses in accordance with the objects stated in the offer documents.

Note 47 : Disclosure on Liquidity Coverage Ratio

Disclosure as per the circular no. RBI/2019-20/88 DOR.NBFC (PD) CC. No.102/03.10.001/2019-20 dated November 04, 2019 issued by Reserve Bank of India regarding Liquidity Coverage Ratio (LCR)

Maintenance of Liquidity Coverage Ratio (LCR)

Reserve Bank Of India vide its notification no. RBI/2019-20/88 DOR.NBFC (PD) CC. No.102/03.10.001/ 2019-20 dtd November 04,2019 introduced Liquidity Coverage Ratio for certain categories of NBFCs w.e.f December 01 ,2020. All non-deposit taking NBFCs with asset size of ₹ 10,000 crore and above, and all deposit taking NBFCs irrespective of their asset size, shall maintain a liquidity buffer in terms of LCR which will promote resilience of NBFCs to potential liquidity disruptions by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for 30 days. The stock of HQLA to be maintained by the NBFCs shall be minimum of 100% of total net cash outflows over the next 30 calendar days. The LCR requirement shall be binding on NBFCs from December 1, 2020 with the minimum HQLAs to be held being 50% of the LCR, progressively reaching up to the required level of 100% by December 1, 2024, as per the time-line given below:

From	December 01, 2020	December 01, 2021	December 01, 2022	December 01, 2023	December 01, 2024
Minimum LCR	50%	0.60	70%	85%	100%

Further, Non-deposit taking NBFCs with asset size of ₹ 5,000 crore and above but less than ₹ 10,000 crore shall also maintain the required level of LCR starting December 1, 2020, as per the time-line given below

From	December 01, 2020	December 01, 2021	December 01, 2022	December 01, 2023	December 01, 2024

B) Qualitative Disclosure

"The Company has adopted Liquidity Risk Management (LRM) framework on liquidity standards as prescribed by the RBI guidelines and has put in place requisite systems and processes to enable periodical computation and reporting of the Liquidity Coverage Ratio (LCR). The mandated regulatory threshold is embedded into the Liquidity Risk Management framework of the Company thus subjecting LCR maintenance to Board oversight and periodical review. The Company computes the LCR and reports the same to the Asset Liability Management Committee (ALCO) as well as to the ALM Committee of the Board.

The Company follows the criteria laid down by RBI for calculation of High Quality Liquid Assets (HQLA), gross cash outflows and inflows within the next 30-day period. HQLA predominantly comprises unencumbered Cash and Bank balances, Government securities (viz., Treasury Bills, Central and State Government securities, Investments in TREPs (Triparty Repo trades in Government Securities provided by The Clearing Corporation of India)).

All significant outflows and inflows determined in accordance with RBI guidelines are included in the prescribed LCR computation template.

The Company monitors the concentration of funding sources from significant counterparties, significant instruments/ products as part of the LRM framework. The Company follows internal limits on short term borrowings which form part of the LRM framework. The Company's funding sources are fairly dispersed across sources and maturities."

"The Board shall have the overall responsibility for management of liquidity risk. The Board shall decide the strategy, policies and procedures to manage liquidity risk in accordance with the liquidity risk tolerance/limits decided by it from time to time.

The ALM Committee of the Board of Directors shall be responsible for evaluating the liquidity risk.

The Asset-Liability Management Committee (ALCO) consisting of the NBFC's top management shall be responsible for ensuring adherence to the risk tolerance/limits set by the Board as well as implementing the liquidity risk management strategy of the NBFC. The Managing Director heads the Committee. The role of the ALCO with respect to liquidity risk include, inter alia, decision on desired maturity profile and mix of incremental assets and liabilities, sale of assets as a source of funding, the structure, responsibilities and controls for managing liquidity risk, and overseeing the liquidity positions of the Company.

The ALM Support Group headed by Chief Financial Officer and consisting of operating staff who will be responsible for analysing, monitoring and reporting the liquidity risk profile to the ALCO. The Asset-Liability Management Committee (ALCO) consisting of the NBFC's top management shall be responsible for ensuring adherence to the risk tolerance/ limits set by the Board as well as implementing the liquidity risk management strategy of the NBFC. Note 49: Provision for the impact of COVID-19

Reserve Bank of India had announced certain regulatory measures in the wake of the disruptions on account of the COVID-19 pandemic. In accordance with the RBI guidelines relating to the COVID-19 Regulatory Package, the lending institutions have been permitted to grant a moratorium on payment of all instalments and/or interest, as applicable, to eligible borrowers in accordance with the Board approved policy. The company has not availed any moratorium from the lenders. In accordance with the regulatory package announced by the Reserve Bank of India, the company has offered an optional moratorium to eligible customers. As per the guidelines issued by the Reserve bank of India on August 06, 2020 & May 05, 2021 regarding the Resolution framework for Covid-19-related stress, the lending institutions have been permitted to implement a resolution plan in respect of eligible borrowers in accordance with the Board approved policy. Since the majority of our customers are short-term-gold loan customers and other eligible customers also were not there, the number of accounts where the resolution plan has been implemented under this window is 'NIL'.

INDEPENDENT AUDITOR'S REPORT

To The Members of,
Kosamattam Finance Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Kosamattam Finance Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, Statement of Cash flows for the year then ended, and notes to the Financial Statements including a summary of material accounting policies and other explanatory information ("Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements, give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Statements of the current financial year ended 31.3.2024. These matters were addressed in the context of our audit of the Financial Statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Financial Statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Financial Statements.

Key Audit Matters	Audit Procedures adopted
1. Interest Income on Gold Loans: Interest on Gold Loan is based on the various gold loan schemes launched by the Company. The calculation of interest on gold loans is as per the applicable schemes, which specifies interest and penal interest for delayed payments. Due to huge number of schemes and involvement of complex calculation, we have considered this as Key Audit Matter. (Reference to Note 23, read with Statement of Accounting Polices Note 3.1 to the Financial Statements)	We assessed the Company's process on interest income computation. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows: Since the entire interest computation is system driven, we • Evaluated the design of internal controls relating to interest income computation. • Selected a sample of continuing and new gold loan schemes and tested the operating effectiveness of the internal control, relating to interest income computation. We carried out a combination of procedures involving inquiry and observation, inspection of evidence in respect of operation of these controls. • Performed analytical procedures and test of detail procedures for testing the accuracy of the revenue recorded.

S & COMPANY
CHARTERED ACCOUNTANTS
H.O. TRICHUR
Br. COCHIN

	• Tested the relevant information technology systems' access and change management controls relating to interest income computation and related information used in interest computation. • Obtained the list of modifications made in the interest scheme master during the year and test checked the same on sample basis. • Validate Interest Rates: Verified that the interest rates applied to gold loans align with contractual agreements, regulatory requirements, and market benchmarks. • Analyze Historical Trends: Compared current interest income figures with historical data to identify any significant fluctuations or anomalies that may require further investigation.
2. Allowances for expected credit losses ('ECL'): As at 31 March 2024, significant judgement is used in classifying loan assets and applying appropriate measurement principles. ECL on such loan assets measured at amortised cost is a critical estimate involving greater level of management judgement. As part of our risk assessment, we determined that the ECL on such loan assets has a high degree of estimation uncertainty, with a potential range of reasonable outcomes of the financial statements. The elements of estimating ECL which involved increased level of audit focus are the following: Qualitative and quantitative factors used in staging the loan assets measured at amortised cost; • Basis used for estimating probabilities of default ('PD'), loss given default ('LGD') and exposure at default ('EAD') at product level with past trends; • Judgements used in projecting economic scenarios and probability weights applied to reflect future economic conditions; and • Adjustments to model driven ECL results to address emerging trends. Hence, we have considered the estimation of ECL as a Key Audit Matter. (Reference to Note 7 and Note 27, read with Statement of Accounting Policies Note 3.6 to the Financial Statements)	We have examined the policies approved by the Board of Directors of the Company that articulate the objectives of managing each portfolio and their business models. We have also verified the methodology adopted for computation of ECL ('ECL Model') that addresses policies approved by the Board of Directors, procedures and controls for assessing and measuring credit risk on all lending exposures measured at amortised cost. Additionally, we have confirmed that adjustments to the output of the ECL Model are consistent with the documented rationale and basis for such adjustments and that the amount of adjustments has been approved by the Audit Committee of the Board of Directors. Our audit procedures related to the allowance for ECL included the following, among others: • Assessed the accounting policy for impairment of financial assets and its compliance with Ind AS 109. • Obtained an understanding of the Company's Expected Credit Loss (ECL) calculation and the underlying assumptions. • Tested the key controls over the assessment and identification of significant increase in credit risk and staging of assets. • Sample testing of the accuracy and appropriateness of information used in the estimation of Probability of Default (PD) and Loss Given Default (LGD). • Tested the arithmetical accuracy of the computation of PD and LGD and also performed analytical procedures to verify the reasonableness of the computation. • Assessed the disclosure made in relation to Ind AS 109 for ECL allowance. Further, we also assessed whether the disclosure of key judgements and assumptions are adequate.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the Financial Statements and our Auditor's Report thereon. The other information is expected to be made available to us after the date of this audit report.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

- When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to preparation of the Financial Statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standard (Ind AS) prescribed under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis for accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of the users taken on the basis of these Financial Statements.

As part of an audit in accordance with standards on auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Financial Statements in place and operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of the accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

SGS & COMPANY ★ CHARTERED ACCOUNTANTS ★ H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Non-Banking Financial Companies Auditor's Report (Reserve Bank) Direction, 2016, issued by the Reserve Bank of India, in exercise of the powers conferred by sub-section (1A) of Section 45MA of the Reserve Bank of India Act, 1934, we give in the "Annexure 1", an additional Audit Report addressed to the Board of Directors containing our statements on the matters specified therein.

2. As required by section 143(3) of the Act, based on our audit we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

   b. In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.

   c. The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

   d. In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act.

   e. On the basis of the written representations received from the directors as on March 31, 2024 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024, from being appointed as a director in terms of section 164 (2) of the Act.

   f. With respect to the adequacy of the internal financial controls with reference to Financial Statements of the company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

   g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

   h. With respect to the other matters to be included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to explanations given to us:

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

i. The company has disclosed the impact of pending litigations on its financial position in its Financial Statements. Refer Note 37 to the Financial Statements.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) of The Companies (Audit and Auditors) Rules, 2014, as provided under (a) and (b) above, contain any material misstatement.

Annexure 2 to the Independent Auditor's Report of even date on the Financial Statements of Kosamattam Finance Limited (CIN: U65929KL1987PLC004729) for the year ended 31 March 2024.

(Referred to in paragraph 2(f) under Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal financial controls with reference to the Financial Statement under Clause (i) of Sub-section 3 of Section 143 of the Companies Act 2013 ("the Act")

We have audited the internal financial controls with reference to the Financial Statements of Kosamattam Finance Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Financial Statements criteria established by the Company considering the essential components of the internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to Financial Statements issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Financial Statements based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the" Guidance Note") issued by The Institute of Chartered Accountants of India and the standards on auditing prescribed under section 143(10) of the Companies act 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to the Financial Statements included obtaining an understanding of internal financial controls with reference to the Financial Statements, assessing the risk that material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and preparation of the Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and the dispositions of the assets of the Company; (2) provide reasonable assurance that transaction are recorded as necessary to permit preparation of the Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

SGS & COMPANY * CHARTERED ACCOUNTANTS * H.O.TRICHUR Br. COCHIN CALICUT CHENNAI

Inherent limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to be best of our information and according to the explanations given to us, the Company has, broadly, in all material respects, an adequate internal financial controls with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at March 31, 2024, based on the internal control with reference to Financial Statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure "3" to the independent Auditor's Report*

(Referred to in paragraph 3 under 'Report on other legal and regulatory requirements' section of our report of even date to the members of Kosamattam Finance Private Limited (CIN: U65929KL1987PLC004729))

As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act and as per the information and explanations provided to us, we give a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

i. In respect of the Company's property, plant and equipment and intangible assets:

a) (A) The company has maintained proper records showing full particulars, including quantitative details and situations of property, plant and equipment and relevant details of right-of use assets.

(B) The company has maintained proper records showing full particulars of intangible assets.

b) The Property, plant and equipment were physically verified during the year by the management, in accordance with a regular programme of verification, which in our opinion, provides for physical verification of all the property, plant and equipment at reasonable intervals; no material discrepancies were noticed on such verification.

c) Based on the examination of the documents provided to us, we report that, the title deeds of all the immovable properties (other than immovable properties where the company is the lessee and the lease agreements are duly executed in favour of the Company), disclosed in the financial statements included in property, plant and equipment are held in the name of the company as at the balance sheet date.

d) The company has not revalued its property, plant and equipment (including Right of Use assets) or intangible assets or both during the year.

e) No proceedings have been initiated during the year or are pending against the company as at 31-03-2024 for holding any benami property under the benami transactions (Prohibition) Act, 1988 (as amended in 2016) and Rules made there under.

ii.

a) The company is a service company, primarily rendering financial services. Accordingly, it does not hold any physical inventories. Thus paragraph 3(ii) (a) of the order is not applicable.

b) Based on the information and explanations given to us, the company has been sanctioned working capital limits in excess of Rs.5 Crores in aggregate, from banks and financial institutions on the basis of security of current asset during the year; the periodic statements filed by the company with such banks and financial institutions are in agreement with the books of account of the company.

iii.

a) Since the Company's principal business is to give loans, the provisions of clause 3(iii) (a) of the order are not applicable to it.

b) According to the information and explanations given to us and based on the audit procedures performed by us, we are of the opinions that the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans and guarantees provided are, prima facie, not prejudicial to the company's interest.

c) The Company, being a Non-Banking Financial Company ("NBFC"), registered under provisions of RBI Act, 1934 and rules made thereunder, in pursuance of its compliance with provisions of the said Act/Rules, particularly, the Income Recognition, Asset Classification and Provisioning Norms, monitors repayment of Principal and payment of interest by its borrowers as stipulated. In cases where repayment of principal or payment of interest is not received as stipulated, the cognizance thereof is taken by the Company in course of its periodic regulatory reporting.

d) See note c above.

e) The company being an NBFC whose principal business is to give loans is exempt from clause 3(iii) (e) of the Order.

f) The company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying the terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) is not applicable.

1 Corporate Information

Kosamattam Finance Limited is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its debt securities are listed on the Bombay Stock Exchange. The Company had been primarily incorporated as a Private Limited Company and converted into a Public Limited Company on November 22, 2013.

The Company is a Non-Banking Finance Company ('NBFC'), which provides a wide range of fund-based and fee-based services including gold loans, money exchange facilities, etc. The Company is a Systemically Important Non-Deposit Taking Non-Banking Financial Company Registered under Sec 45IA of RBI Act. The Company currently operates through 986 branches spread across the country.

The registration details are as follows:

RBI	**B-16.00117**
Corporate Identity Number (CIN)	**U65929KL1987PLC004729**

The financial statements of the Company for the year ended March 31, 2024, were approved for issue in accordance with the resolution of the Board of Directors on May 29, 2024.

2. Basis of preparation and presentation of material accounting policies

2.1 Statement of Compliance

These standalone or separate financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 ("the Act"), and is in conformity with the accounting principles generally accepted in India and other relevant provisions of the Act. Further, the Company has complied with all the directions related to Implementation of Indian Accounting Standards prescribed for Non-Banking Financial Companies (NBFCs) in accordance with the RBI notification no. RBI/2019-20/170 DOR NBFC). CC.PD.No.109/22.10.106/2019-20 dated 13th March 2020.

Any application guidance/ clarifications/ directions/ expectations issued by RBI or other regulators are implemented as and when they are issued/ applicable. Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

i) Fair value through other comprehensive income (FVOCI) instruments,
ii) Other financial assets held for trading,
iii) Financial assets and liabilities designated at fair value through profit or loss (FVTPL)

2.3 Presentation of Financial Statements

The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when there is an unconditional legally enforceable right to offset the recognized amounts without being contingent on a future event and the parties intend to settle on a net basis

2.4 Functional and presentation currency

The financial statements are presented in Indian Rupees (INR) which is also its functional currency and all values are rounded to the nearest lakhs, except when otherwise indicated.

2.5 New Accounting Standards those are issued but not effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

- Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general-purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

KOSAMATTAM FINANCE LTD. Head Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

- Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

- Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements

3 Revenue recognition

3.1 Recognition of interest income

The Company recognizes interest income by applying the effective interest rate (EIR) to the gross carrying amount of a financial asset except for purchased or originated credit-impaired financial assets and other credit-impaired financial assets.
For purchased or originated credit-impaired financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
For other credit-impaired financial assets, the Company applies an effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

The effective interest rate on a financial asset is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While estimating future cash receipts, factors like expected behaviour and life cycle of the financial asset, probable fluctuation in collateral value etc. are considered which has an impact on the EIR.

While calculating the effective interest rate, the Company includes all fees and charges paid or received to and from the borrowers that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

3.2 Recognition of revenue from the sale of goods or services

Revenue (other than for Financial Instruments within the scope of Ind AS 109) is measured at an amount that reflects the considerations, to which an entity expects to be entitled in exchange for transferring goods or services to the customer, excluding amounts collected on behalf of third parties.

The Company recognizes revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Revenue from a contract with the customer for rendering services is recognized at a point in time when the performance obligation is satisfied.

3.3 Financial instruments

A. Financial Assets

3.3.1 Initial recognition and measurement

All financial assets are recognized initially at fair value when the parties become parties to the contractual provisions of the financial asset. In the case of financial assets which are not recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial assets, are adjusted to the fair value on initial recognition.

3.3.2 Subsequent measurement

The Company classifies its financial assets into various measurement categories. The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets.

a. Financial assets measured at amortized cost

A financial asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b. Financial assets measured at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c. Financial assets measured at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories is measured at FVTPL.

B. Financial liabilities

3.3.3 Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, non-convertible debentures, loans, and borrowings including bank overdrafts.

3.3.4 Subsequent Measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

3.4 Derecognition of financial assets and liabilities

3.4.1 Financial Asset

The Company derecognizes a financial asset when the contractual cash flows from the asset expire or it transfers its rights to receive the contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

3.4.2 Financial Liability

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and the recognition of a new liability with the difference charged to profit or loss.

3.5 Offsetting

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset and the net amount is presented in the balance sheet when the Company has a legal right to offset the amounts and intends to settle on a net basis or to realize the asset and settle the liability simultaneously in all the following circumstances:

a. The normal course of business
b. The event of default
c. The event of insolvency or bankruptcy of the Company and/or its counterparties

3.6 Impairment of financial assets

In accordance with Ind AS 109, the Company uses the 'Expected Credit Loss model (ECL), for evaluating impairment of financial assets other than those measured at Fair value through profit and loss.

Further, in accordance with RBI circular no. RBI/2019-20/170 dated March 13, 2020, the impairment allowances as per ECL shall be compared with the required provisioning under IRACP. If the impairment allowance under Ind AS 109 is lower than the provisioning required under IRACP the difference is appropriated from net profit after tax to 'Impairment Reserve'.

3.6.1 Overview of the Expected Credit Loss (ECL) model

Expected Credit Loss, at each reporting date, is measured through a loss allowance for a financial asset:

- At an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.
- At an amount equal to 12-month expected credit losses, if the credit risk on a financial instrument has not increased significantly since initial recognition.

Lifetime expected credit losses mean expected credit losses that result from all possible default events over the expected life of a financial asset.

12-month expected credit losses mean the portion of Lifetime ECL that represents the ECLs that result from default events on financial assets that are possible within the 12 months after the reporting date.

The Company performs an assessment, at the end of each reporting period, of whether a financial asset's credit risk has increased significantly since initial recognition. When making the assessment, the change in the risk of a default occurring over the expected life of the financial instrument is used instead of the change in the amount of expected credit losses.

Based on the above process, the Company categorizes its loans into three stages as described below:

For non-impaired financial assets

- Stage 1 is comprised of all non-impaired financial assets which have not experienced a significant increase in credit risk (SICR) since initial recognition. A 12-month ECL provision is made for stage 1 financial asset. In assessing whether credit risk has increased significantly, the Company compares the risk of a default occurring on the financial asset as at the reporting date with the risk of a default occurring on the financial asset as at the date of initial recognition. Interest revenue is calculated on the gross carrying amount of the asset.
- Stage 2 is comprised of all non-impaired financial assets which have experienced a significant increase in credit risk since initial recognition. The Company recognizes lifetime ECL for stage 2 financial assets. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then entities shall revert to recognizing 12 months ECL provision. Interest revenue is calculated on the gross carrying amount of the asset.

For impaired financial assets:

Financial assets are classified as stage 3 when there is objective evidence of impairment at the reporting date.
The Company recognizes lifetime ECL for impaired financial assets and interest revenue is calculated on the net carrying amount of the asset.

3.6.2 Estimation of Expected Credit Loss

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Probability of Default (PD) - The Probability of Default is an estimate of the likelihood of default over a given time horizon. The Company uses historical information where available to determine PD. Considering the different products and schemes, the Company has bifurcated its loan portfolio into various pools.

Exposure at Default (EAD) - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

Loss Given Default (LGD) – The Loss Given Default is an estimate of the loss arising in the case where default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realization of any collateral.

Forward-looking information

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. Periodically, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation, etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as Land, buildings, securities, etc. However, the fair value of collateral affects the calculation of ECL. To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models. Non-financial collateral is valued based on data provided by third parties or management judgments. In its normal course of business whenever default occurs, the Company may take possession of properties or other assets in its retail portfolio and generally disposes of such assets through auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, assets under legal repossession processes are not recorded on the balance sheet. Loans are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. Any subsequent recoveries against such loans are credited to the statement of profit and loss.

Impairment of Trade receivable and Operating lease receivable

Impairment allowance on trade receivables is made under simplified approach on the basis of life time credit loss method, in addition to specific provision considering the uncertainty of recoverability of certain receivables.

Write-off

Impaired loans and receivables are written off, against the related allowance for loan impairment on completion of the Company's internal processes and when the Company concludes that there is no longer any realistic prospect of recovery of part or all of the loan. For loans that are individually assessed for impairment, the timing of write off is determined on a case by case basis. A write-off constitutes a derecognition event. The Company has a right to apply enforcement activities to recover such written off financial assets. Subsequent recoveries of amounts previously written off are credited to the statement of profit and loss.

3.7 Determination of fair value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

i. In the principal market for the asset or liability, or
ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. No such instances of transfers between levels of the fair value hierarchy were recorded during the reporting period.

3.8 Cash and cash equivalents

Cash and cash equivalents comprise of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

3.9 Bank Balances other than cash and cash equivalents

Bank balances other than cash and cash equivalents include earmarked balances with banks and balances which are held as margin money or security against borrowings, guarantees, and other commitments.

3.10 Other receivables

Other receivables mean receivables emanating from items that are classified as 'others' under 'Revenue from Operations'.

3.11 Property, plant, and equipment

Property, plant, and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment if any. Cost of an item of property, plant, and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Advances paid towards the acquisition of fixed assets, outstanding at each reporting date are shown under other non-financial assets. The cost of property, plant, and equipment not ready for its intended use at each reporting date are disclosed as capital work-in-progress. Subsequent expenditure related to the asset is added to its carrying amount or recognized as a separate asset only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

3.11.1 Depreciation

Depreciation on property, plant, and equipment is calculated using written down value method (WDV) to write down the cost of property and equipment to their residual values over their estimated useful lives which is in line with the estimated useful life as specified in Schedule II of the Companies Act, 2013.

The estimated useful lives are as follows:	
Particulars	***Useful Life***
Building	***60 Years***
Building - Compound Wall and Well	***5 Years***
Furniture and Fixtures	***10 Years***
Electrical Fittings	***10 Years***
Computer	***3 Years***
Vehicles	***8 Years***
Plant and Machinery	***22/15 Years***

The residual values, useful lives, and methods of depreciation of property, plant, and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the amortization period or methodology, as appropriate, and treated as changes in accounting estimates.

Property, plant, and equipment are derecognized on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on the derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in other income/expense in the statement of profit and loss in the year the asset is derecognized. The date of disposal of an item of property, plant, and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

Right of Use of Assets

Right of use assets are depreciated from the commencement date on written down value basis over the shorter of lease term and useful life of the underlying asset.

3.12 Intangible assets

An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.
Subsequent expenditure related to the asset is added to its carrying amount or recognized as a separate asset only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably.

Intangible assets comprising of software is amortized on a straight-line basis over a period of 10 years unless it has a shorter useful life.

Gains or losses from the derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit or Loss when the asset is derecognized.

3.13 Impairment of non–financial assets: Property, Plant and Equipment and Intangible Assets

The Company assesses, at each reporting date, whether there is any indication that any property, plant and equipment, and intangible assets or group of assets called Cash Generating Units (CGU) may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount to determine the extent of impairment, if any.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. A recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

An assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

3.14 Finance costs

Finance costs represent interest expense recognized by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than financial liabilities classified as FVTPL.
The EIR in case of a financial liability is computed

a. As the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of the amortized cost of financial liability.

b. By considering all the contractual terms of the financial instrument in estimating the cash flows.

KOSAMATTAM FINANCE LTD. Head Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

c. Including all fees paid between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts. Any subsequent changes in the estimation of the future cash flows are recognized in interest income with the corresponding adjustment to the carrying amount of the assets

3.15 Employee Benefits Expenses

3.15.1 Short Term Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include benefits such as salaries, wages, short-term compensated absence, etc. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

3.15.2. Other long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the year in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date less the fair value of the plan assets out of which the obligations are expected to be settled. Long term service awards are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date. The obligation is measured on the basis of actuarial valuation using Projected unit credit method and remeasurements gains/ losses are recognised in P&L in the period in which they arise.

3.15.3 Post-Employment Benefits

A. Defined contribution schemes

All eligible employees of the company are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the company contribute monthly at a stipulated percentage of the covered employee's salary. Contributions are made to Employees Provident Fund Organization in respect of Provident Fund at the prescribed rates and are charged to Statement of Profit and Loss at actuals. The company has no liability for future provident fund benefits other than its annual contribution.

B. Defined Benefit schemes

Gratuity

The Company provides for gratuity covering eligible employees under which a lump sum payment is paid to vested employees at retirement, death, incapacitation, or termination of employment, of an amount reckoned on the respective employee's salary and his tenure of employment with the Company. The Company accounts for its liability for future gratuity benefits based on actuarial valuation determined at each Balance Sheet date by an Independent Actuary using Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under a defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases, and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

Re-measurement, comprising of actuarial gains and losses (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods

3.16 Provisions

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

KOSAMATTAM FINANCE LTD. Head Office KOTTAYAM

SGS & COMPANY CHARTERED ACCOUNTANTS H.O.TRICHUR Br. COCHIN CALICUT CHENNAI

When the effect of the time value of money is material, the company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

3.17 Taxes

Income tax expense for the year comprises of current tax and deferred tax.

3.17.1 Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities.

The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income. Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss i.e., either in other comprehensive income or in equity.

Current tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

3.17.2 Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities used in the computation of taxable profit and their carrying amounts in the financial statements for financial reporting purposes.
Deferred tax liabilities are recognised for all taxable temporary differences, except:

i. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
ii. In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

i. When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

ii. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss ie., either in other comprehensive income or in equity. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

3.17.3 Goods and services tax /value-added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognized net of the goods and services tax/value-added taxes paid, except:

i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable

ii. When receivables and payables are stated with the amount of tax included, the net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

3.18 Other income and expenses

All other income and expenses are recognized in the period they occur.

3.19 Contingent Liabilities and Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent assets are neither recognized nor disclosed in the financial statements.

3.20 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.
The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduce the earnings per share or increases loss per share are included.

3.21 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on the historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

3.22 Cash-flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue-generating, investing and financing activities of the Company are segregated.

3.23 Segment Reporting

The Company is engaged in the business segment of Financing, whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated and to assess its performance, and for which discrete financial information is available. Further other business segments do not exceed the quantitative thresholds as defined by the Ind AS 108 on "Operating Segment". Hence, there are no separate reportable segments, as required by the Ind AS 108 on "Operating Segment".

3.24 Leases

The Company has adopted Ind AS 116-Leases effective from 1st April 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognized on the date of initial application.
The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract is or contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

(i) The contract involves the use of an identified asset
(ii) The Company has substantially all of the economic benefits from the use of the asset through the period of the lease and
(iii) The Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term Leases) and leases of low-value assets. For these short-term and leases of low-value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is re-measured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The re-measurement normally also adjusts the leased assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

4 Significant accounting judgments, estimates, and assumptions

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets, and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.
In particular, information about significant areas of estimation, uncertainty, and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

4.1 Going Concern

The financial statements of the Company are prepared on a going concern basis. Management is of the view that it is considered appropriate to prepare these financial statements on a going concern basis as the Company expects to generate sufficient cash flows from operating activities and unused lines of credit to meet its obligations in the foreseeable future.

4.2 Business Model Assessment

Classification and measurement of financial assets depend on the results of the Solely Payments of Principal and Interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed, and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of

KOSAMATTAM FINANCE LTD. Head Office KOTTAYAM

SGS & COMPANY H.O. TRICHUR Br. COCHIN CALICUT CHENNAI CHARTERED ACCOUNTANTS

the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

4.3 Effective Interest Rate (EIR) method

The Company's EIR methodology recognizes interest income using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given and recognizes the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges). This estimation, by nature, requires an element of judgment regarding the expected behaviour and life-cycle of the instruments, probable fluctuations in collateral value as well as expected changes to India's base rate and other fee income/expense that are integral parts of the instrument

4.4 Impairment of loans portfolio

The measurement of impairment losses across all categories of financial assets requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

4.5 Contingent liabilities and provisions other than impairment on a loan portfolio

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation and arbitration in the ordinary course of business. When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed. Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter, and historical evidence from similar incidents. Significant judgment is required to conclude these estimates.

4.6 Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

4.7 Fair value measurement

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk, and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4.8 Other estimates

These include contingent liabilities, useful lives of tangible and intangible assets, etc.

Notes:

(i) These receivables are non-interest bearing and short-term in nature

(ii) Impairment provision has been made for doubtful debts.

(iii) None of the trade and other receivables is due from directors or other officers of the company either severally or jointly with any other person. Nor are due from firms or private companies respectively in which any director is a partner, a director, or a member.

(iv) Simplified approach for trade and other receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade and other receivables. The application of simplified approach does not require the Company to track changes in credit risk. It recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. At every reporting date, the historical observed default rates are updated for changes in the forward-looking estimates.

Note 22.1: Nature and purpose of reserve

Statutory reserve

Statutory Reserve represents the Reserve Fund created under Section 45 IC of the Reserve Bank of India Act, 1934. Accordingly, an amount of ₹2,274.00 Lakhs (March 31, 2023 ₹2,141.07 Lakhs) representing 20% of Profit for the period is transferred to the fund for the year.

KOSAMATTAM FINANCE LTD. Head Office KOTTAYAM

H.O.TRICHUR Br. COCHIN CALICUT CHENNAI CHARTERED ACCOUNTANTS

This reserve fund can be utilized only for limited purposes as specified by RBI from time to time and every such utilization shall be reported to the RBI within specified period of time from the date of such utilization.

Capital Reserve
Represents reserve created on account of merger/amalgamation as well as the mandatory transfer of a certain percentage of profits before declaring or paying any dividends, in accordance with the provisions of Section 205 (2A) of the Companies Act, 1956.

Revaluation Reserve
Revaluation Reserve records the upward revaluation of assets /liabilities of the Company to their current fair market value, representing unrealized gains/losses.

Securities Premium
This Reserve represents the premium on the issue of equity shares and can be utilized in accordance with the provisions of the Companies Act, 2013.

Impairment Reserve
In accordance with RBI circular no. RBI/2019-20/170 dated March 13, 2020, the company provided impairment allowances as required by Ind AS. Simultaneously, the company determined asset classification and computed impairment provisions based on the applicable prudential norms of Income Recognition, Asset Classification, and Provisioning (IRACP). A comparison between the provisions required under IRACP and the impairment allowances made under Ind AS 109 has been disclosed in Note No. 46.

Furthermore, in accordance with RBI regulations, the company consistently allocated the difference between the impairment allowance calculated under Ind AS 109 and the provisioning required under IRACP for Credit Losses from the net profit after tax to the 'Impairment Reserve.' This practice has been followed by the company from the fiscal year 2019-20 until the fiscal year 2021-22.

During the fiscal year 2022-23, the Expected Credit Loss (ECL) model was updated, resulting in the Impairment Allowance determined under the provisions of Ind AS 109 exceeding the Impairment Allowance under IRACP. Given that the ECL Provision surpassed the IRACP requirement, the need to maintain an Impairment Reserve was no longer applicable. Consequently, the balance of the Impairment Reserve was reversed out and transferred to Retained Earnings.

In the current fiscal year, there has been no change in the impairment reserve.

General Reserve
Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of profit for the period at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

Retained earnings
This Reserve represents the cumulative profits of the Company. This Reserve can be utilized in accordance with the provisions of the Companies Act, 2013.

Other Comprehensive Income

Remeasurement of defined benefit plans
It represents the gain/(loss) on re-measurement of Defined Benefit Obligation and Plan assets

Note 39: Capital Management

Capital Management

The primary objective of the Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholder value

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and requirements of the financial covenants. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

Ratio	Numerator	Denominator	Current Period	Previous Period	% Variance	Reason for Variance (if above 25%)
Capital to risk-weighted assets ratio (CRAR)	1,01,948.34	5,53,408.05	18.42%	17.71%	4.02%	
Tier I CRAR	89,442.66	5,53,408.05	16.16%	14.56%	11.00%	
Tier II CRAR	12,505.68	5,53,408.05	2.26%	3.15%	(28.26%)	*
Liquidity Ratio	22,000.18	11,276.34	195.10%	240.98%	(19.04%)	

**The variance in the CRAR of Tier II capital is at 28.27%, primarily due to the change in subordinate debt.*

Regulatory capital consists of Tier1 capital which comprises share capital, share premium, and retained earnings including current year profit less accrued dividends. Certain adjustments are made to Ind AS–based results and reserves, as prescribed by the Reserve Bank of India. The other component of regulatory capital is Tier 2 capital instruments.

Note 40: Fair Value Measurement

Fair value of financial instruments not measured at fair value

Set out below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments that are initially measured at fair value and subsequently carried at amortized cost in the financial statements.

Valuation techniques

Short-term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include cash and cash

KOSAMATTAM FINANCE LTD. Head Office KOTTAYAM
SGS & COMPANY CHARTERED ACCOUNTANTS THRISSUR COCHIN CALICUT CHENNAI

equivalents, trade receivables, balances other than cash and cash equivalents, and trade payables without a specific maturity. Such amounts have been classified as Level 2/Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

Loans and advances to customers

The fair values of loans and receivables are estimated by discounted cash flow models that incorporate assumptions for credit risks, probability of default, and loss has given default estimates. Since comparable data is not available, credit risk is derived using historical experience, management view, and other information used in its collective impairment models.

Fair values of portfolios are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics i.e., type of loan. The Company then calculates and extrapolates the fair value to the entire portfolio using an Effective interest rate model that incorporates interest rate estimates considering all significant characteristics of the loans. The credit risk is applied as a top-side adjustment based on the collective impairment model incorporating the probability of defaults and loss given defaults.

Financial liability at amortized cost

The fair values of financial liability held to maturity are estimated using an effective interest rate model based on contractual cash flows using actual yields.

Note 41: Risk Management

The Company's principal financial liabilities comprise borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the company's operations. The Company's principal financial assets include loans, cash and cash equivalents and other receivables that are derived directly from its operations. As a financial lending institution, Company is exposed to various risks that are related to lending business and operating environment. The principal objective in Company 's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company's Risk Management Committee of the Board of directors constituted in accordance with the Reserve Bank of India regulations has overall responsibility for overseeing the implementation of the Risk Management Policy. The committee meets at least twice in a year to review the Risk Management practices. Risk Management department periodically places its report to the committee for review. The committee's suggestions for improving the Risk Management Practices are implemented by the Risk Management department.

Risk Management department shall be responsible for the following:

a) Identifying the various risks associated with the activities of the Company and assessing their impact on the business.

b) Measuring the risks and suggesting measures to effectively mitigate the risks. However, the primary responsibility for managing the various risks on a day to day basis will be with the heads of the respective business units of the Company.

The Company is generally exposed to credit risk, liquidity risk and market risk

I) Credit Risk

Credit Risk arises from the risk of loss that may occur from the default of Company's customers under loan agreements. Customer defaults and inadequate collateral may lead to loan losses.

The Company addresses credit risk through following processes:

a) Credit risk on Gold loan is considerably reduced as collateral is in the form of Gold ornaments which can be easily liquidated and there is only a distant possibility of losses due to adequate margin of 25% or more retained while disbursing the loan. Credit risk is further reduced through a quick but careful collateral appraisal and loan approval process. Hence overall, the Credit risk is normally low.

b) Sanctioning powers for Gold Loans is delegated to various authorities at branches/controlling offices. Sanctioning powers is used only for granting loans for legally permitted purposes. The maximum Loan to Value stipulated by the Reserve Bank of India does not exceed under any circumstances.

c) Gold ornaments brought for pledge is the primary responsibility of Branch Manager. Extra care is taken if the gold jewellery brought for pledge by any customer at any one time or cumulatively is more than 20 gm. The branch manager conducts proper due diligence to ascertain the ownership of the gold jewellery based on the questions posed and the answers provided by customers.

S & COMPANY CHARTERED ACCOUNTANTS H.O. TRICHUR Br. COCHIN CALICUT CHENNAI

d) Auctions are conducted as per the Auction Policy of the Company and the guidelines issued by Reserve Bank of India. Auction is generally conducted before loan amount plus interest exceeds realizable value of gold. After reasonable time is given to the customers for release after loan becomes overdue and exhausting all efforts for persuasive recovery, auction is resorted to as the last measure in unavoidable cases. Loss on account of auctions are recovered from the customer. Any excess received on auctions are refunded to the customer.

Impairment Assessment

The Company is mainly engaged in the business of providing gold loans. The tenure of the loans generally is up to 12 months. The Company also provides other secured and unsecured loans. The Company's impairment assessment and measurement approach is set out in this note. It should be read in conjunction with the Summary of significant accounting policies.

Definition of default and cure

The Company considers a financial instrument as defaulted and therefore Stage 3 (credit-impaired) for Expected Credit Loss (ECL) calculations in all cases when the borrower becomes 90 days past due on its contractual payments. As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate unlikeness to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2, as appropriate.

It is the Company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when none of the default criteria have been present for at least three consecutive months. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates there has been a significant increase in credit risk compared to initial recognition.

Company's internal credit rating grades and staging criteria for loans are as follows:

Rating	Loans Days past due (DPD)	Stages
High grade	Not yet due	Stage 1
Standard grade	1-30 DPD	Stage 2
Sub-standard grade	31-60 DPD	Stage 2
Past due but not impaired	61- 90 DPD	Stage 2
Individually impaired	91 DPD or More	Stage 3

Exposure at Default (EAD)

The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest.

Probability of default (PD)

The Probability of Default is an estimate of the likelihood of default over a given time horizon. To calculate the ECL for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12 months ECL. For Stage 2 and Stage 3 financial assets, the exposure at default is considered for events over the lifetime of the instruments. The Company uses historical information wherever available to determine PD. PD is calculated using the Incremental 91 DPD approach considering fresh slippage using historical information.

Loss Given Default (LGD)

LGD is the estimated loss that the Company might bear if the borrower defaults. The Company determines its recovery (net present value) by analysing the recovery trends, borrower rating, collateral value, and expected proceeds from the sale of an asset.

Particulars	As at March 31,					
	2024			2023		
	Stage 1	Stage 2	Stage 3	Stage 1	Stage 2	Stage 3

vii) Staff Loans	100.00%	100.00%	100.00%	0.00%	0.00%	0.00%

LGD Rates have been computed internally based on the discounted recoveries in defaulted accounts that are closed/ written off/ repossessed and upgraded during the year.

When estimating ECLs on a collective basis for a group of similar assets, the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

Collateral and other credit enhancements

The amount and type of collateral required to depend on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral.

The tables on the following pages show the maximum exposure to credit risk by class of financial asset. They also show the total fair value of collateral, any surplus collateral (the extent to which the fair value of collateral held is greater than the exposure to which it relates), and the net exposure to credit risk.

The main types of collateral are as follows: -

Management provides gold loans against the security of gold. The gold is pledged with the company and based on the company policy of loan to value ratio, the loan is provided.

The table below shows the maturity pattern of the assets and liabilities. In the case of loans, the contracted tenure of the gold loan is a maximum of 12 months. However, on account of a high incidence of prepayment before contracted maturity, the below maturity profile has been prepared by the management on the basis of the historical pattern of repayments. In the case of loans other than gold loans, the maturity profile is based on contracted maturity.

III) Market risk

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factors. Such changes in the values of financial instruments may result from changes in the interest rates, credit, liquidity, and other market changes. The objective of market risk management is to avoid excessive exposure of our earnings and equity to loss and reduce our exposure to the volatility inherent in financial instruments. The Company is exposed to two types of market risk as follows:

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is subject to interest rate risk, primarily since it lends to customers at fixed rates and for maturity periods shorter than the funding sources. The majority of our borrowings are at fixed rates. However, borrowings at floating rates give rise to interest rate risk. Interest rates are highly sensitive to many factors beyond control, including the monetary policies of the Reserve Bank of India, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation, and other factors. In order to manage interest rate risk, the company seeks to optimize the borrowing profile between short-term and long-term loans. The company adopts funding strategies to ensure diversified resource-raising options to minimize cost and maximize the stability of funds. Assets and liabilities are categorized into various time buckets based on their maturities and the Asset Liability Management Committee supervises an interest rate sensitivity report periodically for assessment of interest rate risks. The Interest Rate Risk is mitigated by availing funds at very competitive rates through diversified borrowings and for different tenures.

The following table demonstrates the sensitivity to a reasonably possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before taxes affected through the impact on floating rate borrowings are as follows:

Currency: ₹ in Lakhs

Impact on Profit before taxes	As at March 31, 2024	As at March 31, 2023
On Floating Rate Borrowings		
0.5 % increase in interest rates	1,078.55	720.15
0.5 % decrease in interest rates	(1,078.55)	(720.15)

Price risk

The Company's exposure to price risk is not material.

Note 42: Segment reporting

The Company is engaged in the business segment of Financing, whose operating results are regularly reviewed by the management to make decisions about resources to be allocated and to assess its performance, and for which discrete financial information is available. Further other business segments do not exceed the quantitative thresholds as defined by Ind AS 108 on "Operating Segment". Hence, there are no separate reportable segments, as required by Ind AS 108 on "Operating Segment".

Note 43: Utilization of proceeds of Public Issue of Non - Convertible Debentures

The company has during the year raised through public issue ₹56,891.83 Lakhs of Secured Redeemable Non-Convertible Debentures. As at March 31, 2024, the company has utilized the entire proceeds of the public issue, net of issue expenses in accordance with the objects stated in the offer documents.

B) Qualitative Disclosure

"The Company has adopted Liquidity Risk Management (LRM) framework on liquidity standards as prescribed by the RBI guidelines and has put in place requisite systems and processes to enable periodical computation and reporting of the Liquidity Coverage Ratio (LCR). The mandated regulatory threshold is embedded into the Liquidity Risk Management framework of the Company thus subjecting LCR maintenance to Board oversight and periodical review. The Company computes the LCR and reports the same to the Asset Liability Management Committee (ALCO) as well as to the ALM Committee of the Board.

The Company follows the criteria laid down by RBI for calculation of High Quality Liquid Assets (HQLA), gross cash outflows and inflows within the next 30-day period. HQLA predominantly comprises unencumbered Cash and Bank balances, Government securities (viz., Treasury Bills, Central and State Government securities, Investments in TREPs (Triparty Repo trades in Government Securities provided by The Clearing Corporation of India)).

All significant outflows and inflows determined in accordance with RBI guidelines are included in the prescribed LCR computation template.

The Company monitors the concentration of funding sources from significant counterparties, significant instruments/ products as part of the LRM framework. The Company follows internal limits on short term borrowings which form part of the LRM framework. The Company's funding sources are fairly dispersed across sources and maturities."

"The Board shall have the overall responsibility for management of liquidity risk. The Board shall decide the strategy, policies and procedures to manage liquidity risk in accordance with the liquidity risk tolerance/limits decided by it from time to time.

The ALM Committee of the Board of Directors shall be responsible for evaluating the liquidity risk.

The Asset-Liability Management Committee (ALCO) consisting of the NBFC's top management shall be responsible for ensuring adherence to the risk tolerance/limits set by the Board as well as implementing the liquidity risk management strategy of the NBFC. The Managing Director heads the Committee. The role of the ALCO with respect to liquidity risk include, inter alia, decision on desired maturity profile and mix of incremental assets and liabilities, sale of assets as a source of funding, the structure, responsibilities and controls for managing liquidity risk, and overseeing the liquidity positions of the Company.

The ALM Support Group headed by Chief Financial Officer and consisting of operating staff who will be responsible for analysing, monitoring and reporting the liquidity risk profile to the ALCO. The Asset-Liability Management Committee (ALCO) consisting of the NBFC's top management shall be responsible for ensuring adherence to the risk tolerance/ limits set by the Board as well as implementing the liquidity risk management strategy of the NBFC. The Managing Director heads the Committee. The role of the ALCO with respect to liquidity risk include, inter alia, decision on desired maturity profile and mix of incremental assets and liabilities, sale of assets as a source of funding, the structure, responsibilities and controls for managing liquidity risk, and overseeing the liquidity positions of the Company."

Independent Auditor's Limited Review Report on Quarterly and Year to Date Unaudited Financial Results of The Company Pursuant to The Regulation 52 Read with Regulation 63(2) of The SEBI (Listing Obligations And Disclosure Requirements) Regulations, 2015 As Amended.

To
The Board of Directors
Kosamattam Finance Limited

1. We have reviewed the accompanying statement of unaudited financial results of KOSAMATTAM FINANCE LIMITED (CIN: U65929KL1987PLC004729) ('the company') for the quarter ended December 31, 2024 and year to date results for the period April 1, 2024 to December 31, 2024 ('the statement') attached herewith, being submitted by the company pursuant to the requirements of Regulation 52 read with Regulation 63(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ('the regulation').

2. This Statement, which is the responsibility of the Company's Management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34, "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 as amended ('the Act'), read with relevant rules issued there under, the circulars, guidelines and directions issued by Reserve Bank of India (the 'RBI') from time to time, applicable to the Company (the 'RBI guidelines') and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.

3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review of Interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

4. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results prepared in accordance with the recognition and measurement principles laid down in Ind AS 34, prescribed under section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other recognized accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation including the manner in which it is to be disclosed, or that it contains any material misstatement.

Independent Auditor's Certificate on The Statement of Security Cover and Compliance with Covenants as on December 31, 2024.

1. This certificate is issued, in accordance with the terms of our engagement letter. The management has requested us , Cheeran Varghese and Co, Chartered Accountants to report on the accompanying statement of security cover and compliance with covenants as on December 31, 2024 (the "Statement") for the purpose of its onward submission to the Debenture Trustees of the Non-Convertible Debentures ("NCD"S) pursuant to Regulation 56(1)(d) to be read with Regulation 54 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("LODR Regulations") and Regulations 15(1)(t)(ii) of Securities and Exchange Board of India (Debenture Trustees) Regulations,1993,as amended vide notification No SEBI/HO/MIRSD/MIRSD_CRADT/CIR/P/2022/67 dated May 19, 2022 (hereinafter collectively referred as "SEBI Regulations") and para 1 of chapter V and para 2 of chapter VI of the Master SEBI Circular SEBI/HO/DDHS-PoD1/P/CIR/2023/109 for Debenture Trustees dated March 31, 2023 (updated on July 06,2023). The Statement has been prepared by the management and initialed by us for identification purposes only.

Management's Responsibility

2. The preparation of the accompanying Statement, "Annexure A" from the unaudited books of accounts of the Company is the responsibility of the Company's management including the preparation and maintenance of all accounting and other relevant supporting records and documents. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and presentation of the Statement and applying as appropriate basis of preparation and making estimates that are reasonable in the circumstances.

3. The management of the Company is also responsible for –
   a. Ensuring maintenance of the adequate security-cover available for listed NCDs as per Regulations 54 of LODR Regulations.
   b. Accurate computation of security-cover available for listed NCDs which is based on unaudited financial statements of the Company as of December 31, 2024.
   c. Compliance with all the covenants, respective Regulations, Offer Document/Information Memorandum and Debenture Trust Deeds ("DTDs") entered between the company and Debenture Trustees in respect of NCDs.

CHEERAN VARGHESE & CO. MUNDUPALAM 1st CROSS ROAD THRISSUR-1 CHARTERED ACCOUNTANTS

d. Compliance of relevant terms of the aforesaid SEBI Regulations in all respect.
e. Providing of all relevant information to the Company's Debenture Trustee.

4. This Responsibility includes ensuring that the relevant records provided to us for our examination are correct and complete.

Auditor's Responsibility

5. Based on our examination of the security cover available for listed NCDs, which has been prepared by the management from the unaudited financial results for the quarter ended December 31, 2024 and relevant records provided by the Company, our responsibility is to provide limited assurance as to whether the Company has maintained security cover as per the requirements of DTDs for all outstanding listed debt securities in accordance with Regulations 54 of LODR Regulations in respect of listed NCDs, for the quarter ended December 31, 2024. This did not include the evaluation of adherence by the company with all the applicable guidelines of the Regulations, Offer Document/ Information Memorandum and Debenture Trust Deeds entered between the Company and the Debenture Trustees of the Non-Convertible Debentures.
6. The financial results for the quarter ended December 31, 2024 have been reviewed by us, on which we issued unmodified conclusion vide our report dated February 11, 2025. Our review of these financial results was conducted in accordance with the Standard on Review Engagements ("SRE") 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India ("ICAI"). A review of Interim Financial Information consists of making enquiries, primarily of the Company's personnel responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 and consequently does not enable us to obtain assurance that we would become of all significant matters that might be identified in an audit. Accordingly, we did not express an audit opinion.
7. The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement ; and consequently , the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable engagement been performed . We have performed the following procedures:
    a. Checked the computation of security cover as at December 31, 2024, prepared by the management, as specified in the format given by SEBI.
    b. Traced the amounts forming part of the Annexure with the information provided by the management and other relevant records and documents maintained by the Company and verified the arithmetical accuracy of the calculations.
    c. Relied on management representations with respect to the compliance /adherence to the covenants stated in DTDs

8. We conducted our examination of the statement in accordance with Guidance Note on Reports or Certificates for Special Purposes (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI) and the standards on Auditing specified under section 143(10) of the Companies Act, 2013 in so far as applicable for the purpose of this report, which includes the concepts of test check and

CHEERAN VARGHESE & Co. MUNDUPALAM 1st CROSS ROAD THRISSUR-1 CHARTERED ACCOUNTANTS

materiality. The Guidance Note requires that we comply with the ethical requirements of the code of Ethics issued by the ICAI.

9. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Service Engagements.

Conclusion

10. Based on our procedure as stated above, and according to the information, explanation and representations provided to us by the Management of the Company, nothing has come to our attention that causes us to believe that:
    a. The particulars furnished in the Annexure A have not been accurately extracted from the unaudited books of account for the quarter ended December 31, 2024 and other relevant supporting records/documents maintained by the company;
    b. The security cover maintained by the company against the outstanding listed debt securities are less than 100% and
    c. The computation is not arithmetically accurate.

Restrictions on use

11. This Certificate is addressed to and provided to the Board of Directors of the Company solely for the purpose of submission to the Debenture Trustees in accordance with the SEBI Regulations and should not be used for any other purposes. Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Regulations. Our Obligations in respect of this certificate are entirely separate from, and our responsibility and liability are in no way changed by, any other role we may have (or may have had) as auditors of the company or otherwise. Covenants of the Issue

As Specified in the Prospectus

TERMS OF THE ISSUE

Authority for the Issue

This Issue has been authorised by the Board of Directors of our Company pursuant to a resolution passed at their meeting held on December 12, 2024. Further, the present borrowing is within the borrowing limits under Section 180(1)(c) of the Companies Act, 2013 duly approved by the shareholders vide their resolution passed at their EGM held on March 09, 2023.

Principal Terms & Conditions of this Issue

The NCDs being offered as part of the Issue are subject to the provisions of the SEBI NCS Regulations and the SEBI Master Circular, the applicable provisions of Companies Act, 2013, the Memorandum and Articles of Association of our Company, the terms of the Draft Prospectus, the Prospectus, the Application Forms, the terms and conditions of the Debenture Trusteeship Agreement, the Debenture Trust cum Hypothecation Deed, other applicable statutory and/or regulatory requirements including those issued from time to time by SEBI/the Government of India/BSE, RBI, and/or other statutory/regulatory authorities relating to the offer, issue and listing of securities and any other documents that may be executed in connection with the NCDs.

Ranking of NCDs

The NCDs being offered through this Issue would constitute direct and secured obligations of the Company and shall rank pari passu inter se, and subject to any obligations under applicable statutory and/or regulatory requirements, shall also, with regard to the amount invested, be secured by way of creating security over on all movable assets (excluding charge on the written down value of furniture and fixtures to the extent of ₹10,80,91,696), including book debts and receivables, cash and bank balances, loans and advances, both present and future of the Company equal to the value of one time of the NCDs outstanding plus interest accrued thereon. The claims of the NCD Holders shall be superior to the claims of any unsecured creditors, subject to applicable statutory and/or regulatory requirements. We have received necessary consents from the relevant lenders, debenture trustees and security trustees for creating an exclusive charge in favour of the Debenture Trustee in relation to the NCDs.

In terms of the SEBI Master Circular for Debenture Trustees, our Company is required to obtain permissions or consents from or provide intimations to the prior creditors for proceeding with this Issue, if pari passu security is sought to be created. However, exclusive charge by way of hypothecation of identified book debts of the Company is being provided as security for this Issue and these assets have no prior charge by any creditor of our Company.

Security

The Issue comprises of public issue of NCDs of face value of ₹1,000 each.

The principal amount of the NCDs to be issued in terms of this Draft Prospectus together with all interest due on the NCDs, as well as all costs, charges, all fees, remuneration of Debenture Trustee and expenses payable in respect thereof shall be secured by way of first ranking pari passu charge with the Existing Secured Creditors on all movable assets (excluding charge on the written down value of furniture and fixtures to the extent of ₹10,80,91,696), including book debts and receivables, cash and bank balances, loans and advances, both present and future of the Company equal to the value of one time of the NCDs outstanding plus interest accrued thereon.

Prior to the filing of the listing application as prescribed under SEBI Regulations and other Applicable Laws, our Company will ensure 100.00% or higher security cover on the outstanding amount, including interest, for the NCDs at any time, by creating security in favour of the Debenture Trustee for the Debenture Holders.

In terms of the SEBI Master Circular for Debenture Trustees, our Company has entered into the Debenture Trusteeship Agreement and in furtherance thereof intends to enter into a deed of agreement with the Debenture Trustee for the benefit of the NCD Holders, ("**Debenture Trust cum Hypothecation Deed**"), the terms of which shall govern the appointment of the Debenture Trustee and the issue of the NCDs.

Our Company proposes to complete the execution of the Debenture Trust cum Hypothecation Deed before filing of listing application and shall utilise the funds only after the stipulated security has been created. If the Company

fails to execute the trust deed within the period as mentioned, without prejudice to any liability arising on account of violation of the provisions of the Act and the SEBI NCS Regulations, the Company shall also pay interest of at least two percent per annum to the debenture holder, over and above the agreed coupon rate, till the execution of the trust deed.

Under the terms of the Debenture Trust cum Hypothecation Deed, our Company will covenant with the Debenture Trustee that it will pay the Debenture Holders holding the NCDs the principal amount on the NCDs on the relevant redemption date and also that it will pay the interest due on the NCDs at the rate specified in the Draft Prospectus and in the Debenture Trust cum Hypothecation Deed.

The Debenture Trust cum Hypothecation Deed will also provide that our Company may withdraw any portion of the security subject to prior written consent of the Debenture Trustee and/or may replace with another asset of the same or a higher value.

Our Company confirms that the Issue proceeds shall be kept in the Public Issue Account until the documents for creation of security i.e. the Debenture Trust cum Hypothecation Deed, is executed.

Further, in the event our Company fails to execute the Debenture Trust cum Hypothecation Deed within a timeline specified under Regulation 18 of SEBI NCS Regulations, our Company shall pay interest of at least 2% p.a. to each NCD Holder, over and above the agreed coupon rate, till the execution of the Debenture Trust cum Hypothecation Deed.

Debenture Redemption Reserve

In accordance with recent amendments to the Companies Act, 2013, and the Companies (Share Capital & Debentures) Rules 2014, read with Rule 16 of the SEBI NCS Regulations, any non-banking finance company that intends to issue debentures to the public are no longer required to create a DRR for the purpose of redemption of debentures. The Government, in the union budget for the Financial Year 2019-20 had announced that non-banking finance companies raising funds in public issues would be exempt from the requirement of creating a DRR.

Pursuant to the amendment to the Companies (Share Capital & Debentures) Rules 2014, notified on August 16, 2019, and as on the date of filing of this Draft Prospectus, the Company is not required to create DRR for the purpose of redemption of the NCDs. Accordingly, no debenture redemption reserve shall be created by our Company for the purpose of redemption of the NCDs or in connection with the Issue. The Company shall, as per the Companies (Share Capital & Debentures) Rules 2014 and other laws applicable from time to time, invest or deposit, as the case may be, the applicable amounts, within the specified timelines, in respect of debentures maturing during the year ending on the 3lst day of March of the next year, in any one or more methods of investments or deposits stipulated under the applicable law. Provided that the amount remaining invested or deposited, as the case may be, shall not at any time fall below the specified percentage, which is presently stipulated at 15% (fifteen percent) of the amount of the debentures maturing during the year ending on March 31 of the next year, in any of the following instruments or such other instruments as may be permitted under the applicable laws.

A. in deposits with any scheduled bank, free from any charge or lien
B. in unencumbered securities of the Central Government or any State Government;
C. in unencumbered securities mentioned in sub-clause (a) to (d) and (ee) of section 20 of the Indian Trusts Act, 1882;
D. in unencumbered bonds issued by any other company which is notified under sub-clause (f) of section 20 of the Indian Trusts Act, 1882:

Provided further that the amount invested or deposited as above shall not be used for any purpose other than for redemption of debentures maturing during the year referred above.

Recovery Expense Fund

Pursuant to SEBI Master Circular for Debenture Trustee, as amended, our Company is required to create a recovery expense fund. Our Company shall deposit in the recovery expense fund an amount equal to 0.01% of the issue size, subject to maximum of ₹25 lakhs. The recovery expense fund may be utilised by Debenture Trustee, in the event of default by our Company under the terms of the Debenture Trust Deed, for taking appropriate legal action to enforce the security.

Face Value

The face value of each NCD to be issued under this Issue shall be ₹ 1,000.

NCD Holder not a Shareholder

The NCD Holders will not be entitled to any of the rights and privileges available to the equity and/or preference shareholders of our Company, except to the extent of the right to receive the annual reports of our Company and such other rights as may be prescribed under the Companies Act, 2013 and the rules prescribed thereunder and the SEBI Listing Regulations.

Rights of the NCD Holders

Some of the significant rights available to the NCD Holders are as follows:

1. The NCDs shall not, except as provided in the Companies Act, 2013, our Memorandum of Association and Articles of Association and/or the Debenture Trust cum Hypothecation Deed, confer upon the holders thereof any rights or privileges available to our Company's members/shareholders including, without limitation, the right to attend and/or vote at any general meeting of our Company's members/shareholders. However, if any resolution affecting the rights attached to the NCDs is to be placed before the members/shareholders of our Company, the said resolution will first be placed before the concerned registered NCD Holders for their consideration. In terms of Section 136(1) of the Companies Act, 2013, holders of NCDs shall be entitled to a copy of the balance sheet and copy of trust deed on a specific request made to our Company.

2. Subject to applicable statutory/regulatory requirements and terms of the Debenture Trust cum Hypothecation Deed, including requirements of the RBI, the rights, privileges and conditions attached to the NCDs may be varied, modified and/or abrogated with the consent in writing of the holders of at least three-fourths of the outstanding amount of the NCDs or with the sanction of a special resolution passed at a meeting of the concerned NCD Holders, provided that nothing in such consent or resolution shall be operative against us, where such consent or resolution modifies or varies the terms and conditions governing the NCDs, if the same are not acceptable to us.

3. Subject to applicable statutory/ regulatory requirements and terms of Debenture Trust cum Hypothecation Deed, in case of NCDs held in (i) dematerialised form, the person for the time being appearing in the register of beneficial owners of the Depositories; and (ii) physical form on account of re-materialization, the registered NCD Holders or in case of joint-holders, the one whose name stands first in the register of debenture holders shall be entitled to vote in respect of such NCDs, either in person or by proxy, at any meeting of the concerned NCD Holders and every such NCD Holder shall be entitled to one vote on a show of hands and on a poll, his/her voting rights on every resolution placed before such meeting of the NCD Holders shall be in proportion to the outstanding nominal value of NCDs held by him/her.

4. The NCDs are subject to the provisions of the SEBI NCS Regulations and the SEBI Master Circular, provisions of the Companies Act, 2013, our Memorandum and Articles of Association, the terms of this Draft Prospectus, the Prospectus, the terms and conditions of the Debenture Trust cum Hypothecation Deed, requirements of the RBI, other applicable statutory and/or regulatory requirements relating to this issue and listing, of securities and any other documents that may be executed in connection with the NCDs.

5. Subject to SEBI circular, SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022, for NCDs in physical form on account of re-materialization, a register of debenture holders will be maintained in accordance with Section 88 and Section 94 of the Companies Act, 2013 and all interest and principal sums becoming due and payable in respect of the NCDs will be paid to the registered holder thereof for the time being or in the case of joint-holders, to the person whose name stands first in the register of debenture holders as on the Record Date. For NCDs in dematerialized form, all interest and principal sums becoming due and payable in respect of the NCDs will be paid to the person for the time being appearing in the register of beneficial owners of the Depositories. In terms of Section 88(3) of the Companies Act, 2013, the register of beneficial owners maintained by a Depository for any NCDs in dematerialized form under Section 11 of the Depositories Act shall be deemed to be a register of debenture holders for this purpose. The same shall be maintained at the Registered Office of our Company under Section 94 of the Companies Act, 2013 unless the same has been moved to another location after obtaining the consent of the NCD Holders as given thereunder.

6. Subject to compliance with applicable statutory requirements, the NCDs can be rolled over only with the consent of the holders of at least 75% of the outstanding amount of the NCDs after providing at least 15 days prior notice for such roll over and in accordance with the SEBI NCS Regulations. Our Company shall redeem the NCDs, who have not given their positive consent to the roll-over.

The aforementioned rights of the NCD Holders are merely indicative. The final rights of the NCD Holders will be as per the terms of the Draft Prospectus and the Debenture Trust cum Hypothecation Deed.

Debenture Trustees for the NCD Holders

We have appointed Vistra ITCL (India) Limited to act as the Debenture Trustees for the NCD Holders in terms of Regulation 8 of the SEBI NCS Regulations and Section 71(5) of the Companies Act, 2013 and the rules prescribed thereunder. We and the Debenture Trustee will execute a Debenture Trust cum Hypothecation Deed, inter alia, specifying the powers, authorities and obligations of the Debenture Trustee and us within such period as specified under Regulation 18 of the SEBI NCS Regulations and on failure to do the same, we shall pay interest of at least two percent per annum to the NCD Holder(s), over and above the agreed coupon rate, till the execution of the trust deed. The NCD Holder(s) shall, without further act or deed, be deemed to have irrevocably given their consent to the Debenture Trustee or any of its agents or authorised officials to do all such acts, deeds, matters and things in respect of or relating to the NCDs as the Debenture Trustee may in its absolute discretion deem necessary or require to be done in the interest of the NCD Holder(s). Any payment made by us to the Debenture Trustee on behalf of the NCD Holder(s) shall discharge us pro tanto to the NCD Holder(s).

The Debenture Trustee will protect the interest of the NCD Holders in the event of default by us in regard to timely payment of interest and repayment of principal and they will take necessary action at our cost. It is it the duty of the debenture trustee to monitor the security cover is maintained, however, the recovery of 100% of the amount shall depend on the market scenario prevalent at the time of enforcement of the security.

Our Company shall not create any further encumbrances on the Security except with the prior approval of the Debenture Trustee. In the event of such request by our Company, the Debenture Trustee shall provide its approval for creation of further charges provided that our Company provides a certificate from a chartered accountant stating that after creation of such further charges, the required Security cover is maintained.

At any time before the Security constituted hereunder becomes enforceable, the Debenture Trustee, may, at the request of our Company and without any consent of the NCD Holders, do or concur our Company in doing all or any of the things which our Company might have done in respect of the Security as if no security had been created and particularly, but not by way of limitation, the following assent to any modification of any contracts or arrangements which may be subsisting in relation to the Security.

Events of Default (including manner of voting/conditions of joining Inter Creditor Agreement)

As Specified in the Prospectus

Subject to the approval of the debenture holders and the conditions as may be specified by the SEBI from time to time, the Debenture Trustee, on behalf of the debenture holders, may enter into inter-creditor agreements provided under the framework specified by the Reserve Bank of India.

In accordance with the SEBI Master Circular for Debenture Trustees in case of 'Default' by Issuers of listed debt securities, post the occurrence of a "default", the consent of the NCD Holders for entering into an inter-creditor agreement (the "ICA") /enforcement of security shall be sought by the debenture trustee after providing a notice to the investors in the manner stipulated under applicable law. Further, the meeting of the NCD Holders shall be held within the period stipulated under applicable law. In case(s) where majority of investors express their consent to enter into the ICA, the debenture trustee shall enter into the ICA on behalf of the investors upon compliance with the conditions as stipulated in the abovementioned circular. In case consents are not received for signing the ICA, the debenture trustee shall take further action, if any, as per the decision taken in the meeting of the investors. The consent of the majority of investors shall mean the approval of not less than 75% of the investors by value of the outstanding debt and 60% of the investors by number at the ISIN level. Explanation 2 to Regulation 49 of the SEBI Listing Regulations, defines 'default' as non-payment of interest or principal amount in full on the pre-agreed date which shall be recognized at the first instance of delay in the servicing of any interest/dividend or principal on debt.

It is hereby confirmed, in case of an occurrence of a "default", the Debenture Trustee shall abide and comply with the procedures mentioned in the SEBI Master Circular for Debenture Trustees.

Market Lot and Trading Lot

The NCDs shall be allotted only in dematerialized form. As per the SEBI NCS Regulations, the trading of the NCDs shall be in dematerialised form only. Since trading of the NCDs is in dematerialised form, the tradable lot is one NCD.

Please note that the NCDs shall cease to trade from the Record Date (for payment of the principal amount and the applicable interest for such NCDs) prior to redemption of the NCDs.

Allotment in the Issue will be in Demat form in multiples of one NCD. For details of allotment, see "Issue Procedure" beginning on page 323.

Nomination facility to NCD Holder

In accordance with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014 ("**Rule 19**") and Section 72 of the Companies Act, 2013, the sole NCD Holder, or first NCD Holder, along with other joint NCD Holders' (being individual(s)), may nominate, in the Form No. SH.13, any one person in whom, in the event of the death of Applicant the NCDs Allotted, if any, will vest. Where the nomination is made in respect of the NCDs held by more than one person jointly, all joint holders shall together nominate in Form No. SH.13 any person as nominee. A nominee entitled to the NCDs by reason of the death of the original holder(s), will, in accordance with Rule 19 and Section 56 of the Companies Act, 2013, be entitled to the same benefits to which he or she will be entitled if he or she were the registered holder of the NCDs. Where the nominee is a minor, the holder(s) may make a nomination to appoint, in Form No. SH.14, any person to become entitled to NCDs in the event of the holder 's death during minority. A nomination will stand rescinded on a sale/transfer/alienation of NCDs by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the Registrar to the Issue.

NCDs are held by two or more persons, the nominee shall become entitled to receive the amount only on the demise of all such NCD Holders. Fresh nominations can be made only in the prescribed form available on request at our Registered/ Corporate Office, at such other addresses as may be notified by us, or at the office of the Registrar to the Issue.

NCD Holder(s) are advised to provide the specimen signature of the nominee to us to expedite the transmission of the NCD(s) to the nominee in the event of demise of the NCD Holder(s). The signature can be provided in the Application Form or subsequently at the time of making fresh nominations. This facility of providing the specimen signature of the nominee is purely optional.

In accordance with the Section 72 read with Rule 19, any person who becomes a nominee by virtue of the Rule 19, will on the production of such evidence as may be required by the Board, elect either:

- to register himself or herself as the holder of the NCDs; or

- to make such transfer of the NCDs, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the NCDs, and if the notice is not complied with, within a period of 90 days, the Board may thereafter withhold payment of all interests or redemption amounts or other monies payable in respect of the NCDs, until the requirements of the notice have been complied with.

A nomination may be cancelled or varied by nominating any other person in place of the present nominee, by the Secured NCD Holder who has made the nomination, by giving a notice of such cancellation or variation in the prescribed manner as per applicable laws. The cancellation or variation shall take effect from the date on which the notice of such variation or cancellation is received

For all NCDs held in the dematerialised form and since the allotment of NCDs pursuant to this Issue will be made only in dematerialized mode, there is no need to make a separate nomination with our Company. The nominations registered with the respective Depository Participant of the Applicant would prevail. If the investors require changing their nomination, they are requested to inform their respective Depository Participant in connection with NCDs held in the dematerialised form.

Applicants who have opted for rematerialisation of NCDs and are holding the NCDs in the physical form should provide required details in connection with their nominee to our Company.

Jurisdiction

Exclusive jurisdiction for the purpose of the Issue is with the competent courts of jurisdiction in Kottayam, Kerala India.

Application in the Issue

Applicants shall apply in this Issue in dematerialised form only, through a valid Application Form filled in by the Applicant along with attachment, as applicable. Further, Applications in this Issue shall be made through the ASBA facility only (including Applications made by UPI Investors under the UPI Mechanism).

In terms of Regulation 7 of the SEBI NCS Regulations, our Company will make public issue of the NCDs in the dematerialised form only.

However, in terms of Section 8(1) of the Depositories Act, our Company, at the request of the Investors who wish to hold the NCDs in physical form will rematerialise the NCDs. However, any trading of the NCDs shall be compulsorily in dematerialised form only.

Form of Allotment and Denomination of NCDs

As per the SEBI NCS Regulations, the trading of the NCDs on the Stock Exchange shall be in dematerialized form only in multiples of 1 (one) NCD ("**Market Lot**"). Allotment in the Issue to all Allottees, will be in electronic form i.e. in dematerialised form and in multiples of one NCD.

Transfer/ Transmission of NCD(s)

The NCDs shall be transferred or transmitted freely in accordance with the applicable provisions of the Companies Act, 2013. The NCDs held in dematerialised form shall be transferred subject to and in accordance with the rules/procedures as prescribed by NSDL/ CDSL and the relevant DPs of the transfer or transferee and any other applicable laws and rules notified in respect thereof. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant.

In the absence of the same, interest will be paid/redemption will be made to the person, whose name appears in the register of debenture holders maintained by the Depositories. In such cases, claims, if any, by the transferees would need to be settled with the transferor(s) and not with the Company or Registrar.

Pursuant to the SEBI Listing Regulations, NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred except by way of transmission or transposition. However, any trading of the NCDs issued pursuant to this Issue shall be compulsorily in dematerialised form only.

Succession

Where NCDs are held in joint names and one of the joint holders dies, the survivor(s) will be recognized as the NCD Holder(s). It will be sufficient for our Company to delete the name of the deceased NCD Holder after obtaining satisfactory evidence of his death. Provided, a third person may call on our Company to register his name as successor of the deceased NCD Holder after obtaining evidence such as probate of a will for the purpose of proving his title to the debentures. In the event of demise of the sole or first holder of the Debentures, the Company will recognise the executors or administrator of the deceased NCD Holders, or the holder of the succession certificate or other legal representative as having title to the Debentures only if such executor or administrator obtains and produces probate or letter of administration or is the holder of the succession certificate or other legal representation, as the case may be, from an appropriate court in India. The directors of the Company in their absolute discretion may, in any case, dispense with production of probate or letter of administration or succession certificate or other legal representation. In case of death of NCD Holders who are holding NCDs in dematerialised form, third person is not required to approach the Company to register his name as successor of the deceased NCD Holder. He shall approach the respective Depository Participant of the NCD Holder for this purpose and submit necessary documents as required by the Depository Participant.

Where a non-resident Indian becomes entitled to the NCDs by way of succession, the following steps have to be complied with:

1. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the NCDs were acquired by the non-resident Indian as part of the legacy left by the deceased NCD Holder.

2. Proof that the non-resident Indian is an Indian national or is of Indian origin.

3. Such holding by a non-resident Indian will be on a non-repatriation basis.

Joint-holders

Where two or more persons are holders of any NCD(s), they shall be deemed to hold the same as joint holders with benefits of survivorship subject to other provisions contained in the Articles.

Procedure for Re-materialization of NCDs

NCD Holders who wish to hold the NCDs in physical form may do so by submitting a request to their DP at any time after Allotment in accordance with the applicable procedure stipulated by the DP, in accordance with the Depositories Act and/or rules as notified by the Depositories from time to time. **Holders of NCDs who propose to rematerialise their NCDs, would have to mandatorily submit details of their bank mandate along with a copy of any document evidencing that the bank account is in the name of the holder of such NCDs and their Permanent Account Number to the Company and the DP. No proposal for rematerialisation of NCDs would be considered if the aforementioned documents and details are not submitted along with the request for such rematerialisation**.

Restriction on transfer of NCDs

There are no restrictions on transfers and transmission of NCDs allotted pursuant to this Issue except as may be required under RBI requirements and as provided in our Articles of Association. Pursuant to the SEBI Listing Regulations, NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred except by way of transmission or transposition, from December 4, 2018.

Further, pending mandate requests for bids placed on the last day of bidding will be validated by 5:00 p.m. (Indian Standard Time) on one Working Day post the Issue Closing Date.

Due to limitation of time available for uploading the Applications on the Issue Closing Date, Applicants are advised to submit their Application Forms one day prior to the Issue Closing Date and, no later than 3.00 p.m. (Indian Standard Time) on the Issue Closing Date. Applicants are cautioned that in the event a large number of Applications are received on the Issue Closing Date, there may be some Applications which are not uploaded due to lack of sufficient time to upload. Such Applications that cannot be uploaded will not be considered for allocation under the Issue. Application Forms will only be accepted on Working Days during the Issue Period. Neither our Company, nor the Lead Manager or Trading Members of the Stock Exchange are liable for any failure in uploading the Applications due to failure in any software/ hardware systems or otherwise. Please note that the Basis of Allotment under the Issue will be on the basis of date of upload of each application into the electronic book of the Stock Exchange in accordance with the SEBI Master Circular. However, from the date of oversubscription and thereafter, the allotments will be made to the applicants on proportionate basis.

Basis of payment of Interest

Payment of Interest/Maturity Amount will be made to those entitled NCD Holders whose names appear in the register of Debenture Holders (or to first holder in case of joint holders) as on Record Date.

We may enter into an arrangement with one or more banks in one or more cities for direct credit of interest to the account of the Investors. In such cases, interest, on the interest payment date, would be directly credited to the account of those Investors who have given their bank mandate.

We may offer the facility of NACH, NEFT, RTGS, Direct Credit and any other method permitted by RBI and SEBI from time to time to help NCD Holders. The terms of this facility (including towns where this facility would be available) would be as prescribed by RBI. Please see, "*Financial Indebtedness*" at page 190.

Taxation

Any tax exemption certificate/document must be lodged at the office of the Registrar at least 7 (seven) days prior to the Record Date or as specifically required, failing which tax applicable on interest will be deducted at source on accrual thereof in our Company's books and/or on payment thereof, in accordance with the provisions of the IT Act and/or any other statutory modification, enactment or notification as the case may be. A tax deduction certificate will be issued for the amount of tax so deducted.

As per clause (ix) of Section 193 of the I.T. Act, no tax is required to be withheld on any interest payable on any security issued by a company, where such security is in dematerialised form and is listed on a recognized stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 (42 of 1956) and the rules made thereunder. Accordingly, no tax will be deducted at source from the interest on listed NCDs held in the dematerialised form.

If the date of interest payment falls on a Saturday, Sunday or a public holiday in Mumbai or any other payment centre notified in terms of the Negotiable Instruments Act, 1881, then interest would be paid on the next working day. Payment of interest would be subject to the deduction as prescribed in the I.T. Act or any statutory modification or re-enactment thereof for the time being in force.

Subject to the terms and conditions in connection with computation of applicable interest on the Record Date, please note that in case the NCDs are transferred and/or transmitted in accordance with the provisions of the Prospectus read with the provisions of the Articles of Association of our Company, the transferee of such NCDs or the deceased holder of NCDs, as the case may be, shall be entitled to any interest which may have accrued on the NCDs.

Day Count Convention:

Interest shall be computed on actual/actual basis i.e. on the principal outstanding on the NCDs as per the SEBI Master Circular.

Effect of holidays on payments

If the date of payment of interest does not fall on a Working Day, then the interest payment will be made on succeeding Working Day (the "**Effective Date**"), however the calculation for payment of interest will be only till the originally stipulated Interest Payment Date. The dates of the future interest payments would be as per the originally stipulated schedule. Payment of interest will be subject to the deduction of tax as per Income Tax Act or any statutory modification or re-enactment thereof for the time being in force. In case the Maturity Date (also being the last Interest Payment Date) does not fall on a Working Day, the payment will be made on the immediately preceding Working Day, along with coupon/interest accrued on the NCDs until but excluding the date of such payment.

Maturity and Redemption

As Specifed in the Prospectus

Application Size

Each application should be for a minimum of 10 NCDs and multiples of one NCD thereof. The minimum application size for each application would be ₹10,000 (for all kinds of Series [●] NCDs either taken individually or collectively) and in multiples of ₹1,000 thereafter.

Applicants can apply for any or all series of NCDs offered hereunder provided the Applicant has applied for minimum application size using the same Application Form.

Applicants are advised to ensure that application made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and or regulatory provisions.

Terms of Payment

The entire issue price of ₹1,000 per NCD is blocked in the ASBA Account on application itself. In case of allotment of lesser number of NCDs than the number of NCDs applied for, our Company shall instruct the SCSBs to unblock the excess amount blocked on application in accordance with the terms of this Draft Prospectus.

Manner of Payment of Interest / Refund/ Redemption Amounts

The manner of payment of interest /refund/ redemption in connection with the NCDs is set out below:

For NCDs held in dematerialised form:

The bank details will be obtained from the Depositories for payment of Interest / redemption amount as the case may be. Holders of the NCDs, are advised to keep their bank account details as appearing on the records of the depository participant updated at all points of time. Please note that failure to do so could result in delays in credit of Interest/ Redemption Amounts at the Applicant's sole risk, and the Lead Manager, our Company or the Registrar shall have no any responsibility and undertake no liability for the same.

The Registrar to the Issue will issue requisite instructions to the relevant SCSBs to un-block amounts in the ASBA Accounts of the Applicants representing the amounts to unblocked for the Applicants.

For NCDs held in physical form on account of re-materialization:

In case of NCDs held in physical form, on account of rematerialisation, the bank details will be obtained from the documents submitted to the Company along with the rematerialisation request. For further details, please see "*Terms of the Issue*" on page 304.

The mode of payment of Interest/Redemption Amount shall be undertaken in the following order of preference:

1. **Direct Credit/ NACH/ RTGS**: Investors having their bank account details updated with the Depository shall be eligible to receive payment of Interest / Redemption Amount, through:

(i) **Direct Credit**: Interest / Redemption Amount would be credited directly to the bank accounts of the Investors, if held with the same bank as the Company.

(ii) **NACH**: National Automated Clearing House which is a consolidated system of ECS. Payment of Interest / Redemption Amount would be done through NACH for Applicants having an account at one of the centres specified by the RBI, where such facility has been made available. This would be subject to availability of complete bank account details including Magnetic Ink Character Recognition (MICR) code wherever applicable from the depository. The payment of Interest / Redemption Amount through NACH is mandatory for Applicants having a bank account at any of the centres where NACH facility has been made available by the RBI (subject to availability of all information for crediting the Interest / Redemption Amount through NACH including the MICR code as appearing on a cheque leaf, from the depositories), except where applicant is otherwise disclosed as eligible to get Interest / Redemption Amount through NEFT or Direct Credit or RTGS.

(iii) **RTGS**: Applicants having a bank account with a participating bank and whose Interest / Redemption Amount exceeds ₹2 lakhs, or such amount as may be fixed by RBI from time to time, have the option to receive the

Interest / Redemption Amount through RTGS. Such eligible Applicants who indicate their preference to receive Interest / Redemption Amount through RTGS are required to provide the IFSC code in the Application Form or intimate our Company and the Registrars to the Issue at least 7 (seven) days before the Record Date. Charges, if any, levied by the Applicant's bank receiving the credit would be borne by the Applicant. In the event the same is not provided, Interest / Redemption Amount shall be made through NECS subject to availability of complete bank account details for the same as stated above.

(iv) **NEFT**: Payment of interest / redemption shall be undertaken through NEFT wherever the Applicants' bank has been assigned the Indian Financial System Code ("**IFSC**"), which can be linked t a Magnetic Ink Character Recognition ("**MICR**"), if any, available to that particular bank branch. IFSC Code will be obtained from the website of RBI as on a date immediately prior to the date of payment of the Interest / Redemption Amounts, duly mapped with MICR numbers. Wherever the Applicants have registered their nine-digit MICR number and their bank account number while opening and operating the de-mat account, the same will be duly mapped with the IFSC Code of that particular bank branch and the payment of Interest / Redemption Amount will be made to the Applicants through this method.

2. **Registered Post/Speed Post**: For all other NCD Holders, including those who have not updated their bank particulars with the MICR code, the Interest Payment / Redemption Amount shall be paid by way of Interest/ Redemption warrants dispatched through Speed Post/ Registered Post only to Applicants that have provided details of a registered address in India.

The bank details will be obtained from the Depositories for payment of Interest / refund / redemption amount as the case may be. Applicants who are holding the NCDs in electronic form, are advised to immediately update their bank account details as appearing on the records of the depository participant.

Please note that failure to do so could result in delays in credit of refunds to the Applicant at the Applicant's sole risk, and the Lead Manager, our Company nor the Registrar to the Issue shall have any responsibility and undertake any liability for the same.

Please note that applicants are eligible to receive payments through the modes detailed in (1), (2) (3), and (4) herein above provided they provide necessary information for the above modes and where such payment facilities are allowed / available.

Please note that our Company shall not be responsible to the holder of NCDs, for any delay in receiving credit of interest / refund / redemption so long as our Company has initiated the process of such request in time. In case of ASBA Applicants, the Registrar to the Issue will issue requisite instructions to the relevant SCSBs to un-block amounts in the ASBA Accounts of the Applicants representing the amounts to be refunded to the Applicants.

The Registrar to the Issue shall instruct the relevant SCSB or in case of Bids by Retail Individual Investors applying through the UPI Mechanism to the Sponsor Bank, to revoke the mandate and to unblock the funds in the relevant ASBA Account to the extent of the Application Amount specified in the Application Forms for withdrawn, rejected or unsuccessful or partially successful Applications within six Working Days of the Issue Closing Date.

Printing of Bank Particulars on Interest/ Redemption Warrants

As a matter of precaution against possible fraudulent encashment of Interest/ Redemption warrants due to loss or misplacement, the particulars of the Applicant's bank account are mandatorily required to be given for printing on the orders/ warrants. In relation to NCDs held dematerialised form, these particulars would be taken directly from the depositories. In case of NCDs held in physical form on account of rematerialisation, the investors are advised to submit their bank account details with our Company / Registrar at least seven (seven) days prior to the Record Date failing which the orders / warrants will be dispatched to the postal address of the holder of the NCD as available in the records of our Company.

Bank account particulars will be printed on the warrants which can then be deposited only in the account specified.

Loan against NCDs

Pursuant to RBI Circular dated June 27, 2013, our Company, being an NBFC, is not permitted to extend any loans against the security of its NCDs.

Buy Back of NCDs

Our Company may, at its sole discretion, from time to time, consider, subject to applicable statutory and/or regulatory requirements, buyback of NCDs, upon such terms and conditions as may be decided by our Company.

Our Company may from time to time invite the NCD Holders to offer the NCDs held by them through one or more buy-back schemes and/or letters of offer upon such terms and conditions as our Company may from time to time determine, subject to applicable statutory and/or regulatory requirements. Such NCDs which are bought back may be extinguished, re-issued and/or resold in the open market with a view of strengthening the liquidity of the NCDs in the market, subject to applicable statutory and/or regulatory requirements.

Procedure for Redemption by NCD Holders

The procedure for redemption is set out below:

NCDs held in physical form on account of re-materialization:

No action would ordinarily be required on the part of the NCD Holder at the time of redemption and the redemption proceeds would be paid to those NCD Holders whose names stand in the register of NCD Holders maintained by us on the Record Date fixed for the purpose of Redemption. However, our Company may require that the NCD certificate(s), duly discharged by the sole holder/all the joint-holders (signed on the reverse of the NCD certificate(s)) be surrendered for redemption on maturity and should be sent by the NCD Holder(s) by Registered Post with acknowledgment due or by hand delivery to our office or to such persons at such addresses as may be notified by us from time to time. NCD Holder(s) may be requested to surrender the NCD certificate(s) in the manner as stated above, not more than three months and not less than one month prior to the redemption date so as to facilitate timely payment.

We may at our discretion redeem the NCDs without the requirement of surrendering of the NCD certificates by the holder(s) thereof. In case we decide to do so, the holders of NCDs need not submit the NCD certificates to us and the redemption proceeds would be paid to those NCD Holders whose names stand in the register of NCD Holders maintained by us on the Record Date fixed for the purpose of redemption of NCDs. In such case, the NCD certificates would be deemed to have been cancelled. Also see "Issue Procedure - Payment on Redemption" on page 318.

NCDs held in electronic form:

No action is required on the part of NCD Holder(s) at the time of redemption of NCDs.

Payment on Redemption

The manner of payment of redemption is set out below:

NCDs held in physical form on account of re-materialisation:

The payment on redemption of the NCDs will be made by way of cheque/pay order/ electronic modes. However, if our Company so requires, the aforementioned payment would only be made on the surrender of NCD certificate(s), duly discharged by the sole holder / all the joint-holders (signed on the reverse of the NCD certificate(s). Dispatch of cheques/pay order, etc. in respect of such payment will be made on the Redemption Date or (if so requested by our Company in this regard) within a period of 30 days from the date of receipt of the duly discharged NCD certificate.

In case we decide to do so, the redemption proceeds in the manner stated above would be paid on the Redemption Date to those NCD Holders whose names stand in the Register of NCD Holders maintained by us/Registrar to the Issue on the Record Date fixed for the purpose of Redemption. Hence the transferees, if any, should ensure lodgement of the transfer documents with us at least 7 (seven) days prior to the Record Date. In case the transfer documents are not lodged with us at least 7 (seven) days prior to the Record Date and we dispatch the redemption proceeds to the transferor, claims in respect of the redemption proceeds should be settled amongst the parties inter se and no claim or action shall lie against us or the Registrar.

Our liability to holder(s) towards their rights including for payment or otherwise shall stand extinguished from the date of redemption in all events and when we dispatch the redemption amounts to the NCD Holder(s).

Further, we will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the NCD(s).

NCDs held in electronic form:

On the redemption date, redemption proceeds would be paid by cheque /pay order / electronic mode to those NCD Holders whose names appear on the list of beneficial owners given by the Depositories to us. These names would be as per the Depositories' records on the Record Date fixed for the purpose of redemption. These NCDs will be simultaneously extinguished to the extent of the amount redeemed through appropriate debit corporate action upon redemption of the corresponding value of the NCDs. It may be noted that in the entire process mentioned above, no action is required on the part of NCD Holders.

Our liability to NCD Holder(s) towards his/their rights including for payment or otherwise shall stand extinguished from the date of redemption in all events and when we dispatch the redemption amounts to the NCD Holder(s).

Further, we will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the NCD(s).

Right to reissue NCD(s)

Subject to the provisions of the Companies Act, 2013, where we have fully redeemed or repurchased any NCD(s), we shall have and shall be deemed always to have had the right to keep such NCDs in effect without extinguishment thereof, for the purpose of resale or reissue and in exercising such right, we shall have and be deemed always to have had the power to resell or reissue such NCDs either by reselling or reissuing the same NCDs or by issuing other NCDs in their place. The aforementioned right includes the right to reissue original NCDs.

Sharing of information

We may, at our option, use on our own, as well as exchange, share or part with any financial or other information about the NCD Holders available with us, with our subsidiaries, if any and affiliates and other banks, financial institutions, credit bureaus, agencies, statutory bodies, as may be required and neither we or our affiliates nor their agents shall be liable for use of the aforesaid information.

Notices

All notices to the NCD Holder(s) required to be given by us or the Debenture Trustee shall be published in one English language newspaper having wide circulation and one regional language daily newspaper in Kerala and/or will be sent by post/ courier or through email or other electronic media to the Registered Holders of the NCD(s) from time to time.

Issue of duplicate NCD Certificate(s)

If any NCD certificate(s), issued pursuant to rematerialisation, if any, is/are mutilated or defaced or the cages for recording transfers of NCDs are fully utilised, the same may be replaced by us against the surrender of such certificate(s). Provided, where the NCD certificate(s) are mutilated or defaced, the same will be replaced as aforesaid only if the certificate numbers and the distinctive numbers are legible.

If any NCD certificate is destroyed, stolen or lost then upon production of proof thereof to our satisfaction and upon furnishing such indemnity/security and/or documents as we may deem adequate, duplicate NCD certificate(s) shall be issued. Upon issuance of a duplicate NCD certificate, the original NCD certificate shall stand cancelled.

Future Borrowings

We will be entitled to borrow/raise loans or avail of financial assistance in whatever form as also to issue debentures/ NCDs/other securities in any manner having such ranking in priority, pari passu or otherwise, subject to applicable consents, approvals or permissions that may be required under any statutory/regulatory/contractual requirement, and change the capital structure including the issue of shares of any class, on such terms and conditions as we may think appropriate, without the consent of, or intimation to, the NCD Holders or the Debenture Trustee in this connection.

Impersonation

Attention of the Investors is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

"Any person who:

a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or

b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or

c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447."

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹10 lakh or 1.00% of the turnover of the Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹10 lakh or 1.00% of the turnover of the Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹50 lakh or with both.

Period of Subscription

In terms of the SEBI NCS Regulations, a public issue of debt securities shall be kept open for a minimum of two working days and a maximum of ten working days. In the event of a revision in the price band or yield, the issuer shall extend the bidding (issue) period disclosed in the offer document for a minimum period of two working days, however, the overall bidding (issue) period shall not exceed ten working days. In the event of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the bidding (issue) period disclosed in the offer document, however, the overall bidding (issue) period shall not exceed ten working days.

Minimum Subscription

If our Company does not receive the minimum subscription of 75% of Base Issue Size i.e. ₹7,500.00 lakhs prior to the Issue Closing Date and as prescribed under the Companies Act and SEBI regulations and any rules thereto, the entire Application Amount blocked shall be unblocked in the relevant ASBA Account(s) of the Applicants within six working days from the Issue Closing Date provided wherein, the Application Amount has been transferred to the Public Issue Account from the respective ASBA Accounts, such Application Amount shall be refunded from the Refund Account to the relevant ASBA Accounts(s) of the Applicants within six working days from the Issue Closing Date, failing which the Company will become liable to refund the Application Amount along with interest at the rate 15 (fifteen) percent per annum for the delayed period.

Under Section 39(3) of the Companies Act, 2013 read with Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the application money received is to be credited only to the bank account from which the subscription was remitted. To the extent possible, where the required information for making such refunds is available with our Company and/or Registrar, refunds will be made to the account prescribed. However, where our Company and/or Registrar does not have the necessary information for making such refunds, our Company and/or Registrar will follow the guidelines prescribed by SEBI in this regard included in the SEBI Master Circular.

Utilisation of Issue Proceeds

a) All monies received out of the Issue shall be credited/ transferred to a separate bank account maintained with a scheduled bank as referred to in section 40(3) of the Companies Act 2013;

b) Details of all monies utilised out of the Issue referred above shall be disclosed under an appropriate separate head in our balance sheet indicating the purpose for which such monies have been utilised along with details, if any, in relation to all such proceeds of the Issue that have not been utilized thereby also indicating investments, if any, of such unutilized proceeds of the Issue;

c) Details of all unutilised monies out of the Issue, if any, shall be disclosed under an appropriate separate head in our balance sheet indicating the form in which such unutilised monies have been invested;

d) We shall utilize the Issue proceeds only upon allotment of the NCDs, execution of Debenture Trust cum Hypothecation Deed, receipt of the listing and trading approval from the Stock Exchange;

e) The Issue proceeds shall not be utilized towards full or part consideration for the purchase or any other acquisition, inter alia by way of a lease, of any immovable property; and

f) Details of all utilized and unutilized monies out of the monies collected in the previous issue made by way of public offer shall be disclosed and continued to be disclosed in the balance sheet till the time any part of the proceeds of such previous issue remains unutilized indicating the purpose for which such monies have been utilized and the securities or other forms of financial assets in which such unutilized monies have been invested.

Payment of Interest

If Allotment is not made within the prescribed time period under applicable law, the entire subscription amount will be unblocked within the time prescribed under applicable law, failing which interest may be due to be paid to the Applicants, for the delayed period, as prescribed in applicable law. Applicants should submit the Application Form only at the Bidding Centers, i.e. to the respective Syndicate Members at the Specified Locations, the SCSBs at the Designated Branches, the Registered Broker at the Broker Centers, the RTAs at the Designated RTA Locations or CDPs at the Designated CDP Locations. Kindly note that Application Forms submitted by Applicants at the Specified Locations will not be accepted if the SCSB with which the ASBA Account, as specified in the Application Form is maintained has not named at least one branch at that location for the Designated Intermediaries for deposit of the Application Forms. A list of such branches is available at https://www.sebi.gov.in.

Designated Intermediaries (other than SCSBs) shall not accept any ASBA Form from a retail individual investor who is not Bidding using the UPI Mechanism.

For retail individual investors using UPI Mechanism, the Stock Exchange shall share the bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to retail individual investors for blocking of funds.

Applicants are requested to note that in terms of the SEBI Master Circular, SEBI has mandated issuers to provide, through a recognized stock exchange which offers such a facility, an online interface enabling direct application by investors to a public issue of debt securities with an online payment facility ("**Direct Online Application Mechanism**"). In this regard, SEBI has, through the SEBI Master Circular, directed recognized Stock Exchange in India to put in necessary systems and infrastructure for the implementation of the SEBI Master Circular and the Direct Online Application Mechanism infrastructure for the implementation of the SEBI Master Circular and the Direct Online Application Mechanism. The Direct Online Application facility will be available for this Issue as per mechanism provided in the SEBI Master Circular.

The relevant Designated Intermediaries, upon receipt of physical Application Forms from Applicants, shall upload the details of these Application Forms to the online platform of the Stock Exchange and submit these Application Forms (except a Bid cum Application Form from RIIs using the UPI Mechanism) with the SCSB with whom the relevant ASBA Accounts are maintained.

For RIBs using UPI Mechanism, the Stock Exchange shall share the bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to RIBs for blocking of funds. An Applicant shall submit the Application Form, in physical form, the Application Form shall be stamped at the relevant Designated Branch of the SCSB. Application Forms in physical mode, which shall be stamped, can also be submitted to be the Designated Intermediaries at the Specified Locations. The SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application Form.

An Applicant shall submit the Application Form, which shall be stamped at the relevant Designated Branch of the SCSB. Application Forms in physical mode, which shall be stamped, can also be submitted to be the Designated Intermediaries at the Specified Locations. The SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application Form.

The Sponsor Bank shall provide details of the UPI linked bank account of the Bidders to the Registrar to the Issue for purpose of reconciliation.

Pursuant to SEBI Circular No: SEBI/HO/DDHS/DDHS-PoD-1/P/CIR/2024/128 dated September 24, 2024, all individual investors applying in public issues where the application amount is up to ₹5,00,000 shall use UPI and shall also provide their UPI ID in the bid cum application form submitted with any of the entities mentioned herein below:

1. a syndicate member;

2. a stock broker registered with a recognised stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity);
3. a depository participant (whose name is mentioned on the website of the stock exchange as eligible for this activity);
4. a registrar to an issue and share transfer agent (whose name is mentioned on the website of the stock exchange as eligible for this activity).

Retail individual investors using the UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain the UPI ID are liable to be rejected.

Retail individual investors using UPI Mechanism, submitting a Bid-cum Application Form to any Designated Intermediary (other than SCSBs) should ensure that only the UPI ID is mentioned in the field for Payment Details in the Bid cum Application Form. Application Forms submitted by retail individual investors using UPI Mechanism to Designated Intermediary (other than SCSBs) with ASBA Account details, are liable to be rejected.

Further, such Bidders including retail individual investors using the UPI Mechanism, shall ensure that the Bids are submitted at the Bidding Centres only on Bid cum Application Forms bearing the stamp of the relevant Designated Intermediary (except in case of electronic Bid-cum-Application Forms) and Bid cum Application Forms (except electronic Bid-cum-Application Forms) not bearing such specified stamp may be liable for rejection. Bidders must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked by the SCSB or the Sponsor Bank, as applicable, at the time of submitting the Bid. Designated Intermediaries (other than SCSBs) shall not accept any ASBA Form from a retail individual investor who is not Bidding using the UPI Mechanism.

Our Company, our Directors, affiliates, associates and their respective directors and officers, Lead Manager and the Registrar to the Issue shall not take any responsibility for acts, mistakes, errors, omissions and commissions etc. in relation to ASBA Applications accepted by the Designated Intermediaries, Applications uploaded by SCSBs, Applications accepted but not uploaded by SCSBs or Applications accepted and uploaded without blocking funds in the ASBA Accounts. It shall be presumed that for Applications uploaded by SCSBs, the Application Amount has been blocked in the relevant ASBA Account. Further, all grievances against Designated Intermediaries in relation to this Issue should be made by Applicants directly to the relevant Stock Exchanges.

In terms of the SEBI Master Circular, an eligible investor desirous of applying in this Issue can make Applications through the following modes:

1. **Through Self-Certified Syndicate Bank (SCSB) or intermediaries** (viz. Syndicate members, Registered Stock Brokers, Registrar and Transfer agent and Depository Participants)

    a. An investor may submit the bid-cum-application form, with ASBA as the sole mechanism for making payment, physically at the branch of a SCSB, i.e., investor's bank. For such applications, the existing process of uploading of bid on the Stock Exchange bidding platform and blocking of funds in investors account by the SCSB would continue.

    b. An investor may submit the completed bid-cum-application form to intermediaries mentioned above along with details of his/her bank account for blocking of funds. The intermediary shall upload the bid on the Stock Exchange bidding platform and forward the application form to a branch of a SCSB for blocking of funds.

    c. An investor may submit the bid-cum-application form with a SCSB or the intermediaries mentioned above and use his / her bank account linked UPI ID for the purpose of blocking of funds, if the application value is ₹5 lac or less. The intermediary shall upload the bid on the Stock Exchange bidding platform. The application amount would be blocked through the UPI mechanism in this case.

2. Through Stock Exchange

    a. An investor may submit the bid-cum-application form through the App or web interface developed by Stock Exchange (or any other permitted methods) wherein the bid is automatically uploaded onto the Stock Exchange bidding platform and the amount is blocked using the UPI Mechanism.

b. BSE extended their web-based platforms i.e. 'BSEDirect' to facilitate investors to apply in public issues of debt securities through the web-based platform and mobile app with a facility to block funds through Unified Payments Interface (UPI) mechanism for application value upto ₹ 5 Lac. To place bid through 'BSEDirect' platform/ mobile app the eligible investor is required to register himself/ herself with BSE Direct.

c. An investor may use the following links to access the web-based interface developed by the Stock Exchange to bid using the UPI Mechanism: BSE: https://www.bsedirect.com.

d. The BSE Direct mobile application can be downloaded from play store in android phones. Kindly search for 'BSEDirect' on Google Playstore for downloading mobile applications.

e. For further details on the registration process and the submission of bids through the App or web interface, the Stock Exchange have issued operational guidelines and circulars available at BSE: https://www.bseindia.com/markets/MarketInfo/DispNewNoticesCirculars.aspx?page=20201228-60, and https://www.bseindia.com/markets/MarketInfo/DispNewNoticesCirculars.aspx?page=20201228-61.

The list of branches of the SCSBs at the Broker Centers, named by the respective SCSBs to receive deposits of the Application Forms from the Registered Brokers will be available on the website of the SEBI (www.sebi.gov.in) and updated from time to time.

Submission of Applications

Applications can be submitted through either of the following modes:

a) Physically or electronically to the Designated Branches of the SCSB(s) with whom an Applicant's ASBA Account is maintained. In case of Application in physical mode, the Applicant shall submit the Application Form at the relevant Designated Branch of the SCSB(s). The Designated Branch shall verify if sufficient funds equal to the Application Amount are available in the ASBA Account and shall also verify that the signature on the Application Form matches with the Investor's bank records, as mentioned in the Application Form, prior to uploading such Application into the electronic system of the Stock Exchange. **If sufficient funds are not available in the ASBA Account, the respective Designated Branch shall reject such Application and shall not upload such Application in the electronic system of the Stock Exchange**. If sufficient funds are available in the ASBA Account, the Designated Branch shall block an amount equivalent to the Application Amount and upload details of the Application in the electronic system of the Stock Exchange. The Designated Branch of the SCSBs shall stamp the Application Form and issue an

acknowledgement as proof of having accepted the Application.

In case of Application being made in the electronic mode, the Applicant shall submit the Application either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for application and blocking funds in the ASBA Account held with SCSB, and accordingly registering such Application.

b) Physically through the Designated Intermediaries at the respective Collection Centres. Kindly note that above Applications submitted to any of the Designated Intermediaries will not be accepted if the SCSB where the ASBA Account is maintained, as specified in- the Application Form, has not named at least one branch at that Collection Center where the Application Form is submitted (a list of such branches is available at https://www.sebi.gov.in/sebiweb).

c) An UPI Investor making an Application in the Issue under the UPI Mechanism, where the Application Amount is upto ₹5 lakhs, can submit his Application Form physically to a SCSB or a Designated Intermediary. The Designated Intermediary shall upload the application details along with the UPI ID on the Stock Exchange's bidding platform using appropriate protocols. Kindly note that in this case, the Application Amount will be blocked through the UPI Mechanism.

d) An UPI Investor may also submit the Application Form for the Issue through BSE Direct, wherein the Application will be automatically uploaded onto the Stock Exchange's bidding platform and an amount equivalent to the Application Amount shall be blocked using the UPI Mechanism.

Upon receipt of the Application Form by the Designated Intermediaries, an acknowledgement shall be issued by the relevant Designated Intermediary, giving the counter foil of the Application Form to the Applicant as proof of having accepted the Application. Thereafter, the details of the Application shall be uploaded in the electronic system of the Stock Exchange. Post which:

for Applications other than under the UPI Mechanism - the Application Form shall be forwarded to the relevant branch of the SCSB, in the relevant Collection Center, named by such SCSB to accept such Applications from the Designated Intermediaries (a list of such branches is available at https://www.sebi.gov.in). Upon receipt of the Application Form, the relevant branch of the SCSB shall perform verification procedures including verification of the Applicant's signature with his bank records and check if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form. If sufficient funds are not available in the ASBA Account, the relevant Application Form is liable to be rejected. If sufficient funds are available in the ASBA Account, the relevant branch of the SCSB shall block an amount equivalent to the Application Amount mentioned in the Application Form.

for Applications under the UPI Mechanism – once the Application details have been entered in the bidding platform through Designated Intermediaries or BSE Direct, the Stock Exchange shall undertake validation of the PAN and Demat account combination details of the Applicant with the Depository. The Depository shall validate the PAN and Demat account details and send response to the Stock Exchange which would be shared by the Stock Exchange with the relevant Designated Intermediary through its platform, for corrections, if any. Post uploading of the Application details on the Stock Exchange's platform, the Stock Exchange shall send an SMS to the Applicant regarding submission of the Application. Post undertaking validation with the Depository, the Stock Exchange shall, on a continuous basis, electronically share the bid details along with the Applicants UPI ID, with the Sponsor Bank appointed by our Company. The Sponsor Bank shall then initiate a UPI Mandate Request on the Applicant. The request raised by the Sponsor Bank, would be electronically received by the Applicant as an SMS or on the mobile app, associated with the UPI ID linked bank account. The Applicant shall then be required to authorise the UPI Mandate Request. Upon successful validation of block request by the Applicant, the information would be electronically received by the Applicants' bank, where the funds, equivalent to Application Amount, would get blocked in the Applicant's ASBA Account. The status of block request would also be shared with the Sponsor Bank, which in turn would be shared with the Stock Exchange. The block request status would also be displayed on the Stock Exchange platform for information of the Designated Intermediary.

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/failure of this Issue or until withdrawal/ rejection of the Application Form, as the case may be.

Applicants must note that:

a) Application Forms will be available with the Designated Branches of the SCSBs and with the Designated Intermediaries at the respective Collection Centers; and electronic Application Forms will be available on the websites of the SCSBs and the Stock Exchange at least one day prior to the Issue Opening Date. Physical Application Forms will also be provided to the Trading Members of the Stock Exchange at their request. The Application Forms would be serially numbered. Further, the SCSBs will ensure that this Draft Prospectus is made available on their websites. The physical Application Form submitted to the Designated Intermediaries shall bear the stamp of the relevant Designated Intermediary. In the event the Application Form does not bear any stamp, the same shall be liable to be rejected.

b) The Designated Branches of the SCSBs shall accept Application Forms directly from Applicants only during the Issue Period. The SCSBs shall not accept any Application Forms directly from Applicants after the closing time of acceptance of Applications on the Issue Closing Date. However, the relevant branches of the SCSBs at Specified Locations can accept Application Forms from the Designated Intermediaries, after the closing time of acceptance of Applications on the Issue Closing Date, if the Applications have been uploaded. For further information on the Issue programme, please see "General Information – Issue Programme" on page 40. **Physical Application Forms directly submitted to SCSBs should bear the stamp of SCSBs, if not, the same are liable to be rejected.**

c) In case of Applications through Syndicate ASBA, the physical Application Form shall bear the stamp of the Lead Manager or Consortium Members or Trading Members of the Stock Exchanges, as the case maybe, if not, the same shall be rejected. Application Forms directly submitted to SCSBs should bear the stamp of SCSBs, if not, the same are liable to be rejected. Physical Application Forms directly submitted to SCSBs should bear the stamp of SCSBs, if not, the same are liable to be rejected.

Please note that ASBA Applicants can make an Application for Allotment of NCDs in the dematerialised form only.

Submission of Direct Online Applications

Please note that clarifications and/or confirmations regarding the implementation of the requisite infrastructure and facilities in relation to direct online applications and online payment facility have been sought from the Stock Exchange.

In the event the Direct Online Application facility is implemented by the Stock Exchange, relevant "know your customer" details of such Applicants will be validated online from the Depositories, on the basis of the DP ID and Client ID provided by them in the Application Form. On successful submission of a Direct Online Application, the Applicant will receive a system-generated unique application number ("UAN") and an SMS or an e-mail confirmation on credit of the requisite Application Amount paid through the online payment facility with the Direct Online Application. On Allotment, the Registrar to the Issue shall credit NCDs to the beneficiary account of the Applicant and in case of refund, the refund amount shall be credited directly to the Applicant's bank account. Applicants applying through the Direct Online Application facility must preserve their UAN and quote their UAN in: (a) any cancellation/withdrawal of their Application; (b) in queries in connection with Allotment of NCDs and/or refund(s); and/or (c) in all investor grievances/complaints in connection with the Issue.

A. General instructions for completing the Application Form

- Application Forms are to be completed in full, in **BLOCK LETTERS** in ENGLISH and in accordance with the instructions contained in the Draft Prospectus and the Application Form. Incomplete Application Forms are liable to be rejected. Applicants should note that the Members of the Syndicate, or the Trading Members, as appropriate, will not be liable for errors in data entry due to incomplete or illegible Application Forms.

- Applications are required to be for a minimum of such NCD's as specified in this Draft Prospectus.

- Thumb impressions and signatures other than in the languages specified in the Eighth Schedule in the Constitution of India must be attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal.

- Applications should be in single or joint names and not exceeding three names, and in the same order as their Depository Participant details (in case of Applicants applying for Allotment of the Bonds in dematerialized form) and Applications should be made by Karta in case the Applicant is an HUF. Please ensure that such Applications contain the PAN of the HUF and not of the Karta. If the Application is submitted in joint names, the Application Form may contain only the name of the first Applicant whose name should also appear as first holder of the depository account held in joint names.

- Applicants applying for Allotment in dematerialized form must provide details of valid and active DP ID, Client ID and PAN clearly and without error. Invalid accounts, suspended accounts or where such account is classified as invalid or suspended may not be considered for Allotment of the Bonds.

- Applications must be for a minimum of 10 NCDs and in multiples of one NCD thereafter. For the purpose of fulfilling the requirement of minimum application size of 10 NCDs, an Applicant may choose to apply for 10 NCDs of the same series or across different series.

- If the ASBA Account holder is different from the ASBA Applicant, the Application Form should be signed by the ASBA Account holder also, in accordance with the instructions provided in the Application Form.

- Applications for all the Series of the NCD's may be made in a single Application Form only.

- It shall be mandatory for subscribers to the Issue to furnish their Permanent Account Number and any Application Form, without the PAN is liable to be rejected, irrespective of the amount of transaction.

- All Applicants should check if they are eligible to apply as per the terms of the Draft Prospectus and applicable laws.

- For Applicants, the Applications in physical mode should be submitted to the SCSBs or a member of the Syndicate or to the Trading Members of the Stock Exchanges on the prescribed Application Form. SCSBs may provide the electronic mode for making Application either through an internet enabled banking facility or such other secured, electronically enabled mechanism for Application and blocking funds in the ASBA Account.

- Application Forms should bear the stamp of the Member of the Syndicate, Trading Member of the Stock Exchanges, Designated Intermediaries and/or Designated Branch of the SCSB. Application Forms which do not bear the stamp will be rejected.

- Applicant should correctly mention the ASBA Account number and UPI ID in case applying through UPI Mechanism and ensure that funds equal to the Application Amount are available in the ASBA Account before submitting the Application Form and ensure that the signature in the Application Form matches with the signature in the Applicant's bank records.

- The Applicants should ensure that they have been given a TRS and an acknowledgement as proof of having accepted the Application Form;

- Applicants may revise/ modify their Application details during the Issue Period, as allowed/permitted by the Stock Exchanges, by submitting a written request to the Designated Intermediary, as the case may be. However, for the purpose of Allotment, the date of original upload of the Application will be considered in case of such revision/modification. In case of any revision of Application in connection with any of the fields which are not allowed to be modified on the electronic Application platform of the Stock Exchanges as per the procedures and requirements prescribed by each relevant Stock Exchanges, Applicants should ensure that they first withdraw their original Application and submit a fresh Application. In such a case the date of the new Application will be considered for date priority for Allotment purposes.

- In case of an HUF applying through its Karta, the Applicant is required to specify the name of an Applicant in the Application Form as 'XYZ Hindu Undivided Family applying through PQR', where PQR is the name of the Karta;

- All Applicants need to tick the Series of Bonds in the Application Form that they wish to apply for.

- ASBA Applicants need to give the correct details of their ASBA Account including bank account number/ bank name and branch/ UPI ID in case of applying through UPI Mechanism.

- ASBA Applicants should ensure that their Application Form is submitted either at a Designated Branch of a SCSB where the ASBA Account is maintained or with the Members of the Syndicate or Trading Members of the stock exchange(s) at the Specified Cities, and not directly to the Escrow Collecting Banks (assuming that such bank is not a SCSB) or to the Company or the Registrar to the Issue;

  In case of ASBA Applications through Syndicate ASBA, before submitting the physical Application Form to the Members of the Syndicate or Trading Members of the stock exchange(s), ensure that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at-least one branch in that Specified City for the Members of the Syndicate or Trading Members of the stock exchange(s), as the case may be, to deposit ASBA Forms. A list of such branches is available at (https://www.sebi.gov.in/)

- ASBA Applicants should ensure that the Application Form is signed by the ASBA Account holder in case the ASBA Applicant is not the account holder.

- ASBA Applicants should ensure that they receive an acknowledgement from the Designated Branch or the concerned Members of the Syndicate or Trading Members of the stock exchange(s), as the case may be, for the submission of the Application Form

Applicants should note that neither the Designated Intermediaries nor the SCSBs, as the case may be, will be liable for error in data entry due to incomplete or illegible Application Forms.

B. Applicant's Beneficiary Account Details

Applicants must mention their DP ID, Client ID and UPI ID (wherever applicable) in the Application Form and ensure that the name provided in the Application Form is exactly the same as the name in which the Beneficiary Account is held. In case the Application Form is submitted in the first Applicant's name, it should be ensured that the Beneficiary Account is held in the same joint names and in the same sequence in which they appear in the Application Form. In case the DP ID, Client ID, PAN and UPI ID (wherever applicable) mentioned in the Application Form and entered into the electronic system of the Stock Exchange do not match with the DP ID, Client ID, PAN and UPI ID (wherever applicable) available in the Depository database or in case PAN is not available in the Depository database, the Application Form is liable to be rejected. Further, Application Forms submitted by Applicants whose beneficiary accounts are inactive, will be rejected.

On the basis of the Demographic Details as appearing on the records of the DP, the Registrar to the Issue will take steps towards demat credit of NCDs. Hence, Applicants are advised to immediately update their Demographic Details as appearing on the records of the DP and ensure that they are true and correct, and carefully fill in their Beneficiary Account details in the Application Form. Failure to do so could result in delays in demat credit and neither our Company, Designated Intermediaries, SCSBs, Registrar to the Issue nor the Stock Exchange will bear any responsibility or liability for the same.

In case of Applications made under power of attorney, our Company in its absolute discretion, reserves the right to permit the holder of Power of Attorney to request the Registrar that for the purpose of printing particulars on the Allotment Advice, the demographic details obtained from the Depository of the Applicant shall be used.

By signing the Application Form, the Applicant would have deemed to have authorized the Depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records. The Demographic Details given by Applicant in the Application Form would not be used for any other purpose by the Registrar to the Issue except in relation to this Issue. Allotment Advice would be mailed by speed post or registered post at the address of the Applicants as per the demographic details received from the Depositories. Applicants may note that delivery of Allotment Advice may get delayed if the same once sent to the address obtained from the Depositories are returned undelivered. Further, please note that any such delay shall be at such Applicants' sole risk and neither our Company, Registrar to the Issue, Public Issue Account Bank and Sponsor Bank, nor the Lead Manager shall be liable to compensate the Applicant for any losses caused to the Applicants due to any such delay or liable to pay any interest for such delay. In case of refunds through electronic modes as detailed in the Prospectus, refunds may be delayed if bank particulars obtained from the Depository Participant are incorrect.

With effect from August 16, 2010, the beneficiary accounts of Applicants for whom PAN details have not been verified shall be suspended for credit and no credit of NCDs pursuant to this Issue will be made into the accounts of such Applicants. **Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected. Furthermore, in case no corresponding record is available with the Depositories, which matches the three parameters, namely, DP ID, Client ID, PAN and UPI ID (wherever applicable), then such Application are liable to be rejected.**

C. Permanent Account Number (PAN)

The Applicant should mention his or her Permanent Account Number (PAN) allotted under the IT Act. For minor Applicants, applying through the guardian, it is mandatory to mention the PAN of the minor Applicant. In accordance with Circular No. MRD/DOP/Cir-05/2007 dated April 27, 2007 issued by SEBI, the PAN would be the sole identification number for the participants transacting in the securities market, irrespective of the amount of transaction. **Any Application Form, without the PAN is liable to be rejected, irrespective of the amount of transaction. It is to be specifically noted that the Applicants should not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.**

D. Joint Applications

Applications may be made in single or joint names (not exceeding three). In the case of joint Applications all interest / redemption amount payments will be made out in favour of the first Applicant. All communications will be addressed to the first named Applicant whose name appears in the Application Form and at the address mentioned therein. If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form.

E. Additional/ Multiple Applications

An Applicant is allowed to make one or more Applications for the NCDs for the same or other series of NCDs, subject to a minimum application size as specified in this DraftProspectus and in multiples thereafter as specified in this Draft Prospectus. **Any Application for an amount below the aforesaid minimum application size will be deemed as an invalid application and shall be rejected**. However, multiple Applications by the same individual Applicant aggregating to a value exceeding ₹10 lakhs shall be deemed such individual Applicant to be an HNI Applicant and all such Applications shall be grouped in the HNI Portion, for the purpose of determining

the basis of allotment to such Applicant. However, any Application made by any person in his individual capacity and an Application made by such person in his capacity as a Karta of a Hindu Undivided family and/or as Applicant (second or third Applicant), shall not be deemed to be a multiple Application. For the purposes of allotment of NCDs under this Issue, Applications shall be grouped based on the PAN, i.e. Applications under the same PAN shall be grouped together and treated as one Application. Two or more Applications will be deemed to be multiple Applications if the sole or first Applicant is one and the same. For the sake of clarity, two or more applications shall be deemed to be a multiple Application for the aforesaid purpose if the PAN number of the sole or the first Applicant is one and the same.

Do's and Don'ts

Applicants are advised to take note of the following while filling and submitting the Application Form:

Do's

1. Check if you are eligible to apply as per the terms of this Draft Prospectus and applicable law, rules, regulations, guidelines and approvals;

2. Read all the instructions carefully and complete the Application Form in the prescribed form.

3. Ensure that you have obtained all necessary approvals from the relevant statutory and/or regulatory authorities to apply for, subscribe to and/or seek Allotment of NCDs pursuant to this Issue.

4. Ensure that the DP ID, the Client ID and the PAN mentioned in the Application Form, which shall be entered into the electronic system of the Stock Exchange are correct and match with the DP ID, Client ID, PAN available in the Depository database. Ensure that the DP ID, Client ID, PAN and UPI ID (wherever applicable) are correct and the depository account is active as Allotment of the Equity Shares will be in dematerialized form only. The requirement for providing Depository Participant details is mandatory for all Applicants.

5. Ensure that you have mentioned the correct ASBA Account number in the Application Form (for all Applicants other than UPI Investors applying using the UPI Mechanism) in the Application Form. Further, UPI Investors using the UPI Mechanism must also mention their UPI ID.

6. UPI Investors applying using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking, is certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries.

7. UPI Investors applying using the UPI Mechanism through the SCSBs and mobile applications shall ensure that the name of the bank appears in the list of SCSBs which are live on UPI, as displayed on the SEBI website. UPI Investors shall ensure that the name of the app and the UPI handle which is used for making the application appears on the list displayed on the SEBI website. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on the SEBI website is liable to be rejected.

8. Ensure that the Application Form is signed by the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) in case the Applicant is not the ASBA account holder. Applicants (except UPI Investors making an Application using the UPI Mechanism) should ensure that they have an account with an SCSB and have mentioned the correct bank account number of that SCSB in the Application Form. UPI Investors applying using the UPI Mechanism should ensure that they have mentioned the correct UPI-linked bank account number and their correct UPI ID in the Application Form.

9. Ensure that you have funds equal to the Application Amount in the ASBA Account before submitting the Application Form to the respective Designated Branch of the SCSB, or to the Designated Intermediaries, as the case may be.

10. UPI Investors making an Application using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to Application Amount and subsequent debit of funds in case of Allotment, in a timely manner.

11. UPI Investors making an Application using the UPI Mechanism shall ensure that details of the Application are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using their UPI PIN. Upon the authorization of the mandate using their UPI PIN, the UPI Investor may be deemed to have verified the attachment containing the application details of the UPI Investor making and Application using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Application Amount and authorized the Sponsor Bank to issue a request to block the Application Amount mentioned in the ASBA Form in their ASBA Account.

12. UPI Investors making an Application using the UPI Mechanism should mention valid UPI ID of only the Applicants (in case of single account) and of the first Applicant (in case of joint account) in the ASBA Form.

13. UPI Investors making an Application using the UPI Mechanism, who have revised their Application subsequent to making the initial Application, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Application Amount in their account and in case of Allotment in a timely manner.

14. Ensure that the Application Forms are submitted at the Designated Branches of SCSBs or the Collection Centres provided in the Application Forms, bearing the stamp of the relevant Designated Intermediary/Designated Branch of the SCSB.

15. Before submitting the Application Form with the Designated Intermediaries ensure that the SCSB, whose name has been filled in the Application Form, has named a branch in that relevant Collection Centre.

16. Ensure that you have been given an acknowledgement as proof of having accepted the Application Form.

17. Ensure that signatures other than in the languages specified in the Eighth Schedule to the Constitution of India is attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal.

18. In case of an HUF applying through its Karta, the Applicant is required to specify the name of an Applicant in the Application Form as 'XYZ Hindu Undivided Family applying through PQR', where PQR is the name of the Karta. However, the PAN number of the HUF should be mentioned in the Application Form and not that of the Karta.

19. Ensure that the Applications are submitted to the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be, before the closure of application hours on the Issue Closing Date. For further information on the Issue programme, please see "General Information – Issue Programme" on page 40.

20. Permanent Account Number: Each of the Applicants should provide their PAN. Application Forms in which the PAN is not provided will be rejected.

21. Ensure that if the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form.

22. All Applicants should choose the relevant option in the column "Category of Investor" in the Application Form.

23. Choose and mark the series of NCDs in the Application Form that you wish to apply for.

24. In terms of SEBI Circular no. CIR/CFD/DIL/1/2013 dated January 2, 2013, SCSBs making applications on their own account using ASBA facility, should have a separate account in their own name with any other SEBI registered SCSB. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for Applications.

Don'ts:

1. Do not apply for lower than the minimum application size.

2. Do not pay the Application Amount in cash, by cheque, by money order or by postal order or by stock invest.

3. Do not send Application Forms by post. Instead submit the same to the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be.

4. Do not submit the Application Form to any non-SCSB bank or our Company.

5. Do not apply through an Application Form that does not have the stamp of the relevant Designated Intermediary or the Designated Branch of the SCSB, as the case may be.

6. Do not fill up the Application Form such that the NCDs applied for exceeds the Issue size and/or investment limit or maximum number of NCDs that can be held under the applicable laws or regulations or maximum amount permissible under the applicable regulations.

7. Do not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.

8. Do not submit incorrect details of the DP ID, Client ID, PAN and UPI ID (wherever applicable) or provide details for a beneficiary account which is suspended or for which details cannot be verified by the Registrar to the Issue.

9. Do not submit the Application Form without ensuring that funds equivalent to the entire Application Amount are available for blocking in the relevant ASBA Account or in the case of UPI Investors making and Application using the UPI Mechanism, in the UPI-linked bank account where funds for making the Application are available;

10. Do not submit Applications on plain paper or on incomplete or illegible Application Forms.

11. Do not apply if you are not competent to contract under the Indian Contract Act, 1872.

12. Do not submit an Application in case you are not eligible to acquire NCDs under applicable law or your relevant constitutional documents or otherwise.

13. Do not submit Applications to a Designated Intermediary at a location other than Collection Centers;

14. Do not submit an Application that does not comply with the securities law of your respective jurisdiction.

15. Do not apply if you are a person ineligible to apply for NCDs under this Issue including Applications by Persons Resident Outside India, NRI (inter-alia including NRIs who are (i) based in the USA, and/or, (ii) domiciled in the USA, and/or, (iii) residents/citizens of the USA, and/or, (iv) subject to any taxation laws of the USA).

16. Do not make an application of the NCD on multiple copies taken of a single form.

17. Payment of Application Amount in any mode other than through blocking of Application Amount in the ASBA Accounts shall not be accepted in the Issue.

18. Do not link the UPI ID with a bank account maintained with a bank that is not UPI 2.0 certified by the NPCI in case of Bids submitted by UPI Investors using the UPI Mechanism.

19. Do not submit more than five Application Forms per ASBA Account.

Kindly note that Applications submitted to the Designated Intermediaries will not be accepted if the SCSB where the ASBA Account, as specified in the Application Form, is maintained has not named at least one branch at that location for the Designated Intermediaries, to deposit such Application Forms (A list of such branches is available at https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes).

Please see "*Issue Procedure - Rejection of Applications*" on page 321 for information on rejection of Applications.

TERMS OF PAYMENT

The Application Forms will be uploaded onto the electronic system of the Stock Exchange and deposited with the relevant branch of the SCSB at the Collection Centers, named by such SCSB to accept such Applications from the Designated Intermediaries, as the case may be (a list of such branches is available at https://www.sebi.gov.in).

For Applications other than those under the UPI Mechanism, the relevant branch of the SCSB shall perform verification procedures and block an amount in the ASBA Account equal to the Application Amount specified in the Application. For Applications under the UPI Mechanism, i.e., upto ₹5 lakhs, the Stock Exchange shall undertake validation of the PAN and Demat account combination details of the Applicant with the Depository. The Depository shall validate the PAN and Demat account details and send response to the Stock Exchange which would be shared by the Stock Exchange with the relevant Designated Intermediary through its platform, for corrections, if any. The blocking of funds in such case (not exceeding ₹5 lakhs) shall happen under the UPI Mechanism.

The entire Application Amount for the NCDs is payable on Application only. The relevant SCSB shall block an amount equivalent to the entire Application Amount in the ASBA Account at the time of upload of the Application Form. In case of Allotment of lesser number of NCDs than the number applied, the Registrar to the Issue shall instruct the SCSBs or the Sponsor Bank (as the case maybe) to unblock the excess amount in the ASBA Account.

For Applications submitted directly to the SCSBs, the relevant SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application, before entering the Application into the electronic system of the Stock Exchange. SCSBs may provide the electronic mode of application either through an internet enabled application and banking facility or such other secured, electronically enabled mechanism for application and blocking of funds in the ASBA Account.

For Applications submitted under the UPI Mechanism, post the successful validation of the UPI Mandate Request by the Applicant, the information would be electronically received by the Applicants' bank, where the funds, equivalent to Application Amount, would get blocked in the Applicant's ASBA Account.

Applicants should ensure that they have funds equal to the Application Amount in the ASBA Account before submitting the Application. An Application where the corresponding ASBA Account does not have sufficient funds equal to the Application Amount at the time of blocking the ASBA Account is liable to be rejected.

An UPI Investor applying through the UPI Mechanism should ensure that, they check the relevant SMS generated for the UPI Mandate Request and all other steps required for successful blocking of funds in the UPI linked bank account, which includes accepting the UPI Mandate Request by 5:00 pm on the third Working Day from the day of bidding on the Stock Exchange (except on the last day of the Issue Period, where the UPI Mandate Request not having been accepted by 5:00 pm of the next Working Day), have been completed.

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/ failure of this Issue or until withdrawal/ rejection of the Application Form, as the case may be. Once the Basis of Allotment is approved, and upon receipt of intimation from the Registrar, the controlling branch of the SCSB shall, on the Designated Date, transfer such blocked amount from the ASBA Account to the Public Issue Account. The balance amount remaining after the finalisation of the Basis of Allotment shall be unblocked by the SCSBs (in case of Application under the UPI Mechanism) on the basis of the instructions issued in this regard by the Registrar to the respective SCSB or the Sponsor Bank within six Working Days of the Issue Closing Date. The Application Amount shall remain blocked in the ASBA Account until transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of this Issue or until rejection of the Application, as the case may be.

Electronic Registration of Applications

a) The Designated Intermediaries and Designated Branches of the SCSBs, as the case may be, will register the Applications (including those under the UPI Mechanism) using the on-line facilities of the Stock Exchange. The Members of Syndicate, our Company and the Registrar to the Issue are not responsible for any acts, mistakes or errors or omission and commissions in relation to, (i) the Applications accepted by the SCSBs, (ii) the Applications uploaded by the SCSBs, (iii) the Applications accepted but not uploaded by the SCSBs, (iv) with respect to Applications accepted and uploaded by the SCSBs without blocking funds in the ASBA Accounts, or (v) any Applications accepted and uploaded and/or not uploaded by the Trading Members of the Stock Exchange or (vi) any Application made under the UPI Mechanism , accepted or uploaded or failed to be uploaded by a Designated Intermediary or through the app/ web based interface of the Stock Exchange and the corresponding failure for blocking of funds under the UPI Mechanism.

   In case of apparent data entry error by the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be, in entering the Application Form number in their respective schedules other things remaining unchanged, the Application Form may be considered as valid and such exceptions may be recorded in minutes of the meeting submitted to the Designated Stock Exchange. However, the series, mode of allotment, PAN, demat account no. etc. should be captured by the relevant Designated Intermediaries or Designated Branches of the SCSBs in the data entries as such data entries will be considered for allotment/rejection of Application.

b) The Stock Exchange will offer an electronic facility for registering Applications for this Issue. This facility will be available on the terminals of Designated Intermediaries and the SCSBs during the Issue Period. The Designated Intermediaries can also set up facilities for off-line electronic registration of Applications subject to the condition that they will subsequently upload the off-line data file into the on-line facilities for Applications on a regular basis, and before the expiry of the allocated time on this Issue Closing Date. On the Issue Closing Date, the Designated Intermediaries, and the Designated Branches of the SCSBs shall upload the Applications till such time as may be permitted by the Stock Exchange. This information will be available with the Designated Intermediaries and the Designated Branches of the SCSBs on a regular basis. Applicants are cautioned that a high inflow of high volumes on the last day of the Issue Period may lead to some Applications received on the last day not being uploaded and such Applications will not be considered for allocation. For further information on the Issue programme, please see "General Information – Issue Programme" on page 40.

c) Based on the aggregate demand for Applications registered on the electronic facilities of the Stock Exchanges, agraphical representation of consolidated demand for the NCDs, as available on the websites of the Stock Exchanges, would be made available at the Application centres as provided in the Application Form during the Issue Period.

d) At the time of registering each Application, the Designated Intermediaries, shall enter the details of the Applicant, such as the Application Form number, PAN, Applicant category, DP ID, Client ID, number and

Option(s) of NCDs applied, Application Amounts and any other details that may be prescribed by the online uploading platform of the Stock Exchanges

e) With respect to Applications submitted directly to the SCSBs at the time of registering each Application, the Designated Branches of the SCSBs shall enter the requisite details of the Applicants in the on-line system including:

- Application Form number
- PAN (of the first Applicant, in case of more than one Applicant)
- Investor category and sub-category
- DP ID
- Client ID
- UPI ID (if applicable)
- Series of NCDs applied for
- Number of NCDs Applied for in each series of NCD
- Price per NCD
- Bank code for the SCSB where the ASBA Account is maintained
- Bank account number
- Location
- Application amount

f) With respect to Applications submitted to the Designated Intermediaries, at the time of registering each Application, the requisite details of the Applicants shall be entered in the on-line system including:

- Application Form number
- PAN (of the first Applicant, in case of more than one Applicant)
- Investor category and sub-category
- DP ID
- Client ID
- UPI ID (if applicable)
- Series of NCDs applied for
- Number of NCDs Applied for in each series of NCD
- Price per NCD
- Bank code for the SCSB where the ASBA Account is maintained
- Bank account number
- Location
- Application amount

g) A system generated acknowledgement (TRS) will be given to the Applicant as a proof of the registration of each Application. **It is the Applicant's responsibility to obtain the acknowledgement from the Designated Intermediaries and the Designated Branches of the SCSBs, as the case may be. The registration of the Application by the Designated Intermediaries and the Designated Branches of the SCSBs, as the case may be, does not guarantee that the NCDs shall be allocated/ Allotted by our Company. The acknowledgement will be non-negotiable and by itself will not create any obligation of any kind.**

h) Applications can be rejected on the technical grounds listed on page 321 or if all required information is not provided or the Application Form is incomplete in any respect.

i) In case of apparent data entry error by the Designated Intermediaries, in entering the Application Form numbers in their respective schedules, other things remaining unchanged, the Application Form may be considered as valid, or such exceptions may be recorded in minutes of the meeting submitted to the Designated Stock Exchange.

j) The permission given by the Stock Exchange to use its network and software of the online system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, the Lead Manager are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and

other requirements nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Draft Prospectus; nor does it warrant that the NCDs will be listed or will continue to be listed on the Stock Exchange.

k) **Only Applications that are uploaded on the online system of the Stock Exchange shall be considered for allocation/ Allotment**. The Designated Intermediaries and the Designated Branches of the SCSBs shall capture all data relevant for the purposes of finalizing the Basis of Allotment while uploading Application data in the electronic systems of the Stock Exchange. In order that the data so captured is accurate the Designated Intermediaries and the Designated Branches of the SCSBs will be given up to one Working Day after the Issue Closing Date to modify/ verify certain selected fields uploaded in the online system during the Issue Period after which the data will be sent to the Registrar for reconciliation with the data available with the NSDL and CDSL.

Process for Retail Individual investors application submitted with UPI as mode of payment.

a) Before submission of the application with the intermediary, the Retail Individual investor would be required to have / create a UPI ID, with a maximum length of 45 characters including the handle (Example: InvestorID@bankname).

b) The Retail Individual Investor shall fill in the bid details in the application form along with his/ her bank account linked UPI ID and submit the application with any of the intermediaries or through the stock exchanges app/ Web interface, or any other methods as may be permitted

c) The intermediary, upon receipt of form, shall upload the bid details along with the UPI ID on the stock exchanges bidding platform using appropriate protocols.

d) Once the bid has been entered in the bidding platform, the Stock Exchangesshall undertake validation of the PAN and Demat account combination details of investor with the depository.

e) The Depository shall validate the aforesaid PAN and Demat account details on a near real time basis and send response to stock exchange which would be shared by stock exchange with intermediary through its platform, for corrections, if any.

f) Once the bid details are uploaded on the Stock Exchanges platform, the Stock Exchange shall send an SMS to the investor regarding submission of his / her application, at the end of day, during the bidding period. For the last day of bidding, the SMS may be sent the next working day.

g) Post undertaking validation with the Depository, the Stock Exchangesshall, on a continuous basis, electronically share the bid details along with investors UPI ID, with the Sponsor Bank appointed by the issuer.

h) The Sponsor Bank shall initiate a mandate request on the investor i.e., request the investor to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of allotment.

i) The request raised by the Sponsor Bank, would be electronically received by the investor as a SMS / intimation on his / her mobile no. / mobile app, associated with the UPI ID linked bank account.

j) The investor shall be able to view the amount to be blocked as per his / her bid in such intimation. The investor shall be able to view an attachment wherein the public issue bid details submitted by investor will be visible. After reviewing the details properly, the investor shall be required to proceed to authorize the mandate. Such mandate raised by sponsor bank would be a one-time mandate for each application in the public issue.

k) An investor is required to accept the UPI mandate latest by 5:00pm on the third working day from the day of bidding on the stock exchanges platform except for the last day of the issue period or any other modified closure date of the issue period in which case, he / she is required to accept the UPI mandate latest by 5:00pm the next working day.

l) An investor shall not be allowed to add or modify the bid(s) of the application except for modification of either DP ID/Client ID, or PAN ID but not both. However, the investor can withdraw the bid(s) and reapply.

m) For mismatch bids, on successful validation of PAN and DP ID/ Client ID combination during T+1 modification session, such bids will be sent to Sponsor Bank for further processing by the Exchange on T+1(T being the Issue Closing Date) day till 1:00PM.n.The facility of re-initiation/ resending the UPI mandate shall be available only till 5:00pm on the day of bidding.

n) Upon successful validation of block request by the investor, as above, the said information would be electronically received by the investors' bank, where the funds, equivalent to application amount, would 238get blocked in investors account. Intimation regarding confirmation of such block of funds in investors account would also be received by the investor.

o) The information containing status of block request (e.g. accepted / decline / pending) would also be shared with the Sponsor Bank, which in turn would be shared with the Stock Exchanges. The block request status would also be displayed on the Stock Exchanges platform for information of the intermediary.

p) The information received from Sponsor Bank, would be shared by stock exchanges with RTA in the form of a file for the purpose of reconciliation.

q) Post closure of the offer, the Stock Exchangesshall share the bid details with RTA. Further, the Stock Exchangesshall also provide the RTA, the final file received from the Sponsor Bank, containing status of blocked funds or otherwise, along with the bank account details with respect to applications made using UPI ID.

r) The allotment of debt securities shall be done as per SEBI Master Circular.

s) The RTA, based on information of bidding and blocking received from the Stock Exchanges, shall undertake reconciliation of the bid data and block confirmation corresponding to the bids by all investor category applications (with and without the use of UPI) and prepare the basis of allotment.

t) Upon approval of the basis of allotment, the RTA shall share the 'debit' file with Sponsor bank (through Stock Exchanges) and SCSBs, as applicable, for credit of funds in the public issue account and unblocking of excess funds in the investor's account. The Sponsor Bank, based on the mandate approved by the investor at the time of blocking of funds, shall raise the debit / collect request from the investor's bank account, whereupon funds will be transferred from investor's account to the public issue account and remaining funds, if any, will be unblocked without any manual intervention by investor or their bank.

u) Upon confirmation of receipt of funds in the public issue account, the securities would be credited to the investor's account. The investor will be notified for full/partial allotment. For partial allotment, the remaining funds would be unblocked. For no allotment, mandate would be revoked and application amount would be unblocked for the investor.

v) Thereafter, Stock Exchange will issue the listing and trading approval.

w) Further, in accordance with the Operational Instructions and Guidelines for Making Application for Public Issue of Debt Securities through BSEDirect issued by BSE on December 28, 2020 and May 19, 2022, the investor shall also be responsible for the following:

i. Investor shall check the Issue details before placing desired bids;

ii. Investor shall check and understand the UPI mandate acceptance and block of funds process before placing the bid;

iii. The receipt of the SMS for mandate acceptance is dependent upon the system response/ integration of UPI on Debt Public Issue System;

iv. Investor shall accept the UPI Mandate Requests within the stipulated timeline;

v. Investor shall note that the transaction will be treated as completed only after the acceptance of mandates by the investor by way of authorising the transaction by entering their UPI pin and successfully blocking funds through the ASBA process by the investor's bank;

vi. Investor shall check the status of their bid with respect to the mandate acceptance and blocking of funds for the completion of the transaction; and

vii. In case the investor does not accept the mandate within stipulated timelines, in such case their bid will not be considered for allocation.

x) Further, in accordance with circular issued by National Stock Exchange of India Limited for Introduction of Unified Payment Interface (UPI) for Debt IPO through NSE goBID on January 5, 2021 the investor shall also be responsible for the following:

Information for Applicants

Upon the closure of the Issue, the Registrar to the Issue will reconcile the compiled data received from the Stock Exchange and all SCSBs and match the same with the Depository database for correctness of DP ID, Client ID UPI ID (wherever applicable) and PAN. The Registrar to the Issue will undertake technical rejections based on the electronic details and the Depository database and prepare list of technical rejection cases. In case of any discrepancy between the electronic data and the Depository records, our Company, in consultation with the Designated Stock Exchange, the Lead Manager and the Registrar to the Issue, reserves the right to proceed as per the Depository records for such Applications or treat such Applications as rejected.

Based on the information provided by the Depositories, our Company shall have the right to accept Applications belonging to an account for the benefit of a minor (under guardianship).

In case of Applications for a higher number of NCDs than specified for that category of Applicant, only the maximum amount permissible for such category of Applicant will be considered for Allotment.

BASIS OF ALLOTMENT

Basis of Allotment for NCDs

The Registrar will aggregate the Applications, based on the applications received through an electronic book from the Stock Exchange and determine the valid Application for the purpose of drawing the basis of allocation.

Allocation Ratio

The registrar will aggregate the applications based on the applications received through an electronic book from the Stock exchange and determine the valid applications for the purpose of drawing the basis of allocation. Grouping of the application received will be then done in the following manner:

Grouping of Applications and Allocation Ratio: Applications received from various applicants shall be grouped together on the following basis:

a. *Applications received from Category I applicants*: Applications received from Category I, shall be grouped together, ("**Institutional Portion**");

b. *Applications received from Category II applicants*: Applications received from Category II, shall be grouped together, ("**Non-Institutional Portion**");

c. *Applications received from Category III applicants:* Applications received from Category III, shall be grouped together, ("**High Net Worth Individual Portion**")

d. *Applications received from Category IV applicants*: Applications received from Category IV, shall be grouped together, ("**Retail Individual Investor Portion")**

For removal of doubt, "***Institutional Portion***", "***Non-Institutional Portion***", "***High Net Worth Individual Portion***" and "***Retail Individual Portion***" are individually referred to as "***Portion***" and collectively referred to as "***Portions***".

For the purposes of determining the number of NCDs available for allocation to each of the abovementioned Portions, our Company shall have the discretion of determining the number of NCDs to be allotted over and above the Base Issue Size, in case our Company opts to retain any oversubscription in the Issue up to ₹10,000 lakhs i.e. aggregating up to ₹20,000 lakhs. The aggregate value of NCDs decided to be allotted over and above the Base

Issue Size, (in case our Company opts to retain any oversubscription in the Issue), and/or the aggregate value of NCDs up to the Base Issue Size shall be collectively termed as the "***Overall Issue Size***".

Basis of Allotment for NCDs

Allotments in the first instance:

i. Applicants belonging to the Category I, in the first instance, will be allocated NCDs up to 10% of Overall Issue Size on first come first serve basis (determined on the basis of date of receipt of each application duly acknowledged by the Lead Manager and their respective Affiliates/SCSB (Designated Branch or online acknowledgement);

ii. Applicants belonging to the Category II, in the first instance, will be allocated NCDs up to 10% of Overall Issue Size on first come first serve basis (determined on the basis of date of receipt of each application duly acknowledged by the Members of the Syndicate/Trading Members/SCSB (Designated Branch or online acknowledgement));

iii. Applicants belonging to the Category III, in the first instance, will be allocated NCDs up to 30% of Overall Issue Size on first come first serve basis (determined on the basis of date of receipt of each application duly acknowledged by the Members of the Syndicate/Trading Members/SCSB (Designated Branch or online acknowledgement));

iv. Applicants belonging to the Category IV, in the first instance, will be allocated NCDs up to 50% of Overall Issue Size on first come first serve basis (determined on the basis of date of receipt of each application duly acknowledged by the Members of the Syndicate/Trading Members/SCSB (Designated Branch or online acknowledgement))

Allotments, in consultation with the Designated Stock Exchange, shall be made on date priority basis i.e. a first-come first-serve basis, based on the date of upload of each Application in to the Electronic Book with Stock Exchange, in each Portion subject to the Allocation Ratio. However, on the date of oversubscription, the allotments would be made to the applicants on proportionate basis.

a. Under Subscription:

Under subscription, if any, in any Portion, priority in allotments will be given in the following order:

i. Retail Individual Investor Portion
ii. High Networth Individual Portion
iii. Non-Institutional Portion
iv. Institutional Portion

on a first come first serve basis

Within each Portion, priority in Allotments will be given on a first-come-first-serve basis, based on the date of upload of each Application into the electronic system of the Stock Exchange.

For each Portion, all Applications uploaded in to the Electronic Book with the Stock Exchange would be treated at par with each other. Allotment would be on proportionate basis, where Applications uploaded into the Platform of the Stock Exchange on a particular date exceeds NCDs to be allotted for each Portion respectively.

Minimum allotment of 1 (one) NCD and in multiples of 1 (one) NCD thereafter would be made in case of each valid Application.

b. Allotments in case of oversubscription:

In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of NCDs to the valid applicants on a first come first serve basis for forms uploaded up to 5 pm of the date falling 1 (one) day prior to the date of oversubscription and proportionate allotment of NCDs to the valid applicants on the date of oversubscription (based on the date of upload of the Application on the Stock Exchange Platform, in each Portion). In case of over subscription on date

of opening of the Issue, the Allotment shall be made on a proportionate basis. Applications received for the NCDs after the date of oversubscription will not be considered for allotment.

In view of the same, the Investors are advised to refer to the Stock Exchange website at www.bseindia.com for details in respect of subscription.

(a) Proportionate Allotments: For each Portion, on the date of oversubscription:

i. Allotments to the applicants shall be made in proportion to their respective application size, rounded off to the nearest integer;
ii. If the process of rounding off to the nearest integer results in the actual allocation of NCDs being higher than the Issue size, not all applicants will be allotted the number of NCDs arrived at after such rounding off. Rather, each applicant whose allotment size, prior to rounding off, had the highest decimal point would be given preference;
iii. In the event, there are more than one applicant whose entitlement remain equal after the manner of distribution referred to above, our Company will ensure that the basis of allotment is finalised by draw of lots in a fair and equitable manner.

(b) Applicant applying for more than one Options of NCDs:

If an applicant has applied for more than one Options of NCDs, and in case such applicant is entitled to allocation of only a part of the aggregate number of NCDs applied for due to such applications received on the date of oversubscription, the option-wise allocation of NCDs to such applicants shall be in proportion to the number of NCDs with respect to each option, applied for by such applicant, subject to rounding off to the nearest integer, as appropriate in consultation with Lead Manager and Designated Stock Exchange.

In cases of odd proportion for allotment made, our Company in consultation with the Lead Manager will allot the residual NCD (s) in the following order:

i. first with monthly interest payment in decreasing order of tenor i.e. Options [●]; ; and
ii. followed by payment on maturity options in decreasing order of tenor i.e. Options [●].
iii. Hence using the above procedure, the order of allotment for the residual NCD (s) will be: Options [●].

All decisions pertaining to the basis of allotment of NCDs pursuant to the Issue shall be taken by our Company in consultation with the Lead Manager, and the Designated Stock Exchange and in compliance with the aforementioned provisions of this Draft Prospectus.

Our Company would allot Option I NCDs to all valid applications, wherein the applicants have not indicated their choice of the relevant options of the NCDs.

Valid applications where the Application Amount received does not tally with or is less than the amount equivalent to value of number of NCDs applied for, may be considered for Allotment, to the extent of the Application Amount paid rounded down to the nearest ₹1,000 in accordance with the pecking order mentioned above.

All decisions pertaining to the basis of allotment of NCDs pursuant to the Issue shall be taken by our Company in consultation with the Lead Manager and the Designated Stock Exchange and in compliance with the aforementioned provisions of this Draft Prospectus.

Retention of oversubscription

Our Company will provide adequate funds required for dispatch of Allotment Advice to the Registrar to the Issue.

OTHER INFORMATION

Withdrawal of Applications during the Issue Period

Applicants can withdraw their Applications until the Issue Closing Date. In case an Applicant wishes to withdraw the Application during the Issue Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite.

In case of Applications (other than under the UPI Mechanism) were submitted to the Designated Intermediaries, upon receipt of the request for withdrawal from the Applicant, the relevant Designated Intermediary, as the case may be, shall do the requisite, including deletion of details of the withdrawn Application Form from the electronic system of the Stock Exchange and intimating the Designated Branch of the SCSB to unblock of the funds blocked in the ASBA Account at the time of making the Application. In case of Applications (other than under the UPI Mechanism) submitted directly to the Designated Branch of the SCSB, upon receipt of the request for withdraw from the Applicant, the relevant Designated Branch shall do the requisite, including deletion of details of the withdrawn Application Form from the electronic system of the Stock Exchange and unblocking of the funds in the ASBA Account, directly.

Withdrawal of Applications after the Issue Period

In case an Applicant wishes to withdraw the Application after the Issue Closing Date or early closure date, the same can be done by submitting a withdrawal request to the Registrar prior to the finalization of the Basis of Allotment but not later than 2 Working days from the Issue Closing Date or early closure date, as applicable.
Revision of Applications

Cancellation of one or more orders (series) within an Application is permitted during the Issue Period as long as the total order quantity does not fall under the minimum quantity required for a single Application. Please note that in case of cancellation of one or more orders (series) within an Application, leading to total order quantity falling under the minimum quantity required for a single Application will be liable for rejection by the Registrar.

Applicants may revise/ modify their Application details during the Issue Period, as allowed/permitted by the Stock Exchange, by submitting a written request to the Designated Intermediary and the Designated Branch of the SCSBs, as the case may be. For Applications made under the UPI Mechanism, an Applicant shall not be allowed to add or modify the details of the Application except for modification of either DP ID/Client ID, or PAN ID but not both. However, the Applicant may withdraw the Application and reapply.

However, for the purpose of Allotment, the date of original upload of the Application will be considered in case of such revision/ modification. In case of any revision of Application in connection with any of the fields which are not allowed to be modified on the electronic Application platform of the Stock Exchange(s) as per the procedures and requirements prescribed by Stock Exchange, Applicants should ensure that they first withdraw their original Application and submit a fresh Application. In such a case the date of the new Application will be considered for date priority for Allotment purposes.

Revision of Applications is not permitted after the expiry of the time for acceptance of Application Forms on the Issue Closing Date. However, in order that the data so captured is accurate, the Designated Intermediaries and/ or the Designated Branches of the SCSBs will be given up to one Working Day after the Issue Closing Date (till 1:00 PM) to modify/ verify certain selected fields uploaded in the online system during the Issue Period, after which the data will be sent to the Registrar for reconciliation with the data available with the NSDL and CDSL.

Depository Arrangements

We have made depository arrangements with NSDL and CDSL. Please note that Tripartite Agreements have been executed among our Company, the Registrar and both the depositories.

As per the provisions of the Depositories Act, 1996, the NCDs issued by us can be held in a dematerialised form. In this context:

i. Tripartite agreement dated March 21, 2014 among our Company, the Registrar and CDSL and tripartite agreement dated March 27, 2014 among our Company, the Registrar and NSDL, respectively for offering depository option to the investors.

ii. An Applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the Application.

iii. The Applicant must necessarily provide the DP ID and Client ID details in the Application Form.

iv. NCDs Allotted to an Applicant in the electronic form will be credited directly to the Applicant's respective beneficiary account(s) with the DP.

v. Non-transferable Allotment Advice will be directly sent to the Applicant by the Registrar to this Issue.

vi. It may be noted that NCDs in electronic form can be traded only on the Stock Exchange having electronic connectivity with NSDL or CDSL. The Stock Exchange has connectivity with NSDL and CDSL.

vii. Interest or other benefits with respect to the NCDs held in dematerialised form would be paid to those NCD Holders whose names appear on the list of beneficial owners given by the Depositories to us as on Record Date. In case of those NCDs for which the beneficial owner is not identified by the Depository as on the Record Date/ book closure date, we would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to us, whereupon the interest or benefits will be paid to the beneficiaries, as identified, within a period of 30 days.

Please note that the NCDs shall cease to trade from the Record Date (for payment of the principal amount and the applicable premium and interest for such NCDs) prior to redemption of the NCDs.

PLEASE NOTE THAT TRADING OF NCDs ON THE FLOOR OF THE STOCK EXCHANGE SHALL BE IN DEMATERIALISED FORM ONLY IN MULTIPLE OF ONE NCD.

Allottees will have the option to re-materialize the NCDs allotted under the Issue as per the provisions of the Companies Act, 2013 and the Depositories Act.

*Our Debenture Committee of the Board, in its meeting held on January 11, 2025, has adopted a threshold for the identification of material litigations ("**Materiality Threshold**"). As per the Materiality Threshold, other than for the purposes of (i) to (iii) above, all outstanding litigation, wherein:*

(a) the monetary amount of claim by or against the Company, its directors, its promoter(s) or its group companies in any such pending litigation exceeds the lower of the following:
   a) 0.5% (half percent) of the total assets for Fiscal 2024. The total assets of our Company for Fiscal 2024 is ₹ 5,98,578.48 Lakhs and half percent of the same is ₹ 2,992.89 lakhs or
   b) 3% (three percent) of the total income for Fiscal 2024. The total income of our Company for Fiscal 2024 is ₹ 85,893.72 lakhs and three percent of the same is ₹ 2,576.81 lakhs or
   c) ₹ 500 lakhs (Rupees five Hundred Lakhs crores only)

as per the latest audited annual standalone financial statements of the Company.

*Accordingly, all litigation involving monetary amount of claim exceeding ₹ 500/- (Rupees five Hundred Lakhs only) ("**Material Threshold**") has been considered as material;*

(b) such pending litigation is material from the perspective of Company's business, operations, prospects or reputation,

has been considered as 'material litigation', and accordingly has been disclosed in this Prospectus.

Further, except as mentioned in this section, there are no proceedings involving our Group Companies, which may have a material adverse effect on the position of our Company.

It is clarified that for the purposes of the above, pre-litigation notices received by our Company, Directors, Promoter or Group Companies shall, unless otherwise decided by our Board of Directors including committee thereof, not be considered as litigation until such time that our Company or Directors or Promoter or Group Companies, as the case may be, is impleaded as a defendant in litigation proceedings before any judicial forum.

Further, except as stated in this section, there are no: (i) litigation or legal action pending or taken by any Ministry or Department of the Government or a statutory authority against our Promoter during the last three years immediately preceding the year of the issue of this Prospectus and any direction issued by such Ministry or Department or statutory authority; (ii) pending litigation involving our Company, our Promoter, our Directors, Group Companies or any other person, whose outcome could have material adverse effect on the position of our Company; (iii) pending proceedings initiated against our Company for economic offences; (iv) default and non-payment of statutory dues, etc; (v) inquiries, inspections or investigations initiated or conducted against our Company under the Companies Act or any previous companies law in the three years immediately preceding the year of this Prospectus; (vi) prosecutions filed (whether pending or completed), fines imposed or compounding of offences done in the three years immediately preceding the year of this Prospectus; (vii) material frauds committed against our Company in the last three years and (viii) disciplinary action taken by SEBI or stock exchange against the Promoter.

Further from time to time, we have been and shall continue to be involved in legal proceedings filed by and/or against us, arising in the ordinary course of our business. We believe that the number of proceedings in which we are/were involved is not unusual for a company of our size doing business in India.

Unless stated to the contrary, the information provided below is as of the date of this Prospectus.

All terms defined in a particular litigation disclosure below are for that particular litigation only.

A. Material litigations and regulatory actions involving our Company

(a) As on the date of this Draft Prospectus, following are material litigations in our Company:

Civil Litigation

By our company

1. Our Company has initiated recovery proceedings against the following borrowers (i) Mangomeadows Agricultural Pleasures Land Private Limited, (ii) N.K. Kurian, (iii) Lathika Kurian ("**Borrowers**") vide demand notice dated January 29, 2019 issued to the Applicants under Section 13(2) of the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 ("**SARFAESI Act**") demanding the repayment of an aggregate sum of ₹1426.64 lakhs together with interest and penal interest on the outstanding amount. The matter arose due to the default made by the Borrower under a term loan of an amount of ₹800 lakhs granted on March 01, 2016 and ₹200 lakhs granted on February 16, 2017 from our Kallara Branch. Thereafter, our Company had taken Symbolic Possession of the secured assets on April 17, 2019 and has filed a Miscellaneous Criminal Petition bearing No.MC- 200/2019 with CJM Court, Kottayam for taking actual possession of the secured assets and takeover of the administration of the borrowers. Subsequently, the Borrower filed a securitization application bearing No. S.A. No. 174 of 2019 ("Application") before the Debts Recovery Tribunal- 2 at Ernakulam ("**Authority**") in which they, inter alia, challenged the right of action of our Company to issue the notices under section 13(2) and section 13(4) of the SARFAESI Act and seeking stay on all proceedings initiated under the SARFAESI Act against the secured properties of the Borrower. Consequently, the Authority vide notice dated May 27, 2019 required our Company to show cause as to why the reliefs prayed in the Application should not be granted and directed us to appear before the Authority either in person or authorized one or more legal practitioners or any of the officers to present the case. Our Company on June 18, 2019 filed the Written Statement with the Authority, inter alia, denying the averments made by the Applicants in the Application and claiming that the Applicants are not entitled to any reliefs under the Application as the same is filed solely for the purpose of misleading the Authority and for obtaining unlawful gain and causing loss to public exchequer, which amounts to perjury for which purpose, appropriate criminal action is liable to be taken against the Borrower and also the Application is liable to be dismissed with compensatory costs. Further, we have initiated the insolvency proceedings under Section 7 of the Insolvency and Bankruptcy Code, 2016 before NCLT Kochi bench on January 3, 2022 bearing ref.no. Dy.10/22 claiming an aggregate amount of ₹ 2,358.34 lakhs towards the debts owed by the Borrowers. NCLT Kochi vide its order dated January 25, 2023, initiated Corporate Insolvency Resolution Process against the corporate debtor and appointed Mr. Easwara Pillai Kesavan Nair as Interim Resolution Professional. Resolution Plan was submitted by M/s Torrion Impex India (P) Limited has been approved by the members of COC and was filed before Hon'ble NCLT Resolution Applicant withdrawn their participation from the process.. The Company resolved to apply U/s 12(2) of the IBC an application to further extend CIRP period to next 60 days from October 24,2023 to start its process for approval of successful resolution plan by inviting through Form G. NCLT vide order dated November 7, 2023 granted the extension of time. till December 12,2023 to complete the CIR Process.

   In the meantime, the successful resolution applicant, M/s Torrion Impex India (P) Limited had withdrawn from their proposal and hence RP applied for extension of the CIRP period for another 2 months time to explore new resolution applicants and got extension upto February 22,2024. Published Form G for the third time inviting expression of interest from fresh parties. Since there was no successful resolution applicant, COC recommended for liquidation of the Corporate Debtor. While in Liquidation, as per the Section 39 BA of IBC read with section 2B of Liquidation Rule in consonance to section 230 of Companies Act, Mr. N K Kurian submitted a compromise settlement application and was rejected by the COC. Under the said section our company, the Corporate Creditor submitted a compromise settlement to acquire the Corporate Debtor Company as a going concern to NCLT and which is pending with the NCLT for their disposal. The matter is currently pending.

a) Lending policy: Should contain overview of origination, risk management, monitoring and collections.

The principal form of security that we accept is household gold jewellery. We do not accept bullion, gold biscuits, gold bars; new mass-produced gold jewellery or medallions. While these restrictions narrow the pool of assets that may be provided to us as security, we believe that it provides us with the following key advantages:

It filters out spurious jewellery that may be pledged by jewellers and goldsmiths. We find that household, used jewellery is less likely to be spurious or fake.

The emotional value attached by each household to the pledged jewellery acts as a strong incentive for timely repayment of loans and revoking the pledge.

As we only accept the pledge of household jewellery, the value of the pledged gold is typically only as much as the worth of gold that is owned by an average Indian household. This prevents our exposure to large sized loans where the chances of default and subsequent losses are high.

The amount that we finance against the pledged gold jewellery is typically based on a fixed rate per gram of gold content in the jewellery. We value the gold jewellery brought by customers based on our corporate policies and guidelines. As per the policy, we grant gold loans on 22 Carat gold ornaments. However, in case the jewels that are being pledged are less than 22 carat, the branches are required to convert the carat of gold jewels to the equivalent of 22 Carat. Under no-circumstances gold ornaments below 19 carats are accepted by our Company. The rates per gram are fixed by us on weekly intervals. The actual loan amount varies according to the type of jewellery pledged. While jewellery can be appraised based on a variety of factors, such as total weight, weight of gold content, production cost, style, brand and value of any gemstones, we appraise the gold jewellery solely based on its gold content. Our Gold Loans are, therefore, generally well collateralized because the actual value of the gold jewellery is higher than our appraised value of the gold jewellery when the loan is disbursed. The amount we lend against an item and the total value of the pledged gold we hold fluctuates according to the market price of gold. An increase in the price of gold will not automatically result in an increase in the value of our Gold Loan portfolio unless the rate per gram is revised by our Corporate Office. It only results in a favourable movement in the value of the security, pledged with us. Similarly, since adequate margins are built in at the time of the loan disbursement and owing to the short tenure of these loans, on average, a decrease in the price of gold generally has little impact on our interest income. However, a sustained decrease in the market price of gold could cause a decrease in the growth rate of Gold Loans in our loan portfolio.

Our Gold Loans have tenure of 9 months. However, customers may redeem the loan at any time. As per the current policy of our Company, interest is to be paid in accordance with the scheme. In the event that a loan is not repaid on time and after providing due notice to the customer, the unredeemed pledged gold is disposed-off, on behalf of the customer in satisfaction of the principal and interest charges in accordance with the applicable RBI guidelines. Any surplus arising out of the disposal of the pledged gold is refunded to the customer or is appropriated towards any other liability by the borrower. In the event that the recoverable amount is more than the realizable value of the pledged gold, the customer remains liable for the shortfall.

The processes involved in approving and disbursing a Gold Loan are divided into three phases:

- Pre-disbursement;
- Post disbursement; and
- Release of the pledge.

Pre-disbursement process

Gold Loan appraisal of a customer involves the following steps;

a) Customer identification
b) KYC Documentation

c) Security appraisal
d) Documentation

Post-disbursement process

The period/tenure for a Gold Loans is up to 12 months. Timely interest collection and closing of accounts within the specified period is vital for the successful and smooth functioning of gold loan companies like that of ours. To ensure this, the branches regularly follow up with their gold loan customers through notices served at 3 months (ordinary notice), 6 months (registered notice), 9 months (registered notice with acknowledgement due) as well as personal contacts directly and over the phone.

Branch security and safety measures: Electronic Security System

Branches are normally equipped with security devices (Alarms) which automatically alert the branch manager, regional manager as well as the nearest police station in the event of any theft attempts.

The gold pledged as security is insured with an insurance company. Our Company makes periodic analysis and revises the insurance policy as per the value/quantity of the gold.

Release of pledge

Once a loan is fully repaid, the pledged gold jewellery is returned to the customer. The customer has to be present personally along with the gold loan token, at the branch where the pledge was originally made. The branch will verify the person with the photo taken at the time of pledge and confirm that there is no foul play and the amount to be paid is informed to the customer from the software and clarifies doubts if any on the amount demanded. The customer pays the amount at the cash counter and the ornaments are taken out of the safe and handed over to the customer after confirming them with the list of ornaments mentioned in the token and gold loan application form.

Regulations governing NBFCs

Reserve Bank of India Act, 1934

As per the RBI Act, a financial institution has been defined as a company which includes a non-banking institution carrying on as its business or part of its business the financing activities, whether by way of making loans or advances or otherwise, of any activity, other than its own and it is engaged in the activities of loans and advances, acquisition of shares/stock/bonds/debentures/securities issued by the Government of India or other local authorities or other marketable securities of like nature, leasing, hire-purchase, insurance business, chit business but does not include any institution whose principal business is that of carrying out any agricultural or industrial activities or the sale/purchase/construction of immovable property.

As per prescribed law any company that carries on the business of a non-banking financial institution as its 'principal business' is to be treated as an NBFC. The term 'principal businesses has not been defined in any statute, however, RBI has clarified through a press release (Ref. No. 1998-99/1269) issued on April 08, 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to decide a company's principal business. The company will be treated as an NBFC if its financial assets are more than 50 percent of its total assets (netted off by intangible assets) and income from financial assets should be more than 50 percent of the gross income. Both these tests are required to be satisfied in order to determine the principal business of a company.

Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalisation of the balance sheet and in any case, not later than December 30 of that year, stating that it is engaged in the business of non-banking financial institution requiring it to hold a certificate of registration.

NBFCs are primarily governed by the RBI Act and the Master Directions – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, Peer to Peer Lending Platform (Reserve Bank) Directions 2017, Master Direction– Non-Banking Financial Company - Account Aggregator (Reserve Bank) Directions, 2016, Reserve Bank Commercial Paper Directions, 2017 and the Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 2016. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

Although, by definition, NBFCs are permitted to operate in similar sphere of activities as banks, there are a few important and key differences. The most important distinctions are:

- An NBFC cannot accept deposits repayable on demand – in other words, NBFCs can only accept fixed term deposits. Thus, NBFCs are not permitted to issue negotiable instruments, such as cheques which are payable on demand; and

- NBFCs are not allowed to deal in foreign exchange, even if they specifically apply to the RBI for approval in this regard.

Types of NBFCs:

Section 45-IA of the RBI Act makes it mandatory for every NBFC to get itself registered with the Reserve Bank in order to be able to commence any of the aforementioned activities. The major regulations governing our Company are detailed below:

On October 19, 2023, the RBI issued a Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 ("SBR Directions"). A Revised Regulatory Framework for NBFCs ("SBR Framework"), whereby NBFCs have been categorised into following four layers based on their size, activity, and perceived riskiness by the RBI:

i. NBFC- Base Layer ("NBFC-BL");
ii. NBFC- Middle Layer ("NBFC-ML");
iii. NBFC- Upper layer ("NBFC-UL"); and
iv. NBFC- Top Layer ("NBFC-TL")

The NBFC- BL comprise of (a) non-deposit taking NBFCs below the asset size of ₹ 1,00,000 lakh and (b) NBFCs undertaking the following activities- (i) NBFC-Peer to Peer Lending Platform (NBFC-P2P), (ii) NBFC-Account Aggregator (NBFC-AA), (iii) Non-Operative Financial Holding Company (NOFHC) and (iv) NBFCs not availing public funds and not having any customer interface.

The NBFC- ML consist of (a) all deposit taking NBFCs ("NBFC-Ds"), irrespective of asset size, (b) non-deposit taking NBFCs with asset size of ₹ 1,00,000 lakh and above and (c) NBFCs undertaking the following activities (i) Standalone Primary Dealers (SPDs), (ii) Infrastructure Debt Fund - Non-Banking Financial Companies (IDF-NBFCs), (iii) Core Investment Companies (CICs), (iv) Housing Finance Companies (HFCs) and (v) Infrastructure Finance Companies (NBFC-IFCs).

The NBFC-UL comprise of those NBFCs which are specifically identified by RBI as warranting enhanced regulatory requirement based on a set of parameters and scoring methodology as provided in appendix to SBR Framework. The top ten eligible NBFCs in terms of their asset size shall always reside in the upper layer, irrespective of any other factor.

The NBFC-TL will ideally remain empty. This layer can get populated if RBI is of the opinion that there is a substantial increase in the potential systemic risk from specific NBFC-UL. Such NBFCs shall move to the NBFC-TL.

Pursuant the SBR Framework the criteria of asset size of non-deposit NBFCs for classification as non-systemically important has been increased from ₹ 50,000 lakh to ₹ 1,00,000 lakh ("NBFC-ND"). Therefore, non-deposit NBFCs with asset size of over ₹ 1,00,000 lakh will be considered as risky and will fall under middle layer ("NBFC-ND-SI/ NBFC-ML"). The SBR Framework came into effect from October 01, 2022 and provides that from October 01, 2022 references to NBFC-ND shall mean NBFC-BL and all references to NBFC-D and NBFC-ND-SI shall mean NBFC-ML or NBFC-UL, as the case may be. The SBR Framework clarified that existing NBFC-ND-SIs having asset size of ₹ 50,000 lakhs and above but below ₹ 1,00,000 lakh (except those necessarily featuring in NBFC-Middle Layer) will be known as NBFC-BL.

As on the date of this Draft Prospectus the Company falls under the category of NBFC-ML, as its asset size above 1,00,000 lakhs as per the last audited balance sheet. SBR Directions provide that NBFC-ML shall be subject to regulations as specified in Section III. In addition, regulatory instructions applicable to NBFC-BL as specified in Section II shall also be applicable to NBFC-ML, unless stated otherwise.

As of the date of this Draft Prospectus, the NBFC-ML are governed by updated SBR Directions and other applicable laws.

As the regulatory structure envisages scale based as well as activity-based regulation under the SBR Framework, the following prescriptions shall apply in respect of the NBFCs:

i. NBFC-P2P, NBFC-AA, NOFHC and NBFCs without public funds and customer interface will always remain in the base layer of the regulatory structure.

ii. NBFC-D, CIC, IFC and HFC will be included in middle layer or the upper layer (and not in the base layer), as the case may be. SPD and IDF-NBFC will always remain in the middle layer.

iii. The remaining NBFCs, viz., Investment and Credit Companies (NBFC-ICC), Micro Finance Institution (NBFC-MFI), NBFC-Factors and Mortgage Guarantee Companies (NBFC-MGC) could lie in any of the layers of the regulatory structure depending on the parameters of the scale based regulatory framework.

iv. Government owned NBFCs shall be placed in the base layer or middle layer, as the case may be. RBI Master Directions define 'NBFC ICC' to mean a company which is a financial institution carrying on as its principal business of asset finance, the providing of finance whether by making loans or advances or otherwise for any activity other than its own and the acquisition of securities.

Further, an NBFC may be registered as a NBFC-D or as a NBFC-ND. The RBI has recently harmonised the categories of NBFCs into: (i) investment and credit companies (which erstwhile consisted of asset finance companies, investment companies, and loan companies); (ii) infrastructure finance companies; (iii) infrastructure debt funds; (iv) NBFC – micro finance institutions; and (v) NBFC – factors Regulatory Requirements of an NBFC under the RBI Act

Regulatory Requirements of an NBFC under the RBI Act

Our Company has been classified as an NBFC-ND-SI pursuant to a Board resolution of the Company dated April 9, 2013. As on date of filing of this Draft Prospectus the Company falls under the category of NBFC ML, as its assets size is above ₹ 1,00,000 lakh, as per the last audited balance sheet. SBR Framework provide that NBFCs in the middle layer (NBFC-ML) shall continue to follow regulations as currently applicable for NBFC-ND-SIs, NBFC-Ds, CICs, SPDs and HFCs, as the case may be, except for the regulatory changes under SBR Framework applicable on NBFC-ML.

NBFC-ML

NBFC-ML shall maintain a minimum capital ratio consisting of Tier 1 and Tier 2 capital which shall not be less than 15 percent of its aggregate risk weighted assets on balance sheet and of risk adjusted value of off-balance sheet items.

Rating of NBFCs

NBFC-ML shall maintain a minimum capital ratio consisting of Tier 1 and Tier 2 capital which shall not be less than 15 percent of its aggregate risk weighted assets on balance sheet and of risk adjusted value of off-balance sheet items.

Prudential Norms

The SBR Master Directions amongst other requirements prescribe guidelines on NBFCs regarding capital requirement, income recognition, asset classification, provisioning requirements, constitution of audit committee, capital adequacy requirements, concentration credit/ investment and norms relating gold loans. Further the concentration of credit/ investment norms shall not apply to non-banking financial company not accessing public funds in India, either directly or indirectly, and not issuing guarantees.

Corporate governance norms

As per the SBR Directions, all NBFC-MLs are required to adhere to certain corporate governance norms, including constitution of an audit committee, a nomination and remuneration committee, an asset liability management committee and risk management committee. NBFCs are required to furnish to the RBI a quarterly statement on change of directors, and a certificate from the managing director of the NBFC that fit and proper criteria in selection of the directors has been followed. Further, all applicable NBFCs shall have to frame their internal guidelines on corporate governance with the approval of its board of directors, enhancing the scope of the guidelines without sacrificing the spirit underlying the above guidelines and it shall be published on the company's web-site, if any, for the information of various stakeholders constitution of a nomination committee, a risk management committee and certain other norms in connection with disclosure, transparency and connected lending has also been prescribed in the RBI Master Circular. Further, RBI *vide* notification dated 10 November 2014 has mandated the Audit Committee to ensure that an information systems audit of the internal systems and

processes is conducted at least once in two years to assess operational risks faced by the company. RBI has also mandated the NBFCs to have a policy to ascertain the 'fit and proper criteria' at the time of appointment of directors and on a continuing basis.

Under the terms of SBR Framework following additional corporate governance compliances have been stipulated for NBFC-ML and NBFC-UL:

(a) Key Managerial Personnel - Except for directorship in a subsidiary, key managerial personnel shall not hold any office (including directorships) in any other NBFC-ML or NBFC-UL. A timeline of two years is provided with effect from October 01, 2022 to ensure compliance with these norms. However, they can assume directorship in NBFC-BLs.

(b) Independent Director - Within the permissible limits in terms of Companies Act, 2013, an independent director shall not be on the board of more than three NBFCs (NBFC-ML or NBFC-UL) at the same time. Further, the Board of the NBFC shall ensure that there is no conflict arising out of their independent directors being on the board of another NBFC at the same time. A timeline of two years is provided with effect from October 01, 2022 to ensure compliance with these norms. There shall be no restriction to directorship on the boards of NBFC-BLs, subject to applicable provisions of Companies Act, 2013.

(c) Disclosures - NBFCs shall, in addition to the existing regulatory disclosures, disclose the following in their annual financial statements, with effect from March 31, 2023:

   i. Corporate governance report containing composition and category of directors, shareholding of nonexecutive directors, etc.

   ii. Disclosure on modified opinion, if any, expressed by auditors, its impact on various financial items and views of management on audit qualifications.

   iii. Items of income and expenditure of exceptional nature.

   iv. Breaches in terms of covenants in respect of loans availed by the NBFC or debt securities issued by the NBFC including incidence/s of default.

   v. Divergence in asset classification and provisioning above a certain threshold to be decided by RBI.

(d) Chief Compliance Officer – In order to ensure an effective compliance culture, it is necessary to have an independent compliance function and a strong compliance risk management framework in NBFCs. NBFCs are, therefore, required to appoint a chief compliance officer (CCO), who should be sufficiently senior in the organization hierarchy. NBFCs shall put in place a board approved policy laying down the role and responsibilities of the CCO with the objective of promoting better compliance culture in the organization.

(e) Compensation guidelines - In order to address issues arising out of excessive risk taking caused by misaligned compensation packages, NBFCs shall put in place a board approved compensation policy. The guidelines shall at the minimum include, a) constitution of a remuneration committee, b) principles for fixed/ variable pay structures, and c) malus/ claw back provisions. The nomination and remuneration committee shall ensure that there is no conflict of interest.

(f) Other Governance matters - NBFCs shall comply with the following:

   i. The board shall delineate the role of various committees (audit committee, nomination and remuneration committee, risk management committee or any other committee) and lay down a calendar of reviews.

   ii. NBFCs shall formulate a whistle blower mechanism for directors and employees to report genuine concerns.

   iii. The board shall ensure good corporate governance practices in the subsidiaries of the NBFC.

Core Banking Solution - NBFCs with 10 and more branches are mandated to adopt core banking solution in accordance with a glide path of 3 years with effect from October 01, 2022.

Provisioning Requirements

An NBFC-ML, after taking into account the time lag between an account becoming non-performing, its recognition, the realisation of the security and erosion overtime in the value of the security charged, shall make provisions against sub-standard assets, doubtful assets and loss assets in the manner provided for in the SBR Directions.

As per the SBR Directions every applicable NBFC-ML shall make provision for standard assets at 0.40 per cent of the outstanding, which shall not be reckoned for arriving at net NPAs. The provision towards standard assets need not be netted from gross advances but shall be shown separately as 'Contingent Provisions against Standard Assets' in the balance sheet.

Capital Adequacy Norms

Under the terms of SBR Master Directions, NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50 per cent or more of their financial assets) shall maintain a minimum Tier l capital of 12 percent.

"Tier I Capital" means owned fund as reduced by investment in shares of other non-banking financial companies and in shares, debentures, bonds, outstanding loans and advances including hire purchase and lease finance made to and deposits with subsidiaries and companies in the same group exceeding, in aggregate, ten per cent of the owned fund.

Owned Funds, are defined as paid up equity capital, preference shares which are compulsorily convertible into equity, free reserves, balance in share premium account and capital reserves representing surplus arising out of sale proceeds of asset, excluding reserves created by revaluation of asset, as reduced by accumulated loss balance, book value of intangible assets and deferred revenue expenditure, if any.

Asset Classification

The Master Directions require that every NBFC shall, after taking into account the degree of well-defined credit weaknesses and extent of dependence on collateral security for realisation, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes:

- Standard assets;
- Sub-standard Assets;
- Doubtful Assets; and
- Loss assets

Further, such class of assets would not be entitled to be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for such upgradation. At present, every NBFC is required to make a provision for standard assets at at 0.40 per cent by March 31, 2018 and onwards.

Net Owned Fund

Section 45-IA of the RBI Act provides that to carry on the business of a NBFC, an entity would have to register as an NBFC with the RBI and would be required to have a minimum net owned fund of ₹ 200 lakhs. For this purpose, the RBI Act has defined "net owned fund" to mean:

Net Owned Fund - The aggregate of the paid-up equity capital and free reserves as disclosed in the latest balance sheet of the company, after deducting (i) accumulated balance of losses, (ii) deferred revenue expenditure, (iii) deferred tax asset (net); and (iv) other intangible assets; and further reduced by the amounts representing,

(i) investment by such companies in shares of (i) its subsidiaries, (ii) companies in the same group, (iii) other NBFCs; and

(ii) the book value of debentures, bonds, outstanding loans and advances (including hire purchase and lease finance) made to, and deposits with (i) subsidiaries of such companies; and (ii) companies in the same group, to the extent such amount exceeds 10 per cent of (a) above.

Further, in accordance with RBI Notification No DNBR.007/CGM (CDS) 2015 dated 27 March 2015 which provides that a non-banking financial company holding a certificate of registration issued by the RBI and having net owned fund of less than 200 lakhs may continue to carry on the business of non-banking financial institution, if such company achieves net owned fund of:

i. ₹100 lakhs before April 1, 2016; and
ii. ₹200 lakhs before April 1, 2017

Reserve Fund

In addition to the above, Section 45-IC of the RBI Act requires NBFCs to create a reserve fund and transfer therein a sum of not less than 20% of its net profits earned annually before declaration of dividend. Such a fund is to be created by every NBFC irrespective of whether it is a ND NBFC or not. Such sum cannot be appropriated by the NBFC except for the purpose as may be specified by the RBI from time to time and every such appropriation is required to be reported to the RBI within 21 days from the date of such appropriation.

Maintenance of liquid assets

The RBI through notification dated January 31, 1998, updated as on 31st May, 2018 has prescribed that every NBFC shall invest and continue to invest in unencumbered approved securities valued at a price not exceeding the current market price of such securities an amount which shall, at the close of business on any day be not less than 10% in approved securities and the remaining in unencumbered term deposits in any scheduled commercial bank; the aggregate of which shall not be less than 15% of the public deposit outstanding at the last working day of the second preceding quarter.

NBFCs such as our Company, which do not accept public deposits, are subject to lesser degree of regulation as compared to a NBFC-D and are governed by the RBI's Master Directions.

An NBFC-ND is required to inform the RBI of any change in the address, telephone no's, etc. of its Registered Office, names and addresses of its directors/auditors, names and designations of its principal officers, the specimen signatures of its authorised signatories, within one month from the occurrence of such an event. Further, an NBFC-ND would need to ensure that its registration with the RBI remains current.

All NBFCs (whether accepting public deposits or not) having an asset base of ₹10,000 lakhs or more or holding public deposits of ₹2,000 lakhs or more (irrespective of asset size) as per their last audited balance sheet are required to comply with the RBI Guidelines for an Asset-Liability Management System.

Similarly, all NBFCs are required to comply with "Know Your Customer Guidelines - Anti Money Laundering Standards" issued by the RBI, with suitable modifications depending upon the activity undertaken by the NBFC concerned.

RBI, vide circular bearing reference number RBI/2018-19/130 DNBR (PD) CC.No.097/03.10.001/2018-19 dated February 22, 2019, has harmonised different categories of NBFCs into fewer ones, based on the principle of regulation by activity rather than regulation by entity. Accordingly, RBI has merged the three categories of NBFCs viz. Asset Finance Companies (AFC), Loan Companies (LCs) and Investment Companies (ICs) into a new category called NBFC - Investment and Credit Company (NBFC-ICC). Further differential regulations relating to bank's exposure to the three categories of NBFCs viz., AFCs, LCs and ICs were harmonised. Further, a deposit taking NBFC-ICC shall invest in unquoted shares of another company which is not a subsidiary company or a company in the same group of the NBFC, an amount not exceeding twenty per cent of its owned fund.

Lending against security of gold

The RBI pursuant to the SBR Direction has prescribed that all NBFCs shall maintain a loan to value ratio not exceeding 75% for loans granted against the collateral of gold jewellery. Provided that the value of gold jewellery for the purpose of determining the maximum permissible loan, amount shall be the intrinsic value of the gold content therein and no other cost elements shall be added thereto. NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50% or more of their financial assets) shall maintain a minimum Tier l capital of 12%. The SBR Directions has issued guidelines with regard to the following:

Where the gold jewellery pledged by a borrower at any one time or cumulatively on loan outstanding is more than 20 grams, NBFCs shall keep a record of the verification of the ownership of the jewellery. The ownership verification need not necessarily be through original receipts for the jewellery pledged but a suitable document shall be prepared to explain how the ownership of the jewellery has been determined, particularly in each and every case where the gold jewellery pledged by a borrower at any one time or cumulatively on loan outstanding is more than 20 grams.

The gold jewellery accepted as collateral by the NBFC shall be valued by the following method:

The gold jewellery accepted as collateral by the NBFC shall be valued by taking into account the preceding 30 days' average of the closing price of 22 carat gold as per the rate as quoted by the Bombay Bullion Association Ltd. (BBA) or the historical spot gold price data publicly disseminated by a commodity exchange regulated by the Forward Markets Commission.

If the purity of the gold is less than 22 carats, the NBFC shall convert the collateral into 22 carat and state the exact grams of the collateral. In other words, jewellery of lower purity of gold shall be valued proportionately. NBFC, while accepting gold as collateral, shall give a certificate to the borrower on their letterhead, of having assayed the gold and state the purity (in terms of carats) and the weight of the gold pledged. NBFCs may have suitable caveats to protect themselves against disputes during redemption, but the certified purity shall be applied both for determining the maximum permissible loan and the reserve price for auction.

The auction shall be conducted in the same town or taluka in which the branch that has extended the loan is located. NBFCs can however pool gold jewellery from different branches in a district and auction it at any location within the district, subject to meeting the following conditions:

- The first auction has failed.

- The NBFC shall ensure that all other requirements of the extant directions regarding auction (prior notice, reserve price, arms-length relationship, disclosures, etc.) are met. Non-adherence to the above conditions will attract strict enforcement action.

While auctioning the gold the NBFC must declare a reserve price for the pledged ornaments. The reserve price for the pledged ornaments shall not be less than 85 percent of the previous 30 day average closing price of 22 carat gold as declared by the Bombay Bullion Association Ltd. (BBA) or the historical spot gold price data publicly disseminated by a commodity exchange regulated by the Forward Markets Commission and value of the jewellery of lower purity in terms of carats shall be proportionately reduced.

It shall be mandatory on the part of the NBFCs to provide full details of the value fetched in the auction and the outstanding dues adjusted and any amount over and above the loan outstanding shall be payable to the borrower.

NBFCs shall disclose in their annual reports the details of the auctions conducted during the financial year including the number of loan accounts, outstanding amounts, value fetched and whether any of its sister concerns participated in the auction.

NBFCs, which are in the business of lending against collateral of gold jewellery, shall ensure that necessary infrastructure and facilities are put in place, including safe deposit vault and appropriate security measures for operating the vault, in each of its branches where gold jewellery is accepted as collateral. This is required to safeguard the gold jewellery accepted as collateral and to ensure convenience of borrowers. No new branch/es shall be opened without suitable arrangements for security and for storage of gold jewellery, including safe deposit vault

Reserve Bank of India (Know Your Customer (KYC)) Directions, 2016 dated February 25, 2016, as amended on January 04, 2024 ("RBI KYC Directions")

The RBI KYC Directions are applicable to every entity regulated by the RBI, specifically, scheduled commercial banks, regional rural banks, local area banks, primary (urban) co-operative banks, state and central co-operative banks, all India financial institutions, NBFCs, miscellaneous non-banking companies and residuary non-banking companies, amongst others. In terms of the RBI KYC Directions, every entity regulated thereunder is required to formulate a KYC policy which is duly approved by the board of directors of such entity or a duly constituted committee thereof. The KYC policy formulated in terms of the RBI KYC Directions is required to include four

key elements, being customer acceptance policy, risk management, customer identification procedures and monitoring of transactions. It is advised that all NBFC'S adopt the same with suitable modifications depending upon the activity undertaken by them and ensure that a proper policy framework of anti-money laundering measures is put in place. The RBI KYC Directions provide for a simplified procedure for opening accounts by NBFCs. It also provides for an enhanced and simplified due diligence procedure. It has prescribed detailed instructions in relation to, inter alia, the due diligence of customers, record management, and reporting requirements to Financial Intelligence Unit – India. The RBI KYC Directions have also issued instructions on sharing of information while ensuring secrecy and confidentiality of information held by Banks and NBFCs. The regulated entities must also adhere to the reporting requirements under Foreign Account Tax Compliance Act and Common Reporting Standards. The RBI KYC Directions also require the regulated entities to ensure compliance with the requirements/obligations under international agreements. The regulated entities must also pay adequate attention to any money-laundering and financing of terrorism threats that may arise from new or developing technologies, and ensure that appropriate KYC procedures issued from time to time are duly applied before introducing new products/services/technologies. The RBI KYC Directions were updated on April 20, 2018 to enhance the disclosure requirements under the Prevention of Money-Laundering Act, 2002 and in accordance with the Prevention of Money-Laundering Rules vide Gazette Notification GSR 538 (E) dated June 1, 2017 and the final judgment of the Supreme Court in the case of Justice K.S. Puttaswamy (Retd.) & Another v. Union of India (Writ Petition (Civil) 494/2012). The Directions were updated to accommodate authentication as per the AADHAR (Targeted Delivery of Financial and Other Subsidies, Benefits and Services) Act, 2016 and use of an Indian resident's Aadhar number as a document for the purposes of fulfilling KYC requirement. The RBI KYC Directions were further updated on January 9, 2020 with a view to leveraging the digital channels for customer identification process by regulated entities, whereby the RBI has decided to permit video based customer identification process as a consent based alternate method of establishing the customer's identity, for customer onboarding.

Master Direction - Reserve Bank of India (Regulatory Framework for Microfinance Loans) Directions, 2022 dated March 14, 2022

Applicability

The master directions are applicable to the following entities:

i) All Commercial Banks (including Small Finance Banks, Local Area Banks, and Regional Rural Banks) excluding Payments Banks;
ii) All Primary (Urban) Co-operative Banks/ State Co-operative Banks/ District Central Cooperative Banks; and
iii) All Non-Banking Financial Companies (including Microfinance Institutions and Housing Finance Companies).

Definition of microfinance loan

A microfinance loan is defined as a collateral-free loan given to a household having annual household income up to ₹ 3,00,000. For this purpose, the household shall mean an individual family unit, i.e., husband, wife and their unmarried children. Further, all collateral-free loans, irrespective of end use and mode of application/ processing/ disbursal (either through physical or digital channels), provided to low-income households, i.e., households having annual income up to ₹ 3,00,000, shall be considered as microfinance loans.

Pricing of loans

According to the directions, each of the regulated entities must implement a board-approved policy on microfinance loan pricing, on microfinance loans, interest rates and other charges/fees should not be usurious and shall be subjected to the supervisory scrutiny of the Reserve Bank. Further, according to the master directions each of the regulated entities shall also disclose pricing related information in a standardised format.

The master directions also lay down the guidelines on conduct towards microfinance borrowers.

Qualifying asset criteria

Under the earlier guidelines, an NBFC that does not qualify as an NBFC-MFI, cannot extend microfinance loans exceeding 10 per cent of its total assets. As per the master directions, the maximum limit on microfinance loans for such NBFCs (i.e., NBFCs other than NBFC-MFIs) is now revised to 25 per cent of the total assets.

Accounting Standards & Accounting policies

NBFCs that are required to implement Ind AS as per the Companies (Indian Accounting Standards) Rules, 2015 ("Accounting Standard Rules") shall prepare their financial statements in accordance with Ind AS notified by the Government of India and shall comply with the regulatory guidance specified in the Master Directions. Disclosure requirements for notes to accounts specified in the Master Directions shall continue to apply. Other NBFCs shall comply with the requirements of notified Accounting Standards (AS) insofar as they are not inconsistent with Master Directions. The Ministry of Corporate Affairs ("MCA"), in its press release dated January 18, 2016, issued a roadmap for implementation of Ind AS converged with IFRS for non-banking financial companies, scheduled commercial banks, insurers, and insurance companies, which was subsequently confirmed by the RBI through its circular dated February 11, 2016. The Accounting Standard Rules were subsequently amended by MCA press release dated March 30, 2016. The Accounting Standard Rules stipulates that NBFCs whose equity and/or debt securities are listed or in the process of listing on any stock exchange in India or outside India and having a net worth of less than ₹50,000 lakh, shall comply with Ind AS for accounting periods beginning from April 1, 2023 onwards with comparatives for the periods ending on March 31, 2023 or thereafter. Accordingly, Ind AS is applicable to our Company with effect from April 1, 2023.

Implementation of Indian Accounting Standards: RBI Notification

The Reserve bank of India *vide* notification number RBI/2019-20/170 DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated March 13, 2020 framed regulatory guidance on Ind AS which will be applicable on Ind AS implementing NBFCs and Asset Reconstruction Companies (ARCs) for preparation of their financial statements from financial year 2019-20 onwards. These guidelines focus on the need to ensure consistency in the application of the accounting standards in specific areas, including asset classification and provisioning, and provide clarifications on regulatory capital in the light of Ind AS implementation.

The guidelines cover aspects on Governance Framework, Prudential Floor for ECL and Computation of Regulatory Capital and Regulatory Ratios.

Master Direction dated September 29, 2016 on Monitoring of Frauds in NBFCs (Reserve Bank) Directions, 2016

All NBFCs-ML shall put in place a reporting system for frauds and fix staff accountability in respect of delays in reporting of fraud cases to the RBI. An NBFC-ML is required to report all cases of fraud of ₹1 lakh and above, and if the fraud is of ₹100 lakhs or above, the report should be sent in the prescribed format within three weeks from the date of detection thereof. The NBFC-ML shall also report cases of fraud by unscrupulous borrowers and cases of attempted fraud.

Master Circular dated July 1, 2015 – Frauds – Future approach towards monitoring of frauds in NBFCs

In order to prevent the incidence of frauds in NBFCs, the RBI established a reporting requirement to be followed by NBFCs-ML. In terms of the circular, all NBFCs-ML shall disclose the amount related to fraud, reported in the company for the year in their balance sheets. NBFCs failing to report fraud cases to the RBI would be liable for penal action prescribed under the provisions of Chapter V of the RBI Act. Additionally, the circular provides for categorisation of frauds and the reporting formats in order to ensure uniformity in reporting.

Master Circular dated July 1, 2015 on returns to be submitted by NBFCs

The circular lists down detailed instructions in relation to submission of returns, including their periodicity, reporting time, due date, purpose and the requirement of filing such returns by various categories of NBFCs, including an NBFC-ML . RBI vide notification dated November 26, 2015 titled "Online Returns to be submitted by NBFCs-Revised" changed the periodicity of NDSI returns from monthly to quarterly.

Reporting by Statutory Auditor

The statutory auditor of the NBFC-ML is required to submit to the Board of Directors of the company along with the statutory audit report, a special report certifying that the Directors have passed the requisite resolution mentioned above, not accepted any public deposits during the year and has complied with the prudential norms relating to income recognition, accounting standards, asset classification and provisioning for bad and doubtful

debts as applicable to it. In the event of non-compliance, the statutory auditors are required to directly report the same to the RBI.

Master Direction – Non-Banking Financial Companies Auditor's Report (Reserve Bank) Directions, 2016

In addition to the report made by the auditor under Section 143 of the Companies Act, 2013 on the accounts of an NBFC-ML, the auditor shall made a separate report to the Board of Directors of the company on inter alia examination of validity of certificate of registration obtained from the RBI, whether the NBFC is entitled to continue to hold such certificate of registration in terms of its Principal Business Criteria (financial asset / income pattern) as on March 31 of the applicable year, whether the NBFC is meeting the required net owned fund requirement, whether the board of directors has passed a resolution for non-acceptance of public deposits, whether the company has accepted any public deposits during the applicable year, whether the company has complied with the prudential norms relating to income recognition, accounting standards, asset classification and provisioning for bad and doubtful debts as applicable to it, whether the capital adequacy ratio as disclosed in the return submitted to the Bank in form NBS- 7, has been correctly arrived at and whether such ratio is in compliance with the minimum CRAR prescribed by the Bank, whether the company has furnished to the Bank the annual statement of capital funds, risk assets/exposures and risk asset ratio (NBS-7) within the stipulated period, and whether the non-banking financial company has been correctly classified as NBFC Micro Finance Institutions (MFI).

Master Direction- Non-Banking Financial Company Returns (Reserve Bank) Directions, 2016

All NBFCs are required to put in place a reporting system for filing various returns with the RBI. An NBFC-ML is required to file on a quarterly basis a return on important financial parameters, including components of assets and liabilities, profit and loss account, exposure to sensitive sectors etc., NBS-7 on prudential norms on a quarterly basis, multiple returns on asset-liability management to address concerns regarding inter alia asset liability mismatches and interest rate risk, quarterly report on branch information, and CRILC on a quarterly basis as well as all SMA-2 accounts to facilitate early recognition of financial distress, prompt steps for resolution and fair recovery for lenders.

Financing of NBFCs by bank

The RBI has issued guidelines vide a circular dated bearing number DBR.BP.BC.No.5/21.04.172/2015-16 dated July 1, 2015 relating to bank financing of NBFCs predominantly engaged in lending against Gold has directed banks to (i) reduce their regulatory exposure ceiling on a single NBFC, having gold loans to the extent of 50% or more of its total financial assets 10% of banks' capital funds. However, the exposure ceiling may go up by 5%, i.e., up to 15% of banks' capital funds if the additional exposure is on account of funds on-lent by NBFCs to the infrastructure sector and (ii) to have an internal sub-limit on their aggregate exposures to all such NBFCs, having gold loans to the extent of 50% or more of their total financial assets, taken together. The sub-limits should be within the internal limit fixed by the banks for their aggregate exposure to all NBFCs put together.

Norms for excessive interest rates

In addition, the RBI has introduced vide a circular bearing reference number RBI/ 2006-07/ 414 dated May 24, 2007 whereby RBI has requested all NBFCs to put in place appropriate internal principles and procedures in determining interest rates and processing and other charges. In addition to the aforesaid instruction, the RBI has issued a Master Circular on Fair Practices Code dated July 1, 2015 read with the Master Directions for regulating the rates of interest charged by the NBFCs. These circulars stipulate that the board of each NBFC is required to adopt an interest rate model taking into account the various relevant factors including cost of funds, margin and risk premium. The rate of interest and the approach for gradation of risk and the rationale for charging different rates of interest for different categories of borrowers are required to be disclosed to the borrowers in the application form and expressly communicated in the sanction letter. Further, this is also required to be made available on the NBFCs website or published in newspapers and is required to be updated in the event of any change therein. Further, the rate of interest would have to be an annualised rate so that the borrower is aware of the exact rates that would be charged to the account.

Supervisory Framework

In order to ensure adherence to the regulatory framework by systemically important ND-NBFCs, the RBI has directed such NBFCs to put in place a system for submission of an annual statement of capital funds, and risk asset ratio etc. as at the end of March every year, in a prescribed format. This return is to be submitted

electronically within a period of three months from the close of every financial year. Further, a NBFC is required to submit a certificate from its statutory auditor that it is engaged in the business of non-banking financial institution with requirement to hold a certificate of registration under the RBI Act. This certificate is required to be submitted within one month of the date of finalisation of the balance sheet and in any other case not later than December 30 of that particular year. Further, in addition to the auditor's report under Section 143 of the Companies Act, 2013 the auditors are also required to make a separate report to the Board of Directors on certain matters, including correctness of the capital adequacy ratio as disclosed in the return NBS-7 to be filed with the RBI and its compliance with the minimum CRAR, as may be prescribed by the RBI. Where the statement regarding any of the items referred relating to the above, is unfavourable or qualified, or in the opinion of the auditor the company has not complied with the regulations issued by RBI, it shall be the obligation of the auditor to make a report containing the details of such unfavourable or qualified statements and/or about the non-compliance, as the case may be, in respect of the company to the concerned Regional Office of the Department of Non-Banking Supervision of the Bank under whose jurisdiction the registered office of the company is located.

Ombudsman Scheme for Customers of NBFCs

The RBI in public interest and to make the alternate dispute redress mechanism simpler and more responsive integrated the three Ombudsman schemes –(i) the Banking Ombudsman Scheme, 2006, as amended up to July 01, 2017; (ii) the Ombudsman Scheme for Non-Banking Financial Companies, 2018; and (iii) the Ombudsman Scheme for Digital Transactions, 2019 into the Reserve Bank -Integrated Ombudsman Scheme, 2021 (the "Scheme"). Every NBFC shall appoint Principal Nodal Officer in accordance with directions provided under the said Scheme. Further, NBFCs fulfilling the criteria laid down under the circular on 'Appointment of Internal Ombudsman by Non-Banking Financial Companies'dated November 15, 2021 shall appoint the Internal Ombudsman and adhere to the corresponding guidelines.

Any customer aggrieved by an act or omission of a Regulated Entity resulting in deficiency in service may file a complaint under the Scheme personally or through an authorised representative as defined under the Scheme

Asset Liability Management

The RBI has prescribed the Guidelines for asset liability management ("ALM") system in relation to NBFCs through LRM Framework ("**LRM Framework**").The LRM Framework provide that the applicable NBFCs should ensure sound and robust liquidity risk management system, the board of directors of the NBFC shall frame a liquidity risk management framework which ensures that it maintains sufficient liquidity, including a cushion of unencumbered, high quality liquid assets to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources. The liquidity risk management policy should spell out the entity-level liquidity risk tolerance; funding strategies; prudential limits; system for measuring, assessingand reporting/ reviewing liquidity; framework for stress testing; liquidity planning under alternative scenarios/formal contingent funding plan; nature and frequency of management reporting; periodical review of assumptions used in liquidity projection; etc.

The NBFC shall appoint risk management committee ("RMC") consisting of chief executive officer ("CEO")/ managing director ("MD") and heads of various risk verticals, who shall be responsible for evaluating the overall risks faced by the NBFC including liquidity risk. Further, applicable NBFCs have to constitute asset liability management committee ("ALCO") consisting of the NBFC's top management shall be responsible for ensuring adherence to the risk tolerance/limits set by the board of directors as well as implementing the liquidity risk management strategy of the NBFC. The CEO/ MD or the Executive Director (ED) should head the Committee. The role of the ALCO with respect to liquidity risk should include, inter alia, decision on desired maturity profile and mix of incremental assets and liabilities, sale of assets as a source of funding, the structure, responsibilities and controls for managing liquidity risk, and overseeing the liquidity positions of all branches. In addition to RMC and ALCO, applicable NBFCs shall constitute asset liability management support group ("ALM Support Group"). ALM Support Group consist of the operating staff responsible for analysing, monitoring and reporting the liquidity risk profile to the ALCO. The maturity profile should be used for measuring the future cash flows of NBFCs in different time buckets. Within each time bucket, there could mismatches depending on cash inflows and outflows. While the mismatches up to one year would be relevant since these provide early warning signals of impending liquidity problems, the main focus shall be on the short-term mismatches, viz., 1-30/ 31 days. The net cumulative negative mismatches in the statement of structural liquidity in the maturity buckets 1-7 days, 8-14 days, and 15-30 days shall not exceed 10 percent, 10 percent and 20 per cent of the cumulative cash outflows in the respective time buckets. NBFCs, however, are expected to monitor their cumulative mismatches (running total) across all other time buckets upto 1 year by establishing internal prudential limits with the approval of the

board of directors. NBFCs shall also adopt the above cumulative mismatch limits for their structural liquidity statement for consolidated operations. Other than liquidity risk the applicable NBFC has to currency risk and interest rate risk under the terms of LRM Framework.

Foreign Investment Regulations

Foreign investment in Indian securities is regulated through the Consolidated Foreign Direct Investment ("FDI") Policy and Foreign Exchange Management Act, 1999 ("FEMA"). The government bodies responsible for granting foreign investment approvals are the concerned ministries/ departments of the Government of India and the RBI. The Union Cabinet has approved phasing out the Foreign Investment Promotion Board, as provided in the press release dated May 24, 2017. Accordingly, pursuant to theoffice memorandum dated June 5, 2017, issued by the Department of Economic Affairs, Ministry of Finance, approval of foreign investment under the FDI policy has been entrusted to concerned ministries/departments. Subsequently, the DIPP issued the StandardOperating Procedure (SOP) for Processing FDI Proposals on June 29, 2017 (the "SOP"). The SOP provides a list of the competent authorities for granting approval for foreign investment for sectors/activities requiring Government approval. For sectors or activities that are currently under automatic route but which required Government approval earlier as per the extant policy during the relevant period, the concerned administrative ministry/department shall act as the competent authority (the "Competent Authority") for the grant of post facto approval of foreign investment. In circumstances where there is a doubt as to which department shall act as theCompetent Authority, the DIPP shall identify the Competent Authority. The DIPP has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendment to FEMA. In case of any conflict FEMA prevails. The Foreign Exchange Management (Debt Instruments) Regulations, 2019 notified by RBI on October 17, 2019, regulate investment in India by a person resident outside India in listed NCDs.The Consolidated FDI Policy consolidates the policy framework in place as on August 27, 2017. Further, on January 4, 2018 the RBI released the Master Direction on Foreign Investment in India. Under the approval route, prior approval from the relevant ministry and competent authorities, as per the procedure established under the Standard Operating Procedure for Processing FDI Proposals ("SOP") dated June 29, 2017 or RBI is required. FDI for the items/activities that cannot be brought in under the automatic route may be brought in through the approval route. Approvals are accorded on the recommendation of the FIPB, which is chaired by the Secretary, DIPP, with the Union Finance Secretary, Commerce Secretary and other key Secretaries of the Government of India as its members.As per the sector specific guidelines of the Government of India, 100 per cent FDI/ Non-Resident Indian ("NRI") investments are allowed under the automatic route in certain NBFC activities subject to compliance with guidelines of the RBI in this regard.

The Recovery of Debts due to Banks and Financial Institutions Act, 1993

The Recovery of Debts due to Banks and Financial Institutions Act, 1993 (the "**DRT Act**") provides for establishment of the Debts Recovery Tribunals (the "**DRTs**") for expeditious adjudication and recovery of debts due to banks and public financial institutions or to a consortium of banks and public financial institutions. Under the DRT Act, the procedures for recovery of debt have been simplified and time frames have been fixed for speedy disposal of cases. The DRT Act lays down the rules for establishment of DRTs, procedure for making application to the DRTs, powers of the DRTs and modes of recovery of debts determined by DRTs. These include attachment and sale of movable and immovable property of the defendant, arrest of the defendant and his detention in prison and appointment of receiver for management of the movable or immovable properties of the defendant.

The DRT Act also provides that a bank or public financial institution having a claim to recover its debt, may join an ongoing proceeding filed by some other bank or public financial institution, against its debtor, at any stage of the proceedings before the final order is passed, by making an application to the DRT.

Anti-Money Laundering

The RBI has issued a Master Circular dated July 1, 2015 to ensure that a proper policy frame work for the Prevention of Money Laundering Act, 2002 ("**PMLA**") is put into place. The PMLA seeks to prevent money laundering and provides for confiscation of property derived from or involved in money laundering and for other matters connected therewith or incidental thereto. It extends to all banking companies, financial institutions, including NBFCs and intermediaries. Pursuant to the provisions of PMLA and the RBI guidelines, all NBFCs are advised to appoint a principal officer for internal reporting of suspicious transactions and cash transactions and to maintain a system of proper record (i) for all cash transactions of value of more than ₹10 lakhs; (ii) all series of cash transactions integrally connected to each other which have been valued below ₹10 lakhs where such series

of transactions have taken place within one month and the aggregate value of such transaction exceeds ₹10 lakhs. Further, all NBFCs are required to take appropriate steps to evolve a system for proper maintenance and preservation of account information in a manner that allows data to be retrieved easily and quickly whenever required or when requested by the competent authorities. Further, NBFCs are also required to maintain for at least ten years from the date of transaction between the NBFCs and the client, all necessary records of transactions, both domestic or international, which will permit reconstruction of individual transactions (including the amounts and types of currency involved if any) so as to provide, if necessary, evidence for prosecution of persons involved in criminal activity.

Additionally, NBFCs should ensure that records pertaining to the identification of their customers and their address are obtained while opening the account and during the course of business relationship, and that the same are properly preserved for at least ten years after the business relationship is ended. The identification records and transaction data is to be made available to the competent authorities upon request.

RBI Notification dated December 3, 2015 titled "Anti-Money Laundering (AML)/ Combating of Financing of Terrorism (CFT) – Standards" states that all regulated entities (including NBFCs) are to comply with the updated FATF Public Statement and document 'Improving Global AML/CFT Compliance: on-going process' as on October 23, 2015.

Lending against security of Gold Jewellery

The RBI has issued a circular dated March 21, 2012 stipulating that all NBFCs shall maintain a loan to value ratio not exceeding 75% for loans granted against the collateral of gold jewellery. NBFCs primarily engaged in lending against gold jewellery (such loans comprising 50% or more of their financial assets) shall maintain a minimum Tier 1 capital of 12% by April 01, 2014. The RBI vide its circular RBI/2013-14/260 DNBS.CC.PD.No.356/03.10.01/2013-14 dated September 16, 2013 issued guidelines with regard to the following:

i. Appropriate Infrastructure for storage of gold ornaments: A minimum level of physical infrastructure and facilities is available in each of the branches engaged in financing against gold jewellery including a safe deposit vault and appropriate security measures for operating the vault to ensure safety of the gold and borrower convenience. Existing NBFCs should review the arrangements in place at their branches and ensure that necessary infrastructure is put in place at the earliest. No new branches should be opened without suitable storage arrangements having been made thereat. No business of grant of loans against the security of gold can be transacted at places where there are no proper facilities for storage/security.

ii. Prior approval of RBI for opening branches in excess of 1,000: It is henceforth mandatory for NBFC to obtain prior approval of the Reserve Bank to open branches exceeding 1,000. However NBFCs which already have more than 1,000 branches may approach the Bank for prior approval for any further branch expansion. Besides, no new branches will be allowed to be opened without the facilities for storage of gold jewellery and minimum security facilities for the pledged gold jewellery.

iii. Standardization of value of gold in arriving at the loan to value ratio: For arriving at the value of gold jewellery accepted as collateral, it will have to be valued at the average of the closing price of 22 carat gold for the preceding 30 days as quoted by The Bombay Bullion Association Limited.

iv. Verification of the Ownership of Gold: NBFCs should have Board approved policies in place to satisfy ownership of the gold jewellery and adequate steps be taken to ensure that the KYC guidelines stipulated by the Reserve Bank are followed and due diligence of the customer undertaken. Where the gold jewellery pledged by a borrower at any one time or cumulatively on loan outstanding is more than 20 grams, NBFCs must keep record of the verification of the ownership of the jewellery. The method of establishing ownership should be laid down as a Board approved policy.

v. Auction Process and Procedures: The following additional stipulations are made with respect to auctioning of pledged gold jewellery:

a) The auction should be conducted in the same town or taluka in which the branch that has extended the loan is located.

b) While auctioning the gold the NBFC should declare a reserve price for the pledged ornaments. The reserve price for the pledged ornaments should not be less than 85% of the previous 30 day average closing price of 22 carat gold as declared by The Bombay Bullion Association Limited and value of the jewellery of lower purity in terms of carats should be proportionately reduced.

c) It will be mandatory on the part of the NBFCs to provide full details of the value fetched in the auction and the outstanding dues adjusted and any amount over and above the loan outstanding should be payable to the borrower.

d) NBFCs must disclose in their annual reports the details of the auctions conducted during the financial year including the number of loan accounts, outstanding amounts, value fetched and whether any of its sister concerns participated in the auction.

vi. Other Instructions:

a) NBFCs financing against the collateral of gold must insist on a copy of the PAN Card of the borrower for all transaction above ₹500,000.

b) High value loans of ₹100,000 and above must only be disbursed by cheque.

c) Documentation across all branches must be standardized.

d) NBFCs shall not issue misleading advertisements like claiming the availability of loans in a matter of 2-3 minutes.

Thereafter, the RBI has by circular bearing number RBI/2013-14/435 DNBS.CC.PD.No.365/03.10.01/2013-14 dated January 08, 2014 raised the loan to value ratio to 75% for loans against the collateral of gold jewellery. Further, the circular also provides for certain clarifications as regards standardisation of the value of gold and verification of the ownership of gold.

Power generation regulations

The Ministry of New and Renewable Energy ("MNRE") regulations

The MNRE is the Central Government ministry with the mandate for formulating schemes and policies for the research, development, commercialisation and deployment of renewable energy systems/devices for various applications in rural, urban, industrial and commercial sector. The MNRE has issued a number of guidelines and schemes on power generation through renewable sources, including a 'Special Programme on Small Wind Energy and Hybrid Systems'. In order to ensure quality of wind farm projects and equipments, the MNRE introduced the "Revised Guidelines for wind power projects" ("**MNRE Guidelines**") on June 13, 1996 for the benefit of state electricity boards, manufacturers, developers and end-users of energy to ensure proper and orderly growth of the wind power sector. The MNRE Guidelines are periodically updated and issued. The MNRE Guidelines among other things makes provision for proper planning, siting, selection of quality equipment, implementation and performance monitoring of wind power projects. The MNRE Guidelines lay down guidelines for the planned development and implementation of wind power projects.

The MNRE Guidelines set out the conditions that are required to be met for establishing wind farms and manufacturing and supplying equipment for wind power projects. These conditions include submission of detailed project reports, approval of sites for wind power installations, type certification by independent testing and certification agencies (either the Centre of Wind Energy Technology, Chennai or the International certification agency). Further, all installations are to be carried out only on sites that are approved for wind power projects by the MNRE. The MNRE Guidelines stipulate that a no objection certificate will be issued only after analysing the wind data to ensure adequate availability of wind at the specific site. Also, no approval will be granted for a wind power project which involves the installation of used wind turbines imported into India.

The Indian Renewable Energy Development Agency Limited ("IREDA")

The IREDA is a public limited government company under the administrative control of the MNRE and in engaged in encouraging the production of energy through renewable sources. In this respect, the IREDA offers financial support to specific projects and schemes for generating electricity and promotes the energy conservation

through by improving the efficiency of systems, processes and resources engaged in energy production and distribution. In particular, the IREDA offers scheme and incentives for the promotion of wind based energy production.

Electricity Act, 2003

Under the Electricity Act, 2003, which repealed all the earlier enactments pertaining to this sector, the activity of generation of wind power does not require any license or permission. Persons engaged in the generation of electricity from wind power are required to register the project being undertaken with State Nodal Agency and obtain permission for inter-grid connectivity from the utility. The government has also announced National Electricity Policy in 2005 to guide the development of the electricity sector in India.

The electricity generated from the wind power project can be used for captive consumption, sale to utility or for transaction under open access as per the prevailing state policy as well as regulatory orders, if any. Various states have announced administrative policies relating to wheeling, banking and buy-back of power.

Further, the Electricity Act, 2003 also mandates that all regulatory commissions should procure certain percentage of power generation from renewable energy sources by all distribution companies. As far as the tariff and wheeling charges are concerned, it is stipulated that they should be decided by respective regulatory commissions as provided under the Electricity Regulatory Commissions Act, 1998.

Electricity Regulatory Commissions

Electricity Act retains the two-level regulatory system for the power sector. At the central level, the Central Electricity Regulatory Commission ("**CERC**") is responsible for regulating tariff of generating stations owned by the central government, or those involved in generating or supplying in more than one states and regulating inter-state transmission of electricity. The State Electricity Regulatory Commissions ("**SERCs**") on the other hand regulate intra-state transmission and supply of electricity within the jurisdiction of each state. CERC and the SERCs are guided by the National Electricity Policy, 2005, Tariff Policy, 2006 and the National Electricity Plan while discharging their functions under Electricity Act. The Electricity Regulatory Commissions are also guided by any direction given by the central government for CERC or the state government for the SERC pertaining to any policy involving public interest. The decision of the government is final and non-challengeable with respect to the question that whether directions pertain to policy involving public interest or not. The commissions have been entrusted with a variety of functions including determining tariff, granting licensees, settling disputes between the generating companies and the licensees. The Electricity Regulatory Commissions are a quasi-judicial authority with powers of a civil court and an appeal against the orders of the Commissions lie to the Appellate Tribunal.

The CERC has notified the CERC (Terms and Conditions for Recognition and Issuance of Renewable Energy Certificate for Renewable Energy Generation) Regulations on January 14, 2010 to the promotion of power generation through renewable sources of energy. In this respect, these regulations contemplate two categories of certificates, solar and non-solar certificate. The CERC has designated the National Load Dispatch Center to issue registration certificates and undertakes to provide for the floor price (minimum) and forbearance price (maximum) for non-solar certificates.

Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 ("SARFAESI")

The SARFAESI Act regulates the securitization and reconstruction of financial assets of banks and financial institutions. The SARFAESI Act provides for measures in relation to enforcement of security interests and rights of the secured creditor in case of default.

The RBI has issued guidelines to banks and financial institutions on the process to be followed for sales of financial assets to asset reconstruction companies. These guidelines provide that a bank or a financial institution or an NBFC may sell financial assets to an asset reconstruction company provided the asset is an NPA. A bank or financial institution or NBFC may sell a financial asset only if the borrower has a consortium or multiple banking arrangements and at least 75% by value of the total loans to the borrower are classified as an NPA and at least 75% by the value of the banks and financial institutions in the consortium or multiple banking arrangement agree to the sale. In addition to the above, a financial asset may be sold by any bank or financial institution where the

asset is reported, by the bank financial institution to Central Repository for Information on Large Credit, as an NPA wherein the principal or interest payment is overdue between 61-90 days.

As per the SARFAESI Amendment Act of 2004, the constitutional validity of which was upheld in a recent Supreme Court ruling, non-performing assets have been defined as an asset or account of a borrower, which has been classified by a bank or financial institution as sub-standard, doubtful or loss asset in accordance with directions or guidelines issued by the RBI. In case the bank or financial institution is regulated by a statutory body/authority, NPAs must be classified by such bank in accordance with guidelines issues by such regulatory authority. The RBI has issued guidelines on classification of assets as NPAs. Further, these assets are to be sold on a "without recourse" basis only.

The SARFAESI Act provides for the acquisition of financial assets by Securitization Company or Reconstruction Company from any bank or financial institution on such terms and conditions as may be agreed upon between them. A securitization company or reconstruction company having regard to the guidelines framed by the RBI may, for the purposes of asset reconstruction, provide for measures such as the proper management of the business of the borrower by change in or takeover of the management of the business of the borrower, the sale or lease of a part or whole of the business of the borrower and certain other measures such as rescheduling of payment of debts payable by the borrower; enforcement of security.

Additionally, under the provisions of the SARFAESI Act, any securitisation company or reconstruction company may act as an agent for any bank or financial institution for the purpose of recovering its dues from the borrower on payment of such fee or charges as may be mutually agreed between the parties.

Various provisions of the SARFAESI Act have been amended by the Enforcement of Security Interest and Recovery of Debt Laws and Miscellaneous Provisions (Amendment) Act, 2016 as also the Insolvency and Bankruptcy Code, 2016 (which amended S.13 of SARFAESI). As per this amendment, the Adjudicating Authority under the Insolvency and Bankruptcy Code, 2016 shall by order declare moratorium for prohibiting inter alia any action to foreclose, recover or enforce any security interest created by the corporate debtor in respect of its property including any action under the SARFAESI Act.

Foreign Investment Regulations

Master Circular – Foreign Investments in India, issued by RBI dated January 04, 2018 (updated as on April 06, 2018), read with the Consolidated FDI Policy Circular of 2017, issued by the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, dated August 28, 2017 ("FDI Policy")

Foreign investment into NBFCs, carrying on activities approved for FDI, will be subject to the conditions specified in paragraph 5.2.26 of the FDI Policy and foreign investment of up to 100% is permitted under the automatic route.

Master Circular No.10/2015-16 on Memorandum of Instructions governing money changing activities, issued by RBI dated July 1, 2015 and updated on September 10, 2015.

Guidelines for Licencing and other Approvals for Authorised Money Changers (AMCs)

Full Fledged Money Changers (FFMCs) are authorised by the Reserve Bank to deal in foreign exchange for specified purposes, to widen the access of foreign exchange facilities to residents and tourists while ensuring efficient customer service through competition. FFMCs are authorised to purchase foreign exchange from residents and non-residents visiting India and to sell foreign exchange for certain approved purposes. AD Category –I Banks/ADs Category – II/FFMCs may appoint franchisees to undertake purchase of foreign currency*. No person shall carry on or advertise that he carries on money changing business unless he is in possession of a valid money changer's licence issued by the Reserve Bank.

**** Note: -Franchisees of AD Category –I Banks/ADs Category – II/FFMCs functioning within 10 kilometres from the borders of Pakistan and Bangladesh may also sell the currency of the bordering country, with the prior approval of the Regional offices concerned of the Reserve Bank. Other franchises of AD Category –I Banks/ADs Category – II/FFMCs cannot sell foreign currency.***

Guidelines for appointment of Agents/Franchisees by Authorised Dealer Category –FFMCs.

Under the Scheme, the Reserve Bank permits FFMCs to enter into franchisee/agency agreements at their option for the purpose of carrying on Restricted Money Changing business i.e. conversion of foreign currency notes, coins or travellers' cheques into Indian Rupees.

A franchisee can be any entity which has a place of business and a minimum Net Owned Funds of ₹10 lakhs. Franchisees can undertake only restricted money changing business.

FFMCs as the franchisers are free to decide on the tenor of the arrangement as also the commission or fee through mutual agreement with the franchisee. The Agency/Franchisee agreement to be entered into should include the salient features as mentioned under the master circular. The master circular also prescribes the procedure for application, due diligence of franchisees, selection of centres, training, reporting, audit and inspection of franchisees and Anti Money Laundering (AML)/Know Your Customer (KYC)/Combating the Financing of Terrorism (CFT) Guidelines.

Note: No licence for appointment of franchisees will be issued to any FFMC, against whom any major DoE/DRI/CBI/Police case is pending. In case where any FFMC has received one-time approval for appointing franchisees and subsequent to the date of approval, any DoE/DRI/CBI/Police case is filed, the FFMC should not appoint any further franchisees and bring the matter to the notice of the Reserve Bank immediately. A decision will be taken by the Reserve Bank regarding allowing the FFMC to appoint franchisees.

Operational Instructions

Foreign exchange in any form can be brought into India freely without limit provided it is declared on the Currency Declaration Form (CDF) on arrival to the Custom Authorities. When foreign exchange brought in the form of currency notes or travellers' cheques does not exceed USD $10,000 or its equivalent and/or the value of foreign currency notes does not exceed USD $5,000 or its equivalent, declaration thereof on CDF is not insisted upon.

Taking out foreign exchange in any form, other than foreign exchange obtained from an authorised dealer or a money changer is prohibited unless it is covered by a general or special permission of the Reserve Bank. Non-residents, however, have general permission to take out an amount not exceeding the amount originally brought in by them, subject to compliance with the provisions of sub-para above.

Authorised Money Changers (AMCs)/franchisees may freely purchase foreign currency notes, coins and traveller's cheques from residents as well as non-residents. Where the foreign currency was brought in by declaring on form CDF, the tenderer should be asked to produce the same. The AMC should invariably insist on production of declaration in CDF.

AMCs may sell Indian Rupees to foreign tourists/visitors against International Credit Cards/International Debit Cards and take prompt steps to obtain reimbursement through normal banking channels.

AMCs may issue certificate of encashment when asked for in cases of purchases of foreign currency notes, coins and travellers cheques from residents as well as non-residents. These certificates bearing authorised signatures should be issued on the letter head of the money changer and proper record should be maintained.

In cases where encashment certificate is not issued, attention of the customers should be drawn to the fact that unspent local currency held by non-residents will be allowed to be converted into foreign currency only against production of a valid encashment certificate.

AMCs may purchase from other AMCs and ADs any foreign currency notes, coins and encashed travellers' cheques tendered in the normal course of business. Rupee equivalent of the amount of foreign exchange purchased should be paid only by way of crossed account payee cheque/demand draft/bankers' cheque/Pay order.

AMCs may sell foreign exchange up to the prescribed ceiling (currently US $ 10,000) specified in Schedule III to the Foreign Exchange Management (Current Account Transaction) Rules, 2000 during a financial year to persons resident in India for undertaking one or more private visits to any country abroad (except Nepal and Bhutan). Exchange for such private visits will be available on a self-declaration basis to the traveller regarding the amount of foreign exchange availed during a financial year. Foreign nationals permanently resident in India are also

eligible to avail of this quota for private visits provided the applicant is not availing of facilities for remittance of his salary, savings, etc., abroad in terms of extant regulations.

AMCs may sell foreign exchange to persons' resident in India for undertaking business travel or for attending a conference or specialised training or for maintenance expenses of a patient going abroad for medical treatment or check-up abroad or for accompanying as attendant to a patient going abroad for medical treatment/check-up up to the limits as specified in Schedule III to FEMA (Current Account Transactions) Rules, 2000.

AMCs may convert into foreign currency, unspent Indian currency held by non-residents at the time of their departure from India, provided a valid Encashment Certificate is produced.

AMCs may convert at their discretion, unspent Indian currency up to ₹10,000 in the possession of non-residents if, for bona fide reasons, the person is unable to produce an Encashment Certificate after ensuring that the departure is scheduled to take place within the following seven days. FFMCs may provide facility for reconversion of Indian Rupees to the extent of ₹50,000/- to foreign tourists (not NRIs) against ATM Receipts based on the following documents- Valid passport and visa, ticket confirmed for departure within 7 days, Original ATM slip.

AMCs may issue a cash memo, if asked for, on official letterhead to travellers to whom foreign currency is sold by them. The cash memo may be required for production to emigration authorities while leaving the country.

AMCs may put through transactions relating to foreign currency notes and travellers' cheques at rates of exchange determined by market conditions and in alignment with the ongoing market rates.

AMCs should display at a prominent place in or near the public counter, a chart indicating the rates for purchase/sale of foreign currency notes and travellers' cheques for all the major currencies and the card rates for any day, should be updated, latest by 10:30 a.m.

AMCs should keep balances in foreign currencies at reasonable levels and avoid build-up of idle balances with a view to speculating on currency movements.

Franchisees should surrender foreign currency notes, coins and travellers' cheques purchased only to their franchisers within seven working days.

The transactions between authorised dealers and FFMCs should be settled by way of account payee crossed cheques/demand drafts. Under no circumstances should settlement be made in cash.

AMCs may obtain their normal business requirements of foreign currency notes from other AMCs/authorised dealers in foreign exchange in India, against payment in rupees made by way of account payee crossed cheque/demand draft.

Where AMCs are unable to replenish their stock in this manner, they may make an application to the Forex Markets Division, Foreign Exchange Department, Central Office, RBI, Mumbai through an AD Category-I for permission to import foreign currency into India. The import should take place through the designated AD Category-I through whom the application is made.

AMCs may export surplus foreign currency notes/encashed travellers' cheques to an overseas bank through designated Authorised Dealer Category - I in foreign exchange for realisation of their value through the latter. FFMCs may also export surplus foreign currency to private money changers abroad subject to the condition that either the realisable value is credited in advance to the AD Category – I bank's nostro account or a guarantee is issued by an international bank of repute covering the full value of the foreign currency notes/coins to be exported.

In the event of foreign currency notes purchased being found fake/forged subsequently, AMCs may write- off up to US $ 2000 per financial year after approval of their Top Management after exhausting all available options for recovery of the amount. Any write-off in excess of the above amount, would require the approval of the Regional Office concerned of the Foreign Exchange Department of the Reserve Bank.

Further, provisions regarding the following are also mentioned-

- **Registers and Books of Accounts of Money-changing Business**
- **Submission of Statements to the Reserve Bank**

- **Inspection of Transactions of AMCs**
- **Concurrent Audit**
- **Temporary Money Changing Facilities**

Opening of Foreign Currency Accounts by AMCs

AMCs, with the approval of the respective Regional Offices of the Foreign Exchange Department, may be allowed to open Foreign Currency Accounts in India, subject to the following conditions: -

i. Only one account may be permitted at a particular centre.
ii. Only the value of foreign currency notes/encashed TCs exported through the specific bank and realised can be credited to the account.
iii. Balances in the accounts shall be utilised only for settlement of liabilities on account of:
    a. TCs sold by the AMCs and
    b. Foreign currency notes acquired by the AMCs from AD Category-I banks.
iv. No idle balance shall be maintained in the said account.

All AMCs are required to submit their annual audited balance sheet to the respective Regional office of the Reserve Bank for the purpose of verification of their Net Owned Funds along-with a certificate from the statutory auditors regarding the NOF as on the date of the balance sheet. As AMCs are expected to maintain the minimum NOF on an ongoing basis, if there is any erosion in their NOF below the minimum level, they are required to bring it to the notice of the Reserve Bank immediately along with a detailed time bound plan for restoring the Net Owned Funds to the minimum required level.

FFMCs, which are not Regional Rural Banks (RRBs), Local Area Banks (LABs), Urban Co-operative Banks (UCBs) and Non-Banking Financial Companies (NBFCs) having a minimum net worth of ₹500 lakhs, may participate in the designated currency futures and currency options on exchanges recognised by the Securities and Exchange Board of India (SEBI) as clients only for the purpose of hedging their underlying foreign exchange exposures. FFMCs and ADs Category–II which are RRBs, LABs, UCBs and NBFCs, may be guided by the instructions issued by the respective regulatory Departments of the Reserve Bank in this regard.

Insolvency and Bankruptcy Code

The Insolvency and Bankruptcy Code, 2016 ("**Code**") consolidates laws relating to insolvency, reorganisation, and liquidation/ bankruptcy of all persons, including companies, individuals, partnership firms and Limited Liability Partnerships ("**LLPs**"). The Code has established an Insolvency and Bankruptcy Board of India to function as the regulator for all matters pertaining to insolvency and bankruptcy. The Code prescribes a timeline of 330 days for the insolvency resolution process, which begins from the date the application is admitted by the NCLT. During this period, the creditors and the debtor shall negotiate and finalise a resolution plan (accepted by 66% of the financial creditors) and in the event, they fail, the debtor is placed in liquidation and the moratorium lifted. The Code stipulates an interim-moratorium period which would commence after filing of the application for a fresh start process and shall cease to exist after elapse of a period of 180 days from the date of application. During such period, all legal proceedings against such debtor should be stayed and no fresh suits, proceedings, recovery or enforcement action may be initiated against such debtor. However, the Code has also imposed certain restrictions on the debtor during the moratorium period such as the debtor shall not be permitted to act as a director of any company or be involved in the promotion or management of a company during the moratorium period. In light of the COVID-19 pandemic, the Government of India, introduced economic reforms to contribute to the ease of doing business. One of the reforms introduced is the suspension of the Code for a period of one year. An ordinance detailing the changes pursuant to this reform is expected to be introduced by the government. Further, the GoI vide notification dated March 24, 2020 ("**Notification**") has amended section 4 of the Code due the lingering impact of the COVID-19 pandemic. Pursuant to the said Notification, Government of India has increased the minimum amount of default under the insolvency matters from ₹1,00,000 to ₹1,00,00,000.

The Insolvency and Bankruptcy (Insolvency and Liquidation Proceedings of Financial Service Providers and Application to Adjudicating Authority) Rules 2019 ("IBC Rules, 2019")

The Code, which regulates the insolvency resolution process for "corporate persons" previously excluded financial service providers from its purview. With the notification of the IBC Rules, 2019, the provisions of the Code will apply to financial service providers as well, which are subject to modifications and additional conditions as set out in the IBC Rules, 2019. Financial service providers are defined to mean persons engaged in the business

of providing financial services in terms of authorisation issued or registration granted by a financial sector regulator under the Code. "Financial services" is broadly defined in the Code, and includes, inter alia, services in the nature of acceptance of deposits, administration of assets, underwriting services, advisory services with respect to dealings in financial products, operation of an investment scheme, and maintenance of records of ownership of a financial product. The IBC Rules, 2019, lays down the provisions for setting up an advisory committee, resolution plan and the liquidation process of Financial service providers.

Shops and Establishments legislations in various states

The provisions of various Shops and Establishments legislations, as applicable, regulate the conditions of work and employment in shops and commercial establishments and generally prescribe obligations in respect of inter-alia registration, opening and closing hours, daily and weekly working hours, holidays, leave, health, termination of services and safety measures and wages for overtime work.

Labour Laws

India has stringent labour related legislations. We are required to comply with certain labour laws, which include the Employees' Provident Funds and Miscellaneous Provisions Act 1952, the Code of Wages, 2019, Employees' Compensation Act, 1923 and the Payment of Gratuity Act, 1972 amongst others.

Intellectual Property

Intellectual Property in India enjoys protection under both common law and statute. Under statute, India provides for patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 and trademark protection under the Trade Marks Act, 1999. The above enactments provide for protection of intellectual property by imposing civil and criminal liability for infringement.

	and not exceeding in the aggregate forty five days in each year as it may seem expedient to the Board.	
45.	The instrument of transfer shall after registration be retained by the Company and shall remain in its custody. All instruments of transfer which the Directors may decline to register shall on demand be returned to the persons depositing the same. The Directors may cause to be destroyed all the transfer deeds with the Company after such period as they may determine	**Custody of transfer Deeds**
46.	Where an application of transfer relates to partly paid shares, the transfer shall not be registered unless the Company gives notice of the application to the transferee and the transferee makes no objection to the transfer within two weeks from the receipt of the notice.	**Application for transfer of partly paid shares**
47.	The provisions of these Articles relating to transfer of shares shall *mutatis mutandis* apply to any other securities including debentures of the Company.	**Provisions as to transfer of shares to apply *mutatis mutandis* to debentures, etc.**
	NOMINATION AND TRANSMISSION OF SHARES	
48.	(i) Notwithstanding anything contained in the articles, every holder of securities of the Company may, at any time, nominate a person in whom his/her securities shall vest in the event of his/her death and the provisions of Section 72 of the Companies Act, 2013 shall apply in respect of such nomination. (ii) No person shall be recognized by the Company as a nominee unless an intimation of the appointment of the said person as nominee has been given to the Company during the lifetime of the holder(s) of the securities of the Company in the manner specified under Section 72 of the Companies Act, 2013 read with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014. (iii) The Company shall not be in any way responsible for transferring the securities consequent upon such nomination. (iv) If the holder(s) of the securities survive(s) the nominee, then the nomination made by the holder(s) shall be of no effect and shall automatically stand revoked.	**Nomination**
49.	(1) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognized by the Company as having any title to his interest in the shares.	
	(2) Nothing in clause (1) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.	
50.	(1) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either – a) to be registered himself as holder of the share; or b) to make such transfer of the share as the deceased or insolvent member could have made.	**Transmission Clause**
	(2) The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.	**Board's right unaffected**
	(3) The Company shall be fully indemnified by such person from all liability, if any, by actions taken by the Board to give effect to such registration or transfer.	**Indemnity to the Company**
51.	(1) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.	**Right to election of holder of share**
	(2) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.	**Manner of testifying election**
	(3) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.	**Limitations applicable to notice**

Sr. No.	Particulars	Marginal Notes
52.	A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company: Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.	**Claimant to be entitled to same advantage**
53.	Notwithstanding anything contained in Article 41, in the case of any share registered in any register maintained outside India the instrument of transfer shall be in a form recognized by the law of the place where the register is maintained but subject thereto shall be as near to the form prescribed under sub- section 1 of section 56 of the Act or any modification thereof as circumstances permit.	**Form of transfer Outside India**
54.	The provisions of these Articles relating to transmission by operation of law shall *mutatis mutandis* apply to any other securities including debentures of the Company.	**Provisions as to transmission to apply *mutatis mutandis* to debentures, etc.**
55.	If a member fails to pay any call, or instalment of a call or any money due in respect of any share, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or instalment remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on him requiring payment of so much of the call or instalment or other money as is unpaid, together with any interest which may have accrued and all expenses that may have been incurred by the Company by reason of non-payment.	**If call or instalment not paid notice must be given**
56.	The notice aforesaid shall: a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and b) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.	**Form of Notice**
57.	If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.	**In default of payment of shares to be forfeited**
58.	Neither the receipt by the Company for a portion of any money which may from time to time be due from any member in respect of his shares, nor any indulgence that may be granted by the Company in respect of payment of any such money, shall preclude the Company from thereafter proceeding to enforce a forfeiture in respect of such shares as herein provided. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited shares and not actually paid before the forfeiture.	**Receipt of part amount or grant of indulgence not to affect forfeiture**
59.	When any share shall have been so forfeited, notice of the forfeiture shall be given to the defaulting member and an entry of the forfeiture with the date thereof, shall forthwith be made in the register of members but no forfeiture shall be invalidated by any omission or neglect or any failure to give such notice or make such entry as aforesaid.	**Entry of forfeiture in register of members**
60.	The forfeiture of a share shall involve extinction at the time of forfeiture, of all interest in and all claims and demands against the Company, in respect of the share and all other rights incidental to the share.	**Effect of forfeiture**
61.	(1) A forfeited share shall be deemed to be the property of the Company and may be sold or re-allotted or otherwise disposed of either to the person who was before such forfeiture the holder thereof or entitled thereto or to any other person on such terms and in such manner as the Board thinks fit.	**Forfeited shares may be sold, etc.**
	(2) At any time before a sale, re-allotment, or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.	**Cancellation of forfeiture**
62.	(1) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay, and shall pay, to the Company all monies which, at the	**Members still liable to pay money owing at the time of forfeiture**

	(2) All such monies payable shall be paid together with interest thereon at such rate as the Board may determine, from the time of forfeiture until payment. The Board may, if it thinks fit, but without being under any obligation to do so, enforce the payment of the whole or any portion of the monies due, without any allowance for the value of the shares at the time of forfeiture or waive payment in whole or in part.	**Member still liable to pay money owing at time of forfeiture and interest**
63.	(1) A duly verified declaration in writing that the declarant is a director, the manager or the Company Secretary of the Company, and that a share in the Company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;	**Certificate of forfeiture**
	(2) The Company may receive the consideration, if any, given for the share on any sale, re-allotment or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;	**Title of purchaser and transferee of forfeited shares**
	(3) The transferee shall thereupon be registered as the holder of the share; and	**Transferee to be registered as holder**
	(4) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or disposal of the share.	**Transferee not affected**
64.	Upon any sale after forfeiture or for enforcing a lien in exercise of the powers hereinabove given, the Board may, if necessary, appoint some person to execute an instrument for transfer of the shares sold and cause the purchaser's name to be entered in the register of members in respect of the shares sold and after his name has been entered in the register of members in respect of such shares the validity of the sale shall not be impeached by any person.	**Validity of sales**
65.	Upon any sale, re-allotment or other disposal under the provisions of the preceding Articles, the certificate(s), if any, originally issued in respect of the relative shares shall (unless the same has on demand by the Company been previously surrendered to it by the defaulting member) stand cancelled and become null and void and be of no effect, and the Board shall be entitled to issue a duplicate certificate(s) in respect of the said shares to the person(s) entitled thereto.	**Cancellation of share certificate in respect of forfeited shares**
66.	The Board may, subject to the provisions of the Act, accept a surrender of any share from or by any member desirous of surrendering them on such terms as they think fit.	**Surrender of share certificates**
67.	The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.	**Sums deemed to be calls**
68.	The provisions of these Articles relating to forfeiture of shares shall *mutatis mutandis* apply to any other securities including debentures of the Company.	**Provisions as to forfeiture of shares to apply *mutatis mutandis* to debentures, etc.**
	ALTERATION OF CAPITAL	
69.	Subject to the provision of the Act, the Company may, by ordinary resolution – (a) increase the share capital by such sum, to be divided into shares of such amount as it thinks expedient; (b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares: (c) Provided that any consolidation and division which results in changes in the voting percentage of members shall require applicable approvals under the Act; (d) convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination; (e) sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum;	**Power to alter share capital**

	(f) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.	
70.	Where shares are converted into stock: (a) the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same Articles under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit: Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose;	**Shares may be converted into stock**
	(b) the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the Company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the Company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage;	**Right of stockholders**
	(c) such of these Articles of the Company as are applicable to paid-up shares shall apply to stock and the words "share" and "shareholder"/ "member" shall include "stock" and "stockholder" respectively.	
71.	The Company may, by resolution as prescribed by the Act, reduce in any manner and in accordance with the provisions of the Act and the Rules: (a) its share capital; and/or (b) any capital redemption reserve account; and/or (c) any securities premium account; and/or (d) any other reserve in the nature of share capital	**Reduction of capital**
	JOINT-HOLDERS	
72.	Where two or more persons are registered as joint holders (not more than three) of any share, they shall be deemed (so far as the Company is concerned) to hold the same as joint holders with benefits of survivorship, subject to the following and other provisions contained in these Articles:	**Joint-holders**
	(a) The joint-holders of any share shall be liable severally as well as jointly for and in respect of all calls or instalments and other payments which ought to be made in respect of such share.	**Liability of Joint holders**
	(b) On the death of any one or more of such joint-holders, the survivor or survivors shall be the only person or persons recognized by the Company as having any title to the share, but the Directors may require such evidence of death as they may deem fit, and nothing herein contained shall be taken to release the estate of a deceased joint-holder from any liability on shares held by him jointly with any other person.	**Death of one or more joint-holders**
	(c) Any one of such joint holders may give effectual receipts of any dividends, interests, or other moneys payable in respect of such share.	**Receipt of one sufficient**
	(d) Only the person whose name stands first in the register of members as one of the joint-holders of any share shall be entitled to the delivery of certificate, if any, relating to such share or to receive notice (which term shall be deemed to include all relevant documents) and any notice served on or sent to such person shall be deemed service on all the joint-holders.	**Delivery of certificate and giving of notice to first named holder**
	(e) Several executors or administrators of a deceased member in whose (deceased member) sole name any share stands, shall for the purpose of this clause be deemed joint holders.	**Executors or administrators as joint holders**
	(f) The provisions of these Articles relating to joint holders of shares shall *mutatis mutandis* apply to any other securities including debentures of the Company registered in joint names.	**Provisions as to joint holders as to shares to apply *mutatis mutandis* to debentures, etc**
	CAPITALISATION OF PROFITS	

Sr. No.	Particulars	Marginal Notes
73.	(1) The Company, in general meeting may, upon the recommendation of the Board, resolve – (a) that it is desirable to capitalize any part of the amount for the time being standing to the credit of any of the Company's reserve accounts, securities premium account or to the credit of the profit and loss account, or otherwise available for distribution; and (b) that such sum be accordingly set free for distribution in the manner specified in clause (2)	**Capitalisation**
	(2) The sum aforesaid shall not be paid in cash but shall be applied, either in or towards: (a) paying up any amounts for the time being unpaid on any shares held by such members respectively; (b) paying up in full, unissued shares or other securities of the Company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportion as may be determined by the law in accordance with the law; (c) partly in the way specified in sub-clause (a) and partly in that specified in sub-clause (b). (d) A securities premium account and a capital redemption reserve account or any other permissible reserve account may, for the purposes of this Article, be applied in the paying up of unissued shares to be issued to members of the Company as fully paid bonus shares; (e) The Board shall give effect to the resolution passed by the Company in pursuance of this Article.	**Sum how applied**
74.	(1) Whenever such a resolution as aforesaid shall have been passed, the Board shall – (a) make all appropriations and applications of the amounts resolved to be authorized thereby, and all allotments and issues of fully paid shares or other securities, if any; and (b) generally, do all acts and things required to give effect thereto.	**Powers of the Board for capitalisation**
	(2) The Board shall have power – (a) to make such provisions, by the issue of fractional certificates/coupons or by payment in cash or otherwise as it thinks fit, for the case of shares or other securities becoming distributable in fractions; and (b) to authorize any person to enter, on behalf of all the members entitled thereto, into an agreement with the Company providing for the allotment to them respectively, credited as fully paid-up, of any further shares or other securities to which they may be entitled upon such authorized on, or as the case may require, for the payment by the Company on their behalf, by the application thereto of their respective proportions of profits resolved to be authorized, of the amount or any part of the amounts remaining unpaid on their existing shares. Any agreement made under such authority shall be effective and binding on such members.	**Board's power to issue fractional certificate/coupon etc.**
BORROWING POWERS		

Sr. No.	Particulars	Marginal Notes
75.	Subject to the provisions of Sections 73, 179 and 180, and other applicable provisions of the Act, Applicable Law and these Articles, the Board may, from time to time, at its discretion by resolution passed at the meeting of a Board: (i) accept or renew deposits from Shareholders; (ii) borrow money by way of issuance of Debentures; (iii) borrow money otherwise than on Debentures; (iv) generally, raise or borrow or secure the payment of any sum or sums of money for the purposes of the Company. Provided, however, that where the money to be borrowed together with the money already borrowed (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) exceed the aggregate of the Paid-up capital of the Company and its free reserves (not being reserves set apart for any specific purpose), the Board shall not borrow such money without the consent of the Company by way of a Special Resolution in a General Meeting.	**Power to borrow**
	Provided further that the Board may delegate the power specified in sub clause (iii) herein above (i.e. to borrow money otherwise than on debentures) to a committee constituted for the purpose.	**Delegation of power to borrow**
76.	Subject to the provisions of the Act and these Articles, any bonds, debentures, debenture-stock or any other securities may be issued at a discount, premium or otherwise and with any special privileges and conditions as to redemption, surrender, allotment of shares, appointment of Directors or otherwise; provided that debentures with the right to allotment of or conversion into shares shall not be issued except with the sanction of the Members by Special Resolution in the General Meeting.	**Issue of discount etc. or with special privileges**
77.	The payment and/or repayment of moneys borrowed or raised as aforesaid or any moneys owing otherwise or debts due from the Company may be secured in such manner and upon such terms and conditions in all respects as the Board may think fit, and in particular by mortgage, charter, lien or any other security upon all or any of the assets or property (both present and future) or the undertaking of the Company including its uncalled capital for the time being, or by a guarantee by any Director, Government or third party, and the bonds, debentures and debenture stocks and other securities may be made assignable, free from equities between the Company and the person to whom the same may be issued and also by a similar mortgage, charge or lien to secure and guarantee, the performance by the Company or any other person or Company of any obligation undertaken by the Company or any person or Company as the case may be.	**Security payment or repayment of Moneys**
78.	Any bonds, debentures, debenture-stock or their securities issued or to be issued by the Company shall be under the control of the Board who may issue them upon such terms and conditions, and in such manner and for such consideration as they shall consider to be for the benefit of the Company.	**Bonds, Debentures etc. to be under the control of the Directors.**
79.	If any uncalled capital of the Company is included in or charged by any mortgage or other security the Directors shall subject to the provisions of the Act and these Articles, make calls on the members in respect of such uncalled capital in trust for the person in whose favour such mortgage or security is executed.	**Mortgage of uncalled Capital**
80.	Subject to the provisions of the Act and these Articles if the Directors or any of them or any other person shall incur or be about to incur any liability whether as principal or surety for the payment of any sum primarily due from the Company, the Directors may execute or cause to be executed any mortgage, charge or security over or affecting the whole or any part of the assets of the Company by way of indemnity to secure the Directors or person so becoming liable as aforesaid from any loss in respect of such liability.	**Buy-back of shares**
	BUY-BACK OF SHARES	
81.	Notwithstanding anything contained in these Articles but subject to all applicable provisions of the Act or any Applicable Law for the time being in force, the Company may purchase its own shares or other specified securities.	**Buy-back of shares**
	GENERAL MEETINGS	
82.	All General Meetings other than Annual General Meeting shall be called Extraordinary General Meeting.	**Extraordinary general meeting**

Sr. No.	Particulars	Marginal Notes
	(ii) If at any time directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the Company may call an extraordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.	
	PROCEEDINGS AT GENERAL MEETINGS	
84.	(1) No business shall be transacted at any general meeting unless a quorum of members is present while transacting business.	**Liability of Members**
	(2) No business shall be discussed or transacted at any general meeting except election of Chairperson whilst the chair is vacant.	**Business confined to election of Chairperson whilst chair vacant**
	(3) The quorum for a general meeting shall be as provided in section 103 of the Act.	**Chairperson whilst chair vacant** **Quorum for general meeting**
85.	The Chairperson of the Company shall preside as Chairperson at every general meeting of the Company.	**Directors to elect a Chairperson**
86.	If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as chairperson of the meeting, the directors present shall elect one among themselves to be Chairperson of the meeting.	**Directors to elect a Chairperson**
87.	If at any meeting no director is willing to act as Chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall, by show of hands, by poll or electronically, choose one of their members to be Chairperson of the meeting.	**Members to elect a Chairperson**
88.	On any business at any general meeting, in case of an equality of votes, whether on a show of hands or electronically or on a poll, the Chairperson shall have a second or casting vote.	**Casting vote of Chairperson at general meeting**
89.	(1) The Company shall cause minutes of the proceedings of every general meeting of any class of members or creditors to be prepared and signed in such manner as prescribed by the Rules and kept by making within thirty days of the conclusion of every such meeting concerned thereof in books kept for that purpose with their pages consecutively numbered.	**Minutes of proceedings of meetings and resolutions passed by postal ballot**
	(2) There shall not be included in the minutes any matter which, in the opinion of the Chairperson of the meeting – (a) is, or could reasonably be regarded, as defamatory of any person; or (b) is irrelevant or immaterial to the proceedings; or (c) is detrimental to the interests of the Company.	**Certain matters not to be included in Minutes**
	(3) The Chairperson shall exercise an absolute discretion in regard to the inclusion or non-inclusion of any matter in the minutes on the grounds specified in the aforesaid clause.	**Discretion of Chairperson in relation to Minutes**
	(4) The minutes of the meeting kept in accordance with the provisions of the Act shall be evidence of the proceedings recorded therein.	**Minutes to be evidence**
90.	(1) The books containing the minutes of the proceedings of any general meeting of the Company, or a resolution passed by postal ballot shall: (a) be kept at the registered office of the Company; and (b) be open to inspection of any member without charge, during 11.00 a.m. to 1.00 p.m. on all business days. Provided such member gives at least 7 days' notice in writing of his intention to do so.	**Inspection of minute books of general meeting**

Sr. No.	Particulars	Marginal Notes
	(2) Any member shall be entitled to be furnished, within the time prescribed by the Act, after he has made a request in writing in that behalf to the Company and on payment of a maximum fee as prescribed in the Act for each page or part thereof, with a copy of any minutes referred to in clause (1) above: Provided that a member who has made a request for provision of a soft copy of the minutes of any previous general meeting held during the period immediately preceding three financial years, shall be entitled to be furnished with the same free of cost. The Board, and also any person(s) authorized by it, may take any action before the commencement of any general meeting, or any meeting of a class of members in the Company, which they may think fit to ensure the security of the meeting, the safety of people attending the meeting, and the future orderly conduct of the meeting. Any decision made in good faith under this Article shall be final, and rights to attend and participate in the meeting concerned shall be subject to such decision.	**Members may obtain copy of minutes**
91.	The Board, and also any person(s) authorized by it, may take any action before the commencement of any general meeting, or any meeting of a class of members in the Company, which they may think fit to ensure the security of the meeting, the safety of people attending the meeting, and the future orderly conduct of the meeting. Any decision made in good faith under this Article shall be final, and rights to attend and participate in the meeting concerned shall be subject to such decision.	**Powers to arrange security at meetings**
	Notwithstanding anything contained in these Articles, the Company may, and in case of resolutions relating to such business as notified under Rule (22)(16) of the Companies (Management and Administration) Rules, 2014 or Applicable Laws to be passed by postal ballot, shall get the resolution passed by means of a postal ballot, instead of transacting the business in the general meeting of the Company. (2) Where the Company decides to pass the resolution by postal ballot, it shall follow the procedures as prescribed under Section 110 of the Act read with Companies (Management and Administration) Rules, 2014, as amended from time to time.	
	ADJOURNMENT OF MEETING	
92.	(1) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.	**Chairperson may adjourn the meeting**
	(2) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.	**Business at adjourned meeting**
	(3) When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.	**Notice of adjourned meeting**
	(4) Save as aforesaid, and save as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.	**Notice of adjourned meeting not required**
	VOTING RIGHTS	
93.	Subject to any rights or restrictions for the time being attached to any class or classes of shares – a) on a show of hands, every member present in person shall have one vote; and b) on a poll, the voting rights of members shall be in proportion to his share in the paid-up equity share capital of the Company.	**Entitlement to vote on show of hands and on poll**

*Details in annexure
^Yet to be issued

In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security.

The manner of India Ratings factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in India where the rated security is offered and sold, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents

and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. Individuals identified in an India Ratings report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security or any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. Investors may find India Ratings ratings to be important information, and India Ratings notes that you are responsible for communicating the contents of this letter, and any changes with respect to the rating, to investors.

It will be important that you promptly provide us with all information that may be material to the ratings so that our ratings continue to be appropriate. Ratings may be raised, lowered, withdrawn, or placed on Rating Watch due to changes in, additions to, accuracy of or the inadequacy of information or for any other reason India Ratings deems sufficient.

Nothing in this letter is intended to or should be construed as creating a fiduciary relationship between India Ratings and you or between India Ratings and any user of the ratings.

In this letter, “India Ratings” means India Ratings & Research Pvt. Ltd. and any successor in interest.

We are pleased to have had the opportunity to be of service to you. If we can be of further assistance, please email us at infogrp@indiaratings.co.in

Sincerely,

India Ratings

Analytical Approach

Ind-Ra continues to take a standalone view of KFL to arrive at the ratings.

Detailed Rationale of the Rating Action

The ratings reflect KFL's expansion of franchisee with its assets under management (AUM) crossing INR50,000 million in FY24 and increased presence in the southern geographies. The ratings are also supported by KFL's operating track record of more than 20 years with the company's ability to maintain stable asset quality during multiple business cycles over the pandemic and demonetisation.

List of Key Rating Drivers

Strengths

- Maintained growth runway and deepening presence in southern geographies
- Stable asset quality
- Funding mix on path of diversification

Weaknesses

- Scope for improvement in profitability with increased in operational efficiency

Geographically concentrated portfolio

Detailed Description of Key Rating Drivers

Maintained Growth Runway and Deepening Presence in Southern Geographies: KFL has successfully established its presence over three decades in the gold finance business and has managed multiple cycles in this business, during which there were considerable fluctuations in gold loan prices. KFL has been expanding its franchisee in the core gold finance business while deepening its presence in south geographies (around 97% of the AUM at end-September 2024) and expanding in non-southern states (around 3% of AUM). Its gross AUM grew 9% yoy to INR52,565 million at end-September 2024 (FYE23: up 20.9%; FYE22: 15.2%; FYE21:17%), with the AUM per branch for gold loans remaining stable at INR53 million (INR49 million). The lower AUM growth was account of slower disbursements in 2QFY24 and 3QFY24, as the company focused on managing liquidity. The tier 1 capital ratio is comfortable (1HFY25 : 17%, FY24 : 16%, FY23: 14.5%; FY22: 14.5%, FY21: 13.6%) after a rights issue of INR500 in

FY24. KFL's network consisted of 977 branches at end-September 2024 (FY23: 986; FYE22: 988; FYE21: 945). The company plans to add branches in FY25 in the southern states and in selective, profitable non-south geographies.

Stable Asset Quality: The gross non-performing assets (NPA) in gold loans declined to 1.4% in 2QFY25 from 1.65% in 1QFY25 (FY24 : 1%, FY23: 0.42%; FY22: 0.66%; FY21: 0.47%; FY20: 0.47%), as the company was able to auction its gold. It had displayed considerable resilience during COVID-19 disruptions and reported modest gross NPA of 0.66% which was the highest in the history of the company. Although the borrower class is vulnerable, the ultimate credit loss is limited due to the capping of the loan-to-value (LTV) at 75%, as per regulatory requirements, at the time of disbursements and the liquid nature of the collateral. Being in the gold loan business, KFL's credit cost has always been modest and less volatile through the loan cycle, leading to better operating profit buffers. KFL maintains a risk filter, wherein a resolution is initiated if the principal-plus-interest reaches 90% of the collateral value, leading to a notice to the borrower. In case of a delay in repayment, it conducts auctions. The company auctioned gold worth INR418 million from April to September 2024. KFL did not post any losses in auctions and was able to recover the entire outstanding principal and interest amount. The agency believes maintaining of adequate LTV buffers and timely auctions and recoveries will be critical for KFL to sustain its stable asset quality.

Funding Mix on Path of Diversification: KFL's banking relationships have improved since FY21, with the total number of banks and financial Institutions providing funding to the company rising to 36 as of September 2024 (FY21: 12). The company has been able to raise funds from a mix of public and private sector banks. However, the funds mobilised through the non-convertible debentures (NCDs) and subordinated debt route still formed a major portion of the funding mix at 53% at end-June 2024 (FY24 : 55%, FYE23: 58%; FYE22: 66%), followed by bank funding through working capital (end-September : 26%, March 2024: 20%; FY23:18%; FY22: 19%) and term loans (28%; 20%; 27%). A sustained and substantial increase in the exposure taken towards banks over the medium term will be a key rating monitorable.

Scope for Improvement in Profitability with Increased Operational Efficiency: KFL's return on assets reduced slightly to 1.93% in 1HFY25 (FY24 : 2%, FY23: 2.14%; FY22: 1.87%; FY21: 1.8%), because of the denominator effect. The net interest margin reduced to 6.5% (as per Ind-Ra's calculations) in 1QFY25 (FY24: 6.7%, FY23: 7.8%; FY22: 6.7%; FY21: 6.9%), as loans were disbursed by the company at lower interest rates to counter competition. The cost of funds remained stable at 10.28% in 1HFY25 (FY24 : 10.64%, FY23: 10.23%; FY22: 10.06%; FY21: 9.98%). KFL increased its proportion of bank funding (FY24: 50% of the total debt; FY23: 42%; FY22: 34%) which comes at a slightly higher cost of funding than NCDs and subordinated debt. Also, the operating expense to average total assets remained stable at 3% in 1HFY25 (FY24 : 3.2%, FY23: 3.4%; FY22: 3.5%). The agency believes the trajectory of its profitability will depend on the company's improved productivity and its ability to maintain margins and manage credit costs over the medium term.

Geographically Concentrated Portfolio: KFL's portfolio is concentrated in southern India, with Tamil Nadu constituting around 58% of the gold loan portfolio at end-September 2024 (FY24 : 58%, FY23: 54%; FY22: 56%; FY21: 53%; FY20: 52%). Tamil Nadu, Kerala, Karnataka, Andhra Pradesh and Telangana accounted for around 99% of the gold loan portfolio at end-September 2024. As per the company's strategy, the portfolio is likely to remain concentrated in south India over the medium term. Also, on the funding side, the funds mobilised through the NCD route remained geographically concentrated, as a major portion is being raised from Kerala.

Liquidity

Adequate: As per KFL's end-September 2024 asset-liability statement, the company had a matched asset-liability profile with a cumulative surplus in all time buckets up-to-one-year. The average asset tenor was nine-to-12 months and the average liability tenor was around 36 months at end-June 2024. This, along with the highly liquid nature of gold, helps KFL maintain a matched liquidity profile.

Rating Sensitivities

Positive: Continued profitable growth in the franchisee while maintaining adequate capital buffers, a diversification of funding avenues with a higher share of bank funding, geographical diversification, and a further improvement in its operational efficiencies could lead to a positive rating action.

Negative: Any sharp rise in delinquency, which could restrict capital and funding, adverse regulatory development that could impair the ability of the company to conduct its business and the tier 1 ratio reducing below 13%, on a sustained basis, could lead to a negative rating action.

ESG Issues

ESG Factors Minimally Relevant to Rating: Unless otherwise disclosed in this section, the ESG issues are credit neutral or have only a minimal credit impact on KFL, due to either their nature or the way in which they are being managed by the entity.
